BIDS WANTED

SEATTLE, Kings Co., Wash.—Until Nov. 29 bids will be received by the State of Washington Toll Bridge Authority, Highway Building, Olympia, for construction of the Lake Washington Bridge, PWA Project 1180F.

Bridge will be a reinforced concrete pontoon bridge over Lake Washington between the City of Seattle and the northerly end of Mercer Island together with approaches on westerly end to and in City of Seattle to connection with existing city streets including approach tunnels and necessary grade separation structures and side road connection and approach on easterly end to and over Mercer Island across the easterly arm of Lake Washington and to a connection with existing secondary State Highway 2-A, including necessary grade separation structures and side road connections, a distance of about 6.65 miles in the City of Seattle, King Co.

Construction provided for in 11 units, as follows:

UNIT 1: Clearing, grading, draining, paving with Portland cement concrete, construction reinforced concrete bridges and complete lighting system on about 0.66 miles of city streets in City of Seattle, involving about 143,600 c.y. excavation, 29,800 sq. yd. cement concrete pavement, 642 tons steel reinf. bars, 4984 cu. yd. concrete, etc., \$400,000 available.

UNIT 2: Tunnels, clearing, grading, draining, paving with Portland cement concrete, constructing lighting system on about 0.48 miles of city streets involving about 111,300 cu. yd. tunnel excavation, 47,900 cu. yd. excavation, 25,850 cu. yd. concrete, 823 tons steel reinforcing bars, 3800 sq. yd. cement concrete pavement, etc. \$1,100,000 available.

UNIT 3: Reinforced concrete and structural steel bridge over city sts. and portions of Lake Washington, about 0.20 miles and effecting connections on westerly end of pontoon bridge provided for Unit 4, involving about 1156 tons of structural steel, 466 tons of steel reinforcing bars, 1858 cu. yd. concrete, etc. \$400,000 available.

UNIT 4: Reinforced concrete pontoon bridge over Lake Washington for about 1.25 miles together with lighting system with mechanical and electrical system for operation of

movable span involving about 46,774 cu. yd. concrete, 8048 tons steel reinf. bars, 1367 tons structural steel, etc. \$2,500,000 available.

UNIT 5: Reinforced concrete and structural steel bridge over portion of Lake Washington and on Mercer Island, about 0.18 miles effecting connection on easterly end of pontoon bridge to Mercer Island, involving about 991 tons of structural steel, 543 tons steel reinf. bars, 1853 cu. yd. concrete, etc. \$400,000 available.

UNIT 6: Clearing, grading, draining, paving with Portland cement concrete portion of approach highway on west side of Mercer Island, about 1.28 miles involving about 416,960 cu. yd. excavation, 68,000 sq. yd. cement concrete pavement, etc. \$400,000 available.

UNIT 7: Reinforced conc. grade separation structure on approach highway on Mercer Island, together with toll houses and administration building and lighting system in vicinity of toll plaza, involving about 5836 cu. yd. concrete, 740 tons steel reinforcing bars, etc. \$270,000 available.

UNIT 8: Clearing, grading, draining, and paving with Portland cement concrete portion of approach highway on east side of Mercer Island for about 1.46 miles, involving about 326,000 cu. yd. excavation, 47,600 sq. yd. cement concrete pavement and other items. \$370,000 available.

UNIT 9: Structural steel and reinforced concrete bridge over easterly arm of Lake Washington from Mercer Island to easterly side of Lake for about 0.26 miles and involving about 1693 tons of structural steel, 460 tons steel reinforcing bars, 6630 cu. yd. concrete, etc. \$500,000 available.

UNIT 10: Clearing, grading, draining and paving with Portland cement concrete a portion of approach highway on east side of Lake Washington for about 0.40 miles involving about 108,200 cu. yd. excavation, 2800 sq. yd. cement concrete pavement, etc. \$160,000 available.

UNIT 11: Reinforced concrete viaduct on approach highway over Mercer Slough to connection with Secondary State Highway 2-A, about 0.49 miles involving about 13,850 cu. yd. concrete, 1717 tons steel reinforcing bars, 300 tons of structural steel, etc. \$700,000 available.

Plans and specifications may be obtained from the State Highway Department, Lacey V. Murrow, Direction of Highways, upon the deposit of \$2.00. 21

BIDS REJECTED

GLENN COUNTY, Cal.—The Glenn County Board of Supervisors, W. R. Sale, County Clerk, Courthouse, Willows, rejected all bids for the construction of a bridge across Walker Creek in Road District No. 4, Glenn County. Work will be done by day labor. 21

Work involves:

SCHEDULE A

- (1) 885,000 c.y. levee embankment, in place;
- (2) 14,000 M. gal. water for compaction purposes;
- (3) 285 c.y. road gravel, in place;
- (4) 80 l.f. corr. iron pipe, 24-inch diameter, No. 10 gage, with necessary 24-inch diameter No. 10 gage band couplers, in place;
- (5) 1 each gate, 24-inch diameter, Calaco #101, or equal, with 4-ft. gate frame, in place;
- (6) 224 l.f. steel pipe, 12-inch diameter, No. 7 gage, soil proofed Calco Spiweld, or equal, in pl.
- (7) 326 l.f. concrete pipe, 12-inch diameter, in place;
- (8) 20 l.f. concrete pipe, 36-inch diameter, in place;

- (9) 15 each outlet gates for concrete irrigation line, 5-inch diameter opening, Snow Mfg. Co. No. 8/2B or equal, complete with riser and necessary connections in place. Station 109 plus 23 to 112 plus 30;
- (10) 1 each iron cut off place, 3-ft. by 4-ft. by 3/4-inch, in place;
- (11) 1 each brass cocks, 1-inch diameter, Crane No. 252, or equal, in place;
- (12) 1 each air valves, 1-inch diameter, Crispin, or equal, with necessary fitting in place;
- (13) 1 job, remove and waste 8-ft. of 12-inch diameter concrete stand pipe and approximately 25-ft. of 12-inch diameter concrete pipe line. Station 107 plus 15.
- (14) 1 job, remove and waste approximately 165 feet of 12-inch diameter, steel pipe; 18-ft. of 36-inch diameter concrete stand-pipe and approx. 45 feet of 18-inch diameter concrete pipe line. Remove, clean and reinstall on new structure existing 12-inch diameter valve, and 6 ft. high 36-inch diameter concrete valve box. Sta. 109 plus 23.
- (15) 1 job, remove and waste 12-inch diameter concrete pipe line and all appurtenances including 15 outlets. Reinstall one 12-inch diameter irrigation valve. Station 109 plus 23 to 112 plus 30.

SCHEDULE B

- (1) 368,000 c.y. levee embankment, in place;
- (2) 15,000 M. gal. water for compaction purposes;
- (3) 430 c.y. road gravel, in place;
- (4) 25 c.y. Class A concrete, in pl.;
- (5) 25 c.y. Class A concrete, in pl.;
- (6) 2150 lb. reinf. steel, in place;
- (7) 70 l.f. corr. iron pipe, 24-inch diameter, No. 10 gage, with necessary 24-inch diameter No. 10 gage band couplers, in place;
- (8) 320 l.f. steel pipe, 8-inch diameter No. 7 gage, soil proofed Calco Spiweld, or equal, in pl.;
- (9) 160 l.f. steel pipe, 10-inch diameter, No. 7 gage, soil proofed Calco Spiweld, or equal, in pl.;
- (10) 4 each lateral headgates, 30-inch diameter, Calco No. 105, or equal, in place;
- (11) 3 each iron cut off plates 3-ft. by 4-ft. by 3/4-inch, in place;
- (12) 3 each brass cocks, 1-inch diameter, Crane No. 252, or equal, in place;
- (13) 3 each air valves, 1-inch diameter, Crispin, or equal, with necessary fittings, in place;
- (14) 1 job remove and waste existing 12-inch diameter pipe, 8-in. diameter steel pipe and 30-inch diameter concrete pipe spillbox. Station 529 plus 28.
- (15) 1 job remove and waste existing concrete foundation. Station 533 plus 00.
- (16) 1 job remove and waste existing 7-inch diameter steel pipe, 24-inch diameter standpipe and two 30-inch diameter standpipes. Station 574 plus 20.

SCHEDULES A AND B COMBINED

- (1) 1,253,000 c.y. levee embankment, in place;
- (2) 29,000 M. gal. water for compaction purposes;
- (3) 715 c.y. road gravel, in place;
- (4) 25 c.y. Class "A" concrete in place;
- (5) 2150 lb. reinforcing steel, in pl.;
- (6) 70 l.f. corr. iron pipe, 24-inch diameter, No. 10 gage with necessary 24-inch diameter No. 10 gage band couplers, in place;
- (7) 1 each gate, 24-inch diameter, Calco No. 101, or equal, with

- 4-ft. gate frame, in place;
- (8) 320 l.f. steel pipe, 8-inch diameter, No. 7 gage, soil proofed Calco Spiweld, or equal, in pl.;
- (9) 160 l.f. steel pipe, 10-inch diameter, No. 7 gage, soil proofed Calco Spiweld or equal, in pl.;
- (10) 224 l.f. steel pipe, 12-inch diameter, No. 7 gage, soil proofed Calco Spiweld, or equal, in pl.;
- (11) 326 l.f. concrete pipe, 12-inch diameter, in place;
- (12) 20 l.f. concrete pipe, 36-inch diameter, in place;
- (13) 25 each outlet gates for concrete irrigation line, 5-inch diameter opening, Snow Mfg. Co. No. 8/2-B, or equal, complete with riser and necessary connections, in place. Sta. 109 plus 23 to 112-plus 30;
- (14) 4 each lateral headgates, 30-inch diameter, Calco No. 105, or equal, in place;
- (15) 4 each iron cut off plates, 3-ft. by 4-ft. by 3/4-inch, in place;
- (16) 4 each brass cocks, 1-inch diameter, Crane No. 252, or equal, in place;
- (17) 4 each air valves, 1-inch diameter, Crispin, or equal, with necessary fittings, in place;
- (18) 1 job remove and waste 8-ft. of 12-inch diameter concrete stand pipe and approx. 25-ft. of 12-inch diameter concrete pipe line. Station 107 plus 15;
- (19) 1 job remove and waste approx. 165 feet of 12-inch diameter steel pipe; 18 ft. of 36-inch diameter concrete standpipe and approx. 45 ft. of 18-inch diameter concrete pipe line. Remove, clean and reinstall on new structure existing 12-inch diameter valve, and 6-ft. high 36-inch diameter concrete valve box. Station 109 plus 23;
- (20) 1 job remove and waste 12-in. concrete pipe line and all appurtenances including 15 outlets. Reinstall one 12-inch diameter irrigation valve. Station 109 plus 23 to 112 plus 30;
- (21) 1 job remove and waste existing 12-inch diameter pipe and 30-inch diameter concrete pipe spillbox. Station 529 plus 28;
- (22) 1 job remove and waste existing concrete foundation. Station 533 plus 00;
- (23) 1 job remove and waste existing 7-inch diameter pipe, 24-in. diameter standpipe and two 30-inch diameter standpipes. Station 574 plus 20.

 - (2) 500 cu. yd. excavation, rock for laterals;
 - (3) 8,000 sta cu. yds. overhaul.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$1.00 per copy, not returnable. * 23

CONTRACT AWARDED

YAMHILL CO., Oregon.—Parker-Schram Co., Portland, at \$69,625 was awarded contract by the U. S. Engineer Office, District Engineer, 628 Pittcock Block, Portland, Oregon, under Bid No. 698-39-168, for (a) clearing, bank sloping, gravel excavation, gravel borrow, and the construction of approximately 900 feet of stone revetment on the left bank of Lambert Slough; (b) construction of approximately 450 feet stone revetment on the left bank of the Willamette River in the vicinity of Lambert Slough; placing of 12,200 tons stone in reinforcing and raising Wheatland Dam at the head of Lambert Slough; (c) clearing, gravel borrow, earth borrow, and construction of approximately 380 feet of stone revetment on the right bank of Lambert Slough and necessary appurtenant work, all located in the Yamhill County Dist. Improvement Co. No. 1, Yamhill County, Ore. * 23

CONTRACT AWARDED

BOISE PROJECT, Idaho.—David A. Richardson, Caldwell, Idaho, at \$18,544.50 awarded contract by the U. S. Bureau of Reclamation, Boise, Idaho, under Spec. No. 1123-D, for the construction of structures, D-Line canal laterals 18.7 to 24.3 Payette Division, Boise Project, Idaho. * 23

25—MACHINERY AND EQUIPMENT

BIDS WANTED

YAKIMA PROJECT, Wash.—Until Nov. 29, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 810, for furnishing and delivering two 110-ft. roller gates with load disks and auxiliary load rings of either welded or riveted construction for installation at the Roza diversion dam, Roza division, Yakima Project, Wash. F.O.B. shipping point and/or Crownover, Washington. Roller gates will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others \$2.50 not returnable. * 25

BIDS WANTED

COLORADO PROJECT, Colo.—Until Nov. 30, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 811, for furnishing and delivering two 102-inch ring-seal gates and two sets of conduit units for installation in the outlet works at the Green Mountain Dam, Colorado-Big Thompson Project, Colo. F.O.B. shipping point and/or Kremmling, Colo. Government and conduit units will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others \$2.50 not returnable. * 25

BIDS WANTED

DESCHUTES PROJECT, Oregon.—Until Dec. 1, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 812, for furnishing and delivering two 96-inch ring-roller gates and two sets of conduit units for installation in the outlet works at the Wickiup Dam, Deschutes Project, Oregon; f.o.b. shipping point and/or Lapine, Ore. Gates and conduit units will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders, to

others \$2.00 not returnable. * 25

BIDS OPENED

COLUMBIA BASIN PROJ., Wash.—Following submitted bids to the Bureau of Reclamation, Denver, Colo., under Spec. No. 1132-D, for furnishing and delivering radio telephone apparatus consisting of two transmitters, two receivers, one gasoline-engine-driven alternator, and miscellaneous equipment for use on the Columbia Basin Project, Wash.; fob shipping point and/or Leavenworth, Washington. Apparatus will be installed by the Government. Bids were:

Northern Radio Co., Seattle, \$1,466.50; wt. 760; 2%; fob Leavenworth.

Communication Equip. & Engr. Co. Chicago \$1840; wt. 1000; 1%; fob Chicago; and Kohler, Wis. Alt., \$1768; wt. 1000.

Spokane Radio Co., Inc., Spokane, Wash., \$1389; wt. 450; 2%; fob Spokane. Alt. \$1330 (without receivers). The Rauland Corp., Chicago, \$2800; wt. 830; ½%; fob Chicago. * 25

BIDS WANTED

LOS ANGELES, Cal.—Until Nov. 21, 2 P. M., bids will be received by the Office of Indian Affairs (Irrig.), Room 523, 8th and Figueroa Bldg., Los Angeles, for three 633-kva transformers, single phase, 60 cycles, 2-300 volts delta to 6900/11950 Y volts, complete with oil, and including tests and spare bushings; fob bidder's shipping point and/or Coolidge, Ariz. Invt. FO-4. * 25

BID OPENED

SOLANO COUNTY, Calif.—E. G. Gressot, Fairfield, at \$5.50 per hour submitted only bid to the State Division of Highways, R. E. Pierce, District Engineer, 1200 North Center equipped with Scy. LeTourneau Carryall and LeTourneau Ripper and Angledozer, for use in Solano County, Stockton, for the rental of one RD7 Caterpillar Diesel tractor to be ty. * 25

BIDS WANTED

COLORADO PROJECT.—Until November 25, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 1140-D, for furnishing and delivering (1) four 667-kva, single-phase, 60-cycle, 66,000 to 2,500/4,330 Y-volt, oil-immersed, self-cooled, outdoor - type transformers; one 7,500-volt, 3-phase, 60-cycle, 600-ampere, outdoor-type, circuit breaker; and 6 7,500-volt, 600-ampere, single-phase, hook-strip-operated, outdoor - type, disconnecting switches for the Green Mountain substation;

(2) three 100-kva, single-phase, 60-cycle, 44,000 to 2,400/4,160 Y-volt, oil-immersed, self-cooled, outdoor - type transformers; three 46,000-volt, 12-ampere, expulsion-type fuses; and one 50,000-volt, three-phase, station-type, lightning arrester for the Eates Park substation;

(3) three 500-kva, single-phase, 60-cycle, 44,000 to 2,400/4,160 Y-volt, oil immersed, self-cooled, outdoor - type transformers; one 46,000 volt, 600-ampere, 3-pole, manually gang-operated, horizontal mounting, air-break switch; three 46,000-volt, 40-ampere, expulsion-type fuses; three 3,000-volt, single - pole distribution-type lightning arresters; and one 50,000 - volt, three-phase, station - type lightning arrester for the East Portal substation;

(4) three 69,000-volt, 30-ampere, expulsion-type fuses; and three 3,000-volt, single-pole, distribution-type lightning arresters for the Granby Dam substation;

and three 69,000-volt, 25-ampere, expulsion fuses; three 3,000-volt single-pole, distribution-type, lightning ar-

resters for the West Portal substation.

(6) and three 46,000-volt circuit-reclosing, 3-tube, disconnecting-type fuses; one 46,000-volt outdoor, metering set; and one 50,000-volt, three-phase, station-type lightning arrester for the Loveland Tap substation, Colorado-Big Thompson proj., Colo.

FOB shipping point and/or railroad destination. Apparatus will be installed by the Government. Plans and specifications may be obtained from the above office; no charge to prospective bidders, to others, \$0.50, not returnable. * 25

BIDS OPENED

SAN MATEO AND SANTA CRUZ COUNTIES, Calif.—Following submitted bids to the Department of Public Works, Jno. H. Skeggs, District Engineer, District IV, Room 211, State Building, San Francisco, for the rental of one 4/10 cu. yd. truck shovel equipped with interchangeable clamshell bucket and shovel dipper for 500 hours use in San Mateo and Santa Cruz Counties, Calif.

Bids were:
C. E. Hulst, Merced, \$4.20.
Pacific Truck Service, \$4.74.
Rock & Gravel Trucking Co., Oakland, \$5.50.
Shovel and Truck Crane Service Inc., S. F., \$6.90. * 25

BIDS OPENED

SAN MATEO AND SANTA CRUZ COUNTIES, Calif.—Following submitted bids to the State Division of Highways, Jno. H. Skeggs, District Engineer, District IV, Room 211, State Building, San Francisco, for rental of one not less than 35 H. P. tractor and bulldozer for approximately 500 hours work in San Mateo and Santa Cruz Counties, Calif.

Bids were:
West Construction Co., S. F., \$3.45.
O. V. Freeman, Palo Alto, \$3.70.
M. J. Patrick, San Jose, \$3.87½.
J. C. Smith, San Mateo, \$3.97.
Humbrey Estates Inc., S. F., \$4.00.
J. O. Archibald, Redwood City, \$4.15.

D. C. Stowe, Stockton, \$4.28.
Larry Granzotto, Walnut Creek, \$4.50.

Devincenzi and Haskins, San Francisco, \$4.50.

A. L. Green, Oakland, \$4.65.
A. D. Robinson, Healdsburg, \$5.00.
I. C. Karstedt, Watsonville, \$5.00.
R. P. Easley, Antioch, \$5.25.
Healy-Tibbitts Constr. Co., San Francisco, \$5.50.

Wm. E. Stoltz, Tranquility, \$5.45.
W. E. Karstedt, San Jose, \$5.50.
G. F. Murray, Modesto, \$5.90.
Lloyd Rodoni, San Jose, \$5.90.
John Jurkovich, Fresno, \$6.00. * 25

BIDS OPENED

SAN FRANCISCO.—Following submitted bids to the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-39-134, for furnishing and installing (1) four ¼-h.p. motor driven blowers complete with starter, jets, frame and motor support and necessary bolts and fittings in the magazine, Battery Davis, Fort Funston; and (2) four similar units installed in the magazines, Battery Townsley, Fort Cronkhite, Marin County.

Bids were:
United Blower Co., (1) \$1850, (2) \$1890, 2½ to 10 days.

Star Delta Electrical Works, (1) \$1832, (2) \$1872, net.

Ace Sheet Metal Works, (1) \$1991-64, (2) \$2840, net.

Ideal Ventilating and Sheet Metal Works, (1) \$1940, (2) \$1990, net.

Jas. A. Nelson Inc., (1) \$2900, (2) \$2900, net (all or none).

Globe Electric Works, (1) \$2657.50, (2) \$2673.25, net.

W. B. Baker & Co., (1) \$1980, (2) \$2016, net.

H. S. Tittle Co., (1) \$3192, (2) \$3320, net. * 25

CONTRACT AWARDED

SAN FRANCISCO.—R. G. LeTourneau at \$135 per month, f.o.b. Stockton, submitted low bid and was awarded contract by the U. S. Forest Service Regional Office, P. C. Brown, Procurement Officer, 760 Market St., San Francisco, under Bid No. 1376, for rental of a trail-bluider attachment, cable operated type, complete with double drum hoists and power takeoff; f.o.b. bidder's shipping point and/or Redding.

Total bids were:
R. G. LeTourneau, \$135 per mo., f.o.b. Stockton; \$140, f.o.b. Redding, \$1340 optional purchase price.

Petersen Tractor and Equipment Co., \$250, f.o.b. Hayward; \$350, f.o.b. Redding. \$1850 optional purchase price. * 25

BIDS WANTED

29—STREETS AND HIGHWAYS

November 10, 1938

CORRECTION—BIDS WANTED

TULARE CO., Calif.—Until Dec. 1, 2:00 P. M., bids will be received by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Building, Civic Center, San Francisco, for 19.848 miles placing bituminous treated surfacing on Section B (portion) and placing a top course, paving shoulders and gutters and placing seal coat on Sections C1, C2, and D1, D2, and D4, of Sequoia Route 1, Generals Highways, Sequoia National Park, Tulare Co., Calif.

Work involves:
(1) 2,000 c.y. unclass. excav.;
(2) 450 c.y. unclass. excav. for structures;
(3) 4.109 miles fine grading subgrade and shoulders;
(4) 45,000 sq. yds. preparation of subgrade for shoulders and gutter paving;
(5) Force account selected borrow gutter backfill;
(6) 750 M. gals. watering;
(7) Lump sum water plant or plants for project;
(8) 18,300 tons crushed rock base course;
(9) 100 tons cutback asphalt (Type MC-1a) for prime coat;
(10) 16,500 tons Class F dense plant mixture (grading A);
(11) 810 tons cutback asphalt (Type MC-4 or 5) for plant mixture;
(12) 1960 tons cover aggregate;
(13) 270 tons 90-95 liquid asphalt for seal coat;
(14) 90 tons cutback asphalt (Type RC-1) for seal coat;
(15) 650 c.v. dry rubble masonry;
(16) 120 lf. 8-inch corr. galv. sheet metal pipe;
(17) 3 each 8-inch corr. galv. sheet metal pipe elbows;
(18) 676 lf. 8-inch perforated corr. sheet metal pipe underdrains;
(19) 150 sq. yds. mortar backfill seal;
(20) 700 sq. yds. grouted rubble gutter;
(21) Force account, one way traffic control and sanding asphalt material.

Plans and specifications may be obtained from the above office upon the deposit of \$10.00.

BIDS WANTED

PHOENIX, Maricopa County, Ariz.—Until Nov. 21, 7:30 P. M. bids will be received by the Phoenix City Commission, City Hall, for the improvement of portions of Wilshire Drive and Third, Virginia and Central Avenues in the City of Phoenix.

Plans and specifications may be obtained from James Girard, Superintendent of Streets, Phoenix, upon the deposit of \$5.00. * 29

BIDS WANTED

PHOENIX, Maricopa County, Ariz.—Until Nov. 21, 7:30 P. M. bids will be received by the Phoenix City Commission, City Hall, for the improvement of portions of Edgemont and Central Avenues in the City of Phoenix.

Plans and specifications may be obtained from James Girard, Superintendent of Streets, Phoenix, upon deposit of \$5.00. * 29

CONTRACT AWARDED

NAVAJO COUNTY, Ariz.—N. G. Hill, Phoenix, at \$237,813 awarded contract by the Arizona State Highway Commission, Phoenix, for highway construction on the Showlow-Holbrook Highway, FA 136-A (1) (1953) AEE 7704. The work, which is to begin near Showlow and to extend northerly about 9.8 miles, consists of grading and draining over a new alignment and is to be completed on or before July 31, 1939.

COMPLETE BIDS

TUCSON, Ariz.—White & Miller, Tucson, at \$131,740.47, submitted low bid to the Tucson city council for improving streets in Fourth Avenue and 22nd St. District Paving Improvement, Contract No. 2, in accordance in plans and specifications prepared by Geo. W. Seeley, City Engineer. This is a PWA project, grant \$92,481.

The total bids were:
White & Miller, Tucson, \$131,740.47.

Tanner Constr. Co., Phoenix, \$134,423.80.
Pearson & Dickerson, Prescott, Ariz., \$135,186.18. * 29

CONTRACT AWARDED

WHITE PINE CO., Nev.—Fredrickson and Westbrook, P. O. Box 138, Lower Lake, at \$79,203.77 submitted low bid and was awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Building, Carson City, Nevada, for approx. 0.85 miles construction of the State Highway in East Ely, Route 2, Section D3, including the construction of a concrete and steel overpass, White Pine County, Nevada.

Nevada Rock and Sand Co., Inc., Reno, at \$82,448.43 submitted second low bid.

Complete bids will be published shortly. * 29

CONTRACT AWARDED

WASHOE CO., Nevada—Nevada Rock and Sand Co., Inc., Reno, at \$3,102 submitted low bid and was awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Building, Carson City, for construction of grade crossing signals on the State Highway, at Washoe City crossing of the Virginia and Truckee Railway, Route 3, Section A2, Washoe County.

Bennett and Taylor, Los Angeles, at \$3,545 submitted second low bid.

Complete bids will be published shortly. * 29

BIDS WANTED

SAN FRANCISCO—Until Nov. 23, 2:30 P. M., bids will be received by the Department of Public Works, Rm. 251, City Hall, for the improvement of LaSalle Ave. bet. Mendell and 3rd St. Est. cost, \$9,200.

- Work involves:
- (1) 1100 c.y. grading (excavation);
 - (2) 500 c.y. grading (fill);
 - (3) 730 lf. unarmored conc. curb;
 - (4) 360 sq. ft. 2-course conc. sidewalk;
 - (5) 17,300 sq. ft. 6-in. Class E conc. pavement;
 - (6) 1,000 sq. ft. asphalt-conc. pavement, consisting of 6-in. Class E 5-sack concrete base and 2-in. asph. concrete wearing surface;
 - (7) 15 tons asphaltic concrete conform pavement;
 - (8) 1200 sq. ft. asphaltic concrete wearing surface removed;
 - (9) 200 sq. ft. 8-in. Class E 5-sack concrete parking lane;
 - (10) 600 sq. ft. existing conc. parking lane pavement removed;
 - (11) 3 brick manholes complete;
 - (12) 2 brick catchbasins, complete;
 - (13) 60 lf. 10-in. VCP culvert, in place;
 - (14) 42 lf. 12-inch VCP sewer, in place;
 - (15) 330 lf. 8-in do;
 - (16) 26 lf. 8x6-in. Y branches, in place;
 - (17) 676 lf. 6-in. VCP side sewer, in place;
 - (18) 26 water services;
 - (19) 345 lf. water main.
- Plans and specifications may be obtained from John J. Casey, City Engineer, Room 351, City Hall, upon deposit of \$10.00. * 29

BIDS OPENED

SISKIYOU CO., Calif.—Albert E. Mangs and Associates, 666 Mission St., San Francisco, at \$41,944.05 submitted low bid to the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Building, Civic Center, San Francisco, for replacement of existing structures on 0.306 miles at Louis, Butler and Merrill Creeks, Section A of Route 93, the Salmon River National Forest Highway, Klamath National Forest, Siskiyou County, Calif.

- Work involves:
- (1) 1 acre clearing;
 - (2) 1 acre grubbing;
 - (3) 8,000 cu. yds. unclass. excav.;
 - (4) 600 c.v. unclass. excavation for structures;
 - (5) 61 c.y. Class A concrete;
 - (6) 140 c.y. Class B concrete;
 - (7) 78 c.v. Class B concrete;
 - (8) 33,000 lbs. reinf. steel;
 - (9) 67,500 lbs. struc. steel;
 - (10) 455 c.y. loose rock retaining wall;
 - (11) 50 lf. 12-inch corr. galv. sheet metal pipe;
 - (12) 30 lf. 18-inch do.
 - (13) 60 lf. 12-inch corr. galv. multi-plate metal pipe (5 gage);
 - (14) 10 lf. 120-inch do (7 gage);
 - (15) 20 lf. 120-inch do (8 gage);
 - (16) 35 lf. 135-inch do (5 gage);
 - (17) 50 lf. 135-inch do (7 gage);
 - (18) 127 c.v. hand laid riprap.

Total bids follow:
(A) Albert E. Mangs & Associates, San Francisco, \$41,944.05.
(B) A. A. Tieslau, Berkeley, \$53,986.50.

BIDS WANTED

SACRAMENTO, Calif.—Until Nov. 18, 4:00 P. M. (opened 8:15 P. M.) bids will be received by the Sacramento City Council, H. G. Denton, City Clerk, City Hall, for the improvement of the alley between Second Avenue and Third Avenue from the easterly line of 30th St. to the westerly line of Alhambra Blvd., in the City of Sacramento.

Plans and specifications may be obtained from the above office. * 29

BIDS WANTED

LASSEN COUNTY, Cal.—Until November 22, 2 P. M., bids will be received by the State Division of Highways, F. W. Haselwood, District Engineer, District II, Redding, for about 0.6 mile grading and surfacing with gravel and applying penetration oil treatment between 3 miles south of Standish and Wendell (II-Las-Feeder Road), Lassen County.

Plans and specifications may be obtained from the above office. * 29

CONTRACT AWARDED

WASHOE COUNTY, Nev.—Nevada Rock and Sand Co., Inc., Reno, at \$3,103.00 submitted low bid and was awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for construction of grade crossing signals on the State Highway, at Washoe City crossing of the Virginia and Truckee Railway, Rte. 3, Section A2, Washoe Co. The work involves 123 flashing light signals.

Total bids follow:
Nevada Rock and Sand Co., Inc., Reno, \$3,103.00.
BeBennet and Taylor, L. A., \$3,545.
Duncan J. McDonald, Pontiac, Mich., \$3,614.00.
Western Railroad Supply Co., Chicago, Ill., \$3,815.00. * 29

BIDS WANTED

LOS ANGELES, Calif.—Until Nov. 25, 10:00 A. M., bids will be received by Colorado River Indian Irrigation Project, Room 340, Eighth and Figueroa Bldg., Los Angeles, for reconstruction and resurfacing with oiled road mix of approx. 2 miles of Metropolitan Water District highway 2 miles east of Earp, Calif. Inv. 497.

The proposed work consists of reconstruction and raising approx. 11,000 feet of highway necessary because of the installation of the diversion dam for the Colorado River project and involves relocation of 4700 feet of highway and raising of the grade of 6300 ft. The construction is in two different locations: the first 2 miles above Earp and involves relocation of 4700 ft. of highway and raising of 2200 ft. of roadway; the second part is located 13,000 ft. upstream from the first location and consists of raising the road surface approx. 4100 ft. of highway. Contractor will do all earthwork, including all fill, excavation of all classes of material and install all road surface; government will install necessary culverts including headwalls.

Work involves:

- (1) 16,000 c.y. common excav.
- (2) 14,000 c.y. temple bar excav.
- (3) 8,000 c.y. rock excav.
- (4) 52,700 sta. yds. overhaul
- (5) 85,000 c.y. borrow (common)
- (6) 2500 c.y. furnishing and placing gravel
- (7) 27,000 sq. yds. oiling and finishing.

Plans and specifications may be obtained from the above office without charge. 29

CONTRACT AWARDED

SAN BENITO CO., Calif.—Lee J. Imnell, 1031 Evelyn Street, Berkeley, at \$5,787.60 awarded contract by the Regional Director, Region No. 4, National Park Service, Sheldon Building, San Francisco, for asphalt wearing surface on approximately 1.73 miles entrance road, Pinnacles National Park, San Benito Co., Calif. 29

CONTRACTS AWARDED

STATE OF WASHINGTON.—L. V. Murrow, Director of Highways, Olympia, awarded contracts for highway construction as follows:

Yakima County: Clearing, grading, draining, surfacing, manufacturing mineral aggregate (oil rock) and constructing treated pipe and timber trestles on about 8.2 miles of Secondary State Highway No. 3-B, Toppenish Creek to End of Pavement, U. S. Public Works Project No. Wash. 1559-F (Unit 2), in Yakima County, Washington, involving about 172,845 cubic yards of excavation, 44,640 cubic yards of selected roadway borrow, 30,680 cubic yards of crushed stone surfacing, 4,000 cubic yards of mineral aggregates (oil rock), 145 cubic yards of concrete, 3,640 pounds of steel reinforcing bars, 97 M. B. M. of treated and 5 M. B. M. untreated timber and lumber, 3,000 linear feet of treated timber piling, 2,621 linear feet of pipe culverts and other items.

Awarded: Max Kunev, Hutton Bldg., Spokane, \$134,839.

Clark County: Clearing, grading, draining of about 45 miles of Primary State Highway No. 1, Pioneer to East Fork of Lewis River, Federal Aid Project No. 90-B (1) (Unit 1), in Clark County, Washington, involving about 24 acres of clearing, 305,750 cubic yards of excavation, 1,070 cubic yards of crushed stone surfacing, 366 cubic yards of concrete, 45,640 pounds of steel reinforcing bars, 3,629 linear feet of pipe culverts and other items.

Awarded: Harold Blake, 400 North Thompson, Portland, \$86,405.

Clark County: Clearing, grading, draining, and constructing a reinforced concrete and steel bridge on about 0.7 miles of Primary State Highway No. 1, East Fork of Lewis River Bridge and Approaches, Federal Aid Project No. 90-B (1) (Unit 2), in Clark County, Washington, involving about 12 acres of clearing, 104,360 cubic yards of excavation, 350 cubic yards of crushed stone surfacing, 2,581 cubic yards of concrete, 358,300 pounds of steel reinforcing bars, 353,000 pounds of carban and 370,000 pounds of silicon structural steel, 8,150 pounds of cast steel, 12,880 linear feet of untreated timber piling, 498 linear feet of pipe culverts and other items.

Awarded: L. H. Hoffman, 715 SW Columbia, Portland, \$174,126. 29

BIDS WANTED

STATE OF OREGON.—Until Nov. 18, 9 A. M., bids will be received by the Oregon State Highway Commis-

sion, Public Service Bldg., Portland, for 7.43 miles grading and 0.57 mile oiling, Pendleton—State Farm Section of Oregon—Washington Highway, Federal Aid Project No. 170-B (2). Requires approx. 198,000 c.y. excavation; 42,000 c.y. pitrun gravel roadbed topping; and 7400 sq. yds. oil mat surface treatment.

Plans and specifications may be obtained from the above office upon the deposit of \$5.00. 29

BIDS WANTED

LINCOLN CO., Nev.—Until Nov. 22, 2:45 P. M., bids will be received by the State of Nevada Directors of the Department of Highways, Heroes Memorial Building, Carson City, Nevada, for construction of approx. 9.95 miles state highway from a point approx. one-half mile north of Panaca Junction to Ploche, Route 7 Section C, Lincoln Co., Nev.

Work involves:

- (1) 50 hrs. 75 H. P. Crawler type tractor;
- (2) 50 hrs. 10 ft. blade grader;
- (3) 30 hrs. 75 H.P. tractor with carryall;
- (4) 30 hrs. 75 H. P. tractor with bulldozer and angledozer;
- (5) 100 hrs. motor grader with scarifier;
- (6) 50 hrs. 1½-ton truck;
- (7) 33 acres clearing;
- (8) 6 c.y. remove concrete;
- (9) 401 l.f. remove culvert pipe;
- (10) 18 each remove headwalls;
- (11) Lump sum remove concrete flume;
- (12) 10 c.y. remove mortar rubble masonry wall;
- (13) Lump sum remove porch;
- (14) Lump sum move building;
- (15) 103,550 c.y. roadway excav. "A";
- (16) 107,250 c.y. roadway excav. "B";
- (17) 4,400 c.y. drainage excav.;
- (18) 120 sta. "V" type ditches;
- (19) 210 sta. slope rounding;
- (20) 361,700 yd. sta. overhaul (yd sta.);
- (21) 3,160 yd. mile overhaul (yd ml);
- (22) 1,595 c.y. structure excav.;
- (23) 1,480 c.y. backfill;
- (24) 9,952 mile subgrade type "B";
- (25) 5,000 M gal. water;
- (26) 41,600 tons type 1 gravel base;
- (27) 36,000 tons gravel surface;
- (28) 94 c.y. class "A" conc.;
- (29) 36 c.y. class "B" conc.;
- (30) 9,360 lbs. reinforcing steel;
- (31) 315 c.y. mortar rubble masonry;
- (32) 316 l.f. 15-in. corr. metal pipe;
- (33) 878 l.f. 18-in. corr. metal pipe;
- (34) 722 l.f. 24-in. corr. metal pipe;
- (35) 82 l.f. 30-in. corr. metal pipe;
- (36) 134 l.f. 36-in. corr. metal pipe;
- (37) 284 l.f. relay culvert pipe;
- (38) 36 each move pipe culvert head-walls;
- (39) 46 c.y. class "A" conc, curb and gutter;
- (40) 315 lbs. castings;
- (41) 1 lump sum 4 ft. steel gate;
- (42) 126 each monuments;
- (43) Lump sum construct cesspool;
- (44) 57 l.f. pipe railing;
- (45) 218 sq. yds. gravel footpaths;

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada; or from District office of the Bureau of Public Roads, Federal Office Building, Civic Center, San Francisco, upon the deposit of \$10.00, \$5.00 of which will be refunded. 29

AWARD RECOMMENDED

SIERRA COUNTY, Calif.—Fredrickson & Westbrook, P. O. Box 138, Lower Lake, at \$44,364.40, recommended for award of contract by the U. S. Bureau of Public Roads, District Engineer C. H. Sweetser, Federal Office Bldg., Civic Center, San

Francisco, for grading Section A of Route 28, the Calpine-Clio National Forest Highway, Tahoe and Plumas National Forests, Sierra Co., a distance of 2.606 miles. 29

BIDS WANTED

SIERRA and Nevada Cos., Calif.—Until November 29, 2 P. M., bids will be received by the U. S. Bureau of Public Works, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for constructing road mix surface course on 7.918 miles of Sections B and C, Route 22, Sierraville-Hobart National Forest Highway Tahoe National Forest, Sierra and Nevada Counties.

Work involves:

- (1) 7.918 miles SC-1 road mix surfacing liquid;
- (2) 705 tons cutback asphalt MC-3 for Class C (road mix);
- (3) 50 tons cutback asphalt RC-2 for Class C (real);
- (4) 76 culvert markers.

Plans and specifications may be obtained from the above office upon deposit of \$10. 29

BIDS WANTED

PERSHING and Humboldt Counties, Nev.—Until November 22, 1:30 P. M., bids will be received by the State of Nevada directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nevada, for reconstruction of approx. 7.86 miles of state highway from a point approx. 0.3 mile southwest of Pershing - Humboldt County line to a point approx. five miles southwest of Winnemucca, Route 1, Sections E. A1 and A2, in Pershing and Humboldt Counties.

Work involves:

- (1) 80 hours 75-h.p. crawler type tractor;
- (2) 80 hour 10-ft. blade grader (pull type);
- (3) 40 hours 75-h.p. tractor with power scraper;
- (4) 300 hours motor grader;
- (5) 250 hours 1½-ton dump truck;
- (6) 29,222 tons selected, special detours;
- (7) 68,551 ton miles haul on selected detour surfacing;
- (8) 1255 l.f. remove fence;
- (9) 216 l.f. remove culvert pipe;
- (10) 12 each remove headwalls;
- (11) lump sum, remove overpaas;
- (12) 82,738 sq. yds. remove and relay roadmix bitum. surface;
- (13) 60,500 c.y. rdwy. excav.;
- (14) 2750 c.y. drainage excav.;
- (15) 142 sta. "V" type ditches;
- (16) 128,054 c.y. borrow;
- (17) 281 sta. slope rounding;
- (18) 724,100 yd. sta. overhaul
- (19) 56,600 yd. mt. overhaul;
- (20) 3140 c.y. struc. excav.;
- (21) 2430 c.y. backfill;
- (22) 7.82 miles subgrade, type B;
- (23) force account, roadside cleanup;
- (24) 4881 M. gals. water;
- (25) 31,700 tons type 1 gravel base;
- (26) 35,300 tons type 2 gravel base (1-in. ch. size);
- (27) 9046 tons gravel surf. (shoulders);
- (28) 256 tons liquid asphalt, type SC-1A (prime);
- (29) 159 tons do. type SC-2 (prime);
- (30) 756 tons screenings;
- (31) 54 tons emulsified asph. penetration;
- (32) 632 tons liquid asphalt, type MC 3 or MC-4;
- (33) 12,654 tons Class F-1 plant-mix bit. surf.;
- (34) 614 c.y. Class A concrete;
- (35) 9 c.y. Class B concrete;
- (36) 223 c.y. Class D concrete;
- (37) 95,140 lbs. reinf. steel;
- (38) 271,300 lbs. struc. steel;
- (39) 900 l.f. treated timber piles;
- (40) 10 each drive timber piles;
- (41) 32 l.f. 8-in. corr. metal pipe;

- (43) 78 lf. 12-inch do;
- (44) 196 lf. 18-inch do;
- (45) 94 lf. 24-inch do;
- (46) 36 lf. 30-inch do;
- (47) 208 lf. relay culvert pipe;
- (48) 10 each move pipe culvert head-walls;
- (49) 500 lbs. castings;
- (50) 4720 lf. beam type metal guard rail;
- (51) 34 each culvert markers;
- (52) 48 each guide posts;
- (53) 426 lf. construct fence;
- (54) 1255 lf. reconstruct fence;
- (55) 44 each monuments;
- (56) 350 cu. ft. sidewalk filler;
- (57) 428 lf. structural steel railing;
- (58) 950 sq. ft. blast plates;
- (59) 753 each 6-ft. metal stretcher;
- (60) 232 each 4-ft. metal header;
- (61) 87 each 6-ft. metal header;
- (62) 145 each 8-ft. metal headers;

Concrete Cribbing (Alternate B)
 (63) 390 each 6x8-in. conc. stretcher;
 (64) 591 each 6x8-in. do;
 (65) 233 each 6x10-in. do;
 (66) 136 each 5x8-in. conc. header;
 (67) 522 each 5x10-in. do;
 (68) 4 each embankment protectors;
 (69) 29 c.y. remove concrete;

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada; or from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon the deposit of \$10.00, of which \$5.00 will be refunded. * 29

BIDS WANTED

ELKO COUNTY, Nev.—Until Nov. 22, 2:15 P. M., bids will be received by the State of Nevada Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nev., for construction of approx. 4.79 miles of the state highway system from a point approx. 5 miles south of North Fork to North Fork, Route 43, Section B, Elko County, Nev.

- Work involves:
- (1) 26 acres clearing;
 - (2) 222 lf. remove culvert pipe;
 - (3) 16 each remove headwalls;
 - (4) 2 each remove culverts (timber)
 - (5) 27,300 c.y. rdwy. excav.;
 - (6) 1730 c.y. drainage excav.;
 - (7) 55 sta. "V" type ditches;
 - (8) 15,936 c.y. borrow;
 - (9) 35 sta. slope normal;
 - (10) 15,900 yd. sta. overhaul;
 - (11) 10,960 yd. m. overhaul;
 - (12) 610 c.y. strck. excav.;
 - (13) 720 c.y. backfill;
 - (14) 4.79 miles subgrade, Type C;
 - (15) 10 M. gals. water;
 - (16) 16,900 tons type 1 gravel base;
 - (17) 11,007 tons type 2 gravel base (1/2-in. size);
 - (18) 128 c.y. Class A concrete;
 - (19) 48 c.y. Class B concrete;
 - (20) 14,050 lbs. reinf. steel;
 - (21) 790 lf. 18-in. corrugated metal pipe (dipped);
 - (22) 208 lf. 24-inch do;
 - (23) 106 lf. 30-inch do;
 - (24) 118 lf. 36-inch do;
 - (25) 48 lf. relay culvert pipe;
 - (26) 40 each monuments.

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada; or from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon the deposit of \$10.00, of which \$5.00 will be refunded. * 29

BID OPENED

SAN FRANCISCO.—West Constr. Co., 1129 Irving Street, San Francisco, at \$5,795.50 submitted only bid to the San Francisco Department of Public Works, Room 251, City Hall, for the improvement of Gates St. between Powhattan Ave. and Bernal Heights Blvd. Estimated cost \$4,987.

- Work involves:
- (1) 2,000 c.y. grading (excav.);
 - (2) 185 c.y. grading (fill);
 - (3) 7600 sq. ft. 6-inch Class "E" Concrete pavement;
 - (4) 526 lf. unarmored concrete curb;
 - (5) 147 sq. ft. two-course concrete sidewalk;
 - (6) 249 lf. 8-inch V.C.P. sewer, in place;
 - (7) 18 8-inch by 6-inch V.C.P. Y-brances, in place;
 - (8) 44 lf. 12-inch V.C.P. sewer, in place;
 - (9) 252 lf. 6-inch V. C. P. side-sewers, in place;
 - (10) 3 brick manholes, complete;
 - (11) 3 brick catchbasins, complete;
 - (12) 78 lf. 10-inch V.C. P. culvert, in place;
 - (13) 12 water services.

Unit prices follow:
 (1) \$0.75, (2) \$0.10, (3) \$0.24, (4) \$1, (5) \$0.15, (6) \$2, (7) \$2, (8) \$3, (9) \$1.50, (10) \$100, (11) \$100, (12) \$1.50, (13) \$12.

BIDS WANTED

STATE OF OREGON.—Bids will be received by the Oregon State Highway Commission, Public Service Bldg., Portland, for highway construction, as follows:

NOVEMBER 17, 9 A. M.:
Jackson County: North Unit Bear Canyon-State Line Section of Pacific Highway; Federal Aid Project No. 190-J (1); 2.29 miles grading. Requires 447,000 c.y. excavation; 250 c.y. concrete; 40,000 lbs. metal reinforcement; and placing of 1,000 c.y. surfacing.

Klamath County: Main Street Undercrossing in Klamath Falls; Federal Aid Grade Crossing Proj. No. FAGM 37-A (1). Requires approximately 22,000 c.y. excavation; removal of 6,300 sq. yds. old pavement; removal of curbs, sidewalks, and catch basins; 2,300 lf. 9-in. perf. corrugated iron pipe; 1,900 c.y. of crushed rock in base and surfacing; 6,000 sq. yds. concrete pavement; 1,250 c.y. Class D concrete; 10,000 lbs. metal reinf.; 240,000 lbs. structural steel; 1,700 sq. ft. membrane waterproofing; 430 sq. ft. asphalt plank; 910 lf. steel handrail; 500 lf. 10-inch cast iron pipe; pumping equipment; traffic signal system and electric wiring and lighting.

Klamath County: Odell Lake-Walker Mountain Section of Willamette Highway; Federal Aid Projects Nos. 184-A (2) and 195-A (2); 23.0 miles surfacing and oiling; also furnish 6,000 c.y. crushed rock in stock pile. Requires approx. 66,000 c.y. pit-run gravel; 36,800 c.y. crushed rock; and 1,030 tons asphaltic road oil.

Umatilla County: State Hospital-Ash Street Unit of Pendleton Landscaping Project on Old Oregon Trail; Federal Aid Project No. 38-C (2). Requires construction of pump house; furnishing electrically-driven pump; installing of pipe line irrigating system; and planting of 200 trees.

NOVEMBER 18, 9 A. M.:
Crook County: Ochoco Dam-Marks Creek Section of Ochoco Highway; Federal Aid Projects Nos. 175-B (2) and 175-C (2); 7.68 miles grading; 132 lf. composite trestle bridges; 10 miles surfacing and oiling; also furnish 4,400 c.y. crushed rock in stock piles. Requires approx. 213,000 c.y. excavation; 195 c.y. concrete; 24,600 lbs. metal reinf.; 43 MFEM treated and untreated lumber; 300 lf. concrete handrail; 69,400 c.y. crushed rock; and 570 tons asphaltic road oil.

Deschutes County: Roadside oasis at Brothers on Central Oregon Highway; Federal Aid Project No. 147-H (2). Requires construction of pump house; furnishing of pump and gas engine; installing pipe line irrigating

system; construction of 98 rods of woven wire fence; and planting of 500 trees and shrubs and 3 acres of grass.

Malheur County: Jamieson - Lancaster Section of John Day Highway; Federal Aid Project No. 164-B (1); 7.04 miles grading, surfacing and oiling; construction of two 15-foot timber bridges; and furnish 2,700 c.y. crushed gravel in stock piles. Requires approximately 91,000 c.y. of excavation; 46 c.y. concrete; 7,400 lbs. metal reinf.; 19 MFEM treated lumber; 6,000 c.y. salvaged surfacing 36,000 c.y. gravel roadbed topping; 4,000 c.y. crushed gravel; and 260 tons asphaltic road oil.

Marion County: State Project. Construction of frame building approximately 25x162-ft. for car storage on the property of the Oregon State Highway Commission at the east city limits of Salem.

Multnomah County: Corbett Station-Rooster Rock Section of Columbia River Highway; Federal Aid Project No. 248-A (1); 2.26 miles clearing; 0.37 mile grading and 1.15 miles rock toe embankment. Requires approximately 217,000 c.y. excavation; 25,500 lf. foundation piling; 1,070 c.y. concrete; and 112,000 lbs. metal reinforcement.

Yamhill County: Sheridan-Polk Co. Line Section of Sheridan-Lincoln Co. Road; Federal Aid Project No. 261-B (1); 2.90 miles grading, surfacing, and oiling. Requires approximately 8,600 c.y. excavation; 10,600 c.y. of rock or gravel surfacing materials; and 126 tons asphaltic road oil.

Plans and specifications may be obtained from the State Highway Commission, Room 322, State Office Bldg., Salem, Oregon, upon the deposit of \$5.00. * 29

BIDS OPENED

ALPINE COUNTY, Cal.—Johnston Rock Co., Inc., Weber Ave. and "E" Street, Stockton, at \$82,049.50 submitted low bid to the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for grading and constructing bridge on 3.229 miles of Section B of Rte. 87, near Clark Fork National Forest Highway, Stanislaus National Forest, Alpine County.

- Work involves:
- (1) 21 acres clearing;
 - (2) 21 acres grubbing;
 - (3) 52,500 c.y. unclass. excav.;
 - (4) 1250 c.y. do for struc.;
 - (5) 12,700 c.y. do for borrow;
 - (6) 237,000 sta. yds. overhaul;
 - (7) 3,230 miles finishing earth graded road;
 - (8) 73 c.y. concrete, Class A;
 - (9) 88 c.y. concrete, Class B;
 - (10) 34 c.y. concrete, Class D;
 - (11) 15,000 lbs. reinf. steel;
 - (12) 32,500 lbs. struc. steel;
 - (13) 380 c.y. Class B cement stone masonry;
 - (14) 52 c.y. cement rubble masonry;
 - (15) 116 c.y. loose rock retaining wall
 - (16) 1022 lf. 18-in. corru. galv. sheet metal pipe;
 - (17) 816 lf. 24-in. do;
 - (18) 224 lf. 30-in. do;
 - (19) 75 c.y. loose riprap;
 - (20) 40 lbs. bronze bearing plates;
 - (21) 44 each culvert markers;
 - (22) 2 each guide posts;
 - (23) force account, fire protection.

Total bids follow:
 (A) Johnston Rock Co., Inc., Stockton, \$32,049.50.
 (B) West Const. Co., San Francisco, \$93,693.00.
 (C) Larsen Bros. & Harms Broa., Sacramento, \$98,173.00.
 Unit bids follow:

BIDS WANTED

STATE OF WASHINGTON—Until November 22, 10 A. M., bids will be received by the State of Washington Director of Highways, L. V. Murrow, Olympia, for highway construction, as follows:

Spokane Co.: Paving with Portland cement concrete about 1.3 miles of Primary State Highway No. 3, Spokane South, Spokane County; Federal Aid Project.

Okanogan County: Clearing, grading, surfacing, manufacturing and stockpiling mineral aggregates (oil rock) and constructing steel and concrete railway undercrossing on about 2.3 miles of Primary State Highway No. 10, Brewster Vicinity, Section 1, FAP 277-A and FAGH 277-B, Okanogan County.

King & Snohomish Counties: Clearing, grading, draining, surfacing on 6.6 miles of Secondary State Highway 1-A, Woodinville to Snohomish, FAS 35-A, King and Snohomish Cos.

Klickitat County: Clearing, grading draining and surfacing on 3.5 miles of Secondary State Highway 8-E, Alderdale to Benton county line, FAS 42-A, Klickitat and Benton Counties.

Whitman County: Clearing, grading, draining and surfacing on about 2.7 miles of Secondary State Highway 11-C, St. John East, FAS 276-B Whitman County.

Pacific County: Clearing, grading, draining, surfacing, manufacturing & stockpiling surfacing materials and mineral aggregates (oil rock) and constructing light bit. surf. treatment and nonskid seal (single seal) treatment on about 11.1 miles of Secondary State Highway 12-A, Seaview to Ocean Park, FAS 31-A, Pacific County.

Plans and specifications may be obtained from the above office upon deposit of \$2.00. 29

BIDS WANTED

ORANGE CO., Calif.—Until Dec. 1, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Building, Los Angeles, for about 0.7 mile grading and paving with Portland cement concrete between Santiago Blvd. and Santa Ana Canyon Road (VII-94-43-B) Orange County, Calif.

- Work involves:
- (1) 38 sta. clear and grub;
 - (2) 1,000 M gals. water;
 - (3) 226 cy. remove conc.;
 - (4) 80,000 cu. roadway excav. without class;
 - (5) 1,000 c.y. struc. excav.;
 - (6) 1,050 c.y. ditch and channel excavation;
 - (7) 605,000 sq. yds. overhaul;
 - (8) 38 sta. finish roadway;
 - (9) 5,000 tons import subgrade material;
 - (10) 8,300 sy. yds. prepare subgrade;

- (11) 10 tons liq. asph. SC-2 prime coat;
 - (12) 330 tons min. agg. plant mix surf;
 - (13) 700 sq. yds. asph. paint binder;
 - (14) 18 tons liq. asph. ROMC-4 or ROMC-5 plant mix surf.;
 - (15) 9,000 sq. yds. prepare mix and shape shoulders;
 - (16) 110 tons liq. asph. SC-2 shoulders;
 - (17) 17,000 lbs. bar reinf. steel pave. and structs.;
 - (18) 3,500 each pave. dowels;
 - (19) 350 each pave. tie bolt assemblies;
 - (20) 1,860 c.y. class B Port. cement conc. pave.;
 - (21) 105 c.y. class A Port. cement concrete structa.;
 - (22) 1,200 lbs. misc. iron and steel.
 - (23) 210 l.f. 8 in. CMP;
 - (24) 12 l.f. 12 in. CMP;
 - (25) 430 l.f. 24 in. CMP;
 - (26) 160 l.f. 30 in. CMP;
 - (27) 7 each spillway assemblies;
 - (28) 550 l.f. 8 in. pervf. metal pipe underdrains;
 - (29) 110 c.y. rock fill material;
 - (30) 110 c.y. sand filling material;
 - (31) 10 each culvert markers;
 - (32) 1.2 miles new property fence;
 - (33) 6 each drive gates.
- Plans and specifications may be obtained from the State Highway Engineer, Public Works Building, Sacramento. 29

CONTRACT AWARDED

LOS ANGELES COUNTY, Calif.—Claude Fisher Co., Ltd., 2455 East 55th St., Los Angeles, at \$154,870.15 awarded contract by the State Division of Highways, Sacramento, for about 0.8 mile of grading and paving with Portland cement concrete, asphalt concrete and plant mix surfacing and constructing two bridges, Arroyo Seco Parkway between Hough Street and Meridian Ave., Los Angeles County. 29

CONTRACT AWARDED

SANTA CLARA CO., Cal.—Granfield-Farrar & Carlin, 67 Hoff Street, San Francisco, at \$355,731.60 awarded contract by the State Division of Highways, Sacramento, for about 2.6 miles grading and surfacing with gravel base and armor coat and constructing two reinforced concrete girder bridges, between one mile east of Bell Station and 3 miles west of the Merced County Line, Santa Clara County. 29

30—RESERVOIRS & DAMS

BIDS WANTED

BONNEVILLE, Ore.—Until Dec. 1, 3 P. M., bids will be received by the U. S. Engineer Office, District Engineer, Bonneville, Oregon, under Bid No. 694-39-57, for constructing a total of about 26,590 l.f. pipe dikes in the Columbia River at 32 different sites located between the Interstate Bridge at Vancouver, Wash., and Dodson, Oregon.

- Work involves:
- SECTION 1**
 - (1) 182,300 l.f. piling, in place;
 - (2) 107.4 MFMB lumber, in place;
 - (3) 39,900 lbs. hardware, in place;
 - (4) 6,800 c.y. shore rock, in place;
 - (5) 10,300 c.y. water rock, in place;
 - (6) 1,000 each metal pile shoes, in place.
 - SECTION II**
 - (1) 172,700 l.f. piling, in place;
 - (2) 94.3 MFMB lumber, in place;
 - (3) 38,700 lbs. hardware, in place;
 - (4) 12,700 c.y. shore rock, in place;
 - (5) 11,600 c.y. water rock, in place;
 - (6) 1,000 each metal pile shoes, in place.
 - SECTION III**
 - (1) 291,200 l.f. piling, in place;

- (2) 176.0 MFMB lumber, in place;
 - (3) 68,500 lbs. hardware, in place;
 - (4) 14,100 c.y. shore rock, in place;
 - (5) 15,100 c.y. water rock, in place;
 - (6) 1,500 each metal pile shoes, in place.
- TOTAL FOR SECTIONS 1, 2 and 3**
- (1) 646,200 l.f. piling, in place;
 - (2) 377.7 MFMB lumber, in place;
 - (3) 147,100 lbs. hardware, in place;
 - (4) 33,600 c.y. shore rock, in place;
 - (5) 37,000 c.y. water rock, in place;
 - (6) 3,500 each metal pile shoes, in place.
- Plans and specifications may be obtained from the above office. 30

BIDS OPENED

STANISLAUS CO., Calif.—Williams Bros. & Haas Inc., 1104 Merchants Exchange Building, San Francisco, at (1) \$0.0749, (2) \$0.01 submitted low bid and was awarded contract by the Stanislaus County Board of Supervisors, C. C. Eastin, Clerk, Court House, Modesto, for the construction of a continuation of a levee in Reclamation District No. 1604, Stanislaus County, Calif.

Bids taken on:

- (1) Levee work, per cu. yd. in place;
- (2) Additional overhaul per cu. yd. in excess of 300 feet.

Complete bids follow:
Williams Bros. & Haas Inc., S. F., (1) \$0.0749, (2) \$0.01.
H. Sykes, Patterson, (1) \$0.085, (2) \$0.01.
George French Jr., Stockton, (1) \$0.09, (2) \$0.0075.
G. E. Murray, Modesto, (1) \$0.094, (2) \$0.004.
Harry J. Wolle, Palo Alto, (1) \$0.094, (2) \$0.25.
Adams Bros., (1) \$0.1375, (2) \$0.0075.
M. J. B. Constr. Co., Stockton, (1) \$0.135, (2) \$0.027.
M. J. Ruddy, Modesto, (1) \$0.135, (2) \$0.038. 30

BIDS WANTED

OCEANSIDE, San Diego Co., Calif. Until November 16, 7:30 P. M., bids will be received by the Oceanside City Council for the construction of revetments, levee, and pilot channel on San Luis Rey River near Oceanside, in accordance with plans and specifications which may be obtained from John H. Landes. Certified check or bond for 10 per cent must accompany each proposal. Ernest A. Taylor, St. Supt. and City Engr. The work involves:

- (1) 13,500 cu yds earthenwork
- REVETMENT**
 - (2) 100 pcs 2-in pipe 10-ft long;
 - (3) 256 pcs 2-in pipe 20-ft long;
 - (4) 184 pcs 70-lb rail 30-ft long;
 - (5) 2,400 ft 3/4-in cable;
 - (6) 3,688 ft 5/8-in Elwood type I fencing;
 - (7) 1,100 ft 50-in Elwood type I fencing;
 - (8) 2,200 ft 42-in Elwood type I fencing;
 - (9) 3,3300ft barbed wire;
 - (10) 55 tons rock;
 - (11) 36,500 cu ft brush;
 - (12) 184 3/4-in cable clips;
 - (13) No 12 wire for tying.

CONTRACT AWARDED

SACRAMENTO, Calif.—H. L. Parker and Harms Bros., 5220 21st Ave., Sacramento, at \$18,960 awarded contract by the U. S. Engineer Office, District Engineer, 208 Post Office Bldg., Sacramento, under Circ. Prop. No. 1105-39-80, for setting back, raising and strengthening approx. 2,400 l.f. of the existing levee along East Levee of the Feather River approx. 8,800 feet above the mouth of Bear River. 30

31—PIPE LINES & WELLS

CONTRACT AWARDED

SAN DIEGO, Cal.—Walter H. Barber, P. O. Box 950, San Diego, at \$27,660 awarded contract by the Public Works Office, 11th Naval District, San Diego, under Spec. No. 9017, for extension of steam distributing system at Naval Operating Base (Marine Corps Base), San Diego. 31

CONTRACT AWARDED

SAN FRANCISCO.—E. J. Treacy, 430 Call Bldg., San Francisco, at \$3,013.88 awarded contract by the San Francisco Dept. of Public Works, Room 251, City Hall, under Spec. No. 19,187, for alteration of the pipeline in Vallejo Street between Battery and Sansome Streets of the auxiliary water supply system for fire protection. Est. cost, \$3,300. 31

32—SEWERS & SEWAGE DISPOSAL PLANTS

BIDS WANTED

BAKERSFIELD, Kern Co., Calif.—Until Nov. 14, 5 P. M., bids will be received by the Bakersfield city council, V. Van Riper, City Clerk, for the construction of sewers in Unit No. 1, sanitary main sewer of the proposed sewer works improvement under PWA grant of Oct. 13. Plans and specifications may be obtained from J. Holfelder, city engineer. The est. cost is \$26,000 and the quantities are:

- (1) 345 ft. 8-in. cem. concr. sewer;
- (2) 2982 ft. 15-in. same;
- (3) 3750 ft. 18-in. same;
- (4) 2012 ft. 21-in. same;
- (5) 6 reinf. concr. manholes;
- (6) 18 plain concr. manholes;
- (7) 19 expansion joints;
- (8) 1200 lf. cem. concr. cradle.

BIDS WANTED

SAN GABRIEL, L. A. Co., Calif.—Until Nov. 22, 8 P. M., bids will be received by the San Gabriel city council for the construction of a sewer system estimated to cost \$415,000. This is to be financed by the proceeds of a bond issue of \$250,000 voted Aug. 5 and a PWA grant of \$202,500. Plans for the system were prepared by the Currier Engineering Co., 219 Anderson Bldg., San Bernardino. Copies may be obtained from his office upon deposit of \$25, returnable. Certified check or bidder's bond for 5% must accompany each proposal.

- The approx. quantities are:
- (1) 22,322 ft. 8-in. std. vit. pipe;
 - (2) 4,411 ft. 8-in. extra strength vit. pipe;
 - (3) 12,128 ft. 10-in. std. vit. pipe;
 - (4) 128 ft. 10-in. extra strength vit. pipe;
 - (5) 1,440 ft. 12-in. std. vit. pipe;
 - (6) 4,765 ft. 12-in. extra strength vit. pipe;
 - (7) 438 ft. 15-in. std. vit. pipe;
 - (8) 520 ft. 15-in. extra strength vit. pipe;
 - (9) 3,521 ft. 18-in. std. vit. pipe;

SANTA CRUZ CO.—GRAD. & SURF.—(STATE)

SANTA CRUZ COUNTY, Cal.—N. M. Ball Sons, 852 Carmel St., Berkeley, at \$232,767.10 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for about 8.2 miles grading and applying road-mix surface treatment between one-half mile south of Davenport and Waddell Creek, Santa Cruz County.

Work involves:

- (1) lump sum, clearing and grubbing
- (2) 415 c.y. remove concrete;
- (3) 6,000 M. gals. water;
- (4) 507,200 c.y. rdwy. excav., unclass.
- (5) 4,500 c.y. ditch and channel excavation;
- (6) 4,650,000 sta. yds. overhaul;
- (7) 5,550 c.y. struc. excav.;
- (8) 432 sta. finish roadway;
- (9) 9,500 c.y. imported surf. material;
- (10) 191,000 c.y. prepare, mix and shape roadway bed;
- (11) 135 tons liquid asphalt SC-1A (prime coat);
- (12) 1610 tons liquid asph. ROMC-3;
- (13) 115 tons liquid asph. 90-95 (seal coat);
- (14) 1360 tons screening (seal coat);
- (15) 154,200 lbs. bar reinf. steel;
- (16) 210 lbs. misc. steel;
- (17) 345 lbs. bronze extension plates;
- (18) 916 c.y. Class A Portland cement concrete structures;
- (19) 96 c.y. do, footing blocks;
- (20) 12 c.y. do, concrete railing;
- (21) 1376 lf. furnishing precast concrete piles;
- (22) 50 each driving do;
- (23) 4800 c.y. heavy riprap;
- (24) 15 c.y. light riprap;
- (25) 900 lf. 8-inch CMP;
- (26) 76 lf. 12-inch CMP;
- (27) 160 lf. 12-inch CMP (siphon);
- (28) 2850 lf. 18-inch CMP;

- (29) 1100 lf. 24-inch CMP;
- (30) 930 lf. 30-inch CMP (12 gauge)
- (31) 4300 lf. 8-inch perforated metal pipe underdrain;
- (32) 770 c.y. rock filling material;
- (33) 51 each spillway assemblies;
- (34) 230 each guide posts;
- (35) 120 each culvert markers;
- (36) 3.4 miles new property fence. Type A;
- (37) 6.4 miles do, Type B;
- (38) 10 each drive gates;
- (39) 170 each monuments;
- (40) lump sum, misc. bridge items of work.

- Total bids follow:
- (A) N. M. Ball Sons, Berkeley, \$232,767.10.
 - (B) Grandfield-Farrar & Carlin, San Francisco, \$236,811.65.
 - (C) Fredericksen & Westbrook, Lower Lake, \$237,647.10.
 - (D) Lawson Bros., Harms Bros., and H. Earl Parker, Sacramento, \$242,384.00.
 - (E) Louis Biasotti and Claude C. Wood, Stockton, \$253,723.50.
 - (F) Heafey-Moore Co. and Fredrickson & Watson Const. Co., Oakland, \$260,265.10.
 - (G) A. Teicher & Son, Inc., Sacramento, \$261,681.55.
 - (H) United Concrete Pipe Corp., Los Angeles, \$262,060.05.
 - (I) Hemstreet and Bell, Marysville, \$271,412.60.
 - (J) The Utah Const. Co., San Francisco, \$277,336.50.
 - (K) Macco Const. Co., Clearwater, \$289,877.00.
 - (L) Clyde W. Wood, Los Angeles, \$293,280.10.
 - (M) Daly Corp., San Diego, \$335,678.00.
 - (N) Griffith Co., Los Angeles, \$398,815.00.

MONSON LOWEST BIDDER ON CITY HOSPITAL WORK

\$558,644 Low Proposal Submitted on Laguna Honda Home Structures

Director A. D. Wilder of the Department of Public Works yesterday took action on San Francisco's PWA school and hospital construction programs, opening bids for construction of a new hospital unit and appurtenant structures at Laguna Honda Home, and awarding three contracts for completion of the Geo. Washington High School gymnasium and athletic unit.

Monson Brothers, at \$558,644, submitted the low bid for construction of the Laguna Honda Home structures, with Herman Lawson Company, at \$180,393, and Decker Electrical Construction Company, at \$53,960, offering low proposals for the mechanical equipment and plumbing, and electrical contracts, respectively.

Gymnasium Contracts

Meyer Construction Company, at \$347,470, was awarded the contract for general construction of George Washington High School gymnasium and athletic unit. Other contracts awarded were: Herman Lawson Co., at \$65,303, for mechanical equipment and plumbing; and DeLalour Electric Company, at \$14,885, for electrical work.

The contracts awarded yesterday call for construction of the entire project including the gymnasium, football field, play yards, running track, two grandstands and fencing.

Four bids were submitted for general construction of a 400-bed hospital unit, ward buildings "H" and "N", a service building, and reconstruction of wards "E", "F" and "L" at Laguna Honda Home.

Total bids follow:

Monson Brothers	\$558,644
MacDonald & Kahn Co.....	575,575
Anderson & Ringrose.....	576,000
Clinton Construction Co.....	589,400

The following submitted proposals on the contract for mechanical equipment and plumbing work Herman Lawson Co., \$180,393; Anderson & Rowe, \$184,777; James

FLEET MOORING BIDS RECEIVED

WASHINGTON, D. C., Nov. 16.—Low bidders today for the San Diego fleet mooring contract, for which proposals were opened by the Navy Department Bureau of Yards and Docks, were Charles and S. W. Steffgen, San Diego, on Item One, at \$248,900; and M. H. Golden, San Diego, at \$188,000, on Item Two.

The Bureau also announced today award of a contract for diesel tank and pumping plant at San Diego. The contract was let to the firm of Hunt & Curry of San Diego, bureau officials said. Amount of the contract price was \$235,500.

Northwest Lumber Production Lower

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending November 5, 1938 produced 91,567,099 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 58.4 per cent of its average weekly cut during 1926-1929.

A. Nelson, Inc., \$194,611; Scott Co., \$196,887; Alta Electric & Mechanical, \$199,687.

Electrical Bids

Eight firms submitted bids on the electrical work. Bidders included: Decker Electrical Const. Co., \$53,906; Atlas Electric & Engineering, \$55,181; American Electrical Construction Co., \$56,180; Kenny Electric Co., \$61,783; Abbott Electric Co., \$63,676; Cory & Joslin, Inc., \$65,980; Charles A. Langlais, \$67,350; and R. Flatland, \$66,830.

The Laguna Honda Home job is the first in San Francisco's \$2,283,470 hospital construction and improvement program to go out for bids. All proposals were referred to City Architect Charles H. Sawyer for consideration.

CHAPTER PLANS ANNUAL SESSION HERE DEC. 9 - 10

A. G. C. Northern California Chapter Completing Plans For Convention

Plans for the Twentieth annual convention of the Northern California Chapter, Associated General Contractors of America, to be held in San Francisco, December 9 and 10, this week were nearing completion as western engineering and heavy construction contractors announced their intention of attending the annual meet.

Meanwhile, Secretary - Manager Floyd O. Booe of the Northern California Chapter yesterday attended the board meeting of the A.G.C. in Excelsior Springs, Mo., where plans for the national convention of the organization were discussed.

The national convention of the Associated General Contractors of America will be held in San Francisco in 1939. At the executive sessions of A.G.C. officials in Excelsior Springs, yesterday and today, final plans for the national gathering are being formulated.

The two-day meeting of Northern California Chapter, to be held here December 9 and 10, will take place at the Palace Hotel, concluding with the annual banquet on the evening of December 10.

Adoption of the final plans for the 1939 national convention will high-light the chapter convention, it is announced.

Guests of honor at the conclave will include State and Federal highway officials and engineers; city officials of San Francisco; PWA officials with whom the industry is co-operating during the current construction program; and labor representatives.

During the business sessions, officers and directors for the coming year will be elected, and policies of the chapter will be formulated and agreed upon.

A complete travel service bureau for motorists will be maintained at 1939 California World's Fair by National Automobile Club. Iron Worker (Structural

K. E. Parker Low on Corpsmen's Dormitory Quaywall, Shop Framework Out for Bids

WASHINGTON, D. C., Nov. 16.—The construction program for the Mare Island Navy Yard moved forward on several fronts here today as proposals were opened on the Corpsmen's Barracks and Nurses' Quarters, and two new major contracts were ordered advertised for bids.

Low bidder for the dormitory and nurses' quarters contract was K. E. Parker Co., San Francisco, at \$276,300.

At first it appeared that a \$200,000 bid by James I. Barnes Const. Co. would be low, but this was raised by a telegraphic modification to \$283,000, making the Santa Monica firm second low bidder.

When modifications had been taken into consideration, the three low bids in order were as follows: K. E. Parker Co., \$276,300; James I. Barnes Const. Co., \$283,000; and MacDonald & Kahn Co., Ltd., San Francisco, \$289,982.

Alternate Proposals

These are the basic proposals on Item No. 1, for construction of the two buildings complete. Alternate proposals included in the bidding schedule allow for omission of various portions of the work.

Ordered advertised for bids today were two major contracts for additional work at the Mare Island yard. These are:

1. The new quaywall, for which approximately \$800,000 of the current construction program funds have been allotted.

2. Structural steel framework for the new machine shop.

Bids December 14

Bids on the big quaywall contract will be opened by the Bureau of Yards and Docks here December 14, it was announced today.

The date for opening bids on the machine shop structural framework has been set for December 14, likewise.

The machine shop, when completed, will cover an area 250 by 900 feet, adding many new facilities for the work of the yard.

In addition to the two Mare Island contracts ordered advertised today, another, for work at the Alameda Naval Air Station, went out for bids, officials of the Bureau of Yards and Docks revealed.

Structural Steel

The Alameda contract involves structural steel work for the Assembly and Repair Shop at the \$15,000,000 air station, on which a number of major contracts are scheduled to be placed under construction within the near future.

Bids on the Alameda structural steel contract are to be opened December 21, it was announced.

Orders booked during September 1938, for commercial steel castings amounted to 25,565 short tons, as compared to orders for 24,814 short tons booked during August, 1938, the Bureau of Census reports.

REFRIGERATION JOBBERS' MEET SET FOR DEC. 10

Meet Here to Precede Refrigeration, Air Conditioning Conclave in Chicago

A joint meeting of the Pacific Coast Refrigeration Jobbers Association and refrigeration and air-conditioning manufacturers who have co-operative jobbers set-ups, will be held December 10 and 11 at the Whitcomb Hotel in San Francisco. Peter H. Askew, president of the Association, announces.

The discussion of subjects of mutual interest to the industry will occupy a large part of the meeting. There will be short talks by members of the industry followed by open forums on the questions discussed in each address.

Following is the complete program for the meeting:

Saturday, December 10

9:00 A. M. to 12:30 P. M.: Meeting of the Pacific Coast Jobbers in California Room;

12:30 P. M. to 2:00 P. M.: Joint Luncheon of manufacturers, manufacturers agents and jobbers in Mahogany Banquet Room;

2:00 P. M. to 6:00 P. M.: Joint meeting of all the above in the California Room;

7:30 P. M.: Dinner at one of San Francisco's unique restaurants. Fine food, beautiful girls' show.

Sunday, December 11

8:00 A. M. to 9:00 A. M.: Group breakfast, Coffee Shop, Whitcomb Hotel;

9:00 A. M. to 11:00 A. M.: Meeting of the Pacific Coast Jobbers, California Room.

Those intending to attend the meeting are asked to notify Clarence F. (Sandy) Pratt, secretary of the Pacific Coast Refrigeration Jobbers Association. Special accommodations have been available for delegates.

The San Francisco meeting is the forerunner of the first All-Industry Refrigeration and Air Conditioning Exhibition and Convention to be held at the Stevens Hotel in Chicago, January 16, 17, 18, and 19, 1939, according to Mr. Pratt.

Plans for the national convention will be discussed in full during the Pacific Coast meeting next month.

Western refrigeration men anticipate a record attendance at the national meet. With many Pacific Coast jobbers already pledged to go to Chicago, plans are being formulated to start special trains from Los Angeles and San Francisco January 12 at 8:00 P. M.

The two trains will join at Ogden and arrive in Chicago January 15 at 9:00 A. M., according to the present schedule.

WESTERN AREA PWA PROJECTS 75% UNDERWAY

Schools Predominate; Street, Highway Improvements Second on List

Exactly a month and a half ahead of the deadline date of January 1, 1939, the Federal Public Works Administration has 75 per cent of a \$72,900,870 public works program under construction in this western four-state region, already re-employing 35,000 formerly idle men. This was announced officially yesterday by J. W. Bourner, Acting Regional Director, who added that about one-third of this money is being used to expand and improve school facilities.

In California alone, a total of \$59,481,119 in new PWA construction is assured and of this amount \$23,341,700 has been allotted to various school and college projects. Public Works Administrator Harold L. Ickes, with Presidential approval, has given this state's schools \$10,507,781 in outright grants and has made loans of \$137,000 besides.

For all of its 284 projects approved for the 1938 program, Administrator Ickes has granted California a total of \$29,025,904, and in addition, has made loans aggregating \$548,000.

Second to schools in cost in California will be the highway and street improvements, which will require a total of \$13,515,600, of which PWA is supplying \$6,082,011 all in grants. Included in this group of projects are bridges and subways.

The sum of \$9,406,700 is being spent on new municipal buildings and improvements on existing ones. PWA is furnishing \$4,233,019 in grants and \$143,000 in loans for this phase of the current public improvements in this state.

Hospital facilities are being expanded at a total cost of \$3,025,500, for which PWA has granted \$1,361,482.

Sewerage systems, both new construction and improvements, are being installed at a total cost of \$3,024,500. Administrator Ickes allotted \$1,361,052 in grants and loaned an additional \$28,000 for this work.

PWA harbor and pier construction this year will cost \$2,248,000, of which that Federal agency supplied \$1,154,052 in grants and \$44,000 in loans.

21— BRIDGES

BIDS WANTED

COCHISE COUNTY, Ariz.—Until Nov. 16, 10:00 A. M., bids will be received by the Arizona State Highway Commission, Phoenix, for reconstructing the floor of the three span bridge over the San Pedro River at Benson, on the Benson-Steins Pass Highway, Non F. A., A. F. E. 8611, and is to be completed on or before Dec. 31, 1938.

Work involves:

- (1) 2116 lbs. bolts, nuts and washers;
- (2) 2017 lbs. struc. steel;
- (3) 63 M. B. M. untreated timber;
- (4) 787 sq. yds. plant mix, 1½-inch in thickness.

Plans and specifications may be obtained from the Arizona Highway Department, Howard S. Reed, State Highway Engineer, 17th Ave. and Jackson St., Phoenix. * 21

BIDS WANTED

RIVERSIDE COUNTY, Calif.—Until Nov. 23, 10:30 A. M., bids will be received by Riverside County Supervisors for construction of the Pedley bridge on the Santa Ana River on the Arlington-Pedley Road, a PWA project. The items are:

- (1) 253 c.y. removing and disposing of existing conc. masonry;
- (2) 9000 c.y. roadway excav. without class;
- (3) 1170 c.y. struc. excav.;
- (4) 120 c.y. class A conc. in footing blocks;
- (5) 570 c.y. class A conc. below top of piers;
- (6) 1155 c.y. class A conc. above top of piers;
- (7) 297,880 lbs. reinf. steel;
- (8) 5.2 MFBM redwood timber, select, albert str. grade;
- (9) 3660 l.f. furnish D. F. piles;
- (10) 122 each drive D. F. piles;
- (11) 2000 tons heavy riprap rock;
- (12) misc. items, expansion felt, expansion joint plates, PWA office, asbestos graphite sheets, assistants giving lines and grades, PWA signs, other misc. iron and steel.

Certified or cashier's check or bid bond, 5% must accompany bid. Plans and specifications are available from clerk of board of supervisors, Court House, Riverside, upon deposit of \$15. returnable.

Est. cost is \$75,505, of which \$33,977 is a PWA grant. * 21

AWARD RECOMMENDED

ALPINE COUNTY, Cal.—Johnston Rock Co., Inc., Weber Ave. and "E" Street, Stockton, at \$82,049.50 recommended for award of contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal

Office Bldg., Civic Center, San Francisco, for grading and constructing a bridge on 3.329 miles of Section B of Route 87, the Clark Fork National Forest Highway, Stanislaus National Forest, Alpine County. ** 21

BIDS WANTED

TUCSON, Pima County, Ariz.—Until Nov. 25, 2 P. M., bids will be received by the Pima county supervisors, Tucson, Ariz., for the construction of a steel girder deck bridge on the Sabino Canyon Road at the Rillito Creek Crossing. Plans, spec. and instructions to bidders may be obtained at the office of the County Engineer, Court House, Tucson, upon deposit of \$5, returnable to contractors submitting regular proposals and returning plans in good condition. Certified check for 5% must accompany each proposal. Gladstone MacKenzie, Clerk of the Board. 21

BIDS WANTED

MERCED COUNTY, Calif.—Until Nov. 21, 11:00 A. M., bids will be received by the Merced County Board of Supervisors, P. J. Thornton, County Clerk, Court House, Merced, for construction, as follows:

- (1) Bridge No. 287—timber pile bridge over Canal on the Woods Road;
- (2) Bridge No. 288—reinf. concrete pipe culvert in Canal on road along the East line of Sec. 22.
- (3) Bridge No. 289—timber pile bridge over S. J. & K. R. Canal and Irrigation Co's canal on South Los Banos Road;
- (4) Bridge No. 290—timber pile bridge over S. J. & K. R. canal and irrigation co's canal on Welch Road.

Plans and specifications may be obtained from the above office and from the office of W. E. Bedesen, County Surveyor, upon the deposit of \$10.00 returnable. * 21

CONTRACT AWARDED

SAN DIEGO CO., Calif.—E. G. Carroll, 4396 Maryland St., San Diego, at \$40,120 awarded contract by the State Division of Highways, Sacramento, for construction of a reinforced concrete slab bridge across San Luis Rey River about two miles south of Rincon, consisting of eighteen 25-ft. spans and two 8-ft. 4-in. spans on cast in place concrete pile bents, San Diego County. * 21

LOW BIDDER

COCHISE COUNTY, Ariz.—Tanner Construction Company, Phoenix, Arizona, at \$5,989.00 submitted low bid to the Arizona State Highway Commission, Phoenix, for reconstructing

the floor of the three span bridge over the San Pedro River at Benson, on the Benson-Steins Pass Highway, Non F. A. A. F. E. 8611, and is to be completed on or before Dec. 31, 1938. * 21

BIDS WANTED

SAN BERNARDINO CO., Calif.—Until December 8, 2 P. M., bids will be received by the State Division of Highway, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete slab bridge consisting of two 24-ft. 0-in. spans, two 22-ft. 0-in. and two 6-ft. 0-in. cantilever spans on cast in place concrete piles and approximately .30 mile of approaches to be graded and .06 mile of Portland cement concrete pavement about two miles east of Ontario across Cucamonga Wash (VIII-SBD-26-D), San Bernardino County, Work involves:

- (1) 220 c.y. remove and dispose of existing rdwy. and shoulder surfacing;
- (2) 200 c.y. remove and dispose of existing concrete;
- (3) 62 M. gals. water;
- (4) 5,100 c.y. rdwy. excav., unclass.;
- (5) 500 c.y. struc. excav.;
- (6) 2,200 c.y. imported borrow;
- (7) 900 sq. yds. subgrade for pave.;
- (8) 1 sta. finish rdwy.;
- (9) 372 tons min. agg. plant mix surfacing;
- (10) 18 tons liquid asph. SC-X4 plant mix surf.;
- (11) 250 c.y. salvage detour surf.;
- (12) 182 c.y. Class A Portland cement conc. pave.;
- (13) 333 each pavement dowels;
- (14) 17,000 lbs. bar reinf. steel;
- (15) 310 c.y. Class A Portland cement conc. struc.;
- (16) 9 c.y. Class A Portland cement conc. railing;
- (17) 828 l.f. furnish cast in place concrete piles;
- (18) 36 each drive steel shells for cast in place concrete piles;
- (19) 30 c.y. broken concrete riprap;
- (20) 22,000 sq. ft. galv. woven wire fence bank protection;
- (21) 310 tons asph. conc. bank protection;
- (22) 140 l.f. 12-in. wrought steel pipe;
- (23) 174 l.f. 48-in. CMP;
- (24) 174 l.f. remove and salvage 48-in. culvert pipe;
- (25) 4 each monuments;
- (26) 35 l.f. timber guard rail;
- (27) 1 lot misc. items of work.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. * 21

22— DREDGING HARBOR WORKS, EXCAVATION

BIDS WANTED

MADERA COUNTY, Calif.—Until Nov. 21, 10:00 A. M. bids will be received by the Madera County Board of Supervisors, L. W. Cooper, County Clerk, Court House, Madera, for the purchase of not less than 12,000 cu. yds. and to be taken from the bed of the San Joaquin River near the Town of Firebaugh and dumped on the portion of the Firebaugh road lying between Section 23, Township 12 South, Range 14, East, etc., Madera County.

Plans and specifications may be obtained from above office. 22

COMPLETE BIDS

REDONDO BEACH, Los Angeles Co., Calif.—Rohi-Connelly Co., 4351 Valley Blvd., Los Angeles, at \$355,900 (Sched. A) and at \$614,300 (Sch. B) submitted the low bid to the city council for the construction of a breakwater and appurtenances at Redondo Beach in accordance with plans and specifications prepared by the engineers, Koebig & Koebig, 821 Rowan Bldg., Los Angeles. This is a PWA project, Northern Calif. 1295-F. Bonds in the sum of \$300,000 were voted Sept. 27 by a vote of more than 6 to 1, and a PWA grant in the sum of \$245,452 has been approved.

The present contract involves the construction of a breakwater approx. 2800 ft. in length, commencing at the foot of 10th St., extending 760 ft. in a southwesterly direction; this section to be either rock construction or double sheet steel piling with sand fill, the rock construction beginning at this point, the breakwater continuing in the same direction 155 ft. farther, from which point it curves to the south and continues a distance of 1873 ft., of which about 578 ft. is parallel to the shore line. Future construction contemplates a 2,400-ft. extension. The end of the present construction is in water approximately 30 ft. in depth.

SCHEDULE "A"

- (1) 156,000 tons (2000 lbs.) furnishing and placing Class A stone;
- (2) 73,000 c.y. solid stone (exclusive of voids), furnishing and placing Class B stone.

SCHEDULE "B"

- (1) 139,000 tons (2000 lbs.) furnishing and placing Class A stone;
- (2) 68,000 c.y. solid stone (exclusive of voids), furnishing and placing Class B stone.
- (3) 740 l.f. furnishing and placing steel piling breakwater as Cross Section CC of plans.

The details of the two bids were: Rohi-Connelly Co.: Sch. A (1) \$230 extension, \$355,900; (2) \$270, extension, \$197,400, total, \$555,900; Sch. B (1) \$230, \$319,700; (2) \$270, \$183,600; (3) \$150, \$111,000; total, \$614,300.

United Concrete Pipe Corp.: Sch. A (1) \$285, \$444,600; (2) \$370, \$270,100; total, \$714,700; Sch. B, (1) \$285, \$396,150; (2) \$370, \$251,600; (3) \$140, \$103,600; total, \$751,350.

CONTRACT AWARDED

RICHMOND, Contra Costa Co., Calif.—R. A. Farish, 50 Hawthorne Street, San Francisco, at \$2,438 submitted low bid and was awarded contract by the Richmond City Council, City Clerk, City Hall, for filling for a roadway and railroad in the City of Richmond.

Work involves:

- (1) 4,370 c.y. fill;
- (2) 200 c.y. riprap from borrow pit;
- (3) 200 tons riprap from quarry.

Total bids follow:

- R. A. Farish, San Francisco, (1) \$0.40, (2) \$0.45, (3) \$2, total, \$2,438.
 Healy Tibbitts Const. Co., S. — (1) \$0.45, (2) \$0.75, (3) \$2.25, total \$2791.50. 22

BIDS WANTED

SAN DIEGO, Cal.—Until Dec. 9, 12 M. bids will be received by the U. S. Engineer, 751 S. Figueroa Street, Los Angeles, for dredging 4,514,000 cubic yards of materials in San Diego Harbor; Invt. 182. The work is located adjacent to and north of existing turning basin and main bay channel in north part of San Diego Bay and consists of furnishing all plant, labor and materials for dredging to a depth of 35 ft. below mean lower low water in an area 1200 ft.

wide by 3600 ft. long, and depositing the dredged material in the area about 240 acres in extent situated east and south of the U. S. Marine Corps Base.

Funds available for payment to contractor amount to \$460,000. 22

LOW BIDDER

REDONDO BEACH, Los Angeles Co., Calif.—Rohi-Connelly Co., 4351 Valley Blvd., Los Angeles, at Sched. A, \$555,900; Schedule B, \$614,300 submitted low bid to the Redondo Beach City Council for the construction of a breakwater and appurtenances at Redondo Beach. 22

23— CANALS

BIDS WANTED

SHOSHONE PROJ., Wyo.—Until December 20, 10 A. M. bids will be received by the U. S. Bureau of Reclamation, Cody, Wyo., under Spec. No. 814, for the construction of the Shoshone River siphon and the Buck Springs Creek siphon, Heart Mountain, canal, Heart Mountain division, Shoshone Project, Wyo.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$3 per copy, not returnable. 23

BIDS WANTED

YAKIMA PROJECT, Wash.—Until Dec. 8, 10:00 A. M. bids will be received by the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 813, for the construction of earthwork, tunnels, canal lining, and structures, station 1641 plus 15 to station 1952 plus 00, Yakima Ridge canal, Roza division, Yakima Project, Wash.

Estimated quantities follow:

- (1) 826,250 c.y. of all classes of excavation for canal;
- (2) 16,800 c.y. of excav. for core banks;
- (3) 201,000 station c.y. of overhaul;
- (4) 9,200 c.v. of all classes of excavation for struc.;
- (5) 810 c.v. of all classes of excavation for drainage channels and dikes;
- (6) 15,780 c.y. of excav. in tunnels;
- (7) 315 c.v. of all classes of excav. for tunnel outlet drains;
- (8) 18,740 c.y. of compacting embankment;
- (9) 2,300 square yards of preparation of rock foundations for concrete lining;
- (10) 59,200 sq. yd. of trimming earth foundations for conc. lining;
- (11) 7,700 c.y. of earth lining of canal;
- (12) 600 c.v. of gravel blanket on inside of canal embankment;
- (13) 15,850 c.y. of backfill;
- (14) 250 c.v. of gravel fill about tunnel outlet drains;
- (15) 3,595 c.v. of concrete in struc.;
- (16) 6,313 c.y. of conc. in canal lining;
- (17) 3,650 c.y. of conc. in tunnel lining;
- (18) 400 c.f. of pressure grouting;
- (19) 795 sq. yd. of dry-rock paving;
- (20) Placing 1,142,000 lbs. of reinf. bars;
- (21) Furnishing and installing 160,000 lbs. of permanent steel tunnel supports;
- (22) Furnishing and erecting 56 M. ft. h.m. of permanent timbering in tunnels;
- (23) Furnishing and installing 72,500 lbs. of steel tunnel-liner plates;
- (24) Drilling 200 l.f. of grout holes;
- (25) Constructing 625 l.f. of 6-inch diameter tunnel drains;
- (26) Constructing 11,025 l.f. of 6-inch

diameter underdrains with uncemented joints;

- (27) Laying 1,800 l.f. of 6-inch diameter sewer pipe with cemented joints;
- (28) Laying 500 l.f. of 6-inch diam. sewer pipe with uncemented joints;
- (29) Laying 1,166 l.f. of 12-inch to 30-inch diameter concrete pipe;
- (30) Installing 4,610 lbs. of gales and blow-off pipe and connections.

This invitations for bids does not cover the purchase of materials which are to be furnished by the Government. Materials to be furnished by the contractor, and those furnished by the Government are described in the specifications which will be a part of the contract.

Plans and specifications may be obtained from the above office and from the Bureau of Reclamation at Denver, Colo., and Washington, D.C. No charge to prospective bidders for copies of the specifications; to others, \$2.00 per copy, not returnable. 23

LOW BIDDERS

BONNEVILLE Oregon.—Barham Bros., at \$107,243.65 submitted low bid to the U. S. Engineer Office, District Engineer, Bonneville, under Bid No. 694-39-48, for the construction of the reinforced concrete sections of the Tanner Creek By-Pass (Fishway), the completing of the earth-lined canals and connections between Sections for the Tanner Creek By-Pass, the connections with the additions to the waterways of the Oregon State Fish Hatchery, project sidewalks and the constructing of a reinforced concrete bridge across Bradford Island fish ladder, all at Bonneville, Ore.

The three low bids follow:

- | | |
|---------------------------------------|--------------|
| Barham Brothers | \$107,243.65 |
| Ross B. Hammond Co., Port-land | 119,955.85 |
| Clifford A. Dunn, Klamath Falls | 122,015.70 |

BIDS WANTED

SUN RIVER PROJECT, Montana.—Until Dec. 2, 10:00 A. M. bids will be received by the U. S. Bureau of Reclamation, Fairfield, Montana, under Spec. No. 1143-D, for the construction of earthwork, structures, extensions of sublaterals of laterals C.M. 31, G.M. 47-II, and G.M. 96, Greenfields division, Sun River project, Mont.

Plans and specifications may be obtained from the above office; no charge in prospective bidders, to others, \$2.50 not returnable. 23

25— MACHINERY AND EQUIPMENT

BIDS WANTED

SACRAMENTO, Calif.—Until Dec. 9, 8:15 P. M. bids will be received by the Sacramento City Council, H. P. Denton, City Clerk, City Hall, for furnishing mechanical and electrical equipment for sewage plant No. 2 extension. Estimated cost, \$75,000. Plans and specifications may be obtained from the above office upon the deposit of \$25. 25

BIDS WANTED

BOULDER CANYON PROJECT.—Until December 6, 2 P. M. bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Bid No. 1144-D, for furnishing and delivering 23 radial gates and 23 radial-gate holsts for the New Briar Canal, All-American canal system, Boulder Canyon Project; job ship-

ping point and/or Calexico, Cal. Gates and gate hoists will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders, to others, \$3.50, not returnable. * 25

CONTRACT AWARDED

DENVER, Colo.—Bay City Srovels, Inc., Bay City, Mich., at \$14,500 awarded contract by Bureau of Reclamation, Washington, D. C., at \$14,500, for dragline excavator with 45-ft. boom, shovel attachment with 1 cu. yd. dipper for Rio Grande proj., N. M.-Tex. and one same with 60-ft. boom, shovel attachment with 2 1/2 cu. yd. dipper for All-American Canal, f.o.b. Bay City, Mich., Spec. 1130-D. * 25

BIDS OPENED

SAN FRANCISCO.—Following submitted bids to the U. S. Engineer Office, Lt. Col. J. A. Dorst, District Engineer, 401 Custum House, under Bid No. 868-39-136, for 2 concrete pneumatic vibrators; f.o.b. S. F.

Bids were:
Ingersoll-Rand Co., \$292.50 (Ingersoll-Rand 3-V type, or equal); \$234, (Ingersoll-Rand 2-V type, or equal), net.

Chicago Pneumatic Tool Co., \$295.75-\$236.60, net.
Harron Rickard & McCone Co., \$295.75, \$236.60, net. * 25

BIDS WANTED

KENDRICK PROJECT, Wyoming.—Until Dec. 12, 2:00 P. M. bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 1146-D, for furnishing and delivering one control switchboard; two 115,000- to 115-volt, outdoor, oil-immersed, potential transformers; two 115,000-volt, 100/200- to 5-ampere, outdoor, oil-immersed, current transformers; nine 15,000-volt, 400-ampere, single-pole, hook-stick-operated, outdoor-type disconnecting switches; three 46,000-volt outdoor-type, expulsion fuses; one 115,000-volt, 600-ampere, three-pole, single-throw, outdoor-type oil circuit breaker; and seven 115,000-volt, 600-ampere, three-pole, manually gang operated, outdoor-type disconnecting switches for the Greeley substation; one control switchboard; two 10-kv-a and one 15-kv-a, 13,200- to 120/240-volt, distribution-type transformers; two 13,800- to 115-volt, outdoor, dry-type potential transformers; six 400- to 5-ampere, 13,800-volt, outdoor, dry-type current transformers; 12 15,000-volt, 400-ampere, single-pole, hook-stick-operated, outdoor-type disconnecting switches; one 15,000-volt, 400-ampere, three-pole, manually gang operated, outdoor-type disconnecting switch; three 15,000-volt outdoor-type expulsion fuses; one 15,000-volt, 600-ampere, three-pole, single-throw, outdoor-type oil circuit breaker; and one 15,000-volt, three-pole, station-type lighting arrester for the Cheyenne substation, Kendrick project, Wyoming. F.o.b. shipping point and/or Railroad destination. Apparatus will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders, to others \$1.00 not returnable. * 25

BIDS WANTED

SALT RIVER PROJECT, Ariz.—Until December 5, 2 P. M. bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 1145-D, for furnishing and delivering three cylinder heads for

173,000-lb. hydraulic hoists and three hydraulic gate hangers for the 6x7-ft. 6-in. high pressure gates located in the gate chamber of the outlet works at the Bartlett Dam, Salt River Project, Ariz.; fob shipping point and/or Phoenix, Ariz. Apparatus and materials will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders, to others, \$1.00, not returnable. * 25

BIDS OPENED

BOULDER CANYON PROJECT.—Following submitted bids to the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 1134-D, for furnishing and delivering (1) four 16-ft. 7-in. by 5-ft. top-seal radial gates, two 14-ft. by 5-ft. top-seal radial gates; (2) four 5,000-lb. capacity motor-driven radial-gate hoists, and one 10,000-lb. capacity motor-driven radial-gate hoist for installation at drop No. 1 and five 9-ft. 6-in. by 10-ft. top-seal radial gates for installation at the Coachella turnout, All-American canal system, Boulder Canyon Project; fob shipping point and/or Calexico.

Bids were:
The Stearns-Roger Mfg. Co., Denver, (1) \$5,458; wt. 75,000; net; fob Calexico.

Hester Steel Co., Pittsburgh, Pa., (1) \$7,580; wt. 70,000; net; fob Melville Island, Pa.

Treadwell Const. Co., Midland, Pa., (1) \$7640; wt. 68,400; net; fob Midland.

Berkeley Steel Const. Co., Inc., Berkeley, (1) \$6,192; wt. 74,000; 1/2 fob Berkeley.

Pacific Iron & Steel Co., Los Angeles, (1) \$6691; wt. 76,000; net; fob Los Angeles.

H. S. Mitchell, Receiver Hesse-Ersted Iron Works, Portland, (2) \$5699; wt. 14,000; 1/2 fob Portland.

Smith Corp. d/b/a/ General Iron & Steel Works, Portland, (1) \$6850; wt. 73,570; (2) \$5455; wt. 12,650; combination bid; \$12,195; net; fob Portland.

American Bridge Co., Denver, (1) \$6722; wt. 70,272; net; Gary, Ind.

Ogden Iron Works, Ogden, Utah, (1) \$6965; wt. 70,000; 1 1/2; fob Ogden.

 - (2) 24 acres grubbing;
 - (3) 20,000 c.y. stripping and storing top soil;
 - (4) 36,200 c.y. unclass. excav.;
 - (5) 60 c.y. unclass. excav. for struc.;
 - (6) 49,600 c.y. unclass. excav. for borrow;
 - (7) 38,000 stva. yds. overhaul;
 - (8) 159,000 c.y. miles borrow haul;
 - (9) 4400 l.f. furrow ditches;
 - (10) 317 M. Gal. watering;
 - (11) 13,000 tons crushed run top course;
 - (12) 500 tons applying Government furnished asphaltic material (Type SC-2) for bituminous treatment;
 - (13) Force account sanding;
 - (14) 5 c.y. cement rubble masonry;
 - (15) 262 l.f. corr. galv. sheet metal pipe;
 - (16) 40 l.f. remove, clean and relay existing CM pipe;
 - (17) 1 each cattle guards;
 - (18) 1000 l.f. barbed wire fence;
 - (19) 16 each culvert markers;
 - (20) Force account obliteration of old roads;
- Plans and specifications may be obtained from the above office and from the Bureau of Public Roads, Federal Office Building, Civic Center, San Francisco. • 29

LOW BIDDER

WHIPPLE, Yavapai County, Ariz.—Pearson and Dickerson Inc., Prescott, Ariz., at \$12,609 submitted low bid to the Veterans Administration, Room 764, Arlington Bldg., Washington, D. C., under Project No. 1566, for construction and finishing complete entrance road at Veterans Administration Facility, Whipple, Ariz.

- Three low bids follow:
- | | |
|---------------------------|----------|
| Pearson & Dickerson Inc., | |
| Preacott | \$12,609 |
| W. E. Orr, Phoenix | 18,791 |
| Lewis Bros. | 35,452 |

HALF MOON BAY UNION HIGH SCHOOL

HIGH SCHOOL
HALF MOON BAY, San Mateo Co.
 One-story frame and reinforced concrete high school.
 Owner—Half Moon Bay High School District (Jos. F. George, Clerk).
 Architect—Thos. M. Edwards, Room 1104, 9 Geary St., San Francisco.
 Low Bidder—Chas. F. Pedersen, 734 Prospect Row, San Mateo, \$154,640.00.

- Bids were received with the following deductions:

SISKIYOU COUNTY, Calif.—U. S. Bureau of Public Roads, Federal Office Building, Civic Center, San Francisco, recommended rejection of bids for replacement of existing structures on 0.306 miles at Louis, Butler and Merrill Creeks, Sec. A, of Route 93, The Salmon River National Forest Highway, Klamath National Forest. Albert E. Mangs and Associates, 666 Mission St., S. F., at \$41,944.05 submitted low bid. * 29

CONTRACT AWARDED

SAN JOSE, Santa Clara Co., Calif.—Union Paving Co., 212 Babcock Bldg., San Francisco, at \$2129 submitted low bid and was awarded the contract by the San Jose Board of Education, Walter L. Bachrodt, Secretary, for paving Nagle Ave. adjacent to school property in San Jose. * 29

30—RESERVOIRS & DAMS

BIDS WANTED

EUGENE, Lane Co., Oregon.—Until Dec. 5, 7:30 P. M., bids will be received by the Eugene City Water Board, J. W. McArthur, Water Supt., Eugene, for a reinforced concrete reservoir with concrete cover for approximately 15,000,000 gal. of water storage, 100,000 gal. steel tower tank and necessary appurtenances.

Plans and specifications may be obtained from Engineers, Stevens & Koon, Spalding Bldg., Portland. 30

BIDS WANTED

LOS ANGELES, Calif.—As previously reported until Dec. 9, 10:00 A. M., bids will be received by the Metropolitan Water District, 306 W. Third St., L. A., for constructing the Palos Verdes Reservoir and appurtenant work, in accordance with plans and spec. No. 289, prepared by the office of F. E. Weymouth, Civil Engineer. Copies of the plans and spec. may be obtained from Room 1007, 306 West Third Street, L. A., on or after Nov. 18, upon

payment of \$5 per set, not returnable. Certified or cashier's check for 10% must accompany each proposal. The work proposed includes excav., rolled fill embank. and Gunite lining for a 1000-acre ft. capacity reservoir and the construction of an outlet tower, spillway, and supply tunnel. There are also included a short section of road, a concrete-walled open storm drain approx. 2800 ft. in length, a steel foot bridge, fences, and appurtenant works. No bid will

be considered for less than all the work. NOTE: The district offices state that plans and specifications will be available Nov. 16, but prior to that date plans, profiles, and a schedule of quantities of the proposed work may be inspected at the District Office, at any time during office hours. Schedule of items follows:

- (1) 1,600,000 c.y. excav. for reservoir and outlet tower;
- (Continued on page 28)

CENTRAL VALLEY PROJ.—TUNNEL & S. P. RELOCATION—(GOV'T)

CENTRAL VALLEY PROJ., Cal.—United Concrete Pipe Corp., Box J, Sta. H, Los Angeles, at \$598,673.50, submitted low bid to the United States Bureau of Reclamation, Walker R. Young, Supervising Engineer, Old Post Office Bldg., Sacramento, under Spec. No. 806 for construction of earthwork, tunnels and structures, Southern Pacific Railroad re-location, milepost 287.81 to milepost 288.725, Kennett Div., Central Valley Project. The work is located near Delta, Calif.

Work involves:

- (1) 10 acres clearing right of way;
- (2) 41,200 c.y. excav., common, for rdwy.;
- (3) 58,200 c.y. do, rock, for rdwy.;
- (4) 493,500 sta. c.y. overhaul;
- (5) 265 M. gals. water for moistening embankment materials;
- (6) 45 roller hours rolling embank.;
- (7) 3000 c.y. riprap;
- (8) 9000 c.y. excavation, common, for struc.;
- (9) 3700 c.y. do, rock, for struc.;
- (10) 35,000 c.y. excav., all classes, in tunnels;
- (11) 379,000 lbs. furnish and install perm. steel tunnel supports;
- (12) 33 MFEM furnish and erect permanent timbering in tunnels;
- (13) 700 lf. const 8-in. longitudinal tunnel drains;
- (14) 18,000 lbs. install metal drain and weep pipes in tunnels;
- (15) 800 lf. drill weep holes in tunnels;
- (16) 8700 c.y. concrete in tunnel lining except in inverts;
- (17) 600 c.y. concrete in tunnel inverts;
- (18) 1850 c.y. concrete in tunnel portals;

- (19) 70 c.y. concrete in struc. except in bridge piers and abutments;
- (20) 1200 c.y. concrete in footings of bridge piers;
- (21) 3400 c.y. concrete in bridge piers above footings;
- (22) 830 c.y. concrete in bridge abutments;
- (23) 840,500 lbs. placing reinf. bars;
- (24) 6000 bs. placing rag bolts, anchor bolts & anchor bolt sleeves
- (25) 650 sq. yds. special finishing of concrete surf.;
- (26) 350 sq. yds. dry rock paving;
- (27) 12,000 c.y. backfill about struc.;
- (28) 2000 c.y. compacting backfill about struc.;
- (29) 148 lf. laying 24-in. corr. metal pipe;
- (30) 72 lf. constructing 8-in. perf pipe track drains;
- (31) 8100 lf. installing elec. conduits in tunnels;
- (32) 0.5 miles construct barbed wire right of way fences.
- (33) 0.5 mile construct woven wire right of way fences.

- Total bids follow:**
- (A) United Concrete Pipe Corp., Los Angeles, \$598,673.50.
 - (B) Clyde W. Wood, Los Angeles, \$618,660.
 - (C) Sam Orino, Portland, \$626,573.75.
 - (D) The Utah Construction Co., San Francisco, \$630,026.50.
 - (E) Bates & Rogers Const. Co., Inc., Oakland, \$630,139.70.
 - (F) R. G. Clifford, San Francisco, \$643,003.00.
 - (G) Winston Bros. Co., Los Angeles, \$652,553.00.
 - (H) Geo. K. Thompson, Los Angeles, \$678,122.50.
 - (I) D. W. Thurston, Los Angeles, \$729,141.50.

HAMILTON FIELD—RUNWAYS & DRAINAGE—(GOV'T)

HAMILTON FIELD, Marin Co., Calif.—N. M. Ball Sons, 852 Carmel Street, Albany, at \$317,700 submitted low bid to the Constructing Quartermaster, Major F. D. Jones, Q.M.C., Fort Mason, San Francisco, under Bid. No. W-6616-39-30, for construction runways and drainage at Hamilton Field.

Work involves:

- (1) Excavation, grading and backfilling, to construction paved runways (Paving Areas No. 1, 2, and 3), taxiway, and drainage system, including catchbasins, drainage lines and appurtenances, etc., complete;
- (2) Deduct, if Paving Area No. 2 including catchbasins and eight 8-inch drain lines at edges if paving is not constructed;
- (3) Deduct, if Paving Areas No. 3 including 8-inch and 10-inch drain lines at edges of pavement, are not constructed.
- (4) Unit prices:
 - (a) Earth excavation and grading (pavement), per cu. yd.
 - (b) Earth excavation, drainage and misc. structures, per cu. yd.

- (c) Borrow material in place, in runway and side fill, per cu. yd.
- (d) Crushed stone backfill for drainage trench, per cu. yd.
- (e) Sheeting ordered left in place, per M. ft. B.
- (f) Reinf. concrete paving (Straight 6-inch section), per sq. yd.
- (g) Reinf. concrete paving (8-6-8 section), per sq. yd.
- (h) 1:2: 4 mix concrete, including forms, excavating, etc., per cu. yd.
- (i) Catchbasin, 4 ft. depth, complete, each.
- (j) Welded wire fabric reinforcement in place, per lb.
- (k) Steel bar reinf. in place, per lb.
- (l) 3/4-inch expansion joint material, in place, per lin. ft.
- (m) Cold asphaltic surfacing, in place, per cu. yd.
- (n) Emulsified asphalt, base course, in place, per cu. yd.
- (o) Cast iron, frames and grates, per lb.
- (p) 8-inch drain tile, including excavation, laying tile and placing stone backfill, per lin. ft.
- (q) 10-inch drain tile, including ex-

- ca-vation, laying tile and placing stone backfill, per lin. ft.
- (r) 12-inch drain tile including excavation, laying tile and placing stone backfill, per lin. ft.
- (s) 15-inch do.
- (t) 12-inch sewer pipe, including excavation, placing and dirt backfill, per lin. ft.
- (u) 15-inch do.

Total bids follow:

- (A) N. M. Ball Sons, Albany, \$317,700.00.
- (B) Chas. L. Harney, S. F., \$333,500.00.
- (C) Union Paving Co., S. F., \$334,000.00.
- (D) Bodenhamer Constr. Co., Oakland, \$336,890.00.
- (E) Pacific States Constr. Co., S.F., \$337,700.00.
- (F) Fredericksen and Westbrook, Lower Lake, \$348,000.00.
- (G) MacDonald & Kahn Co., Ltd., San Francisco, \$389,000.00.
- (H) Eaton and Smith, S. F., \$409,746.00.
- (I) A. J. Raisch, S. F., \$419,364.00.

MACHINERY & MATERIAL

Big calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

WAR DEPARTMENT

SACRAMENTO, Calif.—Until Nov. 25, 3:00 P. M., bids will be received by the U. S. Engineer Office, District Engineer, Room 208 Post Office Bldg., Sacramento, under Bid No. 1105-39-120, for furnishing and delivering (1) 120 feet of 24-inch diameter by 1/2-inch thick soil-purified steel pipe; and (2) one 24-inch cast steel flap gate; f.o.b. Yuba City.

FORT MASON, Calif.—Until Nov. 26, 3:00 P. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-39-154, for furnishing 2 fuel oil cleaners, filter type; f.o.b. New York General Depot, Brooklyn, N. Y. and San Francisco General Depot, Fort Mason.

SACRAMENTO, Calif.—Until Nov. 22, 3:00 P. M., bids will be rejected by the U. S. Engineer Office, Col. I. B. Chambers, District Engineer, Room 208, Post Office Building, Sacramento, under Bid No. 1105-39-118, for steel pipe; f.o.b. Rio Vista, Calif.

SAN FRANCISCO, Calif.—Until Nov. 23, 3:00 P. M., bids will be received by the U. S. Engineer Office, Lt. Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 885-39-148, for rental of transit for three months; f.o.b. Custom House, S. F.

SAN FRANCISCO CITY

SAN FRANCISCO—Until Nov. 25, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, under Bid No. 2111 for furnishing one double tilting circular saw table for the School Department.

Plans and specifications available from above office.

SAN FRANCISCO—Until Nov. 25, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, under Bid No. 2113 for furnishing track bolts and spikes for the Municipal Railway.

Plans and specifications available from above office.

SAN FRANCISCO—Until Dec. 5, 1938, 10:00 A. M., bids will be received by Leslie S. Williams, Capt., Q.M. Corps, Quartermaster, Letterman General Hospital, San Francisco, under Bid No. 486-39-7, for certain cubicle screening outfit, complete; f.o.b. above office.

SAN FRANCISCO—Until Nov. 21, 1938, 3:00 P. M., bids will be received by the Division Engineer, South Pacific Division, 414 Custom House, San Francisco, under Bid No. 414-39-47, for furnishing 78,000 gallons of liquid emulsified asphalt, and 11,000 gallons of emulsified asphalt with mineral fiber and filler and of a troweling consistency; f.o.b. San Francisco Bay area.

MET. WATER DISTRICT

LOS ANGELES, Calif.—Until Nov. 28, 2:00 P. M., bids will be received by Metropolitan Water District, L.A., for 35,000 bbls. sulphate-resistant Portland cement; f.o.b. bidder's plant. Spec. 296. Certified or cashier's check 10%, must accompany bid.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing misc. supplies and materials, as follows:

SCH. 4869: Bits, wood borings, chisels and knives for eastern and western yards, Nov. 29.

SCH. 4891: Capacitors for Brooklyn and Mare Island, Nov. 22.

SCH. 4897: Steel plates, sheets and strips for Boston, Charleston and Puget Sound, Nov. 25.

SCH. 4892: Steel plates, sheets and strips for Portsmouth and Mare Island, Nov. 22.

SCH. 4893: Steel, angles and shapes for Portsmouth and Mare Island, Nov. 22.

SCH. 4894: Steel bars, flat for Portsmouth and Mare Island, Nov. 22.

SCH. 4874: Motor-driven thread grinder for Puget Sound, Nov. 29.

SCH. 4875: Motor-driven vertical milling machine for Mare Island, Nov. 29.

SCH. 4900: Steel shapes for Boston, Charleston and Puget Sound, Nov. 25.

SCH. 4918: 26 steel mooring buoys for eastern and western yards, Nov. 29.

SCH. 4898: Wrenches for eastern and western yards, Dec. 6.

SCH. 4876: 1 motor-in-head type planer and matcher, 1 set of knives, 1 set of tools and wrenches for eastern or western yards, Dec. 2.

SCH. 4886: 12,000 lbs. technical phenol, 6,000 lbs. lead-acetate, 10,000 lbs. paris green, 10,000 lbs. dry chrome yellow, 20,000 lbs. dry cuprous-oxide and 10,000 lbs. dry mercuric-oxide for Mare Island, Dec. 2.

SCH. 4901: 2500 practice bombs for Washington and Mare Island, Dec. 6.

SCH. 4933: 2 water cooling plants and spares for San Pedro, Nov. 18.

CANAL ZONE

PANAMA CANAL—Until Nov. 28, 10:30 A. M., bids will be received by the General Purchasing Office, H. A. A. Smith, Washington, D. C., under Sch. 3397, for furnishing misc. supplies and materials, including:

Concrete-reinforcement bars, steel, copper, brass, zinc, railway tie plates, revolving bins and shelving, copper pipe and tubing, brass pipe, cast-iron water-pipe fittings, steel conduit and conduit elbows, wire rope, seizing strand, electrical cable, vee-belt drive, garage cranes, sewage pumping unit, hand trench pumps, valve units, distribution-type

transformers, insulators, nails, outlet boxes and covers, manila rope, hose and lumber; f.o.b. Cristobal and/or Balboa.

Plans and specifications may be obtained from the above office or from the Asst. Purchasing Agent, The Panama Canal, Fort Mason, San Francisco, Calif.

SAN FRANCISCO CITY

SAN FRANCISCO—Until Nov. 25, 1938, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, S. F., under Bid No. 2117, for carpet and lining.

Specifications may be obtained from the above office.

TUNNELS

BIDS OPENED

SAN FRANCISCO—R. G. Clifford, 215 Market St., S. F., at \$37,610, submitted low bid to the San Francisco Department of Public Works, Room 251, City Hall, under Spec. No. 19, 160, for construction of drain tunnel and shafts for Parker Avenue Slide. Estimated cost \$52,000.

- (1) 350 l.f. drain tunnel;
- (2) 20 l.f. manhole (deep shaft);
- (3) 420 l.f. 4-ft. drain shaft;
- (4) 130 l.f. 8-inch drill hole cased;
- (5) 2 each standard manhole;
- (6) 200 l.f. 12-inch VC pipe, complete in place;
- (7) no item 7;
- (8) 80 c.v. dump excav.;
- (9) 100 l.f. wood fence;
- (10) 1.5 MBM timber bulkheads;
- (11) 2 each traffic signs;
- (12) 6 each warning signs.

Total bids follow:

- (A) R. G. Clifford, S. F., \$37,610.00.
- (B) E. T. Lesure, Oakland, \$39,105.00.
- (C) Eaton & Smith, S. F., \$47,895.00.

PARK PRESIDIO PAVING PROJECT BIDS SCHEDULED

\$129,000 Street Job Advertised; Monson Bros Low On Auditorium

Monson Brothers, San Francisco at \$53,790, Wednesday submitted the low bid to Director A. D. Wilder of the Department of Public Works for general construction of the Portola Junior High School auditorium.

Scott Company, at \$3,766, submitted the low proposal on the mechanical and plumbing work contract; and Crown Electric Company, at \$4,994, was the low bidder on the electrical work.

Meanwhile Director Wilder issued a call for bids, to be opened December 14, for the improvement of Park-Presidio boulevard between Fulton street and the Presidio Military Reserve.

The work is estimated to cost \$129,000, according to City Engineer John J. Casey.

Plans for the work have been approved by PWA officials, and PWA regulations will be complied with in order to take advantage of an allotment, if one is forthcoming. An application for a grant was filed earlier this year with Federal officials.

Principal items in the job include 11,260 cubic yards of excavation; 233,000 square feet of 8-inch asphalt-concrete pavement; 25,200 sq. ft. of 6-inch asphalt-concrete pavement; and 9,750 square feet of 2-course concrete sidewalk.

Park-Presidio boulevard will be widened from fifty to fifty-five feet and a dividing line constructed to provide two 24-foot lanes. Asphalt concrete pavement will replace oil macadam surfacing.

Complete total bids on the contract for general construction of the Portola Junior High School auditorium follow: Monson Brothers, \$53,790; De Luca and Son, Inc., \$57,192; Anderson and Ringrose, \$58,000; Central California Construction Co., \$62,777.

The Fay Improvement Company, at \$7,813.80 submitted the low bid for the improvement of LaSalle avenue between Mendell and Third

DINWIDDIE BIDS BERKELEY HALL

Dinwiddie Construction Co., 210 Crocker Bldg., San Francisco, Wednesday submitted the lowest of four bids to the Berkeley city council for construction of the Berkeley Hall of Justice and police headquarters, with a total over-all proposal of \$268,000.

Second low bidder was K. E. Parker Co., San Francisco, at \$275,450. Two other bids were received. They were: C. L. Wold Construction Co., San Francisco, \$292,639; and F. C. Stolte Co., Alameda, \$298,000. (Complete bids with unit prices and alternates appear in Advance Report section today.)

INDUSTRIAL LIGHTING STUDIES PUBLISHED

The publication of the RLM Standards Institute's work on Industrial Light Conditioning is announced by the RLM Standards Institute, 20 North Wacker Drive, Chicago.

In preparation for over a year, "The Meaning of the RLM Label" is a factual exposition of the principles of modern industrial light conditioning, according to the Institute. Its purpose is to provide the purchaser of lighting reflectors with the basic factors of industrial lighting and the standards of efficiency, design and quality of the various lighting reflectors.

Other bidders were: Eaton & Smith, \$8,635.90; Chas. L. Harney, \$8,770.40; and A. G. Raisch, \$10,943.30.

The San Francisco Public Utilities Commission opened bids for laying mains in Masonic avenue and Ewing terrace. E. J. Treacy at \$3777.60 submitted the low bid.

In addition, bids were opened for construction of a signal tower for the Bay Bridge Terminal Loop by the Commission. The Department of Public Works opened bids for construction of Gate Lodges at San Francisco Hospital. Miller Construction Company, at \$9,523, submitted the low proposal.

L. A. BIDDER LOWEST OF 12 FOR OVERPASS

Piazza & Huntley Bid State Grading in Tulare County

SACRAMENTO, Nov. 24. — The United Concrete Pipe Corporation, Los Angeles, at \$178,460.70 yesterday submitted the low bid to the State Division of Highways for construction of an overhead crossing over the tracks of the A. T. & S. F. railway at Oak street in Bakersfield.

The overhead will consist of one 80-foot, one 68-foot, and seventeen 45-foot steel girder spans with reinforced concrete deck supported on concrete bents on treated timber piles. Approximately 0.44 mile of paving is involved, also.

Earl W. Heple, at \$179,498, submitted the second lowest proposal, followed by Griffith Company, at \$179,670. Other bidders included: Union Paving Company, \$183,431; Heafey-Moore and Fredrickson & Watson Construction Co., \$183,500; J. F. Knapp, \$189,890; White and Wilberg, \$189,969; Gibbons & Reed Company, \$193,285; Vincent and Pringle, \$195,749; Oscar Oberg, \$197,935; M. B. McGowan, Inc., \$209,528; and J. H. Pomeroy and Company, \$211,016.

Tulare Grading

Piazza & Huntley, at \$58,734.15 submitted the low bid on the only other contract for which bids were opened today—involving about 2.7 miles of grading and surfacing with plant-mixed surfacing between Exeter and Venida Substation in Tulare county.

Other bidders included: Oilfields Trucking Company, \$62,568; Larson Brothers and Harms Brothers, \$63,818; Union Paving Co., \$64,332; and Pacific States Construction Company, \$67,686. Eight firms submitted bids.

Shipments of distillate oil burners for the first nine months of 1938 amounted to 214,749 units, as compared to shipments totaling 296,125 units during the same period in 1937, the Bureau of Census announces.

Sixth of Big Boulder Generators Ready For Service; Two More Due in Next Year

Secretary of the Interior Harold L. Ickes this week advised the City of Los Angeles that the sixth of the large generators at Boulder Dam was installed and ready for operation.

This is the second generator of 82,500 kilovolt-ampere capacity to be placed in service this year, since N-5 began operation in July and was placed in steady service November 4.

The first of the great generators in the Boulder plant began steady operations on October 22, 1936; the second December 1, 1936; the third on December 28, 1936; and the fourth February 12, 1937.

In addition to the six great generators, a seventh generator of 40,000 k.v.a. capacity, which is as large as any other in the world outside those at the Boulder plant, has been installed and is in operation.

Between the time the first power was produced and the first of October this year, the output of power from the Boulder plant had been sold for a total of \$3,493,380. To that time an additional \$1,087,562 had been returned to the Federal Treasury as payment by the power purchasers on the power plant machinery and equipment.

Two more of the generators are now being manufactured and should be ready for operation next year.

When the installation is complete, it will include 15 of the large and two of the smaller generators with a combined capacity of 1,835,000 horsepower.

Firm power at Boulder is sold at 1.63 mills per kilowatt hour measured in falling water, while secondary power is sold at half a mill. Contracts for the sale of the power are expected to return the cost of Boulder Dam, with interest at 4 per cent, in fifty years.

Since the power is sold as falling water, the purchasers are required to operate and maintain the generating equipment. The City of Los Angeles operates the six big generators, although the latter two are for the use of the Metropolitan Water District of Southern California. While the purchasers are required to pay for the generating units, title to these remain in the United States.

SEALAIR BULLETINS ISSUED BY KAWNEER

Two new six-page folders containing illustrations, details and facts of the new Sealair, Series 120 and Series 220, are announced by the Kawneer Company, Niles, Michigan. Copies may be obtained without charge upon application to the company at the above address.

Series 120 Kawneer Sealair windows are double-hung windows, built of aluminum or bronze furnished in stock and standard sizes, completely assembled at the factory.

THOMPSON BIDS PROVO TUNNELS

PROVO, Utah, Nov. 22.—Geo. K. Thompson Co., Los Angeles, today submitted low bid to the U. S. Bureau of Reclamation here for construction of the Olmstead and Alpine-Draper tunnels for the Salt Lake Aqueduct of the Provo River Project. Amount of the Southern California contractor's low proposals were Schedule 1, \$129,087; Schedule 2, \$130,455; Schedule 3, \$617,448; Schedule 4, \$625,888.

R. G. Clifford, San Francisco, on combinations of Schedules 1 and 3 and 2 and 4 submitted what apparently was the second lowest possible combination.

Northwest Lumber Bookings Reflect Seasonal Decline

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending November 12, produced 77,829,979 board feet of lumber. The decrease from the previous week was due largely to the Armistice Day holiday. At the rate of cutting at the reporting mills, the entire industry produced 49.7 per cent of its average weekly cut during 1927-1929.

The new business reported taken by the 151 mills was 80,180,519 board feet. Shipments were 73,967,649.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	31,372,751	31,553,360
Domestic		
Cargo	34,895,690	31,583,689
Export	6,543,000	3,461,522
Local	7,369,078	7,369,078
	80,180,519	73,967,649

The unfiled order file at these mills stood at 246,360,818 board feet.

Reflecting the usual seasonal decline, production, orders and shipments all were lower than in the preceding week.

CENTRAL CALIF. A.G.C. CHAPTER MEETING DEC. 2

Plans for Annual Dinner, Show At Sir Francis Drake Near Completion

The Annual Dinner and Show of Central California Chapter of the Associated General Contractors of America, Inc., will be held on Friday evening, December 2, 1938, in the Franciscan Room of the Sir Francis Drake Hotel.

Builders from all over Northern California are expected to be in attendance. Leading subcontractors are being invited to attend. Large material and supply firms are Associate Members of the Chapter and will also be present by strong representation.

President Harry H. Hilp has appointed the following to serve as the Banquet Committee: W. C. Tait, Chairman; Robert L. Dohrmann, Louis C. Dunn, Don Early D. N. Edwards, Reuben Irwin, C. J. Lindgren, W. E. Lyons, E. W. Paddock, Van W. Rosendahl, Carroll Stephens, O. C. Tretten, Clark E. Wayland, and R. Walberg. This committee has been holding regular meetings for some weeks past and plans to give a larger and more elaborate entertainment than ever before.

W. C. Tait, Chairman of the Committee, states "The committee has engaged some special talent for this occasion and we plan to give all the men present a real, good time. Speeches will be few and short—entertainment will be long and good".

Wm. E. Hague, Secretary-Manager of the Chapter, reports reservations for tickets are coming in in large numbers. Accommodation are limited and those applying first will be first accommodated.

Acetylene Conclave Slated for March

The thirty-ninth convention of International Acetylene Association will be held in Houston, Texas on March 8, 9 and 10, it is announced. Headquarters will be at the Rice Hotel.

The choice of Houston as the convention city of the Association came as a result of the successful convention in Birmingham which prompted many members to request a visit to the Southwest.

An interesting technical program covering the most important developments in the application of the oxy-acetylene process of welding and cutting is in preparation according to officials.

Shipments of oil burners during September, 1938, amounted to 26,405, as compared to shipments totaling 15,373 during August, 1938 the Bureau of Census announces.

CLARK TO TAKE STATE POSITION AT YEAR'S END

Olson Picks L. A. Man to Succeed Kelly as Director of Public Works

Frank W. Clark, president of the Ruth Dredger Manufacturing Corporation of Los Angeles, will succeed Earl Lee Kelly as director of the State Department of Public Works January 1, it was announced yesterday in Sacramento.

Mr. Kelly last week submitted his resignation to Governor Frank L. Merriam, requesting that he be allowed to leave his post Dec. 31.

Appointment of Mr. Clark to succeed Mr. Kelly in the important post was made by Governor-elect Hulvert L. Olson, press advices from Sacramento stated.

Mr. Clark, who is also general manager of a Los Angeles rock products firm, plans to resign his present positions to take over the state post, it was announced. He has not previously held public office.

The statement of the Governor-elect in announcing appointment of Mr. Clark follows:

"I have been personally acquainted with Mr. Clark for about fifteen years. He had had years of experience in and is familiar with all phases of construction work, including highway and road building, dam and levee construction, public buildings, and all forms of flood control, irrigation and drainage work.

"He is familiar with the problems, both physical and financial, of all of California's irrigation districts now in great need of constructive services."

Reinforcing Spiral Stand. Reaffirmed

The Division of Simplified Practice of the National Bureau of Standards has announced that Simplified Practice Recommendation R53-32, Steel Reinforcing Spirals, has been reviewed by the sponsoring organization, the Concrete Reinforcing Steel Institute, and reaffirmed without change.

This recommendation, which establishes a recommended list of 4 sizes of steel spiral rods, represents a variety reduction of about 43 per cent. It became effective in 1927, was reaffirmed in 1930, and revised in 1932.

Copies of the recommendation may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., for five cents each.

Lake Mead Water Released to Test Aqueduct Sections

Release of water from Lake Mead to fill the 510,000 acre-foot reservoir at Parker Dam, 155 miles below Boulder Dam on the Colorado river, has just been completed, John C. Page, Commissioner, Bureau of Reclamation, reported Saturday to Secretary of the Interior, Harold L. Ickes.

In addition to the regular releases for irrigation needs on the Yuma Federal Reclamation Project in Arizona and the Imperial Valley and other areas in California, from October 13 until now from 10,000 to 16,000 acre-feet of water daily were turned through the outlets of Boulder Dam to fill the reservoir at Parker Dam.

The purpose of filling the reservoir at Parker Dam at this time was to make it possible for the Metropolitan Water District of Southern California to test the pumps and reservoirs along its aqueduct line. These tests are now being begun with the aid of power from Boulder Dam Power Plant.

Parker Dam, recently finished by the Bureau of Reclamation, was built with funds advanced by the Metropolitan Water District. It will serve to re-regulate the Colorado River below Boulder Dam and to pond water at the first pumping plant of the Metropolitan Water District at the head of the aqueduct.

The aqueduct of the Metropolitan Water District, composed of thirteen cities in the vicinity of Los Angeles on the coast of Southern California, is nearing completion. It will carry water from the Colorado River a distance of about 250 miles for domestic supply. The water district is a major purchaser of Boulder power. It also buys its water, paying the Boulder Canyon Project Fund 25 cents an acre-foot for that used. The ultimate capacity of the aqueduct will be 1,500 second feet, or a million gallons a day.

Lake Mead today contains 22,609,000 acre-feet of water, a reduction from the high point this year of 23,185,000 acre-feet. This reduction in storage represents a drop in the elevation of the water surface of slightly more than four feet from the all-time high.

The great floods of the Colorado, which occur in May or June each year with the melting of snow in the Rocky Mountains, cause the lake to rise rapidly for a few weeks. During the remainder of the year the inflow and the outflow of Lake Mead either just about offset each other, or the water surface slowly declines as irrigation demands downstream exceed the natural flow of the river above the headwaters of the lake.

ALLOTMENTS TO 11 CALIFORNIA JOBS ANNOUNCED

Eureka Gets \$69,545 Toward Cost of \$154,545 School Project

Public Works Administrator Harold L. Ickes last week released an additional \$923,113 worth of new construction for California and Utah under the 1939 Federal Public Works Administration program, it was announced by J. W. Bourmier, Acting Regional Director. This boosts the total value of the current PWA public construction in this region to \$73,823,483.

In the new allotments eleven California communities were given outright grants aggregating \$374,040, assuring that many more projects at a total cost of \$826,207. Three Utah communities were granted \$43,648, clearing the way for additional improvements to cost \$96,906.

The two largest California grants went to the school districts of Santa Paula and Eureka. The former received \$69,850 for the rehabilitation of five school buildings at a total cost of \$160,224, and the latter was given \$69,545 with which to build a new \$154,545 shop building and to equip it.

Bakersfield was granted \$54,000 to build a \$120,000 fire station building. The Patterson Union High School District received a grant of \$45,000 with which to build a new \$100,000 school building. Laguna Beach was given \$39,947 to build extensions to its waterworks system at a total cost of \$88,771.

The other California grants were Wasco, granted \$37,755 for an \$83,900 school building;

Port Chicago, granted \$18,810 for additions to its present school building at a total cost of \$41,800;

Ukiah, granted \$13,685 for a \$30,411 suspension bridge;

Dixon, granted \$11,250 for a \$25,000 exhibit building;

Napa, granted \$7,650 for a \$17,000 sewer pipe line; and

Vernon, granted \$6,550 for street paving to cost a total of \$14,556.

In Utah, Tremonton received the largest grant of the day, \$29,018 with which to extend its waterworks system at a total cost of \$64,485.

Logan, Utah, was given \$7,691 for fire station improvements, and Provo received \$6,939 for waterworks pipe lines to cost a total of \$15,421.

Factory sales of mechanical stokers during Sept., 1938, amounted to 20,452 units, as compared to sales totaling 19,193 units during September, 1937, the Bureau of Census announces.

October U. S. Building Level Continues Over 1937 for Fourth Successive Month

Although down slightly from the heavy volume of the three preceding months, contemplated expenditures for building construction during October continued at a higher level than a year ago for the fourth successive month. Total volume of permits issued last month for 215 cities of the United States amounted to \$97,119,919, according to Dun & Bradstreet, Inc. This was only 4.6 per cent less than the September valuation of \$101,801,460, but marked a gain of 7.1 per cent from the \$90,712,493 for October, last year.

New York permit costs during October aggregated \$20,089,367, as against \$24,045,467 in the month preceding and \$30,051,768 for the comparative 1937 month. This represented declines of 16.5 and 33.2 per cent respectively. Outside of New York the 214 cities furnished a total of \$77,022,552, against \$77,755,993 in September, giving a loss of 0.9 per cent, but it was 27.0 per cent larger than the October, 1937, figure of \$60,660,725.

Group totals of building permit values for 215 cities for October, this year and last as shown in the following table:

Geographical Group	October 1938	October 1937
New England	\$6,659,066	\$5,163,200
Middle Atlantic	29,910,915	39,918,498
South Atlantic	9,476,889	7,610,841
East Central	18,939,433	15,932,096
South Central	9,488,325	8,245,822
West Central	4,573,015	3,440,800
Mountain	2,043,857	1,530,036
Pacific	16,021,096	9,571,100

Total U. S.	\$97,119,919	\$90,712,493
New York City	\$20,089,367	\$30,051,768
Outside N.Y.C.	\$77,022,552	\$60,660,725

	Building Permit Values (Monthly) (215 Cities)	
	1938	1937
Jan.	\$146,866,125	\$68,512,318
Feb.	54,010,213	85,829,336
Mar.	76,598,907	121,118,706
Apr.	84,842,365	117,598,966
May	77,606,469	98,370,954
June	87,636,427	94,752,583
July	140,803,564	91,334,405
Aug.	101,024,415	87,581,238
Sept.	101,801,460	86,769,028
Oct.	97,119,919	90,712,493
Nov.		69,588,965
Dec.		118,743,015
Total	\$1,130,915,007	

The following table compares the permit value total at twenty leading cities for the first ten months of 1938 and 1937:

City	Ten Months	
	1938	1937
Los Angeles		
New York		
N. Y.	\$320,877,381	\$211,650,602
Los Angeles

Tex.	21,818,690	16,040,005

WILEY ISSUES SPECIAL WALL LAMP RULING

S. F. Electricity Dept. Chief Publishes Order on "Pin-It-Up" Type Lamp

Requirements for the construction and sale of "pin-it-up" types of wall lamps yesterday were issued by Chief Ralph W. Wiley of the San Francisco Department of Electricity.

Chief Wiley's statement follows: "In accordance with the provisions of Ordinance Nos. 11,114 and 9120, of the City and County of San Francisco, the "Pin-It-Up" type of wall lamps, consisting of an assembly of lampholder, lamp shade, wall mounting, and portable cord, and arranged for installation by hanging said assembly on a small hook pinned to the wall, or a similar hanging method, shall not be offered for sale, sold, or offered as a premium, unless said wall lamps are constructed of approved materials assembled in accordance with the following requirements:

"1. An approved type porcelain or bakelite type of lampholder shall be installed.

"2. Where the rubber covered cord conductors are continuous from the attachment plug cap to the lamp terminals of the fixture, the wiring at the lamp terminals shall be covered with a supplementary heat resisting covering to a point outside of the lamp receptacle enclosure; or approved type fixture wire shall be installed and spliced to the rubber covered portable conductors behind the wall mounting. Where splices are made in the back of the wall mounting, the back portion of the wall plate containing said splices shall be covered with approved non-combustible coverings.

"3. Where switches for the control of the lamp are installed in the wall plate or mounting, a lock washer shall be installed to prevent the switch from turning.

"4. The flexible cord supplying the fixture shall be secured to the back of the wall plate or provided with a stop, in order to prevent the portable cord from placing a strain on the switch wiring terminals.

"5. The portable cord shall enter the wall plate or mounting through an approved bushing or a hole having well smoothed and rounded edges to prevent abrasion of the portable conductors"

New orders for steel office furniture taken during September, 1938, amounted to \$1,629,963, as compared to orders totaling \$1,537,675 taken during August, 1938, the Bureau of Census announces.

Series 220 windows are complete, factory-fitted, and factory-assembled double-hung window units of all - aluminum construction. The sash are metal glazed.

Plans for German Exhibit Cancelled

Germany this week cancelled plans to participate in the 1939 Golden Gate International Exposition at San Francisco.

Kurt Beyer, San Francisco manager of the German National Railroads which was designated by the German government to handle the German exhibit, notified Exposition officials that he had received a cablegram from Germany instructing him to stop any construction that might have been started and to cancel exhibit plans at California's World Fair.

A contract to build in the German National Railroad exhibit was signed last Wednesday with the contracting firm of P. J. Walker Company, San Francisco.

BALL-BEARING IDLER FOR BELT CONVEYORS

A ball-bearing idler, designated as Type 90, for conveyor widths of 14 to 24 inches is announced by the Link-Belt Company, 307 North Michigan avenue, Chicago. Information may be obtained without charge upon application to the company at the above address.

October U. S. Building Level Continues Over 1937 for Fourth Successive Month

WILEY ISSUES SPECIAL WALL LAMP RULING

S. F. Electricity Dept. Chief Publishes Order on "Pin-It-Up" Type Lamp

Requirements for the construction and sale of "pin-it-up" types of wall lamps yesterday were issued by Chief Ralph W. Wiley of the San Francisco Department of Electricity.

Chief Wiley's statement follows: "In accordance with the provisions of Ordinance Nos. 11,114 and 9120, of the City and County of San Francisco, the "Pin-It-Up" type of wall lamps, consisting of an assembly of lampholder, lamp shade, wall mounting, and portable cord, and arranged for installation by hanging said assembly on a small hook pinned to the wall, or a similar hanging method, shall not be offered for sale, sold, or offered as a premium, unless said wall lamps are constructed of approved materials assembled in accordance with the following requirements:

"1. An approved type porcelain or bakelite type of lampholder shall be installed.

"2. Where the rubber covered cord conductors are continuous from the attachment plug cap to the lamp terminals of the fixture, the wiring at the lamp terminals shall be covered with a supplementary heat resisting covering to a point outside of the lamp receptacle enclosure; or approved type fixture wire shall be installed and spliced to the rubber covered portable conductors behind the wall mounting. Where splices are made in the back of the wall mounting, the back portion of the wall plate containing said splices shall be covered with approved non-combustible coverings.

"3. Where switches for the control of the lamp are installed in the wall plate or mounting, a lock washer shall be installed to prevent the switch from turning.

"4. The flexible cord supplying the fixture shall be secured to the back of the wall plate or provided with a stop, in order to prevent the portable cord from placing a strain on the switch wiring terminals.

"5. The portable cord shall enter the wall plate or mounting through an approved bushing or a hole having well smoothed and rounded edges to prevent abrasion of the portable conductors"

New orders for steel office furniture taken during September, 1938, amounted to \$1,629,963, as compared to orders totaling \$1,537,475 taken during August, 1938, the Bureau of Census announces.

Series 220 windows are complete, factory-fitted, and factory-assembled double-hung window units of all - aluminum construction. The sash are metal glazed.

Although down slightly from the heavy volume of the three preceding months, contemplated expenditures for building construction during October continued at a higher level than a year ago for the fourth successive month. Total volume of permits issued last month for 215 cities of the United States amounted to \$97,11,919, according to Dun & Bradstreet, Inc. This was only 4.6 per cent less than the September valuation of \$101,801,160, but marked a gain of 7.1 per cent from the \$90,712,493 for October, last year.

New York permit costs during October aggregated \$20,089,367, as against \$24,045,467 in the month preceding and \$30,051,768 for the comparative 1937 month. This represented declines of 16.5 and 33.2 per cent respectively. Outside of New York the 214 cities furnished a total of \$77,022,552, against \$77,755,993 in September, giving a loss of 0.9 per cent, but it was 27.0 per cent larger than the October, 1937, figure of \$60,660,725.

Group totals of building permit values for 215 cities for October, this year and last as shown in the following table:

Geographical Group	October 1938	October 1937
New England	\$2,659,008	\$5,162,500
North Atlantic	29,910,915	29,918,499
South Atlantic	9,476,882	7,610,541
East Central	18,990,433	15,937,096
West Central	9,488,325	8,245,822
Mountain	4,573,015	3,440,800
Pacific	2,043,857	1,530,038
	16,021,066	9,571,100

Total U. S.	1938	1937
New York City	\$20,089,367	\$30,051,768
Outside N.Y.C.	\$77,022,552	\$60,660,725
Building Permit Values (Monthly)		
	(215 Cities)	

	1938	1937

Plans for German Exhibit Cancelled

Germany this week cancelled plans to participate in the 1939 Golden Gate International Exposition at San Francisco.

Kurt Beyer, San Francisco manager of the German National Railroads which was designated by the German government to handle the German exhibit, notified Exposition officials that he had received a cablegram from Germany instructing him to stop any construction that might have been started and to cancel exhibit plans at California's World Fair.

A contract to build in the German National Railroad exhibit was signed last Wednesday with the contracting firm of P. J. Walker Company, San Francisco.

BALL-BEARING IDLER FOR BELT CONVEYORS

A ball-bearing idler, designated as Type 90, for conveyor widths of 14 to 24 inches is announced by the Link-Belt Company, 307 North Michigan avenue, Chicago. Information may be obtained without charge upon application to the company at the above address.

29—STREETS AND HIGHWAYS

BIDS OPENED

STATE OF OREGON.—Bids were received and contracts awarded by the Oregon State Highway Commission, Public Service Bldg., Portland, for construction, as follows:

Baker County: Richland-Halfway Section of Baker-Homestead Highway involving about 22,000 c.y. screened gravel; 5000 c.y. crushed gravel in stockpile, 18 miles of oil material surfacing treatment. About \$46,000 available.

Awarded: Norris Bros., Burlington, Wash., \$55,494.

Other Bidders: Babler Bros., Portland, \$59,707; J. C. Compton, McMinnville, \$59,823; McNutt Brothers, Eugene, \$63,943; Mountain States Const. Co., Eugene, \$72,013; Homer G. Johnson, Portland, \$75,575.

Coos County: Charleston-Miner Creek Section of the Cape Arago Secondary Highway involving about 54,000 c.y. excav., 500 c.y. salvaged surfacing materials, 6000 c.y. crushed rock or crushed gravel surfacing materials. About \$36,000 available.

Awarded: Coos Bay Dredging Co., Marshfield, \$34,426.

Other Bidders: Leonard & Slate, \$35,277; Homer Johnson, Portland, \$37,324.

Gilliam County: Rock Creek-Morrow County Line Section of Wasco-Hepper Secondary Highway, involving about 76,000 c.y. excav. About \$32,000 available.

Awarded: H. L. Rice, 5816 SW Hood, Portland, \$32,445.

Other Bidders: Joplin and Eldon, Portland, \$38,462; Leonard & Slate, Multnomah, \$39,903; J. C. Papin, Carson, Wash., \$43,975; Fisher Brothers, Oregon City, \$45,628; Berke Brothers, Portland, \$45,982; Colonial Const. Co., Spokane, \$46,657; Parker Schram, Portland, \$48,169; J. A. Lyons, Portland, \$49,514; M. L. O'Neil & Son, Eugene, \$50,090; F. C. Dillard, Medford, \$50,346; A. C. Greenwood, Portland, \$51,610; Clifton and Applegate, Spokane, \$53,233; Homer G. Johnson, Portland, \$52,731; McNutt Bros., Eugene, \$54,442.

Jefferson County: Madrea-Deschutes County Line section of The

Dalles-California Highway, involving finishing and stockpiling about 7100 c.y. crushed rock. About \$13,000 available.

Awarded: Fisher Brothers, Oregon City, \$12,070.

Other Bidders: Clifton - Applegate, Spokane, \$12,425; H. L. Rice, \$12,709; Roges Const. Co., Dayton, \$13,040; A. S. Wallace, Roseburg, \$14,200; Saxton, Looney & Risley, Oak Grove \$14,413; O. C. Yocum, Willamina, \$14,850; R. O. Dall and Warren Brothers, Inc., Aberdeen, \$15,620; Schmeer, Williams and Gentemann, Portland, \$15,904.

Jackson County: North Unit Bear Canyon-State Line Section of Pacific Highway; Federal Aid Project No. 190-J (1); 2.29 miles grading. Requires 417,000 c.y. excavation; 250 c.y. concrete; 40,000 lbs. metal reinforcement; and placing of 1,000 c.y. surfacing.

Awarded: Harold Blake, 404 North Thompson, Portland, \$163,508.

Other Bidders: E. L. Gates, Flora, Ore., \$165,407; R. L. Houck, Salem, \$177,427; Burkhart Bros., Portland, \$179,332; McNutt Bros., Eugene, \$186,205; A. C. Greenwood, Portland, \$187,202; C. O. Dunn, Klamath Falls, \$191,235; Colonial Const. Co., Spokane, \$194,809; Leonard & Slate, Multnomah, \$213,938.

Klamath County: Main Street Underpassing in Klamath Falls; Federal Aid Grade Crossing, Proj. No. FAGM 37-A (1). Requires approximately 23,000 c.y. excavation; removal of 6,300 sq. yds. old pavement; removal of curbs, sidewalks, and catch basins; 2,300 l.f. 9-in. perf. corrugated iron pipe; 1,900 c.y. of crushed rock in base and surfacing; 6,000 sq. yds. concrete pavement; 1,250 c.y. Class D concrete; 110,000 lbs. metal reinf.; 240,000 lbs. structural steel; 1,700 sq. ft. membrane waterproofing; 430 sq. ft. asphalt plank; 910 l.f. steel handrail; 500 l.f. 30-inch cast iron pipe; pumping equipment; traffic signal system and electric wiring and lighting.

Awarded C. J. Montag, Couch Bldg. Portland, \$103,000.

Other Bidder: C. A. Dunn, Klamath Falls, \$116,423.

Klamath County: Odell Lake-Walkers Mountain Section of Willamette Highway; Federal Aid Projects Nos. 184-A (2) and 195-A (2); 23.0 miles surfacing and oiling; also furnishing 6,000 c.y. crushed rock in stock pile. Requires approx. 66,000 c.y. pit-run gravel; 36,800 c.y. crushed rock; and 1,030 tons asphaltic road oil.

Awarded: Fisher Brothers, Oregon City, \$131,466.

Other Bidders: Mountain States Const. Co., Eugene, \$131,476; Norris Bros., Burlington, \$132,863; A. Milne, Portland, \$133,513; E. C. Hall, Eugene, \$141,535; Babler Bros., Eugene, \$156,419,606; McNutt Bros., Eugene, \$156,431; Newport Const. Co. and Kern & Kibbe, Portland, \$162,611; Homer G. Johnson, Portland, \$172,541.

Umatilla County: State Hospital-Ash Street Unit of Pendleton Landscaping Project on Old Oregon Trail; Federal Aid Project No. 38-C (2). Requires construction of pump house; furnishing electrically driven pump; installing of pipe line irrigating system; and planting of 230 trees.

Low Bidder: Leonard and Slate, Multnomah, \$4144; referred to U. S. Bureau of Public Roads for clearance.

Other Bidders: Contracting & Sales Co., Inc., Portland, \$5499; Parker-Schram Co., Portland, \$5495.

Lincoln County: Newport Rock Production Project on Oregon Coast and Corvallis-Newport Highways, involving furnishing and stockpiling about 6000 c.y. crushed rock. \$12,200 available.

Awarded: E. F. Aitree, Agate Beach \$10,948.

Other Bidders: A. S. Wallace, Roseburg, \$12,325; R. O. Dail & Warren Bros., Aberdeen, \$12,974; Dolan Const. Co., Tillamook, \$14,470; F. C. Dillard, Medford, \$14,510.

Linn County: Maintenance bldg. at Albany. Project will involve about 1690 c.y. excav., 1380 ft. of woven wire fence; 1780 c.y. surfacing materials; 75 c.y. concrete; 550 ft. of 4-inch water main; 580 ft. of 5-inch sewer pipe; 2 gas tanks, 2 pumps, construction of brick bldg. about 48 ft x 84 ft. About \$14,000 available.

Awarded: Viesko and Hannaman, Salem, \$12,857.

Other Bidders: Keebler Bros., Lebanon, \$12,919; Frank Watt Const. Co., Portland, \$13,972; G. C. Richards, Albany, \$14,137; T. Y. McClellan, West Stayton, \$14,902; Teller Const. Co., Portland, \$16,356; Birkemeier & Sarnel, Milwaukie, \$17,354.

Linn County: Lebanon-Foster Section of Santiam Highway, involving furnishing and stockpiling about 7500 c.y. crushed rock or crushed gravel. About \$12,000 available.

Awarded: A. S. Wallace, Roseburg, \$10,840.

Other Bidders: D. L. Ashton, Lebanon, \$10,865; Saxton, Looney & Risley, Oak Grove, \$11,929; R. O. Dail and Warren Bros., Aberdeen, \$13,451.

Crook County: Ochoco Dam-Marks Creek Section of Ochoco Highway; Federal Aid Projects Nos. 175-B (2) and 175-C (2); 7.68 miles grading; 132 lf. composite trestle bridges; 10 miles surfacing and oiling; also furnish 4,400 c.y. crushed rock in stock piles. Requires approx. 213,000 c.y. excavation; 198 c.y. concrete; 24,000 lbs. metal reinf.; 43 MFEM treated and untreated lumber; 300 lf. concrete handrail; 69,400 c.y. crushed rock; and 570 tons asphaltic road oil.

Awarded: McNutt Bros., Eugene, \$171,865.

Other Bidders: Babler Bros., Portland, \$179,673; E. C. Gerber, Oregon City, \$180,201; Mountain States Const. Co., Eugene, \$195,553; Joplin & Eldon, Portland, \$198,773; C. A. Dunn, Klamath Falls, \$204,558; A. C. Greenwood Co., Portland, \$206,290; Roy L. Houck, Salem, \$208,138; E. C. Hall, Eugene, \$212,271; Homer G. Johnson, Portland, \$225,378.

Deschutes County: Roadside oasis at Brothers on Central Oregon Highway; Federal Aid Project No. 147-H (2). Requires construction of pump house; furnishing of pump and gas engine; installing pipe line irrigating system; construction of 98 rods of woven wire fence; and planting of 500 trees and shrubs and 3 acres of grass.

Awarded: D. L. Ashton, Lebanon, \$62,311.

Other Bidder: W. H. Philpott, Portland, \$65,669.

Malheur County: Jamieson - Lancaster Section of John Day Highway; Federal Aid Project No. 164-B (1); 7.04 miles grading, surfacing and oiling; construction of two 15-foot timber bridges; and furnish 2,700 c.y. crushed gravel in stock piles. Requires approximately 94,000 c.y. of excavation; 46 c.y. concrete; 7,400 lbs. metal reinf.; 19 MFEM treated lumber; 6,000 c.y. salvaged surfacing; 36,000 c.y. gravel roadbed topping; 4,000 c.y. crushed gravel; and 260 tons asphaltic road oil.

Awarded: Leonard & Slate, Multnomah, \$66,179.

Other Bidders: Triangle Const. Co., Boise, \$73,596; E. L. Gates, Flora, \$74,036; J. A. Terteling, Boise, \$75,413; Homer G. Johnson, Portland, \$77,400; McNutt Bros., Eugene, \$82,179.

Marion County: State Project. Construction of frame building approxi-

mately 28x162-ft. for car storage on the property of the Oregon State Highway Commission at the east city limits of Salem.

Awarded: C. A. Bahlberg, Salem, \$2242.

Other Bidders: Robert L. Foster, Salem, \$2391; Ervin E. Batterman, Salem, \$2426; Contracting and Sales Co., Portland, \$2490; Frank Watt Const. Co., Portland, \$2636.

Multnomah County: Corbett Station-Rooster Rock Section of Columbia River Highway; Federal Aid Project No. 248-A (1); 2.26 miles clearing; 0.37 mile grading and 1.15 miles rock toe embankment. Requires approximately 217,000 c.y. excavation; 25,800 lf. foundation piling; 1,070 c.y. concrete; and 112,000 lbs. metal reinforcement.

Low Bidder: Colonial Const. Co., W. 326 1st St., Spokane, \$129,430, referred to engineer.

Other Bidders: Leonard and Slate, Multnomah, \$133,460; Harold Blake, Portland, \$139,520; E. L. Gates, Flora, \$143,456; Berke Bros., Inc., Portland, \$144,485; Kuckenberger Const. Co., Portland, \$148,570; Oregon Contr. Co., Portland, \$151,295; K. L. Goulter, Seattle, \$151,848; J. A. Lyons, Portland, \$163,405; A. C. Greenwood, Portland, \$168,855; Parker-Schram, Portland, \$177,655; Joplin & Eldon, Portland, \$178,145; Kern & Kibbe, Portland, \$180,092; McNutt Bros., Eugene, \$180,781; Birkemeier & Sarnel, Milwaukie, \$184,176; J. C. Papan Carson, Wash., \$187,800; Hauser Const. Co., Portland, \$192,860; Homer G. Johnson, Portland, \$216,565.

Yamhill County: Sheridan-Polk Co. Line Section of Sheridan-Lincoln Co. Road; Federal Aid Project No. 261-B (1); 2.90 miles grading, surfacing and oiling. Requires approximately 8,600 c.y. excavation; 10,600 c.y. of rock or gravel surfacing materials; and 136 tons asphaltic road oil.

Awarded: O. C. Yokum, Willamina, \$18,887.

Other Bidders: Mountain States Const. Co., Eugene, \$19,401.00; J. C. Compton, McMinnville, \$21,487; Harold Blake, Portland, \$23,697; Warren Northwest, Inc., Portland, \$24,350.

Clatsop County: Olney-Jewell Section of Nehalem Secondary Highway, involving furnishing-stockpiling abt 6000 c.y. crushed rock. About \$12,400 available.

Awarded: D. L. Ashton, Lebanon, \$10,272.

Other Bidders: R. O. Dail & Warren Bros., Aberdeen, Wash., \$11,995; A. S. Wallace, Roseburg, \$12,275; Saxton, Looney & Risley, Oak Grove, \$12,900; Dolan Const. Co., Tillamook, \$14,730; Tidepoint Co., Astoria, \$17,520.

Douglas County: Umpqua River Bridge Section of Pacific Highway, involving about 500 c.y. struc. excav., 860 c.y. concrete, 115,000 lbs. metal reinf., 787,000 lbs. struc. stl., 525 ft. of handrail, 27,000 c.y. excav., single classification, 3200 c.y. gravel topping, 950 tons class A asphaltic concrete, 250 tons cutback asphalt in wearing surf., 700 c.y. crushed gravel in base and surfacing. About \$120,000 available.

Awarded C. J. Montag & Son, Couch Bldg., Portland, \$119,000.

Other Bidders: Mountain States Const. Co., Eugene, \$119,391; Theo. Arnez, Portland, \$120,853.

Jackson and Josephine Counties: Powers Ranch-Jacksonville Section of The Williams and Medford-Prout Secondary Highway, involving furnishing and stockpiling about 7700 c.y. crushed gravel. About \$13,000 available.

Low Bidder: R. I. Stuart & Son, Medford, \$11,195, referred to engineer.

Other Bidders: A. S. Wallace,

Roseburg, \$11,233; D. L. Ashton, Lebanon, \$12,226; Saxton, Looney & Risley, Oak Grove, \$14,925.

Jefferson County: Vanora-Madras Section of Warm Springs Secondard highway, involving about 56,500 c.y. crushed rock materials, placing about 5400 tons of bit. cem. About \$90,000 available.

Awarded: J. C. Compton, McMinnville, \$75,879.

Other Bidders: McNutt Bros., Eugene, \$78,423; O. C. Yokum, Willamina, \$83,246; Saxton, Looney & Risley, Oak Grove, \$85,633; A. Milne, Portland, \$85,782; Fisher Bros., Oregon City, \$86,204; Norris Bros., Burlington, Wash., \$89,442; Mountain States Const. Co., Eugene, \$91,497.

Sherman County: Moro-Waaco Co. Line Section of Sherman Highway, involving furnishing and stockpiling about 8700 c.y. crushed rock. About \$15,000 available.

Awarded: Rogers Const. Co., Dayton, Wash., \$13,833. Awarded by lot, similar bid submitted by H. L. Rice, 5816 S. 24th, Portland.

Other Bidders: Clifton & Applegate, Spokane, \$14,703; Fisher Bros., Oregon City, \$14,790; A. S. Wallace, Roseburg, \$15,360; Saxton, Looney & Risley, Oak Grove, \$16,008; R. O. Dail and Warren Bros., Aberdeen, Wash., \$17,400; Schmeer, Williams & Geste-mann, Portland, \$19,053.

Umatilla County: Pendleton - State Farm Section of Oregon-Washington Highway FAP 170-B (2). 7.43 miles grading and .57 mile oiling.

Awarded: M. L. O'Neill and Son, Eugene, \$74,900.

Other Bidders: Roy Houck, Salem, \$75,440; Leonard & Slate, Multnomah \$76,001; Newport Const. Co. and Kern & Kibbe, Portland, \$79,492; E. L. Gates, Flora, Ore., \$81,869; Harild Blake, Portland, \$82,173; Fisher Bros., Oregon City, \$83,799; McNutt Bros., Eugene, \$84,105; White Trucking Co., Walla Walla, \$86,503; Clifton & Applegate, Spokane, \$86,756; Diesel Oil Sales Co., Seattle, \$99,356; J. A. Lyons, Portland, \$93,912; Homer G. Johnson, Portland, \$94,079; Colonial Const. Co., Spokane, \$96,754; A. C. Greenwood & Co., Portland, \$97,141.

CONTRACT AWARDED

WHIPPLE, Yavapai County, Ariz.—Pearson and Dickerson, Inc., Prescott, Ariz., at \$12,609 awarded contract by the Veterans Administration, Room 764, Arlington Building, Washington, D. C., under Project No. 1566, for construction and finishing complete entrance road at Veterans Administration Facility, Whipple, Arizona.

LOW BIDDER

GILA COUNTY, Ariz.—Lee Moor Contr. Co., Bassett Tower Bldg., El Paso, at \$273,981.00 submitted low bid to the Arizona State Highway Commission, Phoenix, for highway construction on the Globe - Showlow Highway, F. A. 99-D, A. E. F. and F. L. 6-B (1939). The work, which begins about 50 miles northeast of Globe and extends southwesterly about 29.5 miles (unless the project is cut back as provided in the contract), consists of subgrading roadway and refinishing slopes; furnishing and placing select materials, SC-6 road oil plant mix, Type B seal coat and asphaltic surface treatment; and is to be completed on or before October 31, 1939.

31—PIPE LINES & WELLS

November 23, 1938

BIDS WANTED

LOS ANGELES COUNTY, Calif.—As previously reported until December 12, 2 P. M., bids will be received by the Metropolitan Water District, 306 West Third St., L. A., for the construction of precast concrete or welded steel-plate pipe lines and appurtenant works for the Long Beach, Torrance, and Compton laterals of the Colorado River Aqueduct distribution system, Spec. 293. The work is located in the City of Los Angeles, and in unincorporated territory of the County of L. A. Proposals will be received for two alternative types of pipe line construction. The lengths, diameters, and types of pipe required for the respective schedules are as follows:

(P) Lock-joint steel cylinder reinforced precast concrete pipe: Sch. 26: 4.7 miles of 36-in. pipe; Sch. 27: 1.2 miles of 30-in. pipe; Sch. 28: 1.3 miles of 21-in. pipe.

(C) Welded steel-plate pipe with Gunite exterior coating and centrifugally applied (spun) mortar lining; Sch. 26, 4.7 miles of 37-in pipe; Sch. 27: 1.2 miles of 3-in. pipe; Sch. 28: 1.3 miles of 22-in. pipe.

Award will not be made for less than all the items in a schedule. Schedules 26P and 26SC for the construction of the Long Beach lateral are alternative and both will not be awarded. Schedules 27P and 28P likewise alternative to Schedules 27SC and 28SC for construction of the Torrance and Compton laterals respectively, and award will not be made under said schedules for more than one type of construction. A bid on either Schedule 27P or 28P will not be considered unless the bidder submits a proposal for both of said schedules; and an award if made thereunder will not be made for less than both of said schedules in a single contract. Similarly, a bid on either Schedule 27SC or 28SC will not be considered unless the bidder submits a proposal for both; and an award if made thereunder will not be made for less than both of said schedules in a single contract. Subject to the foregoing conditions the bidder may make any stipulations

he desires regarding combination of Schedule 26P or 26SC with the pair of Schedules 27P and 28P or with the pair of Schedules 27SC and 28SC. Plans will not be ready until Nov. 23, after which time copies may be obtained at Room 107, 306 West Third St., L. A., upon payment of \$5.00, not returnable. Certified or cashier's check for 10% must accompany each proposal. F. E. Weymouth, Chief Engineer.

The schedule and items are:

Table with 3 columns: Item description, Quantity, and Price. Includes items like (1) Trench excav., cu. yds.; (2) Excav. for struc., cu. yds.; (3) Backfill, cu. yds.; (4) Rock refill, tons; (5) Conc. in struc., cu. yds.; (6) Conc. in grade, cu. yds.; (7) Precast concrete pipe, diam. 36 in., in. ft.; (8a) With std. lock-joints; (8b) With welded lock-joints; (9) Precast concrete pipe, diam. 21 in., in. ft.; (9a) With std. lock-joints; (9b) With welded lock-joints; (10) Furn. and placing steel cyl. reinf. in 86-in. PCP, lin. ft.; (10a) 13 gauge; (10b) 12 gauge; (10c) 3/4-in. plate; (11) Furn. and placing steel cyl. reinf. in 30-in. PCP, lin. ft.; (11a) 14 gauge.

32— SEWERS & SEWAGE DISPOSAL PLANTS

CONTRACT AWARDED
 LOS ANGELES, Calif.—Peter S. Tomich, 3053 Carlyle St., at \$29,180.65 awarded contract by Los Angeles board of public works for construction of sanitary sewers in Vantage Ave. bet. Cantura St. and Laurel Terrace Drive, under the 1911 Act.

CONTRACT AWARDED
 LOS ANGELES, Cal.—Bennett and Taylor, 598 San Fernando Road, at \$31,948 awarded contract by the Los Angeles board of public works for remodeling work at the Manchester Ave. sewage pumping plant, PWA project 1625-F, AC 66012.

BIDS OPENED
 SAN BENITO CO., Calif.—Jess Paullus, 659 Central Ave., Hollister, at \$3,058.37, submitted low bid and was recommended for award (subject to PWA approval) by the Board of Directors of Pacheco Pass Water District, L. G. Barrett, Secretary, Bank of America Building, Hollister, for the construction of Las Viboras betterments in San Benito County.
 Total bids follow:
 Jess Paullus, Hollister \$3,058.37
 Bennett & Taylor, L. A. 3,897.22
 Dan Caputo, San Jose 4,351.50
 Underground Constr. Co., Berkeley 5,195.50
 Engineer's estimate 3,025.00

BIDS WANTED
 OROVILLE, Butte Co., Calif.—Until November 28, 10 A. M. (opened 10:30 A. M.), bids will be received by the Directors of North Burbank Public Utility District of Butte County, Calif., for the construction of sanitary sewer system consisting of sewer, mains and laterals located about one mile south of Oroville.
 Work includes:
 (1) 2,100 l.f. 10-in. sewer mains;
 (2) 5,500 l.f. 8-in. sewer mains;
 (3) 29,500 l.f. 6-in. sewer laterals;
 (4) 100 manholes;
 (5) 37 lampholes.

Plans and specifications may be obtained from Edward van Geldern, Engineer of North Burbank Public Utility District, Yuba City, Calif., upon deposit of \$10.00.

BIDS WANTED
 DECOTO, Alameda Co., Calif.—Until December 6, 8 P. M., bids will be received by the Decoto Sanitary District, Secretary, Firehouse Building, Decoto, for construction of Sewerage System Unit No. 1, Treatment Plant and appurtenances. PWA grant \$45,000; bond issue \$56,000.
 Work involves:

- (1) 900 c.y. excavation for Imhoff tank;
- (2) Grading for filter beds, sludge beds, roadway and dikes, (a) 7,000 c.y.; (b) 1200 c.y.;
- (3) 135 c.y. Portland cement concrete in place, Imhoff tanks, slabs, foundations, pits, etc.;
- (4) Lumber, exclusive of operations building and forms: (a) 2.3 M F B M; (b) 1,000 MFEM;
- (5) 8-in. vit. clay pipe; (a) 1900 l.f.; (b) 2400 l.f.;
- (6) 10-in. vit. clay pipe; (a) 2200 l.f.; (b) 1560 l.f.;
- (7) Cast iron pipe and fittings; (a) 4000 lbs.; (b) 9250 lbs.;
- (8) 4-in. gate valves; (a) four; (b) five;
- (9) 4-in. plug valves; (a) two; (b) two;
- (10) 8-in. gate valves; (a) two; (b) one;
- (11) 8-inch Calco valve slide head gates; (a) one; (b) one;
- (12) 10-inch Calco slide head gates; (a) three; (b) prepare area for furrow irrigation;
- (13) 8-inch shear gates; (a) three; (b) three;
- (14) 10-in. shear gates; (a) one; (b) one;
- (15) reinforcing steel; (a) 17,000 lbs.; (b) 7,000 lbs.;
- (16) structural steel; (a) 5000 lbs.; (b) 500 lbs.;
- (17) 6-inch water bound macadam roadway; (a) 6000 sq. ft.; (b) 6000 sq. ft.;
- (18) 1/2 inch corr. metal pipe; (a) 52 l.f.; (b) 52 l.f.;
- (19) 2 special manholes;
- (20) pumps, motor and pressure system;
- (21) sludge and affluent pump with gas engine;
- (22) bar screens, grit and screen chamber;
- (23) power supply line and poles;
- (24) operations building, wood, frame and stucco with shingle roof, 20x34-foot.

Lump sum bids will be received on either (a) or (b).
 Plans and specifications may be obtained from the above office or from the City Engineer, City Hall, Hayward, upon deposit of \$20, returnable.

BIDS WANTED
 LOS ANGELES CO., Calif.—Until December 15, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for construction and installation of sanitary sewers on Fremont Avenue between First St. and Diamond St., on Diamond St. between Fremont Ave. and North Figueroa St., and on North Figueroa St. between Diamond St. and Temple St., on a portion of the State Highway in the City of Los Angeles.
 Work involves:

- (1) Clear and grub;
- (2) 18,000 c.y. rdwy. excav., unclass;
- (3) 5,000 c.y. struc. excav.;
- (4) 50 c.y. remove concrete;
- (5) 3 each drop manholes, type S;
- (6) 3 each manholes, type B;
- (7) 1 each flushing struc. No. 2;
- (8) 1 each reconstruct exist. manhole;
- (9) 80 l.f. 6-in. vit. clay pipe;
- (10) 1,250 l.f. 8-in. vit. clay pipe extra strength;

- (11) 7 c.y. Class A Portland cement conc. pipe relinf.;
 (12) 35 c.y. Class A Portland cement concrete sidewalks;
 (13) 1 lot misc. items of work.
- Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. * 32

33— WATER WORKS

BIDS WANTED

VENTURA, Ventura Co., Cal.—Un-til Dec. 5, 5 P. M. (opened at 7:30 P. M.) bids will be received by the Ventura city council for the construction of a water treatment plant on the Ventura-Ojai road, 6 miles north of Ventura, in accordance with plans and specifications prepared by the engineers, Taylor & Taylor, 725 S. Spring St., Los Angeles, from whom copies may be obtained upon deposit of \$20, returnable. Certified or cashier's check or bid bond for 10% must accompany each proposal. Grace Woodruff, city clerk. * 33

34— PARKS AND PLAY-GROUNDS

BID REJECTED

SANTA CLARA, Santa Clara Co., Calif.—Procurement Division, Public Buildings Branch, Washington, D. C., rejected only bid received for landscape work at the U. S. P. O., at Santa Clara.

Plans will be revised and re-advertised. Previous low bid submitted by West Construction Co., San Francisco, at \$837 * 34

35— TUNNELS

LOW BIDDERS

PROVO RIVER PROJECT, Utah.—George K. Thompson Company, 704 So. Spring Street, Los Angeles, submitted low bid to the U. S. Bureau of Reclamation, Provo, Utah, under Spec. No. 808, for the construction of the Olmsted and Alpine-Draper tunnels for the Salt Lake Aqueduct, Aqueduct division, Provo River Project, Utah.

Low bidders were:
 Geo. K. Thompson Co., L. A., Sch. 1—\$129,087.50; Sch. 2—\$130,417.88. Sch. 3—\$617,448; Sch. 4—\$625,888.

R. G. Clifford, San Francisco, Schs. 1 and 3—\$132,535, \$666,848; Schs. 2 and 4—\$133,533; \$666,248.

W. W. Clvde and Company, Springfield, Utah, Sch. 1—\$130,808.

Stroud-Seabrook and Elliott, L.A., Sch. 2—\$135,828.75.

L. E. Dixon Co., L. A., Schs. 3 and 4—\$676,488, \$681,668. * 35

TO ASK BIDS SHORTLY

FORTLAND, O.e.—The U. S. Bureau of Public Roads, Portland, will ask for bids shortly for the construction of tunnel lining, paving and approach structures, tunnel station 1498 plus 15, Willamette Highway, Oregon Forest Highway Project 21-J3-K2. Contract involves approximately 925 l.f. concrete lining and pavement, masonry portals, electric lighting, 250 l.f. reinforced concrete viaduct and approach masonry walls and main guard rail. Preparation of certain phases of the special provisions may delay this advertisement until too late to examine the project in the field, and in order that interested contractors may be in a position to submit bids when called for in the near future, they are advised to examine the project at once

before snow conditions make the project inaccessible.

Information regarding plans may be obtained at the office of the Bureau of Public Roads, 316 New Post Office Bldg., Portland. * 35

LOS ANGELES COUNTY—GRADING AND PAVING—(State)

LOS ANGELES CO., Calif.—Match Bros., Elsinore, at \$70,345 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 1.4 miles of grading and paving with Portland cement concrete at San Martinez Chiquito Canyon, Los Angeles county.

Work involves:

- (1) 76 sta. clear and grub;
- (2) 1,500 M. gals. water;
- (3) 1,700 c.y. remove concrete;
- (4) 86,500 c.y. rdwy. excav., unclass.
- (5) 3,900 c.y. struc. excav.;
- (6) 2,700 c.y. ditch and channel excavation;
- (7) 310,000 sta. yds. overhaul;
- (8) 15,000 sq. yds. preparing subgrade;
- (9) 76 sta. finish rdwy.;
- (10) 1,600 sq. yds. asph. paint binder;

- (11) 18 tons liq. asph. SC-2 (prime coat);
- (12) 750 tons min. agg. plant mix surfacing;
- (13) 40 tons liq. asph. ROMC-4 or -5, plant mix surf.;
- (14) 17,000 sq. yds. preparing, mixing and shaping shoulders;
- (15) 210 tons liq. asph. SC-1A or SC-2 road mix surf. treat.;
- (16) 3,000 c.y. Class A Portland cement concrete pavement;
- (17) 8 sections pave. crossing devices, type C;
- (18) 65,000 lbs. bar reinf. steel;
- (19) 5,550 each pave. dowels;
- (20) 550 c.y. Class A Portland cement conc. struc.;
- (21) 230 l.f. 8-in. CMP;
- (22) 680 l.f. 24-in. CMP;
- (23) 250 l.f. 36-in. CMP;
- (24) 210 l.f. remove, clean and sal-

- vage existing CMP;
- (25) 8 each spillway assemblies;
- (26) 26 each culvert markers.

Total bids follow:

- (A) Match Bros., Elsinore, \$70,345.
- (B) J. E. Haddock, Ltd., Pasadena, \$70,711.00.
- (C) Griffith Co., L. A., \$73,544.00.
- (D) C. G. Willis & Sons, Inc., Los Angeles, \$77,298.00.
- (E) C. O. Sparks & Mundo Engineering Co., Los Angeles, \$78,259.50.

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Until Nov. 23, 2:00 P. M., bids will be received by the Forest Service Depot, Frank Haynie, Supply Officer, Government Island, under Bid No. 6219, for flashlights; f.o.b. Government Island.

GOVERNMENT ISLAND, Calif.—Until Nov. 28, 2:00 P. M., bids will be received by Forest Service, Frank Haynie, Representative Regional Bd. of Survey, Government Island, Calif., under Bid No. 6218, for the sale of blasting caps and blasting fuse. This material is stored at the plant of the Trojan Power Co., Robert, Calif.

RECLAMATION BUREAU

CENTRAL VALLEY PROJ.—Until Nov. 28, 2:00 P. M., bids will be received by the Bureau of Reclamation, V. H. Thompson, Purchasing Agent, Custom House, Denver, Colo., under Bid No. 33,016-A, for deformed intermediate grade billet steel reinforcement bars for concrete; f.o.b. Redding, Calif.

RECLAMATION BUREAU

COLUMBIA BASIN PROJ.—Until November 30, 2 P. M., bids will be received by the Bureau of Reclamation, V. H. Thompson, Purchasing Agent, Custom House, Denver, under Bid No. A-38,215-A, for 1,700,000 lbs. of 3/4-inch size bars; fob Odair, Washington.

WAR DEPARTMENT

FORT MASON, Cal.—Until Dec. 2, 10:30 A. M., bids will be received by Quartermaster Supply Officer, San Francisco General Depot, Ft. Mason, San Francisco, under Bid No. 928-39-161, for furnishing five hammers; fob above office.

FORT MASON, Cal.—Until Nov. 20 10 A. M., bids will be received by the Constructing Quartermaster, Maj. F. D. Jones, Fort Mason, under Bid No. QM-W-6616-39-41, for furnishing all finished hardware for the construction of a War Department Theatre at the Presidio of San Francisco; fob above office.

Plans and specifications may be obtained from the above upon deposit of \$10.00.

SACRAMENTO, Calif.—Until Nov. 29, 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1105-39-121, for one print dryer, photostat, equipped with electric heating element; fob Sacramento.

SAN FRANCISCO.—Until Nov. 28, 3 P. M., bids will be received by the District Engineer, U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. 668-39-155, for furnishing and operating one diesel powered tractor and hauling scrap-

er, for excavating approximately 5,000 cu. yd. of sand and moving it an average distance of approximately 1000 feet.

Plans and specifications may be obtained from the above office.

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Dept., Washington, D. C., for furnishing supplies and materials, as follows:

SCH. 900-2193: Spare parts for airplanes (aluminum alloy, extruded shapes) for San Diego; Dec. 2;
SCH. 4904: 48,750 compressed cork space blocks for Hingham, Mass., Iona Island, N. Y., and Portsmouth, Va.; 42,000 do for Mare Island and Puget Sound; Dec. 6;
SCH. 4908: 4,050 hacksaw frames for Philadelphia, Norfolk and Sewall's Point; 1,770 do for Mare Island and Puget Sound; Dec. 6;
SCH. 4916: Tubing steel and copper, bonded lead-lined, for Mare Island and Puget Sound; Dec. 6;
SCH. 4938: one motor-in-head type double surface planer, motor driven, and spares for eastern or western yards; Dec. 9;
SCH. 5930: 2 generators, 5-kva., for San Diego; Dec. 9;

SCH. 4029: 1 gasoline engine driven generator set for San Diego; December 9;

SCH. 4925: 1 oil-fired melting furnace for Puget Sound; Dec. 9;
SCH. 4927: valves and cocks, composition for eastern yards and Puget Sound; Dec. 6;

SCH. 900-2198: 9,080 rollers, aileron control operating tube bearing, rubber-faced, for PBV-1, -2 -3 and -4 airplanes for San Diego; Dec. 2;

SCH. 4964: 20,000 ft. hanksaw blades for Washington; Dec. 6;

SCH. 4940: 240,000 lbs. pig lead for Philadelphia and Sewall's Point; 21,300 lbs. do for San Diego and Puget Sound; 2,850 lbs. sheet lead for Boston and Philadelphia; 41,160 lbs. do for western yards; approx. 115,000 lbs. sheet lead for 27,000 lbs. do for western yards; Philadelphia and Sewall's Point; Dec. 9;

SCH. 900-2191: Spare parts for airplanes for San Diego and Quantico; Dec. 2;

SCH. 4966: Approx. 110,000 lbs. plate steel for Washington; Dec. 6;

SCH. 4955: Motor driven vertical wood boring machine for Puget Sound; Dec. 9;

SCH. 4958: 1 pneumatic drop hammer for Puget Sound; Dec. 9;

SCH. 4983: 5,000 ft. plow steel wire rope, 1 1/2-in. dia. for Washington; Dec. 6.

Arundel Corp., L. E. Dixon Low Bidders On Upper Narrows Dam; Pollock Second

SACRAMENTO, Nov. 29.—Arundel Corporation and L. E. Dixon, Los Angeles, at \$2,175,271.50, today submitted the low bid to the U. S. Engineer Office for construction of the Upper Narrows Debris Control Dam on the Yuba River.

George R. Pollock Company, at \$2,195,098.25, submitted the second lowest proposal, followed by Winston Brothers Construction Company, at \$2,325,266.50.

Complete total bids follow:

- Arundel Corp. and L. E. Dixon Company \$2,175,271
- Geo. R. Pollock Co. 2,195,098
- Winston Bros. Const. Co. 2,325,266
- California Constructors... 2,324,775
- Bent Brothers, Inc. and Griffith Company 2,339,782
- Hanrahan-Connolly Co. 2,550,048
- A. Teichert & Son, Inc., and D. W. Thurston 2,562,295
- MacDonald & Kahn Co. 2,871,537
- Bates and Rogers Construction Co. 2,953,491
- Guy F. Atkinson & Kier 3,088,863

The Upper Narrows Debris Control Dam for which bids were opened today will be of the concrete arch type with a crest length of 1153 feet. It will rise 265 feet above the main foundation bed-rock.

The spillway will be of the overflow type, discharging over the central portion of the dam.

The dam will be constructed on the Yuba River in Yuba and Nevada Counties, approximately 25 miles easterly of Marysville by road.

Approximately 231,500 cu. yds. of concrete excavation and placing of 334,410 cu. yds. of concrete will be required to finish the structure, according to engineers.

Principal items include: diversion and care of the river during construction and unwatering of foundations; 206,000 cu. yds. of excavation for foundations of the dam above elevation 295; 337,000 barrels unloading and storing cement; 331,800 cubic yards of Class B concrete in dam; and 75,000 cu. yds. of pipe and fittings for foundations, tunnel grouting, and radial contraction joint grouting.

RIEDY SLATED FOR CITY POST

Dodge A. Riedy, widely-known San Francisco architect, achieved the highest rating in the examination for the position of city architect held November 28, the Civil Service Commission announced yesterday.

The examination was held to establish a successor to Chas. H. Sawyer, present city architect, who retires today. Mr. Riedy is known throughout the West as the designer of all types of buildings, notably schools, club buildings, and similar large structures.

San Leandro Sewage Plant Readvertised

Rejecting all bids previously received, the San Leandro city council this week readvertised the contract for construction of a municipal sewage pumping and treatment works.

New bids are to be opened December 19, it was announced yesterday. The job involves construction of either cast-in-place or pre-cast concrete pile foundations and approximately 1200 cubic yards of reinforced concrete structures, pipe work and equipment for a primary sedimentation and separate sludge digestion sewage treatment plant, with provision for garbage grinding and digestion with sewage sludge.

Harry N. Jenks of Palo Alto, is consulting engineer for the project. Fred J. Early, Jr., San Francisco, was low bidder when proposals were first opened.

NOVEMBER S. F. BUILDING BEST IN TWO YEARS

\$3,837,000 Total Tops Preceding Months; 1938 Figure Over Last Year

Registering a building permit total which surpassed that of every month, this year and last, construction in San Francisco this month boosted the eleven-month permit total for 1938 over the figure for the same period in 1937, Chief Clerk S. J. Rosenblum of the Central Permit Bureau announced yesterday.

For the first time since January the 1938 permit total exceeded the 1937 aggregate for a similar period, with \$21,112,003 on the books for the first eleven months of 1938, as compared to \$19,314,609 for the same months in 1937.

Seven hundred and seventy-nine permits were issued in November for construction valued at \$3,837,882, more than three times the November, 1937, figure of \$1,152,485, and well over the October total of \$1,858,596.

Frame construction gained strongly during November with 275 permits issued for construction costing \$1,226,300, as compared to 110 permits issued in November, 1937, for work costing \$483,423.

Contributing to the heavy November total were six permits for work at George Washington High School, Laguna Honda Home, Portola Junior High School and San Francisco Hospital, costing \$1,291,903 in the aggregate.

Following are the classified building permit tables for November, this year and last:

Class.	No., 1938	Nov., 1937	Nov., 1937
	No. Est. Cost	No. Est. Cost	
A	5	1	\$ 89,690
B	4	7	31,500
C	275	110	483,423

21— BRIDGES

CONTRACT AWARDED

ALPINE COUNTY, Cal.—Johnston Rock Co., Inc., Weber Ave. and "E" St., Stockton, at \$82,049.50 awarded contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for grading and constructing a bridge on 3,239 miles of Section B of Rte. 87, the Clark Fork National Forest Highway, Stanislaus National Forest, Alpine County. * 21

COMPLETE BIDS

SEATTLE, Kings Co., Wash.—Following submitted bids to the State of Washington Toll Bridge Authority, Highway Building, Olympia, for construction of the Lake Washington Bridge, PWA Project 1180F.

Bridge will be a reinforced concrete pontoon bridge over Lake Washington between the City of Seattle and the northerly end of Mercer Island together with approaches on westerly end to and in City of Seattle to connection with existing city streets including approach tunnels and necessary grade separation structures and side road connection and approach on easterly end to and over Mercer Island across the easterly arm of Lake Washington and to a connection with existing secondary State Highway 2-A, including necessary grade separation structures and side road connections, a distance of about 6.65 miles in the City of Seattle, King Co.

Construction provided for in 11 units, as follows:

UNIT 1: Clearing, grading, draining, paving with Portland cement concrete, construction reinforced concrete bridges and complete lighting system on about 0.66 miles of city streets in City of Seattle, involving about 143,600 cu. yd. excavation, 29,800 sq. yd. cement concrete pavement, 642 tons steel reinf. bars, 4984 cu. yd. concrete, etc., \$400,000 available.

UNIT 2: Tunnels, clearing, grading, draining, paving with Portland cement concrete, constructing lighting system on about 0.48 miles of city streets involving about 111,300 cu. yd. tunnel excavation, 47,900 cu. yd. excavation, 25,850 cu. yd. concrete, 823 tons steel reinforcing bars, 3300 sq. yd. cement concrete pavement, etc. \$1,100,000 available.

UNIT 3: Reinforced concrete and structural steel bridge over city sts. and portions of Lake Washington, about 0.20 miles and effecting connections on westerly end of pontoon bridge provided for Unit 4, involving

about 1156 tons of structural steel, 466 tons of steel reinforcing bars, 1858 cu. yd. concrete, etc. \$400,000 available.

UNIT 4: Reinforced concrete pontoon bridge over Lake Washington for about 1.25 miles together with lighting system with mechanical and electrical system for operation of movable span involving about 46,774 cu. yd. concrete, 8040 tons steel reinf. bars, 1367 tons structural steel, etc. \$2,500,000 available.

UNIT 5: Reinforced concrete and structural steel bridge over portion of Lake Washington and on Mercer Island, about 0.18 miles effecting connection on easterly end of pontoon bridge to Mercer Island, involving about 991 tons of structural steel, 543 tons steel reinf. bars, 1853 cu. yd. concrete, etc. \$400,000 available.

UNIT 6: Clearing, grading, draining, paving with Portland cement concrete portion of approach highway on west side of Mercer Island, about 1.28 miles involving about 416,970 cu. yd. excavation, 69,030 sq. yd. cement concrete pavement, etc. \$400,000 available.

UNIT 7: Reinforced conc. grade separation structure on approach highway on Mercer Island, together with toll houses and administration building and lighting system in vicinity of toll plaza, involving about 5836 cu. yd. concrete, 740 tons steel reinforcing bars, etc. \$270,000 available.

UNIT 8: Clearing, grading, draining, and paving with Portland cement concrete portion of approach highway on east side of Mercer Island for about 1.46 miles, involving about 326,000 cu. yd. excavation, 47,600 sq. yd. cement concrete pavement and other items. \$370,000 available.

UNIT 9: Structural steel and reinforced concrete bridge over easterly arm of Lake Washington from Mercer Island to easterly side of Lake for about 0.26 miles and involving about 1693 tons of structural steel, 460 tons steel reinforcing bars, 6630 cu. yd. concrete, etc. \$500,000 available.

UNIT 10: Clearing, grading, draining and paving with Portland cement concrete a portion of approach highway on east side of Lake Washington for about 0.40 miles involving about 108,200 cu. yd. excavation, 22,800 sq. yd. cement concrete pavement, etc. \$160,000 available.

UNIT 11: Reinforced concrete viaduct on approach highway over Mercer Slough to connection with Secondary State Highway 2-A, about 0.49 miles involving about 13,850 cu.

yd. concrete, 1717 tons steel reinforcing bars, 380 tons of structural steel, etc. \$700,000 available.

Complete bids follow:

H., Norfolk (Portsmouth), Va., New York (Brooklyn, N. Y., Boston, Mass., Charleston, S. C., and Puget Sound (Bremerton, Wash.). Est. cost, \$325,000.
Other low bidders were:
Ohio Locomotive Crane Company, Bucyrus, Ohio, \$280,870.
Industrial Brown Hoist, Bay City, Mich., \$288,440. * 25

CONTRACTS AWARDED

COLUMBIA BASIN PROJ., Wash.—Contracts for turbines and governors for Grand Coulee power plant, Columbia Basin proj., Wash.; Spec. 786, have been awarded by Bureau of Reclamation, Washington, D. C., as follows: Newport News Shipbuilding & Dry Dock Co., Newport News, Va., three 150,000-h.p. turbines at \$1,477,200 fob Newport News; Woodward Governor Co., Rockford, Ill., three oil pressure actuator type governors with pump equipment for regulating speed of turbines at \$67,854.00. * 25

CONTRACT AWARDED

COLORADO—Big Thompson Proj., Colo.—Newport News Shipbuilding & Dry Dock Co., Newport News, Va., has been awarded contract by Bureau of Reclamation, Washington, D. C., at \$128,470 for three 11,500-h.p. turbines for the Elephant Butte power plant and at \$97,790 for two same for the Green Mt. power plant; Woodward Governor Co., Rockford, Ill., the contract at \$35,919 for three governors for Elephant Butte power plant, and at \$23,946 for two same for Green Mt. power plant, Colorado—Big Thompson project. * 25

BIDS OPENED

LOS ANGELES Cal.—H. & J. Truck Co. and Belyea Truck Co. submitted identical bids to State Highway Department, Los Angeles, for rental of low bed trailer equipment. The bids were: 15-ton maximum net load, \$5.50 hour; 15 to 24 ton net load \$6 hour; 24 to 40 ton net load \$7 hour; over 40 tons net load, \$8; all standby time \$4.00 hour. * 25

BIDS OPENED

FORT MASON, Calif.—Healy-Tibbitts Constr. Co., 110J Evan Street, S.F., at \$123.00 per month, submitted low bid to the Constructing Quartermaster, Major F. D. Jones, Fort Mason, under Bid No. QM-6616-39-42, for the rental of one Gasoline hoist, bucket and hopper; f.o.b. Presidio of San Francisco.

Complete bids follow:

Healy-Tibbitts Constr Co., \$123.00 per month.
Eaton & Smith, \$140.00.
Edward R. Bacon Co., \$175.00.
Industrial Equip. Co., \$325.00. * 25

LOW BIDDER

SAN DIEGO, Calif.—Diesel Motor Sales & Service Co., 2331 E. Olympic Blvd., Los Angeles, at \$5633 submitted low bid to Bureau of Yards & Docks, Navy Dept., Washington, D. C., for Diesel engine-driven generator for destroyer base, San Diego; Spec. 8963. * 25

CONTRACT AWARDED

BOULDER CANYON PROJECT—Hendrie & Bolthoff M. & S. Co., Denver, at \$46,000 awarded contract by the U. S. Bureau of Reclamation, Denver, under Spec. No. 1126-D, for furnishing and delivering a 10-ft., 16-ft., extension, motor-driven, vertical boring mills for installation in the Boulder Power Plant, Boulder Canyon Project; fob shipping point and/or Boulder City, Nev. Boring mill will be installed by the Government. * 25

27—WPA PURCHASES, RENTALS

November 30, 1938

CONTRACT AWARDED

SAN FRANCISCO—Monolith Portland Cement Co., at \$26,920, awarded contract by the U. S. Treasury Dept., 49 Fourth St., San Francisco, under Bid No. 6341, for furnishing 20,000 bbls. of Portland cement for use at various points on WPA projects.
The bid of Monolith Portland Cement Co. was \$1346 per bbl., net, f.o.b. Monolith, Kern County.
Bids on contracts for hauling the cement were taken recently and are under consideration by Treasury Department officials. * 27

29— STREETS AND HIGHWAYS

CONTRACT AWARDED

LOS ANGELES, Cal.—Parish Bros. Eldridge, at \$32,657.00 awarded contract by the Colorado River Indian Irrigation Project, Los Angeles, Nov. 25 for reconstruction and resurfacing with oil road mix to approx. 2 miles of Metropolitan Water District highway, two miles east of Earp, Calif. Inv. 497. The proposed work consists of reconstruction and raising of approximately 11,000 ft. of highway necessary because of the installation of the diversion dam for the Colorado River project and involves relocation of 4700 ft. of highway and raising of the grade of

6300 ft. The construction is in two different locations, the first two miles above Earp and involves relocation of 4700 ft. of highway and raising 2200 ft. of roadway; the second part is located 13,000 ft. upstream from the first location and consists of raising the road surface of approx. 4100 ft. of highway. Contractor will do all earthwork, including all fill, excavation of all classes of material and install all road surf.; government will install necessary culverts, including head walls.

BIDS WANTED

CLARK COUNTY, Nevada.—Until December 19, 2:15 P. M., bids will be received by the State of Nevada Directors of the Department of Highways, Heroes' Memorial Bldg., Carson City, for the construction of approximately 14.37 miles of highway in Clark County, from a point approximately 1 1/2 mi. north of Searchlight to a point approximately 20 miles south of railroad pass, Route 5, Section B, Clark County, Nev.

- Work Involves:
- (1) 93 acres clearing;
 - (2) 109,120 c.y. rdwy. excav.;
 - (3) 1320 cu. y. drainage excav.;
 - (4) 188 sta. "V" type ditches;
 - (5) 1062 c.y. borrow;
 - (6) 145,860 yd. sta. overhaul;
 - (7) 970 yd. ml. overhaul;
 - (8) 790 cu. y. struc. excav.;
 - (9) 1420 c.y. backfill;
 - (10) 14.37 miles subgrade, type C;
 - (11) 14 M. gals. water;
 - (12) 77420 tons gravel surface;
 - (13) 150 tons liquid asph. type RC-2 (seal);
 - (14) 950 tons do, type SC-3 or SC-4 (roadmix);
 - (15) 14.37 miles roadmix;
 - (16) 7 each roadmix intersections;
 - (17) 128 cu. y. Class B concrete;
 - (18) 3890 lbs. reinf. steel;
 - (19) 532 lf. 18-in. corr. metal pipe (dipped);
 - (20) 1576 lf. 24-in. do;
 - (21) 96 lf. 30-in. do;
 - (22) 230 lf. 36-in. do;
 - (23) 110 each culvert markers;
 - (24) 74 each guide posts;
 - (25) 54 each monuments.

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada, and from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon the deposit of \$10, of which \$5.00 will be refunded.

SPARKS, Washoe Co., Nev.—Union Paving Co., Babcock Bldg., S.F., submitted low bid to City of Sparks, Nev., at \$24,527.70, for improving city streets as follows:

- 7,000 c.y. excav. (roadway);
 - 30,000 sta. yds. overhaul;
 - 2,000 yd. mile overhaul;
 - 39,054 sq. yds. prepare base;
 - 6,000 tons mineral aggreg. (plant mx'd surf.);
 - 300 tons liquid asph. SC-6 (plant mx'd surf.);
 - 70 tons liquid asph. MC-1 (prime coat);
 - 35 tons emulsified asphalt (seal coat);
 - 10 each adjust manholes to grade.
- The other bids were:
- J. A. Casson, Hayward \$24,900.40
 - Isbell Constr. Co., Reno 27,397.70
 - Dodge Constr. Co., Fallon 28,994.32
 - Nevada Rock and Sand Co., Reno 34,850.40
 - N. H. Kearns, city engineer.

BIDS OPENED

SAN FRANCISCO.—The Fay Improvement Co., 760 Market St., at

\$7,813.80 submitted the low bid to the Department of Public Works, Room 251, City Hall, for the improvement of LaSalle Ave. bet. Mendell and 3rd St. Est. cost, \$9,200.

Work involves:

- (1) 1100 cu. y. grading (excavation);
- (2) 500 cu. y. grading (fill);
- (3) 730 lf. unarmored conc. curb;
- (4) 360 sq. ft. 2-course conc. sidewalk;
- (5) 17,300 sq. ft. 6-in. Class E conc. pavement;
- (6) 1,000 sq. ft. asphalt-conc. pavement consisting of 6-in. Class E 5-sack concrete base and 2-in. asphalt concrete wearing surface;
- (7) 15 tons asphaltic concrete conform pavement;
- (8) 1200 sq. ft. asphaltic concrete wearing surface removed;
- (9) 200 sq. ft. 8-in. Class E 5-sack concrete parking lane;
- (10) 600 sq. ft. existing conc. parking lane pavement removed;
- (11) 3 brick manholes complete;
- (12) 2 brick catchbasins, complete;
- (13) 60 lf. 10-in. VCP culvert, in place;
- (14) 42 lf. 12-inch VCP sewer, in place;
- (15) 330 lf 8-in do;
- (16) 26 lf 8x6-in. Y branches, in place;
- (17) 676 lf. 6-in. VCP side sewer, in place;
- (18) 26 water services;
- (19) 345 lf. water main.

Total bids follow:

- (A) The Fay Improvement Co., San Francisco, \$7,813.80.
- (B) Eaton & Smith, San Francisco, \$8,635.90.

LASSEN COUNTY, Calif.—Harms Bros., Box 209, Sacramento, at \$9,929.50 submitted low bid to the State Division of Highways, F. W. Haselwood, District Engineer, District II, Redding, for about .06 mile grading and surfacing with gravel and applying penetration oil treatment bet 3 miles south of Standish and Wendel (II-Las-Feeder Road), Lassen Co.

A. A. Tieslau, Berkeley, at \$12,155.85, submitted the only other bid. * 29

CONTRACT AWARDED

LINCOLN CO., Nev.—J. M. Summison, Springville, Utah, at \$118,155.85, awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nevada, for construction of approx. 9.95 miles state highway from a point approx. one-half mile north of Panaca Junction to Ploche, Route 7, Section C., Lincoln Co., Nev.

Nevada Rock & Sand Co., Inc., Reno, Nev., at \$120,719.25, submitted second low bid.

Complete bids will be published shortly. * 29

BIDS WANTED

SAN FRANCISCO.—Until Dec. 14, 2:30 P. M., bids will be received by the Department of Public Works, Rm. 251, City Hall, under Spec. No. 19136 for the improvement of Park-Preisdio Blvd. between Fulton St. and the Presidio Military Reserve. Est. cost, \$129,000.

Work involves:
 (1) 11,260 c.y. excavation;
 (2) 233,000 sq. ft. 6x2-in. asphalt pavement;
 (3) 25,200 sq. ft. 6x2-in. asphalt pavement;
 (4) 20 tons asphalt conc. wearing surf.
 (5) 9,750 sq. ft. 2-course conc. sidewalk;
 (6) 8,350 l.f. 12-in. white concrete coping;
 (7) 715 l.f. standard armored conc. curb;
 (8) 8,470 l.f. unarmored white conc. curb;
 (9) 483 c.y. loam;
 (10) 765 l.f. reset granite curb;
 (11) 28 each brick catchbasins;
 (12) 5 each brick manholes;
 (13) 1,770 l.f. 10-in. VCP culvert;
 (14) 161 l.f. 12-in. do;

(15) 4,000 l.f. 1½-in. conduit;
 (16) 4,800 l.f. 2-inch do;
 (17) 8 each pull boxes (small);
 (18) 16 each arterial stop signs;
 (19) 15 each pull boxes (large);
 (20) lump sum, water supply system
 (21) 5 each storm water inlets;
 (22) 8 each pole risers;
 (23) 4,250 sq. ft. 4-inch waterbound macadam path.

If PWA grant is not received for the above project, work will be done under County Road Fund, Bid No. 19,207. Contractors will be required to take out two sets of plans.

Plans and specifications may be received from John J. Casey, City Engineer, Room 351, City Hall, upon deposit of \$10.00 each. * 29

CORRECTION—BIDS WANTED

LOS ANGELES CO., Calif.—Until December 15, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 1.9 miles grading and surfacing with asphalt concrete, Portland cement concrete, and plant mixed surface, on a portion of the State Highway between Lomita Blvd. and Wilmington-San Pedro Road (VII-LA-165-LA), Los Angeles County.

Work involves:
 (1) 102 sta. clear and grub;
 (2) 2,000 M. gals. water;
 (3) 500 c.y. remove concrete;
 (4) 64,000 c.y. rdwy. excav. unclass.
 (5) 3,250 c.y. struc. excav.
 (6) 29,000 c.y. imported borrow;
 (7) 7,000 c.y. imported subgrade material;

(8) 325,000 sta. yds. overhaul;
 (9) 3,700 sq. yds. subgrade for pave;
 (10) 102 sta. finish rdwy.
 (11) 35 tons liq. asphalt SC-2, prime coat;
 (12) 1,600 sq. yds. asphalt paint binder;
 (13) 400 tons liq. asphalt ROMC-4 or -5 plant mix surf.;
 (14) 7,550 tons min. agg. plant mix surf.;
 (15) 90 tons liq. asphalt SC-2 penetration oil treatment;
 (16) 1,570 tons asphalt conc. pave;
 (17) 210 c.y. Class A Portland cement conc. pave;
 (18) 23,000 lbs. bar reinf. steel;
 (19) 110 c.y. Class A Portland cement conc. struc.;
 (20) 6,500 lbs. misc. iron and steel;
 (21) 240 l.f. 15-in. stand. reinf. conc. pipe;
 (22) 120 l.f. 18-inch do;
 (23) 20 l.f. 36-in. stand. reinf. conc. pipe manholes;
 (24) 340 l.f. 24-in. special reinf. conc. pipe;

(25) 160 l.f. 45-inch do;
 (26) 80 l.f. 48-inch do;
 (27) 160 l.f. 66-inch do;
 (28) 200 tons rock culvert foundations
 (29) 80 l.f. 6-in. vit. clay pipe stand. strength;

(30) 150 l.f. 8-in. vit. clay pipe extra strength;
 (31) 20 l.f. 12-inch CMP;
 (32) 1,460 c.y. Class A Portland cement conc. curbs, gutters and sidewalks;
 (33) 0.25 mile new property fence;
 (34) 12 ea. adjust manholes to grade;
 (35) remodel sanitary sewer manhole.
 (36) Misc. items of work.

Item 3 previously reported incorrectly.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. * 29

CONTRACT AWARDED

MARIPOSA CO., Calif.—Triangle Rock & Gravel Company and Ralph A. Bell, Box 250, San Bernardino, at \$270,244.00 awarded contract by the U. S. Bureau of Public Roads, San Francisco, for placing a bituminous treated surfacing on approximately

30,823 miles of Section A1, A2, and A3, of Route 5, Wawona Road-Glacier Point, Yosemite National Park, Calif. * 29

CONTRACTS AWARDED

STATE OF WASHINGTON.—Bids were received and contracts awarded by the State of Washington Director of Highways, L. V. Murrow, Olympia, for highway construction as follows:

Spokane Co.: Paving with Portland cement concrete about 1.4 miles of Primary State Highway No. 3, Spokane South, Spokane County; Federal Aid Project.

Awarded: Clifton and Applegate, Hutton Bldg., Spokane, \$90,754.

Other Bidders: Charles A. Power, Spokane, \$90,825; Elliott & Co., Inc., Seattle, \$85,221; J. H. Collins, Colville, \$137,008.

Okanagan County: Clearing, grading, surfacing, manufacturing and stockpiling mineral aggregates (oil rock) and constructing steel and concrete railway undercrossing on about 2.3 miles of Primary State Highway No. 10, Brewster Vicinity, Section 1, FAP 277-A and FAGH 277-B, Okanagan county.

Awarded: Norris Bros., Burlington, \$107,078.

Other Bidders: Henry Hagman, Cashmere, \$113,503; Clifton & Applegate, Spokane, \$121,298; Elliott & Co., Inc., Seattle, \$125,513; Goetz & Brennan, Seattle, \$129,607; E. G. Ryan & Co., \$130,181; Siems Spokane Co., Spokane, \$142,659; Colonial Construction Co., Spokane, \$143,093.

King & Snohomish Counties: Clearing, grading, draining, surfacing on 6.6 miles of Secondary State Highway 1-A, Woodinville to Snohomish, FAS 35-A, King and Snohomish Cos.

Awarded: Acme Const. Co., 722 13th St., Seattle, \$82,039.

Other Bidders: James Coyle, Seattle, \$94,397; N. Florito, Inc., Seattle, \$96,024; L. G. Dowell, Inc., Seattle, \$96,346; Walker Const. Co., Tacoma, \$96,387; A. W. Stevens Construction Co., Mt. Vernon, \$99,173; Northwest Const. Co., Seattle, \$99,173; L. Romano Engr. Corp., Seattle \$127,100; Goetz & Brennan, Seattle, \$128,411.

Klickitat County: Clearing, grading draining and surfacing on 3.5 miles of Secondary State Highway 8-E, Alderdale to Benton county line, FAS 42-A, Klickitat and Benton Counties.

Awarded: Geo. A. Garras, 1634 W. Riverside, Spokane, \$19,875.

Other Bidders: E. E. Rockey and Son, Seattle, \$22,574; H. H. Hibbard, Seattle, \$25,565; J. C. Papin, Carson, \$26,794; Klinehline, Varr & Johnson, Vancouver, \$29,613; Frank J. Haas, Great Falls, \$29,410.

Whitman County: Clearing, grading, draining and surfacing on about 2.7 miles of Secondary State Highway 11-C, St. John East, FAS 276-B Whitman County.

Awarded: Roy L. Bair, 1220 Ide, Spokane, \$42,817.

Other Bidders: Frank Haas, Great Falls, \$42,823; Clifton & Applegate, Spokane, \$47,031.

Pacific County: Clearing, grading, surfacing, manufacturing & stockpiling surfacing materials and mineral aggregates (oil rock) and constructing light bit. surf. treatment and nonskid seal (single seal) treatment on about 11.1 miles of Secondary State Highway 12-A, Seaview to Ocean Park, FAS 31-A, Pacific County.

Bids returned unopened; plans will be revised. * 29

CONTRACT AWARDED

ORANGE COUNTY, Calif.—R. E. Campbell, 711 Central Building, Los Angeles, at \$34,036, awarded contract

by the State Division of Highways, Sacramento, for constructing about 0.15 mile of embankment protection at Doheny Park at the mouth of San Juan Creek in Orange County. 29

CONTRACT AWARDED

SACRAMENTO, Cal.—L. G. Lentz, 2548 41st Street, Sacramento, awarded contract by the Sacramento City Council, City Hall, for the improvement of the alley between Second and Third Aves. from the easterly line of 30th St. to the westerly line of Alhambra Blvd., Sacramento. 29

BIDS WANTED

SANTA BARBARA COUNTY, Cal.—Until December 22, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about ten miles of feeder road between Santa Ynez river and San Antonio creek, Santa Barbara county, to be graded and portions to be treated with liquid asphalt by the road mix method and seal coat applied.

Work involves:

- (1) 557 sta. clear and grub;
- (2) 100 M. gals. water;
- (3) 180,900 c.y. rdwy. excav., unclassified;
- (4) 1,750 c.y. struc. excav.;
- (5) 1,150 c.y. ditch and channel excavation;
- (6) 662,000 sta. yds. overhaul;
- (7) 30,500 c.y. imported borrow;
- (8) 2,400 c.y. imported surf. material;
- (9) 557 sta. finish rdwy.;
- (10) 285 c.y. remove concrete;
- (11) 10 tons liquid asph. SC-2 prime coat;
- (12) 115 tons liquid asph. SC-3 road mix surf. treat.;
- (13) 9,200 sq. yds. prepare, mix and shape roadbed;
- (14) 7 tons liquid asph. 90-95 seal coat;
- (15) 85 tons screen seal coat;
- (16) 5,000 lbs. bar reinf. steel;
- (17) 75 c.y. Class A Portland cement concrete struc.;
- (18) 106 lf. 8-in. CMP;
- (19) 2,266 lf. 18-in. CMP;
- (20) 194 lf. 36-in. CMP;
- (21) 144 lf. 42-in. CMP;
- (22) 8 each spillway assemblies;
- (23) 600 lf. 8-in. perf. metal pipe underdrains;
- (24) 100 c.y. rock filling material;
- (25) 160 lf. move and reset existing guard rail;
- (26) 190 each guide posts;
- (27) 57 each culvert markers;
- (28) 0.75 mile new property fences;
- (29) 2 each drive gates;
- (30) 214 each monuments.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. 29

BIDS WANTED

SAN BERNARDINO CO., Calif.—Until December 22, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and surfacing with plant mix surface about 2.4 miles between Devore and Camp Cajon (VIII-SBD-31-B), San Bernardino County.

Work involves:

- (1) 130 sta. clear and grub;
- (2) 3,241 M. gals. water;
- (3) 1,565 c.y. remove concrete;
- (4) 146,000 c.y. rdwy. excav., unclassified;
- (5) 6,110 c.y. struc. excav.;
- (6) 4,900,000 sta. yds. overhaul;
- (7) 620 c.y. salvage surf.;
- (8) 130 sta. finish rdwy.;

(9) 525 tons liquid asph. SC-4 plant mix surf.;

(10) 10,500 tons min. agg. plant mix surf.;

(11) 26 tons liquid asph. 90-95 seal coat;

(12) 266 tons screen seal coat;

(13) 220 tons sand seal coat;

(14) 60 tons liquid asph. SC-2 detours;

(15) 5,000 sq. yds. prepare, mix and shape detours;

(16) 18 c.y. Class A Portland cement conc. struc.;

(17) 11,800 lbs. bar reinf. steel;

(18) 120 c.y. rubble masonry;

(19) 450 c.y. riprap;

(20) 64 lf. 8-in. CMP;

(21) 130 lf. 24-in. CMP;

(22) 348 lf. 36-in. CMP;

(23) 460 lf. 48-in. CMP;

(24) 164 lf. 60-in. CMP;

(25) 4 each spillway assemblies;

(26) 1 each remove and reset spillway assembly;

(27) 252 lf. remove and salvage culvert pipe;

(28) 1,360 lf. lam. guard rail;

(29) 13 each culvert markers;

(30) 87 each guide posts;

(31) 40 each monuments;

(32) 1 each move masonry monument

Alternate Cribbing Items
Alt. "A"—Metal Cribbing

(33) 75 each 6x6-in. by 4-ft. metal headers;

(34) 640 each 6x6-in. by 6-ft. do;

(35) 10 each 6x6-in. by 8-ft. do;

(36) 15 each 6x6-in. by 6-ft. metal stretcher headers;

(37) 10 each 6x6-in. by 8-ft. do;

(38) 10 each metal header spacers;

(39) 20 each metal header inserts;

(40) 420 each metal header caps;

(41) 1,070 each 6x8-in. by 6-ft. metal stretchers;

(42) 275 each metal stretcher inserts

(43) 2 each gap joints;

Alt. "B"—Reinf. Conc. Cribbing

(44) 110 each 8x5-in. by 6-ft. reinf. concrete headers;

(45) 750 each 10x5-in. by 8-ft. do;

(46) 25 each 10x5-in. by 8-ft. do;

(47) 445 each 6x6-in. by 6-ft. reinf. conc. stretchers;

(48) 425 each 8x6-in. by 6-ft. do;

(49) 545 each 10x6-in. by 6-ft. do;

(50) 155 each 10x4-in. by 10-in. concrete filler blocks;

NOTE: A bidder is required to submit a bid on one alternate and may, but is not required, to submit bids on all alternates.

The contract will be awarded to the lowest responsible bidder for the work as a whole irrespective of the alternate.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. 29

LOW BIDDER

SAN LEANDRO, Alameda Co., Cal.—Until Dec. 19, 8 P. M., new bids

will be received by the San Leandro City Council, City Clerk, 1120 E. 14th St., San Leandro, for construction of a sewage pumping and treatment work.

Work involves the construction of cast-in-place or pre-cast concrete foundations and approx. 1200 c.y. of reinforced concrete structures, pipe work, and equipment for a primary sedimentation and separate sludge digestion sewage treatment plant with provision for garbage grinding and digestion with sewage sludge. The clarifier is 65-ft. in diameter and the digestion tanks are each 70-ft. in diameter. Included in the equipment are raw sewage pumps, screening, grinding and mixing equipment; digester gas collection and storage; sludge gas engine-generator unit; water reclamation plant.

Plans and specifications may be obtained from the above office upon deposit of \$20, returnable. Harry N. Jenks, 345 Madrono Ave., Palo Alto, is the consulting engineer.

Bids opened November 23, 1938 were all rejected. Fred J. Eary, Jr., 369 Pine St., San Francisco, at (I) \$220,404; and (II) \$225,400 submitted the low bid. 32

CONTRACT AWARDED

SAN GABRIEL, Los Angeles Co., Cal.—Sutalo & Ramljak, 476 Camulos St., Los Angeles, at \$274,614.05, submitted low bid and was awarded contract by the San Gabriel City Council for the construction of a sewer system estimated to cost \$415,000. This is to be financed by the proceeds of a bond issue of \$230,000 voted August 5 and a PWA grant of \$202,500. Plans for the system were prepared by the Currier Engr. Co., 219 Anderson Bldg., San Bernardino.

Total bids follow:

Sutalo & Ramljak, \$374,614.05.
 Bebek & Brkich and VCK Const. Co., \$374,438.10.
 Drainage Const. Co., \$376,023.28.
 Radich & Brown, \$408,887.84.
 Gogo & Rados, \$415,802.81.
 Heuser & Garnett, \$421,136.14.
 Vuksic & Vukojok, \$425,624.00.
 Robert McNair, \$425,736.04.
 C. H. Johnson and Nick Perscallo, \$436,306.58. 32

COMPLETE BIDS

SAN LEANDRO, Alameda Co., Cal.—Fred J. Early, Jr., 369 Pine Street, San Francisco, at (I) \$220,404; and (II) \$225,400 submitted low bid to the San Leandro City Council for construction of a sewage pumping and treatment works.

Work involves:

- Sch. I: Using Raymond cast-in-place piles 27-ft. in length;
- Sch. II: Using precast piles 32-ft. in length.

Alternates:

- (a) Deduct for the omission of the rolled fill and finish grading, except that required beneath structures, roadways and walkways;
- (b) Deduct for the omission of the utility tractor and trailer;
- (c) Deduct for the omission of the west half of the sludge drying beds only;
- (d) Deduct for the omission of the sludge grinder and appurtenances;
- (e) Deduct for the omission of the east half of the sludge drying beds only;
- (f) Deduct for the omission of the garbage grinder machines only, the garage slurry ejectors and air compressor only, and the refuse conveyor only.
- (g) Deduct for the omission of the water reclamation plant only, except the water storage tank, pressure pump, and water distribution system.

Total bids follow:

- (A) Fred J. Early, Jr., (I) \$220,404; (II) \$225,400.
- (B) W. C. Tait, Inc., San Francisco, (I) \$224,452; (II) \$237,452.
- (C) John F. Tulloch, Oakland, (I) \$224,890; (II) \$260,000.
- (D) R. G. Clifford, San Francisco, (I) \$225,800; (II) \$225,900.

Alternatives follow:

(a)	\$7,457	\$6,000	\$3,000	\$4,500
(b)	3,167	2,885	3,030	3,100
(c)	3,868	2,767	3,640	2,100
(d)	614	500	854	308
(e)	3,868	2,767	3,640	1,050
(f)	9,316	8,500	9,143	9,000
(g)	6,347	2,246	4,295	4,100

BIDS WANTED

SAN CARLOS, San Mateo County, Calif.—Until Nov. 30, 3:00 P. M., bids will be received by George A. Kneese, 2382 Broadway Street, Redwood City, for the Consolidated Development Company for construction work in the Town of San Carlos.

Work involves:

- (1) 1740 c.y. grading and shaping roadway section;
- (2) 4000 lf. 2-inch by 4-inch heathereboard;
- (3) 51,500 sq. ft. local rock macadam pavement with oil and screen wearing surface;
- (4) 100 lf. 4-inch vitrified clay sanitary sewer with Portland cement joints;
- (5) 3,800 lf. 6-inch do;
- (6) 540 lf. 10-inch do;
- (7) 60 6-inch by 4-inch vitrified clay sewer Y's;
- (8) 20 10-inch by 4-inch vitrified clay sewer Y's;
- (9) 75 lf. 10-inch conc. pipe storm sewer;

- (10) 520 lf. 24-inch reinf. concrete pipe storm sewer;
 - (11) 275 lf. 30-inch do;
 - (12) 23 redbrick burnt manholes with frames and covers;
 - (13) 3 redbrick burnt concrete tunnels;
 - (14) 1 special stormwater inlet;
 - (15) 160 lf. draining ditch;
 - (16) 60 lf. salvage and clean CMP.
- Plans and specifications may be obtained from the above office upon the deposit of \$2.50. 32

BIDS OPENED

SAN LEANDRO, Alameda Co., Cal.—Fred J. Early, Jr., 369 Pine Street, San Francisco, at (I) \$220,404; and (II) \$225,400 submitted low bid to the San Leandro City Council for construction of a sewage pumping and treatment works. Bids were taken under two schedules, as follows: (I) using Raymond cast-in-place piles 27-ft. in length; and (II) using precast piles 32-ft. in length.

ORANGE COUNTY—BRIDGE REPAIRS—(STATE)

ORANGE CO., Calif.—Franzini & Fredenburg, P. O. Box 294, San Rafael, at \$12,415.50, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for repairing an overhead crossing over the Atchison, Topeka & Santa Fe Railway about one-half mile north of Galivan (VII-Or-2B), Orange Co.

Work involves:

- (1) 35 c.y. remove existing conc.;
- (2) 20 c.y. struc. excav.;
- (3) 60 tons min. agg. plant mix surfacing;
- (4) 3 tons liquid asph. ROMC-4 or -5 plant mix surf.;
- (5) 17,000 lbs. bar reinf. steel;
- (6) 110 c.y. Class A Portland cement conc. struc.;
- (7) 66 c.y. light weight concrete;
- (8) 34 MFMB dense select all heart struc. redwood;

Total bids were:

- (A) Fred J. Early, Jr., (I) \$220,404; (II) \$225,400.
- (B) W. C. Tait, Inc., San Francisco, (I) \$224,452; (II) \$237,452.
- (C) R. G. Clifford, San Francisco, (I) \$225,800; (II) \$225,900.
- (D) John F. Tulloch, Oakland, (I) \$224,890; (II) \$260,000.

The council adjourned without taking action on the bids, recommendation for award being postponed until the next meeting. Harry N. Jenks, 345 Madrone Ave., Palo Alto, is consulting engineer. 32

BIDS WANTED

SACRAMENTO, Calif.—Until Dec. 9, 8:15 P. M., bids will be received by the Sacramento City Council, H. G. Denton, City Clerk, City Hall, Sacramento, for the construction of sewers in the southeastern part of the City of Sacramento.

Plans and specifications may be obtained from the above office.

- (9) 11 MFMB select all heart struc. redwood;
- (10) 1,410 lf. furnish treated Douglas fir piles;
- (11) 35 each driving treated do;
- (12) 1 lot misc. items of work.

Total bids follow:

- (A) Franzini & Fredenburg, San Rafael, \$12,415.50.
- (B) R. M. Price, South Gate, \$12,538.50.
- (C) Edward Green, L. A., \$12,822.60.
- (D) V. R. Dennis Constr. Co., San Diego, \$13,725.00.
- (E) H. H. Peterson, San Diego, \$13,843.50.
- (F) Contracting Engineers Co., L. A., \$13,946.00.
- (G) A. L. Gabrielson, Arlington, \$16,999.99.
- (H) J. E. Haddock, Ltd., Pasadena, \$18,549.00.

STANISLAUS CO.—OVERHEAD CONSTR.—(STATE)

STANISLAUS COUNTY, Calif.—Union Paving Co., 212 Babcock Bldg. San Francisco, at \$287,274 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for the construction of a steel beam overhead structure with concrete deck across the tracks of the Southern Pacific Railroad and about 0.3 mile grading and paving with Portland cement concrete and asphalt concrete about 0.4 mile south of Turlock in Stanislaus County.

- Work Involves:
- (1) 31 sta. clear and grub;
 - (2) 500 c.y. remove concrete;
 - (3) 875 M. gals. water;
 - (4) 1,350 c.y. rdwy. excav. unclass.;
 - (5) 2,500 c.y. struc. excav.;
 - (6) 27,750 cu. y. imported borrow;
 - (7) 7,470 sq. yds. preparing sub-grade;
 - (8) 31 sta. finish rdwy.;
 - (9) 2,750 tons untreated crushed gravel or stone surf.;
 - (10) 530 cu. y. salvage surf.;
 - (11) 17 tons liquid asphalt SC-2 prime coat shoulders and penetration oil treatment;
 - (12) 63 tons liquid asphalt ROM-3 or -4 or -5 plant mix surf.;
 - (13) 1,250 tons min. agg. plant mix surf.;
 - (14) 7 tons asph. emulsion seal coat and paint binder;
 - (15) 65 tons screen seal coat;
 - (16) 1,000 sq. yds. prepare mix and shape shoulders;
 - (17) 410 tons asph. conc.;
 - (18) 1,290 c.y. Class B Portland cement conc. pave.;
 - (19) 2,526 each pavement dowels;
 - (20) 1,050 each tie bolt assemblies;
 - (21) 680,000 lbs. bar reinf. steel;

- (22) 4,523 c.y. Class A Portland cement conc. struc.;
 - (23) 1,657,000 lbs. struc. steel;
 - (24) 43,000 lbs. blast plates;
 - (25) 4,050 lbs. misc. steel;
 - (26) 2,560 lf. steel railing;
 - (27) 21,275 lf. furnish, treated Douglas fir piles, including test piles
 - (28) 839 each drive do.;
 - (29) 26 lf. 12-in. CMP;
 - (30) 36 lf. 18-in. CMP;
 - (31) 3 each cast steel frames and covers for drop inlets;
 - (32) 375 c.y. Class A Portland cement concrete curbs, gutters and sidewalks;
 - (33) 6 each culvert markers and guide posts;
 - (34) 0.72 mile new property fence;
 - (35) 7 each drive gates;
 - (36) 1,250 lbs. sheet copper;
 - (37) 10 each monuments;
 - (38) 6 sections pavement crossing devices, type B-12;
 - (39) 1 lot misc. items of work.
- Total bids follow:
- (A) Union Paving Co., San Francisco, \$287,274.00.
 - (B) Earl W. Heple, San Jose, \$295,399.75.
 - (C) Heafey-Moore Co. and Fredrickson & Watson Const. Co., Oakland, \$295,664.35.
 - (D) Frederickson & Westbrook, Sacramento, \$297,810.85.
 - (E) J. F. Knapp, Oakland, \$309,799.00.
 - (F) United Concrete Pipe Corp., Los Angeles, \$312,890.25.
 - (G) Eaton & Smith, San Francisco, \$319,455.28.
 - (H) P. J. Walker Co., San Francisco \$338,985.90.
 - (I) C. W. Caletti & Co., San Rafael, \$343,786.00.

BIDS WANTED

SACRAMENTO, Cal.—Until Dec. 16 8:15 P. M., bids will be received by the Sacramento City Council, H. G. Denton, City Clerk, City Hall, Sacramento, for the construction of additions to sewage pumping station No. 2 located at Sacramento.

Plans and specifications may be obtained from the above office.

33— WATER WORKS

BIDS WANTED

LAGUNA BEACH, Los Angeles Co., Cal.—Until Dec. 17 (tentative date) bids will be received by the Laguna Beach Water District, Laguna Beach for the construction of cast iron pipe lines, reservoirs, pumping plant and appurtenances, a PWA project, city contribution under 1911 Act, in accordance with plans prepared by A. J. Stead, engineer. Copies of the plans may be obtained about Dec. 6 upon deposit of \$10, returnable. Certified check or bid bond for 10% must accompany each proposal.

- The work involves:
- (1) 4200 ft. 8-in. CP pipe;
 - (2) 10,400 ft. 6-in. CI pipe;
 - (3) 19,000 ft. 4-in. CI pipe;
 - (4) 7200 ft. 2-in. CI pipe;
 - (5) four 8-in. gate valves;
 - (6) 14 6-in. gate valves;
 - (7) 28 2-in. gate valves;
 - (8) 49 4-in. fire hydrants;
 - (9) 280 ft. 1-in. copper service pipe;
 - (10) 2340 ft. ¾-in. copper service pipe;
 - (11) 14 1-in. meters;
 - (12) 107 ¾-in. meters;
 - (13) 1 concrete reservoir, circular, 250,000-gals. capacity;
 - (14) 1 steel reservoir, circular, 30-ft. dia., 120,000-gals. capacity;
 - (15) pumps to be furnished and installed in existing plant; two 450-gpm against 425-ft. head.

BIDS WANTED

VERNON, Los Angeles Co., Calif.—Until Dec. 12, 3:00 P. M., bids will be received by the Vernon city council for constructing the Leonis Blvd. Storm Drain System, approx. 5660 ft. (incl. manholes):

- (1) 1120 ft. 45-in. reinf. concr. pipe;
 - (2) 668 ft. 36-in. reinf. concr. pipe;
 - (3) 677 ft. 33-in. reinf. concr. pipe;
 - (4) 663 ft. 30-in. reinf. concr. pipe;
 - (5) 752 ft. 27-in. reinf. concr. pipe;
 - (6) 585 ft. 24-in. reinf. concr. pipe;
 - (7) 542 ft. 21-in. reinf. concr. pipe;
 - (8) 650 ft. 18-in. cem. pipe;
 - (9) 3875 ft. 15-in. cem. pipe (catch basin connections);
 - (10) 10 std. manholes;
 - (11) 9 std. catch basins with local depressions;
 - (12) 10 std. catch basins (2 gratings);
 - (13) one special transition structure;
 - (14) 15 cu. yds. concr. pipe cradle.
- Financed by PWA funds. Plans and specifications may be obtained from Francis Bates, City Engineer, upon deposit of \$10.00, returnable. Certified or cashier's check or bidder's bond for 10% must accompany each proposal. T. J. Furlong, City Clerk.

BIDS WANTED

SAN FRANCISCO—Until Dec. 8, 3:00 P. M., bids will be received by the Public Utilities Commission, Rm. 287, City Hall, under Spec. No. W.D. 195, for the laying of 6-inch and 8-inch cast iron mains in Lawton St. and 40th Ave.

- Work Involves:
- (1) 1,000 lf. excavation and backfill for 6-in. and 8-in. pipe, trench 17 inches wide by 36 inches deep;

OROVILLE—CONST. SEWER SYSTEM—(DISTRICT)

OROVILLE, Butte Co., Cal.—Manuel Smith, 588 22nd St., Oakland, at \$31,668 (Alternate B), submitted the low bid and was awarded contract by the Directors of North Burbank Public Utility District of Butte Co., for the construction of sanitary sewer system consisting of sewer mains and laterals located about one mile south of Oroville.

- Work involves:
- (1) 2,100 l.f. 10-inch sewer mains:
 - (a) using vitrified pipe;
 - (b) using concrete pipe;
 - (2) 5,500 l.f. 8-inch sewer mains:
 - (a) using vitrified pipe;
 - (b) using concrete pipe;
 - (3) 29,500 l.f. 6-inch sewer laterals:
 - (a) using vitrified pipe;
 - (b) using concrete pipe;

- (4) 100 manholes;
 - (5) 37 lampholes.
- Total bids follow:
- (A) Manuel Smith, Oakland, (Alt. A) \$31,668; (B) \$31,668.
 - (B) M. J. B. Const. Co., Stockton, (A) \$33,633; (B) \$32,175.
 - (C) Downer Bros., Berkeley, (A) \$36,817; (B) \$35,949.
 - (D) J. A. Fazio and M. J. McGuire and M. Hester, Oakland, (A) \$38,917.50; (B) \$39,380.50.
 - (E) Underground Const. Co., Oakland, (A) \$39,925; (B) \$37,965.
 - (F) John Pestana, Oakland, (A) \$44,175; (B) \$44,175.
 - (G) Holdener Const. Co., Sacramento, (A) \$50,945; (B) \$49,975.

UPPER NARROWS DAM—(GOVT)

YUBA AND NEVADA COUNTIES, Cal.—Arundel Corp. and L. E. Dixon Co., 609 S. Grand Ave., Los Angeles, at \$2,175,271.50 submitted the low bid to the United States Engineer Office, District Engineer, Room 208, Post Office Bldg., Sacramento, for the construction of the Upper Narrows Debris Control Dam on the Yuba River.

The dam will be of the concrete arch type, about 1153 feet in length on the crest and about 265 feet high above the main foundation bedrock. The spillway will be the overflow type discharging over the central portion of the dam. It is estimated that approx. 231,500 c.y. of foundation excavation and the placing of approximately 334,410 c.y. concrete will be required to complete the dam.

Work involves:

- (1) Diversion and care of river during construction and unwatering foundations, lump sum;
- (2) Clearing dam site area;
- (3) 206,000 c.y. excav. for foundations of conc. dam above elevation 295;
- (4) 24,000 c.y. excav. for foundations conc. dam below elevation 295;
- (5) 1,500 c.y. excav. along fault below base of dam;
- (6) 25 c.y. gravel for drains;
- (7) 450 lf. drilling grout holes less than 25 ft. deep;
- (8) 1,000 lf. drill grout holes 25 ft. to 40 ft.;
- (9) 1,000 lf. drilling grout holes over 40 ft. deep;
- (10) 200 lf. core drill grout holes less than 25 ft. deep;
- (11) 800 lf. core drill grout holes 25 to 40 ft.;

- (12) 4,000 lf. core drill grout holes over 40 ft.;
- (13) 337,000 bbls. unloading and storing cement;
- (14) 18,000 lbs. furnish and install pipe and fittings for foundation and tunnel grouting;
- (15) 57,000 lb. furnish and install pipe and fittings for radial contraction joint grouting;
- (16) 1,600 c.y. conc. backfill in fault and exploration tunnels class "B";
- (17) 331,800 c.y. conc. in dam class "B";
- (18) 410 c.y. conc. in retaining walls class "B";
- (19) 590 c.y. conc. in aeration piers class "A";
- (20) 25,400 sq. ft. finish conc. surface of spillway crest;
- (21) 6,000 c.f. pressure grout other than radial contraction joints;
- (22) 1,200 c.f. pressure grouting radial contraction joints in dam;
- (23) 72,000 lb. furnish and place steel reinf.;
- (24) 6,600 lb. furnish and place copper water stops in radial contraction joints;
- (25) 11,500 lb. furnish and place galv. iron grout stops in radial contraction joints;
- (26) 150 lf. furnish and install 4-in. wrought iron pipe drains;
- (27) 48 each install straining gages in dam;
- (28) 44 each install resistance thermometers in dam;
- (29) 29,000 lf. furnish and install 3 wire No. 16 gage coded type S electrical cable;
- (30) 32,000 lf. furnish and install 4 wire No. 16 gage coded type S electrical cable;

- (31) 200 lf. furnish and install 2-inch diam. elec. metal conduit with necessary fittings;
- (32) 600 lf. furnish and install 32 in. diam. elec. metal conduit to accommodate approx. 92 cables from crest of dam to outlet cabinets;
- (33) 2 each furnish and install elec. outlet cabinets for strain, gage and resistance thermometer circuit control;
- (34) 3,200 lb. misc. metal work;
- (35) 1 job remove dismantling and saving exist. suspension foot bridge.

Total bids follow:

- (A) Arundel Corp. and L. E. Dixon Co., Los Angeles, \$2,175,271.50.
- (B) George Pollock Co., Sacramento, \$2,195,098.25.
- (C) Winston Bros. Const. Co., Los Angeles, \$2,325,266.50.
- (D) California Constructors, Inc., (Jahn & Bressi Const. Co., Mike Bevanda, R. G. Clifford, David G. Gordon), Los Angeles, \$2,324,775.00.
- (E) Bent Bros., Inc., and Griffith Co., Los Angeles, \$2,339,732.00.
- (F) Hanrahan - Connolly Co., S. F., \$2,559,048.00.
- (G) A. Teichert & Son, Inc., Sacramento, and D. W. Thurston, Los Angeles, \$2,562,295.00.
- (H) Macdonald & Kahn Co., Ltd., San Francisco, \$2,871,537.00.
- (I) Bates and Rogers Const. Corp., Oakland, \$2,953,491.55.
- (J) Guy F. Atkinson and Kier, San Francisco, \$3,088,863.00.

BIDS DEC. 29 ON TWO STATE JOBS IN SOUTH

Mojava River Bridge, River- side Paving Contracts Out For Proposals

SACRAMENTO, Dec. 6. — The State Highway Commission today authorized advertising for bids on two contracts for bridge and highway construction in San Bernardino and Riverside counties.

Bids on both jobs will be opened December 29 in the offices of the State Division of Highways, State Building, Los Angeles.

The first contract involves construction of a bridge across the Mojave River at Baker in San Bernardino county, and grading, paving, imported surfacing materials, and applying road-mixed surfacing treatment to approaches.

Timber Stringer Spans

The proposed bridge will be 408 feet in length and will consist of timber stringer spans with concrete decks on pile bents.

Principal items include: 244 M. allons of water; 8,400 c.y. of unclassified excavation; 26,600 stds. overhaul; 1,330 c.y. of imported surfacing material; 8 stations of road; 4,000 square yards of repairing, mixing and shaping the roadbed; 51 tons of liquid asphalt of various grades; 38,000 pounds of bar reinforcing steel; 215 cubic yards of Class A Portland cement concrete; 86 M. FBM redwood timber dense, select, all heart structural grade; 36 M. FBM redwood timber, select all heart structural grade; 23 M. FBM salvaged redwood timber; 4,930 lineal feet of treated Douglas fir piles; and 128 lineal feet of CMP.

Paving Contract

The other job, for which bids will be opened in Los Angeles December 29, involves about 4.8 mi. of grading and paving with plant-mixed surfacing and Portland cement concrete between the Orange county line and Corona in Riverside county.

Unit prices will be submitted on thirty-four items. Principal items include: 340,200 c.y. of unclassified road excavation; 2,736,000 stds. overhaul; 5,100 c.y. of struc-

MATERIAL PRICES SLIGHTLY HIGHER

Average building material prices, as indicated by the weekly index prepared by the U. S. Bureau of Labor Statistics, were slightly higher during the week ended November 26, the bureau reported yesterday. The index rose 0.1 per cent above the level of the preceding week.

Chiefly responsible for the slight increase were higher prices for linseed oil and hemlock, spruce and yellow pine lumber, the bureau report said. Prices of copal gum, turpentine and red cedar shingles averaged lower. The index stood at 89.4 per cent of the 1926 average.

Cement Shipments Over 1937 Level

Portland cement plants in the United States shipped 12,357,000 barrels of cement during October, 1938, as compared to 11,190,000 barrels shipped during the same month in 1937, Director John W. Finch of the Bureau of Mines reports.

Fuel consumption during the month follows: coal, 486,378 short tons; oil, 146,581 barrels aggregating 6,156,402 gallons; and natural gas, 3,550,223,071 cubic feet.

Clinker production amounted to 10,917,000 barrels during the month and finished cement production totaled 11,556,000 barrels, according to the report of the Bureau of Mines. Stocks of coal at cement mills increased from 312,740 short tons at the beginning of the month to 329,780 short tons at the end.

tural excavation; 1,850 c.y. of removing bituminous surfacing; 89,600 tons of surfacing material; 1,181 tons of liquid asphalt; 9,350 tons of mineral aggregate plant-mixed surfacing; 48,000 pounds of bar reinforcing steel; 325 c.y. of Class B Portland cement concrete pavement; 486 c.y. Class A Portland cement concrete structures; and 2,270 l.f. of CMP of various diameters.

DODGE A. RIEDY NAMED TO CITY ARCHITECT POST

Supervision of School Program First Big Task for New Official

Architect Dodge A. Riedy Friday took over the post of City Architect of San Francisco following his appointment to the position by Chief Administrative Officer Alfred J. Cleary.

He brings to his new office a wealth of experience in both the municipal construction and architectural fields.

Born and raised in San Francisco, and active in civic affairs, Mr. Riedy embarks upon his career as city architect with a thorough knowledge of San Francisco's construction problems.

Within a few hours of taking office he was at work on the \$4,931,105 PWA school construction program, as Director A. D. Wilder of the Department of Public Works called for bids for grading two school sites.

Native of City

Mr. Riedy was born in San Francisco in 1886 and pursued his education in the Bay Region.

Between 1911 and 1918 he was connected with the City Engineer's office and in this position supervised construction of pumping stations, the central fire alarm station, portions of the Twin Peaks Tunnel, municipal railway structures, and a wide variety of projects then underway.

In 1924 he became active as a private architect, gaining wide recognition throughout California.

Among the many structures which he designed during the following years are: the City and County jail; the Lawton School; additions to the West Portal School; the Tea Garden Products Building, and the Vallejo Elks Club.

New orders for steel boilers taken during the first nine months of 1938 amounted to 5,484,550 units, as compared to orders for 8,131,760 unit booked during the same period in 1937, the Bureau of Census announces.

FISHER HEADS COMMITTEE ON SHIPBUILDING

**Will Direct Chamber Efforts
For Stimulus to Pacific
Shipyards**

R. E. Fisher, San Francisco civic and industrial leader, yesterday was appointed chairman of the California State Chamber of Commerce committee on shipbuilding and ship operators.

In announcing the appointment, W. C. Mullendore, Los Angeles, State Chamber director and Industrial Committee chairman, stated that Fisher was being drafted for the past because of his intimate knowledge of the needs of the Pacific Coast in ship construction.

Objective of the committee will be to secure definite contracts for ship construction for Pacific Coast yards and to build up a continuity of shipbuilding over a long time basis.

Aid to Defense

For the past three years the State Chamber of Commerce has been active in promoting California shipbuilding. Cooperating with California delegates in Congress, a six per cent differential was secured for west coast yards. More recently, authorization was secured from Congress for the U. S. Maritime Commission to allocate ship construction to Western yards as an aid to National Defense without regard to low bid.

Accepting the chairmanship of this important committee, Fisher stressed the need for new equipment and new facilities for yards already operating, in order that they might be in a position to service naval as well as commercial vessels in time of national emergency. "The only way this can be done effectively," said Fisher, "is to give them work to do now. That will be our job."

The first meeting of the new state-wide committee will be held in San Francisco early this coming week.

EMPLOYMENT SERVICE PLACEMENTS INCREASE

Placement in private employment of "white collar" or commercial workers by the Commercial Office of the California State Employment Service during the first 11 months of 1938 increased 1332 over the number of placements during the corresponding 1937 period, according to a report issued yesterday by Irene Bergman, San Francisco county manager for the service.

Of these commercial workers, 470 were placed during November, Miss Bergman reported.

Bay Bridge Traffic In November Reaches Largest '38 Volume

San Francisco-Oakland Bay Bridge traffic during November climbed to a new high for 1938, it was revealed yesterday by Chief Engineer C. H. Purcell in a monthly traffic report filed with Director of Public Works Earl Lee Kelly.

Total number of vehicles to cross the bridge last month was 783,252, averaging 26,108 vehicles per day. This is an increase of 12 per cent, or an increase of 2800 vehicles per day over November, 1937. High point of the month was Saturday, November 19, the day of the Big Game, when 40,761 vehicles crossed the span.

Freight pounds, too, increased last month with a total of 115,921,750. This was an increase of 86 per cent over November a year ago. Total number of trucks and trailers to cross the Bay Bridge in November was 41,503, a 60 per cent increase over November, 1937.

Revenues Show Gain

Total revenues for November were \$410,709.65, an increase of 11 per cent over the same period last year. For the year 1938 to date 7,873,646 vehicles have crossed the bridge, bringing the grand total since the bridge opening on November 12, 1936, to 18,318,196 vehicles.

Comparative figures follow:

	Total November	Total October
Auto Trailers	859	1,149
Pass. Autos	708,587	668,232

Employers Council Organized in S. F.

Formation of a new "San Francisco Employers' Council" was announced yesterday by Roger D. Lapham, chairman of the group's organization committee, following the filing of incorporation papers. According to Mr. Lapham's statement, the Employers' Council "is largely patterned on the Central Labor Council idea." It will attempt to bring together employers' associations of the city in a centralized group to facilitate joint action, at the same time leaving each of the constituent groups "an autonomous body with full power to conduct its own employer-employee relations."

Simultaneously, it was learned that the Industrial Association of San Francisco, organized 17 years ago, will be dissolved to make way for the new council.

S. F. BIDDER LOW ON SHOP FOUNDATIONS

**Gerwick Bids \$266,017; Mac-Donald & Kahn Submit
Close Second Figure**

WASHINGTON, D. C., Dec. 7.—Navy Department construction programs at two San Francisco Bay locations moved forward today as the Bureau of Yards & Docks opened bids on one contract and invited proposals on another.

Advertised for bids today was the contract for construction of ship building foundations at the Alameda Naval Air Station. Bids will be opened in Washington, D. C., January 18, it was announced. Work to be done under the contract is covered in Spec. No. 9033.

Extremely close bidding featured the opening of proposals for machine shop foundations at the Mare Island Navy Yard.

Gerwick Low Bidder

Low bidder was Ben C. Gerwick, Inc., 112 Market street, San Francisco, with a proposal of \$266,017.

Second low bidder was MacDonald & Kahn Co., Ltd., San Francisco, whose bids was a scant \$645 over the low proposal at \$266,662.

DeLuca & Son, Inc., San Francisco, submitted a third low bid of \$271,500. Navy Department officials said.

Bids were taken under advisement, pending completion of the usual legal and engineering checking.

Bids December 14 On Switch System

The San Francisco Public Utilities Commission yesterday issued calls for bids for laying six-inch cast iron mains in Melrose avenue and Los Palmos drive, and constructing an electric switch and signal system for the Bay Bridge Terminal loop.

Bids on the switch and signal system contract will be opened December 14.

Bids on the waterworks job will be opened December 22. The work involves installation of about 560 lineal feet of six-inch cast iron pipe. Principal items include: excavation of 560-foot trench, 17-in. wide by 36-in. deep; installing 1,000 pounds of fittings; and 200 square feet of repavement.

New orders for malleable iron castings booked during September, 1938, amounted to 29,061 short tons as compared to orders for 25,752 short tons booked during the preceding month, the Bureau of Census reports.

WILL ADVERTISE FINAL AQUEDUCT WORK IN SPRING

Distribution System 60% Complete; Actual Delivery Of Water Nears

That actual delivery of Colorado River water to Los Angeles and twelve other Southern California cities rapidly is nearing a reality was revealed yesterday in a Metropolitan Water District report stating that more than 60 per cent of the distribution system of the giant Metropolitan Aqueduct is now completed.

With work on the main line of the 92-mile aqueduct now practically finished, construction activities are being centered in the Los Angeles metropolitan area, according to Julian Hinds, assistant chief engineer of the Water District.

Holing through of the 13-mile San Jacinto tunnel in November cleared away the last barrier on the main aqueduct, which will carry water 242 miles from the Colorado River to the Cajalco Reservoir near Riverside. From this terminal reservoir, 150 miles of distributing pipe lines are being built to deliver the aqueduct water to each city in the Metropolitan Water District.

Upper Feeder Finished

The principal artery of this grid work of feeder lines is the 60-mile "upper feeder" which has already been constructed and which will bring Colorado River water as far west as the city of Glendale. Construction is under way at the present time through Los Angeles on the Palos Verdes lateral, which connects with the upper feeder in Eagle Rock Canyon and will deliver water to the District cities of Los Angeles, Compton, Torrance and Long Beach.

Glendale and Burbank, in the northern part of the Water District area, will be served by an extension of the upper feeder which now tunnels through the San Rafael Hills. The Water District plans to call for bids in February of 1939 for the construction of this extension to these San Fernando Valley cities.

Present plans of the District indicate that Beverly Hills and Santa Monica will be served by exchanging water with the city of Los Angeles, or by a lateral which would be an extension of the line to be built to Burbank, Anaheim, Fullerton, and Santa Ana, the three Orange county cities which are a part of the Metropolitan Water District, will receive water through a lateral to be built south from the upper feeder at a point near San Dimas on Foothill boulevard.

The building of these latter lines has been deferred until 1939 because they "present no particular-

ORDER VOLUME AT NORTHWEST MILLS STEADY

Despite the short holiday week, orders booked by Northwest lumber mills for the week ending November 26 were almost as great as in the preceding week, it was reported yesterday.

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending Nov. 26, produced 68,432,348 board feet of lumber. The sharp decrease from the previous week was due largely to the Thanksgiving Day holiday. At the rate of cutting at the reporting mills, the entire industry produced 43.4 per cent of its average weekly cut during 1927-1929.

The new business reported taken by the 151 mills was 90,254,352 board feet. Shipments were 69,226,996.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	36,892,566	26,986,539
Domestic		
Cargo	44,562,349	33,265,825
Export	2,653,275	2,828,470
Local	6,146,162	6,146,162
	90,254,352	69,226,996

The unfilled order file at these mills stood at 273,705,834 bd. ft.

As compared with the preceding week's totals, production was about 19,700,000 feet lower, and shipments were off about 12,000,000. New business, however, was only an approximate 1,300,000 feet under the total for the preceding week.

Building in L. A. Gains in November

Three thousand two hundred and ten building permits were issued in Los Angeles during November for construction estimated to cost \$5,286,889. C. Makutchan, superintendent of building, announces.

Construction during the month showed a gain of more than a million and one-half dollars over the figure for the same month in 1937, when 2,569 permits were issued for construction valued at \$3,699,660. A drop from the \$6,625,722 total for October, 1938, was registered, however.

During the month, 888 permits were issued for dwellings and apartment houses costing \$3,662,786, according to Mr. Makutchan. This type of construction accounted for 69.28 per cent of the total value of all work done during the month.

ly difficult construction problems" and can therefore be completed in a relative short period.

THREE SONOMA COTTAGES OUT FOR PROPOSALS

State Advertises Work at Eldridge; Grandstand Foundation Bids Invited

SACRAMENTO, Dec. 6.—Another project in the State institutional building program and a foundation contract for the 36th District Agricultural Association were ordered advertised for bids today by the State Division of Architecture.

Bids will be opened here December 28 for construction of three assistant physicians' cottages at Sonoma State Home in Eldridge.

The work will be let under separate contracts as follows: general work; plumbing and heating; electrical work.

The cottages will be one-story wood frame buildings with wood shingle roof covering. Also to be constructed are three garages and roadwork.

Grandstand Foundations

Bids on the other contract ordered advertised this week will be opened Friday, December 16, it was announced.

The job involves construction of foundations for a grandstand and exhibit building for the 36th District Agricultural Association at Dixon, Solano county.

Foundation work now out for bids includes excavating, grading, forms, concrete work and steel anchors for the concrete piers and foundation walls of the grandstand and exhibit building.

The grandstand will be approximately 216 feet long and 32½ ft. wide, while the exhibit building will be 100 feet long and 60 feet wide. The buildings themselves, to be constructed later, will be wood frame structures.

LUMBER DEALERS TO LAUNCH SALES DRIVE

"Tested Selling Methods", the new sales development program of merchandising institute of National Retail Lumber Dealers Association, Inc., is off the press and ready for distribution, it is announced. Retailers who have not received their copies may obtain them by writing to the Merchandising Institute at 82 St. Paul street, Rochester, New York.

The whole story of how the program was prepared, the subject matter of the program, how the program will be conducted, and the results to be expected by those who enroll, is told in the new booklet. The Merchandising Institute of the National Retail Lumber Dealers Association is composed of dealer associations throughout the country.

Employment in Heavy Industry Reflects Gains in Private, Public Construction

PWA's march to construction in its 1938 program has been accompanied by a simultaneous increase in employment and production in America's basic heavy industries, as was forecast, according to a report to Public Works Administrator Harold L. Ickes.

Summarizing the progress made since PWA began making allot-

ments June 22, Howard A. Gray, Assistant Administrator, reported that during the period PWA was making its allocations, the steel production index jumped from 28 to 62.5 per cent of capacity. The increases in steel production coincided with the placing of heavy amounts of PWA construction contracts on the market, and the preparation of plans and calls for bids for thousands of construction jobs.

The report fulfills the forecast made to the President as to the regenerative effects a new PWA program would have on employment and industry. At the time the 1938 Act was under consideration, the Bureau of Labor Statistics of the United States Department of Labor pointed out that a heavy construction program would inevitably bring considerable stimulation to employment and production in heavy industry. On the basis of the funds authorized by Congress, for example, the Bureau said that more than \$280,000,000 worth of steel would be needed to carry out the Act.

Contributed to Gains

Mr. Gray reported to Administrator Ickes that the PWA could not, and does not, claim full credit for the revival of the steel business, as many other factors in the industrial field played their part. However, the manner in which the step-up in production coincided with the release of millions of dollars worth of PWA construction contracts and orders for materials indicate that the program at least contributed to the gain.

Analysis of the sequence of PWA allotments and increases in steel ingot production is shown in the following table. After the date in the first column is given the approximate construction value of the PWA projects authorized at that time. The third column gives the percentage of ingot capacity of the steel industry as of the week ending on the date specified, as recorded by Iron Age:

Week Ending	(A)	(B)
June 28	\$ 450,000,000	28
July 19	785,124,870	36
August 23	1,225,483,505	43
September 20	1,437,079,761	47.5
October 18	1,450,342,090	51
November 15	1,477,995,426	62.5

(A) Approximate value of PWA construction authorized as of same date.

(B) Per cent of ingot capacity for week ending same date (reported by Iron Age).

First allotments for PWA projects under the 1938 program were made June 22. After that date an average of approximately 1,400 projects were approved monthly, releasing a monthly average of

around \$340,000,000 worth of construction. This continued until more than 7,300 projects calling for \$1,677,995,426 worth of construction had been authorized. This involved the placing of millions of dollars worth of orders for every type of construction material and equipment. According to the American Institute of Steel Construction, the steel ingot production for June was 1,638,227 tons (both open hearth and Bessemer). For October, it was 3,117,934 tons.

Structural Steel

In the field of structural steel, the same source reports that for the second quarter ending June 30, the production of structural steel forms was 318,287 tons, while for the third quarter the nation's mills turned out 366,575 tons. A comparable increase was also indicated in the production of reinforced bars which for the second quarter was 178,140 tons, while at the end of the third quarter the figure had jumped to 215,487 tons.

Both production and shipment of cement showed gains during the period in which PWA placed thousands of construction jobs on the market. Figures of the Bureau of Mines show that production increased from 10,535,000 barrels in June to 11,556,000 in October. In the same period shipments jumped from the June figure of 10,943,000 barrels to 12,357,000 in October.

These increases in production are in line with an analysis made by the Bureau of Labor Statistics of the United States Department of Labor early this year, when it forecast heavy industrial stimulation as the result of the PWA program. The Bureau forecast that more than \$1,000,000,000 worth of orders would be placed for materials. It concluded that the full development of the program authorized by Congress would mean the purchase of more than \$280,000,000 worth of iron and steel productions and \$71,000,000 worth of cement.

PLISHKER HEADS LAMP PROMOTION DIVISION

The Westinghouse Electric and Manufacturing Company has recently announced the appointment of Herbert E. Plishker as Advertising and Sales Promotion Manager of the Lamp Division. Mr. Plishker succeeds J. F. O'Brien, who recently resigned.

BIDS DEC. 27 FOR YOSEMITE SURFACING JOB

Bureau Advertises Contract for 11.4-Mile Section of Kawona Road

District Engineer C. H. Sweetser of the U. S. Bureau of Public Roads, San Francisco, Saturday called for bids for placing a bituminous treated surfacing on Sections A1, B1, B2, B3 of Route 2, the Kawona Road, Yosemite National Park.

Bids will be opened December 27 at 2:00 P. M. in the office of the Bureau of Public Roads, Federal Office building, San Francisco.

The length of the project in Yosemite National Park to be improved it 11.435 miles.

Principal Items

Principal items include: 4500 cu. yds. of unclassified excavation; 20,000 station yards overhaul; 11,435 miles of fine grading subgrade and shoulders; 1,300 M. gallons watering; 32,100 tons of crushed rock base course; 300 tons of cutback asphalt (type MC-2) for prime coat; 14,400 tons of Class F-2 open graded plant mixture; 625 tons of 90-95 liquid asphalt for Class F-2 plant mixture; 1,100 tons of Class F-2 choker aggregate; 1,100 tons of Class F-2 cover aggregate; 240 tons of emulsified asphalt for Class F-2 seal; and 15 tons of cutback asphalt (type MC-2) for seal coat on gutters, shoulders and dikes.

A lump sum item calls for water plant or plants for the project. In addition, one-way traffic control and sanding asphaltic material will be done under force account.

Plans and specifications for the Yosemite National Park surfacing project may be obtained from the office of Bureau of Public Roads, Federal Office building, San Francisco, upon deposit of \$10, returnable.

ROAD JOB SPEEDED BY ENLARGEMENT OF PARK

Arches National Monument, Utah, has been increased in area by more than six times its former extent by a proclamation signed by President Roosevelt, Secretary of the Interior Harold L. Ickes announced yesterday.

Arches National Monument is one of a group known as the Southwestern National Monuments, administered by the National Park Service.

Among the developments facilitated by the increased boundaries are the construction of an approach road from U. S. Highway 450, and provision of public conveniences.

New orders for steel boilers during October, 1938, amounted to 1,125 units, as compared to orders booked for 895 units during the same month in 1937, the Bureau of Census reports.

CONTRACT AWARDED.

KERN COUNTY, Calif.—United Concrete Pipe Corporation, Box 1, Sta. H, Los Angeles, at \$178,460.70, awarded contract by the State Division of Highways, Sacramento, for the construction of an overhead crossing over the tracks of Atchinson, Topeka and Santa Fe Railway at Oak St. in Bakersfield, consisting of one 88-foot, one 80-foot, one 68-foot and seventeen 45-foot steel girder spans with reinforced concrete deck supported on concrete bents on treated timber piles and approximately 0.44 mile of paving with Portland cement concrete and plant-mix surfacing, Kern County. 21

BIDS WANTED

SEATTLE, Kings Co., Wash.—Until Dec. 20, 10:00 A. M., new bids will be received by the State of Washington Toll Bridge Authority, Highway Bldg., Olympia, for the construction of the Lake Washington Bridge, PWA Project 1180F.

Bids received Nov. 29 on 4 of the 11 schedules comprising the Lake Wash. Bridge Project have been rejected and new bids have been called. The four units being re-advertised include the concrete pontoon bridge (unit 4), the steel approaches (units 3 and 5) and Unit 9, which is a struc. stl. and reinf. conc. bridge over the east arm of Lake Wash.

UNIT 3—Reinf. concr. and struc. stl. bridge over city sts. and part of Lake Wash., about 20 ml., effecting connection on westerly end of pontoon bridge provided in Unit 4. About 1156 tons struc. steel, 466 tons

steel reinf. bars, 1858 c.y. concrete, \$400,000 available.

UNIT 4—Reinf. concr. pontoon bridge over Lake Washington with lighting system and mechanical and elec. system for operation of movable span. About 1.25 miles long. Original quantities included about 46774 c.y. concrete, 8040 tons steel reinf. bars, 1367 tons struc. steel. The plans are being revised. Chief modifications will involve pontoons effecting connections with the two approach spans (units 3 and 5). The movable span also will be revised. New plans will be ready Monday. Dec. 5, \$2,500,000 available. Only bid submitted Nov. 29, totaled \$3,975,0074.

UNIT 5—Reinf. concr. and struc. steel bridge over portion of Lake Wash., about .18 mile long, effecting connection between pontoon bridge and Mercer Island. About 991 tons struc. steel, 5543 tons steel reinf. bars, 1853 c.y. concrete, \$400,000 available. No bids submitted Nov. 29 except in connection with 3 & 4.

UNIT 9—Struc. steel and reinf. concrete bridge over east arm of Lake Wash. from Mercer Island and east shore of lake. About 26 mile long. About 1693 tons struc. steel, 460 tons steel reinf. bars, 6630 c.y. concrete, \$500,000 available. Only 2 bids submitted Nov. 29, lowest, \$540,537, being submitted by Puget Constr. Co., Seattle.

Plans and specifications may be obtained from the Director of Highways, Lacey V. Murrow, Seattle, upon the deposit of \$2.00. 21

BIDS WANTED

SAN BERNARDINO CO., Calif.—Until December 29, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a bridge 408 feet in length, consisting of timber stringer spans with concrete deck on pile bents, the roadway approaches to be graded, imported surf. material to be placed thereon, and road mix surfacing treatment applied, across Mojave River at Baker (VIII - SBD - 31 - K), San Bernardino County.

Work involves:

- (1) 1 lot remove existing timber;
- (2) 12 sta. clear and grub;
- (3) 244 M. gals. water;
- (4) 8,400 c.y. rdwy. overhaul;
- (5) 400 c.y. struc. excav.;
- (6) 26,600 sta. vds. overhaul;
- (7) 1,330 c.y. imported surf. mat.;
- (8) 8 sta. finish rdwy.;
- (9) 4,000 sq. vds. prepare, mix and shape roadbed;
- (10) 49 tons liq. asph. SC-4 road mix surf. treat.

Capital City
Title Company

JAMES E. BANCROFT

Manager

801 J Street

Sacramento : California

- (11) 2 tons liq. asph. 90-95 seal coat;
- (12) 20 c.y. sand seal coat;
- (13) 35,000 lbs. bar reinf. steel;
- (14) 215 c.y. Class A Portland cement concrete;
- (15) 86 MFBM redwood timber dense select all heart struc. grade;
- (16) 36 MFBM do, select all heart struc. grade;
- (17) 23 MFBM salvaged redwood timber;
- (18) 4,930 l.f. furnish treated Douglas fir piles including test piles;
- (19) 123 each drive do;
- (20) 128 l.f. 48-in. CMP;
- (21) 128 l.f. salvaging CMP;
- (22) 32 each guide posts;
- (23) 500 sq. yds. asph. paint binder;
- (24) 450 c.y. salvage surf.;

RIVERSIDE COUNTY, Calif.—Until Dec. 29, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 4.8 miles grading and paving with plant mix surfacing and Portland cement concrete between Orange County line and Corona (VIII-Riv-43-A), Riverside County.

Work involves:

- (1) 217 sta. clear and grub;
- (2) 9,077 M. gals. water;
- (3) 340,200 cu. yds. excav. without class;
- (4) 2,736,000 sta. yds. overhaul;
- (5) 5,100 cu. yds. struc. excav.;
- (6) 62 cu. yds. remove conc.;
- (7) 1,850 cu. y. remove bituminous surf.;
- (8) 1,600 sq. yds. prepar. subgrade;
- (9) 253 sta. finish roadway;
- (10) 89,600 tons surf. material;
- (11) 470 tons liq. asph. SC-4 plant mix surf.;
- (12) 9,350 tons min. agg. plant mix surf.;
- (13) 1,300 sq. yds. asph. paint binder;
- (14) 52,000 sq. yds. prepar. mix and shape roadbed.
- (15) 642 tons liq. asph. SC-4 road mix surf. treat.;
- (16) 69 tons liq. asph. 90-95 seal coat;
- (17) 750 tons screen seal coat;
- (18) 580 tons sand seal coat;
- (19) 325 cu. yds. class B Portland cem. conc. pave.;
- (20) 600 each pave. dowels;
- (21) 48,000 lbs. bar reinf. steel;
- (22) 486 cu. yds. class A Portland cem. conc. structs.;
- (23) 220 lin. ft. 8 in. CMP;
- (24) 1,448 lin. ft. 24 in. CMP;
- (25) 602 lin. ft. 36 in. CMP;
- (26) 126 lin. ft. remove clean and salvage pipe culverts;
- (27) 7 each spillway assemblies;
- (28) 13 cu. yds. class A Portland cem. conc. curbs;
- (29) 2,850 lin. ft. lam. guard railing;
- (30) 190 each guide posts;
- (31) 34 each culvert markers;
- (32) 34 miles new property fences;
- (33) 20 each drive gates;
- (34) 83 each monuments.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento * 29

CONTRACT AWARDED

PHOENIX, Maricopa Co., Calif.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$10,173.25, submitted low bid and was awarded contract by the Phoenix city commission for improving portions of 17th Ave. from Van Buren St. to Fillmore St.; Resolution of Intention No. 6752, in accordance with plans and specifications prepared by James Grand, city engineer.

Other bidders were:

Arizona Sand and Rock Co., Phoenix, \$10,211.36.

W. E. Hall Construction Co., Phoenix, \$10,518.00. * 29

BIDS WANTED

STATE OF OREGON.—Bids will be received by the Oregon State Highway Commission, Public Service Bldg., Portland, for highway construction, as follows:

DECEMBER 19, 9:00 A. M.

(1) Baker County: Grant county line-Unity Section of John Day Highway, PWA Docket 1373-F, Unit F, involving surfacing and oiling about 10.63 miles of highway roadbed. About \$47,000 available.

(2) Coos County: Coquille Section of Oregon Coast and Coos Bay-Roseburg Highways, PWA Docket

1374-F, Unit A, involving furnishing and stockpiling about 7400 c.y. cr. rock or cr. gravel. About \$19,000 available.

(3) Hood River County: Polallie Creek-Hood River Section of Mt. Hood Highway, PWA Docket 1375-F, Unit C, involving furnishing and stockpiling about 6000 c.y. crushed rock. About \$9700 available.

(4) Klamath County: Crescent-Beaver Marsh Section of The Dalles-California Highway, PWA Docket 1375-F, Unit F, involving furnishing and stockpiling about 7000 c.y. cr. rock. About \$14,600 available.

(5) Klamath and Lake Counties: Devil's Garden-Quartz Mountain Section of Klamath Falls-Lakeview Highway, PWA Docket 1404-F, involving about 12,700 c.y. excavation, 42,200 c.y. crushed rock materials and 728 tons of asphaltic road oil. About \$95,300 available.

(6) Lake County: Horse Ranch-Chewacan Narrows Section of Fremont Highway, PWA Docket 1375-F, involving furnishing and stockpiling about 10,500 c.y. crushed gravel. About \$13,500 available.

(7) Lane County: Rough Creek-Belknap Springs Section of McKenzie Highway, PWA Docket 1374-F, Unit B, involving furnishing and stockpiling about 9100 c.y. crushed gravel. About \$16,000 available.

DECEMBER 20, 9-00 A. M.

(8) Deschutes County: Sisters Section on highway in vicinity of Sisters and Horse Ridge-Brothers Section of Central Oregon Highway, PWA Docket 1375-F, Units B and F, involving furnishing and stockpiling about 19,300 c.y. crushed gravel. About \$25,400 available.

(9) Lake County: Lakeview Section of Fremont and Klamath Falls-Lakeview Highways, PWA Docket 1375-F, Unit A, involving furnishing and stockpiling about 9900 c.y. cr. rock. About \$15,000 available.

(10) Lane County: Greenleaf-Cheshire Section of Siuslaw Highway, PWA Docket 1374-F, Unit C, involving furnishing and stockpiling about 10,500 c.y. crushed rock or crushed gravel. About \$22,000 available.

(11) Malheur County: Juntura-Cairo Section of Central Oregon and John Day Highways, PWA Docket 1373-F, Unit E, involving oiling about 34.52 miles of highway roadbed and furnishing and stockpiling about 16,500 c.y. crushed rock or crushed gravel. About \$59,000 available.

(12) Marion County: Shaw Junction-Gates Project on Silver Creek Falls and North Santiam Highways, PWA Docket 1372-F, Unit D, involving about 72000 c.y. roadbed excavation, production of about 12,809 c.y. crushed rock or crushed gravel, furnishing and placing 290 tons of bit. cem. About \$37,400 available.

(13) Morrow and Umatilla Counties: Gilliam county line-Ione and Hermiston Projects on Oregon-Washington Highway, PWA Docket 1373-F, Units A and C, involving furnishing and stockpiling 12,200 c.y. cr. rock. About \$20,000 available.

(14) Wheeler and Grant Counties: Butte Creek Summit-Branson Creek and Flat Creek-John Day Sections of John Day Highway, PWA Docket 1373-F, Units B and D, involving furnishing and stockpiling about 11,000 c.y. crushed rock. About \$35,500 available.

Plans and specifications may be obtained from the State Highway Commission, Room 322, State Office Bldg., Salem, Oregon, upon the deposit of \$5.00.

TULARE COUNTY—SURFACING—(GOV'T)

TULARE CO., Calif.—Hemstreet & Bell, P. O. Box 550, Marysville, at \$147,494.50, submitted low bid to the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Building, Civic Center, San Francisco, for 19,848 miles placing bituminous treated surfacing on Section B (portion) and placing a top course, paving shoulders and gutters and placing seal coat on Sections C1, C2, and D1, C2, and D4, of Sequoia Route 1, Generals Highways, Sequoia National Park, Tulare Co., Calif.

- Work involves:
- (1) 2,000 c.y. unclass. excav.;
 - (2) 450 c.y. unclass. excav. for structures;
 - (3) 4.109 miles fine grading sub-grade and shoulders;
 - (4) 15,000 sq. yds. preparation of subgrade for shoulders and gutter paving;
 - (5) Force account selected borrow gutter backfill;
 - (6) 750 M. gals. watering;
 - (7) Lump sum water plant or plants for project;
 - (8) 18,300 tons crushed rock base course;
 - (9) 100 tons cutback asphalt (Type MC-la) for prime coat;
 - (10) 16,500 tons Class F dense plant mixture (grading A);
 - (11) 810 tons cutback asphalt (Type

- MC-4 or 5) for plant mixture;
- (12) 1960 tons cover aggregate;
- (13) 270 tons 90-95 liquid asphalt for seal coat;
- (14) 90 tons cutback asphalt (Type RC-1 for seal coat);
- (15) 650 c.y. dry rubble masonry;
- (16) 120 l.f. 8-inch corr. galv. sheet metal pipe;
- (17) 3 each 8-inch corr. galv. sheet metal pipe elbows;
- (18) 676 l.f. 8-inch perforated corr. sheet metal pipe underdrains;
- (19) 150 sq. yds. mortar backfill seal;
- (20) 700 sq. yds. grouted rubble gutter;
- (21) Force account, one way traffic control and sanding asphalt material.

- Total bids follow:
- (A) Hemstreet & Bell, Marysville, \$147,494.50.
 - (B) Mountain Constr. Co., Sacramento, \$151,296.75.
 - (C) Heafey-Moore Co. and Fredrickson & Watson Constr. Co., Oakland, \$154,330.00.
 - (D) Independent Constr. Co., Oakland, \$171,040.60.
 - (E) L. Biasotti & Son, Stockton; Claude C. Wood, Lodi; Frank B. Marks & Sons, Newman, \$171,714.50.

- (3) 40 hours 75-h.p. tractor with power scraper;
- (4) 300 hours motor grader;
- (5) 250 hours 1½-ton dump truck;
- (6) Force account, special detours;
- (7) 29,222 tons selected detour surf.;
- (8) 68,551 ton miles haul on selected detour surfacing;
- (9) 1255 lf. remove fence;
- (10) 216 lf. remove culvert pipe;
- (11) 12 ea. remove headwalls;
- (12) lump sum, remove overpass;
- (13) 29 c.y. remove concrete;
- (14) 82,738 sq. yds. remove and relay roadmix bitum. surface;
- (15) 60,500 c.y. roadway excav.;
- (16) 2750 c.y. drainage excav.;
- (17) 142 sta. "V" type ditches;
- (18) 128,054 c.y. borrow;

- (19) 281 sta. slope roundings;
- (20) 724,100 yd. sta. overhaul;
- (21) 56,600 yd. ml. overhaul;
- (22) 1310 c.y. struc. excav. B;
- (23) 2430 c.y. backfill;
- (24) 7,82 miles subgrade, type B;
- (25) force account, roadside cleanup;
- (26) 4881 M. gals. water;
- (27) 31,700 tons type 1 gravel base;
- (28) 35300 tons type 2 gravel base (1-inch size);
- (29) 9046 tons gravel surf. (shoulders);
- (30) 256 tons liquid asphalt, type SC-1A (prime);
- (31) 158 tons do. type SC-2, (prime);
- (32) 756 tons screenings;
- (33) 84 tons emulsified asph. penetration;
- (34) 632 tons liquid asphalt, type MC 3 or MC-4;
- (35) 12,654 tons Class F-1 plant-mix bit. surf.;
- (36) 614 c.y. Class A concrete;
- (37) 9 c.y. Class B concrete;
- (38) 223 c.y. Class D concrete;
- (39) 995,140 lbs. reinf. steel;
- (40) 217,300 lbs. struc. steel;
- (41) 900 lf. treated timber piles;
- (42) 30 each drive timber piles;
- (43) 22 lf. 8-in. corr. metal pipe;
- (44) 78 lf. 12-inch do.;
- (45) 196 lf. 18-inch do.;
- (46) 94 lf. 24-inch do.;
- (47) 36 lf. 30-inch do.;
- (48) 208 lf. relay culvert pipe;
- (49) 10 each move pipe culvert head-walls;
- (50) 500 lbs. castings;
- (51) 4720 lf. beam type metal guard rail;

Francisco, at \$16,431 (Proposition B) submitted low bid to the Decoto Sanitary District, Decoto, for construction of Sewerage System Unit No. 1, Treatment Plant and appurtenances.

Total bids follow: W. C. Tait Inc., (A) \$17,932; (B) \$16,431.

- C. Dudley De Velbiss, Oakland, (A) \$18,850; (B) \$16,950. Underground Construction Co., Oakland, (A) \$17,538; (B) \$17,300. Williams Bros. & Haas Inc., S. F., (A) \$18,198; (B) \$17,480. A. A. Tieslau, Berkeley, (A) \$22,225; (B) \$20,772. Fred J. Early Jr., S. F., (A) \$22,444; (B) \$22,333. A. W. Clark, Piedmont, (A) \$24,005; (B) \$23,222. Lloyd O'Brien, S. F., (A) \$24,850; (B) \$23,450. Bids taken under advisement. * 32

BIDS WANTED

FORT MASON, Cal.—Until Jan. 4, '0 A. M., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-39-45, for the construction of an intercepting sanitary sewer system at Presidio of San Francisco.

Plans and specifications may be obtained from the above office upon deposit of \$10.00. * 32

BIDS WANTED

OAKLAND, Calif.—Until Dec. 20, 1:00 P. M., bids will be received by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for the improvement of Skyline Blvd. & Grass Valley Road, Oakland.

- Work involves: (1) 185,000 cu. yds. excav.; (2) 1,760 lf. 12-inch plain concrete or vitrified clay pipe conduit; (3) 87 lf. 15 inch plain concrete or vitrified clay pipe conduit; (4) 325 lf. 12 inch standard strength reinf. concrete pipe conduit; (5) 222 lf. 15 inch extra strength reinf. concrete pipe conduit; (6) 79 storm water inlets 34 inch open; (7) 7 manholes with inlet tops 34-inch only; (8) 1 manhole standard top.

Plans and specifications may be obtained from the above office. * 32

33— WATER WORKS

BIDS WANTED

SACRAMENTO, Calif.—As previously reported, until Dec. 16, 8:15 P. M., bids will be received by the Sacramento City Council, H. D. Denton, City Clerk, City Hall, for construction of a reinforced concrete elevated storage tank. Estimated cost \$180,000.

Plans and specifications may be obtained from the above office upon the deposit of \$25. * 33

BIDS WANTED

SAN FRANCISCO.—Until Dec. 22, 3 P. M., bids will be received by the Public Utilities Commission, Room 287, City Hall, under Spec. No. W.D. 197, for the laying of 6-inch cast iron mains in McFese Ave. and Los Pinos Drive.

- Work involves: (1) 560 lf. excavation and backfill for 6-in. pipe, trench 17-in. wide by 36-in. deep; (2) 5 c.y. additional excavation and backfill; (3) no item 3; (4) installing 560 lf. 6-inch bolted joint cast iron pipe;

LINCOLN CO., NEV.—HWY. CONSTR.—(STATE)

LINCOLN COUNTY, Nev.—J. M. Sumsion, Springville, Utah, at \$118,156.85 submitted low bid and was awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for construction of approx. 9.95 miles of state highway from a point approx. 1/2 mile north of Panaca Junction to the Mile, Rte. 7, Section C, Lincoln County.

Work involves:

- (1) 50 hrs. 75 H. P. Crawler type tractor; (2) 50 hrs. 10 ft. blade grader; (3) 30 hrs. 75 H.P. tractor with carryall; (4) 30 hrs. 75 H. P. tractor with bulldozer and angledozer; (5) 100 hrs. motor grader with scarifier; (6) 50 hrs. 1 1/2-ton truck; (7) 33 acres clearing; (8) 6 c.y. remove concrete; (9) 401 lf. remove culvert pipe; (10) 18 each remove headwalls; (11) Lump sum remove concrete flums; (12) 10 c.y. remove mortar rubble masonry wall; (13) Lump sum remove porch; (14) Lump sum move building; (15) 103,550 c.y. roadway excav. "A"; (16) 107,250 c.y. roadway excav. "B"; (17) 4,400 c.y. drainage excav.; (18) 120 sta. "V" type ditches; (19) 210 sta. slope rounding; (20) 361,700 yd. sta. overhaul (yd. sta.); (21) 3,160 yd. mile overhaul (yd ml); (22) 1,595 c.y. structure excav.; (23) 1,450 c.y. backfill; (24) 9,952 m3 subgrade type "B"; (25) 5,000 M gal. water; (26) 41,600 tons type 1 gravel base; (27) 36,000 tons gravel surface;

- (28) 94 c.y. class "A" conc.; (29) 36 c.y. class "B" conc.; (30) 3,360 lbs. reinforcing steel; (31) 315 c.y. mortar curb masonry; (32) 816 lf. 15-in. corr. metal pipe; (33) 878 lf. 18-in. corr. metal pipe; (34) 722 lf. 24-in. corr. metal pipe; (35) 82 lf. 30-in. corr. metal pipe; (36) 134 lf. 36-in. corr. metal pipe; (37) 284 lf. relay culvert pipe; (38) 36 each move pipe culvert headwalls; (39) 46 c.y. class "A" conc. curb and gutter; (40) 315 lbs. castings; (41) 1 lump sum 4 ft. steel gate; (42) 126 each monuments; (43) Lump sum construct cesspool; (44) 57 lf. pipe railing; (45) 218 sq. yds. gravel footpaths;

Total bids follow: (A) J. M. Sumsion, Springville, Utah, \$118,156.85.

- (B) Nevada Rock & Sand Co., Inc., Reno, \$120,719.25. (C) W. W. Clyde & Co., Springville, Utah, \$123,237.23. (D) J. A. Terteling & Sons, Boise, Idaho, \$124,960.20. (E) Gibbons & Reed Co., Salt Lake City, \$129,913.20. (F) Strong and Grant, Springville, Utah, \$134,145.95. (G) J. A. Casson, Hayward, Calif., \$138,916.10. (H) Isbell Const. Co., Reno, \$148,133.65. (I) Silver State Const. Co., Inc., Fallon, Nev., \$149,070.30. (J) The Utah Const. Co., Ogden, Utah, \$150,132.80. (K) Dodge Const. Inc., Fallon, Nev., \$156,332.45. (L) Reynolds-Ely Const. Co., Springville, Utah, \$191,679.50.

Unit prices follow:

Table with 12 columns (A) through (L) and 45 rows of unit prices for various construction items.

- (5) installing 1,000 lbs. fittings, gate valves, etc.;
- (6) 25 lf. bell and spigot joints for pipe and fittings;
- (6a) 94 bolted joints for 6-inch cast iron pipe;
- (7) 200 sq. ft. of street pavement;
- (8) installation of 25 3/4-in. screw taps;
- (9) installation of 275 lf. 3/4-in. copper service pipe;
- (10) furnishing 560 lf. 6-in. bolted joint cast iron pipe, Class 150, at \$0.74 per lf.;
- (11) furnishing bell end gate valves: (a) 2 4-in. valves at \$12 each; (b) 1 6-in. valve at \$17;
- (12) furnishing 1,000 lbs. bell and spigot cast iron fittings at \$0.06 per lb.;
- (13) furnishing 100 lbs. steel band an bolts at \$0.05 per lb.;
- (14) furnishing 275 lf. 3/4-in. copper service pipe at \$0.17 per lf.;
- (15) furnishing 3/4-in. fittings for services at \$41.25;
- (16) engineering and supervision at \$79.00;
- (17) connections: \$102.00.

Plans and specifications may be obtained from the Cashier's Office, 6th floor, San Francisco Water Department Bldg., 425 Mason Street, upon deposit of \$5.00.

34— PARKS AND PLAY-GROUNDS

BIDS REJECTED

SHELTON, Wash.—The Procurement Division, Public Buildings Branch, Washington, D. C., rejected all bids received Nov. 4, for landscaping work at the U. S. P. O., at Shelton, Wash. Plans will be revised and work readvertised. **34**

ORANGE COUNTY—GRADING & PAVING—(STATE)

ORANGE CO., Calif.—United Concrete Pipe Corp., 1347 W. 208th St., Los Angeles, at \$44,300.80 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Building, Los Angeles, for about 0.7 mile grading and paving with Portland cement concrete between Santiago Blvd. and Santa Ana Canyon Road (VII-Or-43-B), Orange County.

Work involves:

- (1) 38 sta. clear and grub;
- (2) 1,000 M gals. water;
- (3) 220 c.y. remove conc.;
- (4) 80,000 c.y. roadway excav. without class;
- (5) 1,000 c.y. struc. excav.;
- (6) 1,050 c.y. ditch and channel excavation;
- (7) 605,000 sta. yds. overhaul;
- (8) 38 sta. finish roadway;
- (9) 5,000 tons import subgrade material;
- (10) 9,300 sv. yds. prepare subgrade;
- (11) 10 tons liq. asph. SC-2 prime coat;
- (12) 330 tons min. agg. plant mix

- surf.;
- (13) 700 sq. yds. asph. paint binder;
- (14) 18 tons liq. asph. ROMC-4 or ROMC-5 plant mix surf.;
- (15) 9,000 sq. yds. prepare mix and shape shoulders;
- (16) 110 tons liq. asph. SC-2 shoulders;
- (17) 17,000 lbs. bar relinf. steel pave. and structs.;
- (18) 3,500 each pave. dowels;
- (19) 350 each pave. tie bolt assemblies;
- (20) 1,860 c.y. class B Port. cement conc. pave.;
- (21) 105 c.y. class A Port cement concrete structs.;
- (22) 1,200 lbs. misc. iron and steel.
- (23) 210 lf. 8 in. CMP;
- (24) 12 lf. 12 in. CMP;
- (25) 430 lf. 24 in. CMP;
- (26) 160 lf. 30 in. CMP;
- (27) 7 each spillway assemblies;
- (28) 550 lf. 8 in. pervf. metal pipe undergrains;
- (29) 110 c.y. rock fill material;
- (30) 110 c.y. sand filling material;
- (31) 10 each culvert markers;

- (32) 12 miles new property fence;
 - (33) 6 each drive gates.
- Total bids follow:
- (A) United Concrete Pipe Corp., Los Angeles, \$44,300.80.
 - (B) Matich Bros., Elsinore, \$44,912.
 - (C) Griffith Co., Los Angeles, \$46,049.90.
 - (D) J. E. Haddock, Ltd., Pasadena, \$47,468.45.
 - (E) Vido Kovacivich, South Gate, \$48,153.50.
 - (F) C. O. Sparks & Madrid Engr. Co., Los Angeles, \$48,193.00.
 - (G) V. R. Dennis Const. Co., San Diego, \$49,466.50.
 - (H) Daley Corp., San Diego, \$51,928.50.
 - (I) Sully-Miller Contr. Co., Long Beach, \$52,918.00.
 - (J) Claude Fisher Co., Ltd., Los Angeles, \$52,940.20.
 - (K) C. R. Butterfield-Kennedy Co., San Pedro, \$53,226.00.
 - (L) Johnston & Percallo, Los Angeles, \$54,259.85.
 - (M) S. Edmondson & Sons, Los Angeles, \$55,589.40.

PARK-PRESIDIO WORK ATTRACTS FIVE PROPOSALS

Chas. L. Harney Low at \$105,879; Other Street Bids Opened

In its busiest session of the year the San Francisco Department of Public Works yesterday opened bids on fifteen contracts in the current building and street construction programs.

Leading off the two-hour reading of bids was the Park-Presidio boulevard improvement job which attracted proposals from 5 firms. On this contract, and on two others, bidders were required to submit proposals in accord with PWA and city standard specifications due to hope of a PWA grant which has been applied for. If Federal funds are not forthcoming the work will be handled by the City as a portion of its regular street improvement program.

Charles L. Harney, at \$105,879.84, submitted the low bid on the contract for the improvement of Park-Presidio boulevard between Fulton street and the Presidio. Other bidders included: Pacific States Construction Co., \$108,457.25; The Fay Improvement Co., \$109,782; A. G. Raisch, \$112,871.15 and Eaton & Smith, \$122,017.20.

Lovrie Paving Company at \$6,870, under-bid six competing firms on the contract for reconstructing Homestead street from Twenty-fourth to Twenty-fifth streets, and other locations. The Fay Improvement Company, at \$7,250 submitted the second lowest bid, followed by Charles L. Harney, at \$7,282.10.

E. J. Treacy, at \$4,593.40, was the low bidder for draining and surfacing the Laidley street slide between Mateo and Roanoke Sts.

On the smallest road job for which bids were opened yesterday—reconstructing Lynch street between Hyde and Leavenworth streets—West Construction Co., at \$1,437.40, submitted the lowest proposal.

FALK ELECTED

B. T. E. A. HEAD

Ray G. Falk will head the Building Trades Employers' Association of San Francisco for the coming year, it was announced yesterday, following his election as president at the annual meeting held this week. He has served as chairman of the Joint Conference Board of the B. T. E. A. and Building Trades Council for the past year.

Mr. Falk is president of W. C. Ilauck & Co., reinforcing steel fabricators and jobbers. He also is chairman of the Reinforcing Steel Institute of the San Francisco Bay area.

STATE INVITES BIDS ON MONO GRADING WORK

Proposals to Open January 4; San Bernardino Paving Also Advertised

SACRAMENTO, Dec. 13. — The State Highway Commission today authorized calling for bids on two contracts for bridge and highway construction in San Bernardino and Mono counties.

Bids on the Mono county job will be opened in Sacramento, January 4; bids on the other contract will be opened in Los Angeles, January 5, it is announced.

The Northern California job, for which bids will be opened January 4, involves grading and road-mixed surface treatment and Class A seal coat on approximately seven miles of highway between Benton Basin and the Nevada State line in Mono county.

Twenty-three Items

Unit prices will be submitted on twenty-three items.

Principal items include: 45,400 cubic yards of unclassified excavation; 34,700 station yards overhaul; 760 cubic yards of structural excavation; 7,970 cubic yards of ditch excavation; 13,700 cubic yards of imported borrow; 91,820 square yards preparing and mixing and shaping roadbed; 1139 tons of liquid asphalt of various types; and 690 tons of sand seal coat.

The second contract, for which bids will be opened in Los Angeles January 5, involves construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asphaltic concrete in San Bernardino county. The work is located about one-eighth of a mile east of the Los Angeles county line.

New orders for distillate oil burners booked during October, 1938, amounted to 75,837 units, as compared to orders for 78,494 units taken during the preceding month, the Bureau of Census announces.

Northwest Lumber Bookings Increase

A total of 751 down, and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending December 3, produced 87,439,874 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 55.6 per cent of its average weekly cut during 1927-1929.

The new business reported taken last week by the 151 mills was 105,906,475 board feet. Shipments were 95,059,625.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	42,608,104	34,538,237
Domestic		
Cargo	45,819,119	40,062,261
Export	7,179,855	10,159,730
Local	10,299,397	10,299,397

105,906,475 95,059,625

The unfilled order file at these mills stood at 282,672,092 board feet.

Production, orders and shipments all showed gains over the short holiday week preceding.

MANY BIDDERS FIGURE ELEVEN BUILDING JOBS

Leo Epp Bids Lawton School Addition; McLean Low on Health Home Kitchen

Low bids aggregating \$171,246 yesterday were submitted to Director A. D. Wilder of the San Francisco Department of Public Works on eleven contracts involving building construction and miscellaneous building repair work.

A packed assembly room watched Mr. Wilder stage the largest bid-opening session since the inauguration of the \$7,214,575 PWA hospital and school construction programs.

R. A. McLean & Company, at \$51,639, submitted the low proposal on one of the largest jobs for which bids were opened yesterday—construction of a kitchen and dining room building at Hassler Health Home. Due to a technical error, the McLean bid was forwarded to the City Attorney's office for an opinion.

Other bidders included: P. F. Reilly, \$54,800; C. C. W. and H. H. Haun, \$54,945; Miller Construction Co., \$54,997; De Luca & Sons, Inc., \$55,632; P. C. Akard, \$58,974; and Peter Sartorio, \$59,982.

The largest contract involved construction of the Lawton School addition. The low bidder was Leo Epp, at \$89,377, followed by Anderson and Ringrose, at \$90,750. The only other bid was submitted by De Luca & Sons, Inc., at \$94,348.

De Luca and Son, Inc., at \$19,748, submitted the low proposal for construction of a kindergarten at the Glen Park School. Other bidders included: Leo Epp, \$20,377; M. E. Vukievich, \$20,773; Frank Ayre, \$23,860; and Peter Sartorio, \$25,682.

The largest contract called for construction of roads and sidewalks at the site of the Science building of San Francisco Junior College. West Construction Co., at \$8,735, submitted the low proposal. The second lowest bidder was Chas. L. Harney at \$8,900, followed by Eaton and Smith, at \$9,200.

Low bidders for clearing at the outer Mission high school, and grading at Francis Scott Key school were Cleveland Wrecking Company, at \$185, and Rosenberg Brothers Grading Co., at \$422.50, respectively.

The following submitted low bids on five informal contracts: Van Fleet-Freear, at \$303, for installing composition flooring at the West Portal Library; Regal Floor Company, at \$65.00, for sanding floors at Cleveland School; Progress Glass Company, at \$86, for furnishing plate glass for Main Public Library; Regal Floor Company, at \$55, for sanding floors at the County Jail; and West Coast Wire and Iron Works, at \$130, for construction of wire partitions at the Taraval Police Station.

Reclamation Bureau Asks Proposals on Shasta Generators

The United States Bureau of Reclamation advertised this week for bids for the manufacture and installation of four giant generators for the hydro-electric plant at Shasta Dam. With a capacity of 75,000 kilovolt-amperes, each of the generators will be larger than any existing in California.

Walker R. Young, Supervising Engineer of the Central Valley Project, said it will be several years before Shasta Dam and the power plant will be completed north of Redding. He explained the call for bids for the generators is being issued at this early date so that they will be ready by the time the reservoir may be put to use.

The bids are to be opened January 19, 1939, in the Denver office of the Bureau of Reclamation. The specifications provide that installation of the four generators must be completed successively within 1,050 days, 1,140 days, 1,230 days and 1,320 days after the Government gives the notice to proceed with the work, which allows three years and eight months for the entire job.

The installations will be three-phase, 60-cycle, alternating current generators, operating at 13,800 volts, unity power factor, and turning 138½ revolutions per minute.

To Advertise Turbines

Each generator will be direct-connected by a vertical shaft to a 103,000-horsepower turbine which will receive water from the reservoir through a 14-foot diameter plate-steel penstock. The turbines, not yet advertised for bids, will be manufactured under separate contract. Provision also is yet to be made for fabrication of the penstocks.

The existing general construction contract on Shasta Dam provides for building a seven-story powerhouse downstream from the dam, adjoining the spillway on the west bank of the Sacramento River. The powerhouse will have space for five main generating units with an ultimate power capacity of 375,000 kilowatts. The four units to be installed initially will have a combined capacity of 300,000 kilowatts.

Mr. Young said the production of power will be incidental to the primary functions of Shasta Dam as a water conservation structure for the restoration of navigation on the upper Sacramento River, control of floods, prevention of salinity encroachment in the Sacramento-San Joaquin delta, and improvement of irrigation in the Great Central Valley. Part of the Shasta power will be used for operation of project pumping plants on the Contra Costa Canal and the San Joaquin Pumping System, and the remainder will be sold for municipal, industrial and agricultural use.

DINWIDDIE LOW BIDDER ON U. C. PRESS BUILDING

Submits \$243,650 Figure on Berkeley Project; Azevedo Bids Foundations

Dinwiddie Construction Company Crocker building, San Francisco, yesterday submitted the lowest of four bids to the University of California for construction of the University Press building in Berkeley. Amount of the low bid was \$243,650.

K. E. Parker Co., San Francisco at \$248,940 was second low bidder. Other bids were: H. J. Christenson and W. E. Lyons Construction Co., Oakland, \$258,621; and P. J. Walker Co., San Francisco, \$261,800.

The University Press building will be a three-story structure to be erected at Oxford and Center streets. Plans are by Architects Masten & Hurd, with Roscoe Weaver as consulting engineer.

Bids on two other university construction contracts also were opened yesterday.

Foundation Contract

Azevedo Construction Co., 920 "O" street, Sacramento, submitted a low bid of \$28,649 for foundations for the new Library-Administration building on the university's Davis campus. D. W. Nicholson, Oakland, was second low bidder at \$31,998, and O. J. Scherer, Angels Camp, was third with a proposal of \$32,325.

For construction of a dental X-ray pavilion at U. C. Hospital in San Francisco, D. L. Bienfeld, 834 30th Avenue, was low bidder at \$16,889.

Second and third low bids, respectively, for the X-ray pavilion were: Albert E. Mangs & Associates, San Francisco, \$17,660; and De Luca & Son, Inc., San Francisco, \$18,700.

SPECIFICATIONS FOR MAPLE FLOORS READY

The new specifications of the Maple Flooring Manufacturers Association for heavy duty finishes and gymnasium finishes for use on maple, beech and birch were released around the middle of November. Copies are available either from the association or the official laboratory. Foster D. Snell, Inc., Brooklyn, N. Y.

LYON TAKES LARGER QUARTERS IN S. F.

Lyon Metal Products, Inc., widely-known San Francisco firm, has moved to new and larger quarters in the Rialto building, 116 New Montgomery St., it is announced. In the future their office will be in Room 449.

Lyon Metal Products, Inc., was formerly located at 582 Market St.

PWA Program Throughout Nation Nearing Peak as January 1 Deadline Approaches

With only two weeks left in which to meet the January 1 Congressional deadline on construction of projects, PWA is surpassing all previous records in the speed with which contracts are being awarded for public works projects.

Public Works Administrator Harold L. Ickes announced yesterday

that contracts on PWA projects were awarded last week on an average of 188 a day. This is 74 more per day than the average of 114 which is necessary in order to have all the projects under way by the end of the year. During the same 6-day period, it was reported to Administrator Ickes, bids were advertised at the rate of 163 a day.

The swiftness with which the vast building program is being put under way is also indicated by the fact that within five and a half months after the President signed the PWA Act, almost \$200,000,000 worth of Federal projects, and \$906,000,000 worth of non-Federal projects, comprising approximately 70 per cent of all jobs, have been placed under construction. Altogether, of December 7, dirt had begun to fly on approximately 4,800 projects, and contracts had been awarded or bids advertised on an additional 505 projects.

Outstanding Projects

Several outstanding projects, from the standpoint of size and cost involved, are about to join the list of those under construction. Dedication of the \$28,000,000 Circumferential Highway in New York City took place on Saturday, December 10. The first spadeful of dirt on the \$40,000,000 Chicago subway will be turned on December 17, thus bringing closer to reality the dream of generations of Chicago citizens. The \$9,000,000 Washington, D. C., airport went under construction recently and hundreds of other projects in every part of the Nation are about to break ground.

The awarding of contracts and the actual beginning of construction of some \$1,670,000,000 worth of construction by the first of the year will contribute materially to the expected record post-depression volume of construction which is estimated by the Department of Commerce to take place in 1939. The great volume of orders for materials which the program will create in generating millions of additional man-hours of employment and thus contributing to the building up of the national income.

Production Gains

The results of the construction now under way and contemplated are already reflected in the increased production schedules and pay roll estimates of industry. Industries producing and business and transportation handling orders for iron and steel and their products, cement and concrete products, heating and ventilating equipment, plumbing materials, electrical machinery, electrical apparatus and

FIRST OAKLAND TRAIN ENTERS NEW TERMINAL

A routine test trip yesterday sent the first Oakland train across the Bay Bridge into the San Francisco Terminal unheralded and unannounced.

This was a Key System two-unit electric interurban train, which left the easterly end of the bridge at 8:30 in the morning and proceeded at 35 miles an hour across the span into San Francisco.

Still under construction, power for the Bay Bridge electric railway had not been connected between Pier W-1 and Sterling St. substation in San Francisco so the train coasted over this small section. From then on it received its power from the 3rd rail, by which the Key trains will run when railway facilities are put into operation. Interurban Electric and Sacramento Northern trains will operate on a catenary system.

Reverses Direction

The train entered the terminal from a westerly direction. Under normal operating conditions the trains will come into San Francisco over the viaduct from east to west in clockwise manner.

Construction work on the easterly end of the viaduct prevented normal operations yesterday. Purpose of the trip was to test signal facilities.

supplies, lumber and timber products, brick and tile, sand, gravel and stone, and trucks, engines and turbines are benefiting extensively from the program on the basis of studies made by a number of agencies.

Reports from the Bureau of Labor Statistics, United States Department of Labor, indicate that the PWA projects of the 1938 program which are already under construction will provide more than one billion man-hours of employment at prevailing wages in the construction trades and in the factories and mills which fabricate products designed for PWA projects. While no reliable estimates are as yet available, it is expected that a tremendous share of the money paid out for wages and materials on the PWA projects will be expended on consumer goods, in turn stimulating the retail and distributive trades.

RENTAL HOUSING RULES CHANGED, FHA ANNOUNCES

Sponsors Must Submit Plans First to Qualified Financial Institution

Sponsors of large scale rental housing developments must in the future submit plans and specifications and all other details of proposed projects to a lending institution prior to submission to the FHA of an application for mortgage insurance, the Federal Housing Administration announced yesterday.

This change in procedure is effective December 15.

No formal applications for mortgage insurance on projects coming under Section 207 of the National Housing Act will be accepted for examination unless they are submitted through a financial institution qualified by the FHA to make insured mortgages. The mortgagee, or lender, in such a case will indicate by signing the application its interest in making the loan in the event the FHA will issue a commitment to insure the mortgage used to finance the proposed project.

This change in procedure makes possible the concurrent processing of cases with the lending institution, thereby expediting the operations of the rental housing program.

Submission of applications thru the lender and concurrent examination, it was pointed out, affords an opportunity for an exchange of views and adjustment of any differences of opinion which might arise between the FHA and the lender. Further, this procedure fixes in advance the interest rate and initial fees to be charged by the lender, thus establishing firmly the basis on which charges are to be computed and the commitment issued. Quicker service and reduction of expense will grow out of the practice, it was said.

Formerly, applicants often made direct contact with the FHA before consulting a lending institution which could make the loan.

DRAFTSMEN TO ELECT DIRECTORS TONIGHT

The California Society of Architectural Draftsmen will hold its regular monthly meeting tonight at the Green Lantern, Kearny and Clay streets, in San Francisco. Dinner will be served at 6 P. M.

Chief business of the evening will be nomination of directors to serve for the coming year.

Shipments of deep well water systems during Oct., 1938 amounted to \$165,525, as compared to shipments valued at \$178,938 booked during October, 1938, the Bureau of Census announces.

Work involves:

- (1) 1 lot removing superstructure of existing bridge;
- (2) 6 sta. clearing and grubbing;
- (3) 55 M gal. water;
- (4) 10 c.y. struc. excav.;
- (5) 1,900 c.y. imported borrow;
- (6) 6 sta. finishing roadway;
- (7) 390 tons untreated crushed gravel or stone surf.;
- (8) 190 tons mineral aggreg (plant mixed surf.);
- (9) 10 tons liq. asph., ROMC-3, 4, or 5 (plant mixed surf.);
- (10) 1 ton liq. asph., MC-2 (prime coat);
- (11) 4 tons liq. asph., SC-2 (penetration oil treat.);
- (12) 1 ton asphaltic emulsion (seal coat and paint binder);

- (13) 10 tons screenings (seal coat);
- (14) 47,000 lbs. bar reinf. steel;
- (15) 305 c.y. Class "A" Port. cement concrete;
- (16) 7,700 lbs. misc. iron and steel;
- (17) 450 lf. timber railing;
- (18) 182 lf. temp. railing;
- (19) 112 each, cinch anchors;
- (20) 2 each, portable barricades;
- (21) 1 lot misc. items of Work.

Plans and specifications may be obtained from the above office. * 21

BIDS WANTED

SAN BERNARDINO CO., Calif.—As previously reported, until January 5, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asphalt concrete about one-eighth mile east of Los Angeles County line (VIII-SBD-26-C), San Bernardino County.

Work involves:

- (1) 260 c.y. remove conc.;
- (2) 185 M. gals water;
- (3) 2,200 c.y. roadway excav. without class;
- (4) 2,000 c.y. struc. excav.;
- (5) 5,100 c.y. import. borrow;
- (6) 3,700 sq. yds. prepar. subgrade;
- (7) 11 sta. finish roadway;
- (8) 3,000 sq. yds. prepar. mix and shape shoulders;
- (9) 40 tons liq. asph. SC-2 road mix surf. treat.;
- (10) 1,700 sq. yds. asph. plant binder;
- (11) 1,725 tons asph. conc.;
- (12) 193,000 lbs. bar reinf. steel;
- (13) 1,152 c.y. Class A Port. cement conc. struc.;

- (14) 11 c.y. Class A Portland cement concrete railing;
- (15) 630 lbs. misc. iron and steel;
- (16) 1 lot temporary barricades;
- (17) 200 sq. yds. rock and wire bank protection;
- (18) 22 c.y. class A Port. cem. conc. slope paving and cut-off wall;
- (19) 464 lf. 24-inch CMP;
- (20) 24 lf. remove, clean and salvage culvert pipe;
- (21) 130 c.y. Class A Port. cem. conc. curbs, sidewalks and driveways;
- (22) 4 each monuments;
- (23) 5 sta. remove traffic stricks;
- (24) 1 lot misc. items of work.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Building, Sacramento. * 21

LOW BIDDER

FRESNO COUNTY, Calif.—F. Frenenberg, P. O. Box 373, South San

Capital City
Title Company

JAMES E. BANCROFT

Manager

801 J Street

Sacramento : California

Francisco, at \$11,684.00, submitted low bid to the State Division of Highways, E. Scott, District Engineer, District VI, Fresno, for five bridges to be repaired across San Joaquin River Overflow, about eight miles east of Mendota (VI-Fre-41 P), Fresno County. * 21

22— DREDGING WORKS, EXCAVATION

December 15, 1938

CONTRACT AWARDED

CLARK COUNTY, Wash.—General Const. Co., at \$169,342.50 awarded contract by the U. S. Engineer Office, District Engineer, Bonneville, Oregon, under Bid No. 694-29-51, for dredging a channel 300 ft. wide and 15 ft. deep at low water in Columbia river between Interstate Bridge at Vancouver, Wash., and Camas, Wash., a distance of about 13 miles. Work involves: 1,743,000 c.y. dredging and disposal of dredge material. * 22

BIDS WANTED

LINCOLN COUNTY, Ore.—Until Dec. 28, 3 P. M., bids will be received by the U. S. Engineer Office, 628 Pittcock Block, Portland, under Bid No. 698-39-284, for excavation in connection with improvement of the entrance and inner harbor at DePoe Bay, Lincoln Co., Ore.

Work involves:

- Section I—Entrance Channel**
- (1) 255 c.y. excavation and disposal of sand, gravel, boulders, and solid rock to required depth and side slopes;
 - (2) 95 c.y. sand, gravel, boulders and solid rock in overdepth and side slope allowance, at one-half the unit price bid for Item 1.
- Section II—Inner Basin**
- (3) 10,267 c.y. excavation of mud, sand, gravel, boulders and solid rock to required depth and side slopes;
 - (4) 1,405 c.y. mud, sand, gravel, boulders and solid rock in overdepth and side slope allowance, at one-half the unit price bid on Item 3.

Plans and specifications may be obtained from the above office. * 22

CONTRACT AWARDED

COOS COUNTY, Ore.—Kern and Kibbe, Portland, Oregon, at \$622,884, awarded contract by the U. S. Engineer Office, District Engineer, 628 Pittcock Block, Portland, under Bid No. 698-39-202, for repairing the north jetty at the entrance to Coos Bay, requiring the construction of tramways, and the furnishing and placing of about 225,000 tons of jetty stone and 2030 c.y. of cement concrete, Coos County, Oregon. * 22

BIDS OPENED

LOS ANGELES, Calif.—Hydraulic Dredging Co., Ltd., 1225 Central Bank Bldg., Oakland, submitted the low bid to the U. S. Engineer, Los Angeles, at \$417,545, or 9,256 c.y., for dredging 4,514,000 c.v. material in San Diego Harbor; Invt. 182. The work is located adjacent to and north of existing turning basin and main bay channel in north part of San Diego Bay and consists of furnishing all plant, labor and materials for dredging to a depth of 35 ft. below mean lower low water in an area 1200 ft.

wide by 3600 ft. long, and depositing the dredged material in the area about 240 acres in extent situated east and south of the U. S. Marine Corps Base.

Funds available for payment to contractor amount to \$460,000.

The other bids were:
Standard Dredging Co., 9.965c, total, \$449,820.10.

American Dredging Co., 10.62c, total, \$479,386.80.

San Francisco Bridge Co., 12.8c, total, \$577,792.08; Alt., based on the award of the entire work, A. B. C. and D, 11.84c, total, \$534,457.60.

W. E. Callahan Const. Co., Los Angeles, 16.5c, total, \$744,810.

Case Const. Co., 33c, total, \$1,489,-620.

Engineer's estimate, 10.32c, total, \$466,040. * 22

CONTRACT AWARDED

BOISE PROJECT, Idaho.—Henry L. Horn, Caldwell, Idaho, at \$12,527-50 awarded contract by the U. S. Bureau of Reclamation, Boise, under Spec. No. 1133-D, for construction of earthwork, Black Canyon canal lateral 24.8 to 26.2 and "A"-line canal laterals 2.0 to 9.4, Payette Division, Boise, Project, Idaho. * 22

CONTRACT AWARDED

SEATTLE, Wash.—Puget Sound Bridge and Dredging Co., 2929 16th Avenue, S. W., Seattle, at \$68,089.20 (\$0.138 per c.y.) awarded contract by the U. S. Engineer Office, 754 Central Building, Seattle, for dredging about 493,400 c.y. materials in Olympia Harbor, Wash. * 22

23— CANALS

BIDS OPENED

ORANGE COUNTY, Calif.—Oberg Bros., 6024 Miramonte Blvd., Los Angeles, at \$13,495.00 submitted low bid to the State Highway Department, Los Angeles, for construction of reinforced concrete channel protection in Orange County at Brea Canyon, about 5 miles northeast of Fullerton (VII-Ora-19-A). The work involves:

- (1) 300 c.y. struc. excav.
- (2) 2,000 c.y. ditch and channel excavation;
- (3) 1,600 c.y. backfill;
- (4) 48,000 lbs. bar reinf. steel;
- (5) 300 c.y. Class A Portland cement concrete (struc.);
- (6) 190 c.y. do (slope paving and invert slab);
- (7) 1 lot misc. items of work.

Total bids follow:
(A) Oberg Bros., Los Angeles, \$13-495.00.

(B) Vido Kovacevich, South Gate, \$13,565.00.

(C) R. M. Price, South Gate, \$14,405.

(D) Edward Green, Los Angeles, \$11-710.00.

(E) R. H. Liggett, Lynwood, \$16,350.

(F) J. E. Haddock, Ltd., Pasadena, \$16,550.00.

(G) Everts & Dunn, Los Angeles, \$18,910.00.

(H) Contracting Engineers Co., Los Angeles, \$22,830.00.

BIDS WANTED

MODESTO, Stanislaus Co., Calif.—Until Dec. 23, 3:00 P. M. bids will be received by the Modesto Irrigation District, C. S. Abbott, Secretary, 823 11th St., Modesto, for the construction of concrete lining, concrete pipe, and concrete structures, in the canals and service ditches of the Modesto Irrigation District.

Plans and specifications may be obtained from the above office. * 23

CONTRACT AWARDED

LOS ANGELES CO., Calif.—R. E. Hazard & Sons, P. O. Box 1510, San Diego, at \$28,511.75, awarded contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for placing a bituminous treated surface (Type B-1) on 12,509 miles of Section A, B, C, D and E of Route 61, the Angeles Crest National Forest Highway, Los Angeles County. * 23

BIDS WANTED

YAKIMA, PROJECT, Washington.—Until Jan. 9, 10:00 A. M. bids will be received by the U. S. Bureau of Reclamation, Yakima, Washington under Spec. No. 815, for the construction of a earthwork, canal lining, and structures, station 1952 to station 2387, Yakima Ridge canal, Roza division, Yakima project, Washington. The work is located near Yakima, Washington.

Work involves:

- (1) 661,750 c.y. of all classes of excavation for canal;
 - (2) 50,000 c.y. of excavation for core banks;
 - (3) 115,000 sta. c.y. of overnaul;
 - (4) 11,125 c.y. of excav. for struc;
 - (5) 1,050 c.y. of excav. for drainage channels and dikes;
 - (6) 24,500 c.y. of compacted embankment;
 - (7) 2,600 sq. yds. of preparing rock foundations for conc. lining;
 - (8) 59,000 sq. yds. of trimming earth foundations for conc. lining;
 - (9) 15,000 c.y. of earth lining of canal;
 - (10) 1,200 c.y. of gravel blanket on inside slopes of canal embankments;
 - (11) 36,900 c.v. of backfill about structures;
 - (12) 8,445 c.y. of concrete in struc.;
 - (13) 6,800 c.y. of conc. in canal lining;
 - (14) 1,000 sq. yds. of dry-rock paving;
 - (15) Placing 2,527,000 lbs. of reinf. bars;
 - (16) Constructing 13,300 linear feet of 6-inch diam. underdrains with uncemented joints;
 - (17) Laying 500 linear fet of 6-inch diam. sewer pipe with cemented joints;
 - (18) Laying 955 linear feet of 12-in. to 36-in. diam. conc. pipe and
 - (19) Installing 6,900 lbs. of gates and blow-off valves and connections.
- Plans and specifications may be obtained from the above office: from Denver, Colorado; and from Washington, D. C.; no charge to prospective bidders; to others, \$1.50, not returnable. * 23

BIDS OPENED

YAKIMA PROJECT, Wash.—J. A. Terteling and Sons, Box 1406, Boise, Idaho, at \$448,325 (Sched. 1 and 2), submitted low bid to the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 813, for the construction of earthwork, tunnels, canal lining, and structures, station 1641 plus 15 to station 1952 plus 09, Yakima

Ridge canal, Roza division, Yakima Project, Wash.

Complete bids follow:
Schedule 1—Terteling and Sons, \$247,235; Barnard-Curtis Co., Minneapolis, \$300,560; H. J. Adler and H. C. Adler, Yakima, \$335,801; L. Romano Engineering Co., 1300 Dearborn, Seattle, \$377,060; Natt McDougall, Sherlock Bldg., Portland, \$293,777.

Schedule 2—Terteling and Sons, \$201,099; T. E. Connolly, San Francisco, \$224,568; L. Romano Engineering Corp., \$247,467; Siemans Spokane Co., Realty Bldg., Spokane, \$248,349; Morrison-Knudsen Co., Yakima, \$265,061.

Complete bids, including unit prices, are on file at the office of the Daily Pacific Builder, 465 Tenth St., San Francisco. * 23

24—STREET LIGHTING

BIDS WANTED

MERCED, Calif.—Until January 3, 8:00 P. M., bids will be received by the Merced City Council, W. T. Clough, City Clerk, City Hall, Merced, for installing automatic traffic signals at the intersection of 16th and M Streets.

Plans and specifications may be obtained from the office of the City Engineer, City Hall, Merced, upon the deposit of \$10. * 24

25— MACHINERY AND EQUIPMENT

BIDS OPENED

OAKLAND, Calif.—Fairbanks Morse & Co., Spear & Harrison Sts., S. F., at \$2,404.82, submitted low bid to the Oakland Port Commission, foot of Grove St., Oakland, for furnishing and installing low list draining pump for Oakland Airport.

Total bids follow:
Fairbanks Morse & Co., San Francisco, \$2,404.82.

United Iron Works, Oakland, \$2,697 (not including sales tax).

John Bean Manufacturing Co., San Jose, \$2,989.00.

Byron Jackson Co., Berkeley, \$3,-467.75.

Kimball-Krough Pumps-Victor Equipment Co., San Francisco, \$3,558.96.

Simonds Machinery Co., San Francisco, \$3,707.00; alternate, \$3,-407.00. * 25

BIDS WANTED

MERCED, Merced Co., Calif.—Until January 9, 8 P. M., bids will be received by the Merced City Council, W. T. Clough, City Clerk, City Hall, for the installation of an automatic traffic signal at the corner of 16th and M Sts. Est. cost, \$2,364.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

SACRAMENTO, Calif.—Until Dec. 21, 10:00 A. M., bids will be received by the State Bureau of Purchases, 911 12th St., Sacramento, for furnishing Dairy Equipment for the new Dairy Milk House f.o.b. Sonoma State Home, Eldridge.

Plans and specifications may be obtained from the above office. * 25

BIDS OPENED

BOULDER CANYON PROJECT.—Following submitted bids to the U. S. Bureau of Reclamation, Denver, Colo., under Bid No. 1144-D, for furnishing and delivering (1) 23 radial gates; and (2) 23 radial gate hoists

for the New Briar Canal, All-American canal system, Boulder Canyon Project; fob shipping point and/or Calexico, Cal. Gates and gate bolsters will be installed by the Government. Complete bids follow:

Worden-Allen Co., Milwaukee: (1) \$14,479; fob Milwaukee; $\frac{1}{2}$ %.
Johnson Mfg. Co., Seattle: (2) \$22,552; fob Seattle.

Hansell-Elococ Co., Chicago: (1) \$13,712; (2) \$35,912; no motors included; no hoisting cables included except as shown on drawings; fob Chicago; $\frac{1}{2}$ %.

Hesse-Ersted Iron Works, Portland: (2) \$17,038; $\frac{1}{2}$ %; fob Portland.
Hunter Steel Co., Pittsburgh: (1) \$13,240; fob Neville Island, Pa.

International Engr. Inc., Dayton, Ohio: (2) \$17,215; fob Dayton; 1%.
Stearns-Roger Mfg. Co., Denver: (1) \$12,554; fob Denver.

American Bridge Co., Denver: (1) \$14,427; fob Gary, Ind.

Poote Bros. Gear & Machine Corp., Chicago: (2) \$17,750; fob Chicago.

Valley Iron Works, Inc., Yakima, Wash.: (2) \$17,800; fob Yakima; 5%.
Consolidated Steel Corp., Los Angeles: (1) \$14,587; (2) \$22,371; comb. bid, \$36,332; fob Los Angeles.

Smith Corp. (General Iron & Steel Works), Portland: (1) \$13,194; (2) \$15,991; fob Portland.

Ellicott Machine Corp., Baltimore Md.: (2) \$23,300; fob Baltimore.

Long Beach Iron Works, Long Beach: (2) \$17,540; fob Long Beach; disc. 2%.

Ogden Iron Works Co., Ogden: (1) \$16,086; (2) \$16,700; fob Ogden; 1%.

Berkeley Steel Const. Co., Berkeley: (1) \$12,625; fob Berkeley; $\frac{1}{2}$ %.

Pacific Iron & Steel Co., Los Angeles: (1) \$12,695; fob Los Angeles.

Lakeside Bridge & Steel Co., Milwaukee: (1) \$14,420; fob Milwaukee.

John W. Beam, Denver: (1) \$13,775; fob Chicago; $\frac{1}{2}$ %.

Thompson Mfg. Co., Denver: (1) \$18,690; $\frac{1}{4}$ %; fob Calexico.

Western Pipe & Steel Co. of Calif., Los Angeles: (1) \$14,100; fob Los Angeles.

Lake Shore Engine Works, Marquette, Mich.: (2) \$23,350; $\frac{1}{2}$ %.

R. C. Mahon Co., Detroit: (1) \$24,590; fob Detroit.

McKiernan-Terry Corp., New York City: (2) \$19,950; fob Dover, N. J.

Jos. D. Christian, San Francisco: (2) \$19,999; fob Calexico; 1%.

Pacific Coast Engr. Co., Oakland: (1) \$14,480; $\frac{1}{4}$ %; fob Oakland.

Southwest Welding & Mfg. Co., Alhambra: (1) \$16,129; 5%; fob Alhambra.

Telegraphic bids were received from Commercial Iron Works, Portland, and H. R. L. Motor Co., Seattle. * 25

BIDS WANTED

CENTRAL VALLEY PROJECT—Until Jan. 19, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 816, for furnishing and installing four 75,000-kva., unity-power-factor, 138 $\frac{1}{2}$ -r.p.m., 13,800-volt, 3-phase, 60-cycle, vertical-shaft, alternating-current generators for the Shasta power plant, Central Valley Project, California.

Plans and specifications may be obtained from the above office, from Washington, D. C., and from Sacramento, Calif., no charge to prospective bidders; to others, \$2.50, not returnable. * 25

CONTRACTS AWARDED

COLUMBIA BASIN PROJECT—Following awarded contracts by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 805, for furnishing and delivering embedded

metal work for anchorages for 11 drum gates at the Grand Coulee Dam, Columbia Basin Proj., Wash.; fob shipping point and/or Odair, Wash. Drum gate anchorages will be installed by the Government.

The Kilby Steel Co., Inc., Anniston, Ala., at \$66,112.00 was awarded the contract for furnishing anchor bolts and adjusting bolts for eleven drum gates.

The Stearns-Roger Mfg. Co., Denver, Colo., at \$36,251.00 awarded contract for supplying gate seats for eleven drum gates.

John W. Beam, Denver, at \$35,900 awarded contract for the structural steel anchorages for the gates. * 25

BIDS OPENED

BONNEVILLE, Oregon—Following submitt'd bids to J. D. Ross, Administrator, Bonneville Project, 1300 N. E. Union, Portland, Ore., under Bid No. 74, for (1) 2 type B towers; (2) 2 type C towers; (3) 5000 lbs. additional steel; f.o.b. bidder's shipping point and/or Bonneville.

Complete bids follow:
Hansell-Elococ Co., (3) \$275.00; total, \$38,500.00; f.o.b. Chicago, Ill.
Isaacson Iron Works, (1) \$35,480; (2) \$6,624.00; (3) \$350.00; total, \$42,454.00; f.o.b. Seattle, Wash.

Continental Bridge Co., (1) \$37,010.00, f.o.b. Chicago, Ill.; (2) \$44,526.00, f.o.b. Bonneville, Oregon; (2) \$7,022.00; f.o.b. Chicago, Ill.; \$8,448.00; f.o.b. Bonneville, Oregon; (3) \$298.00; f.o.b. Chicago, Ill.; \$358.00; f.o.b. Bonneville, Oregon; total, \$44,330.00; f.o.b. Chicago, Ill.; \$53,342.00; f.o.b. Bonneville, Oregon.

American Bridge Co., (1) \$40,102; (2) \$7,072.00; (3) \$34,000; total, \$47,514.00; all f.o.b. Pittsburgh, Pa.
Bethlehem Steel Co., (1) \$22,254.00; f.o.b. Leetsdale, Pa.; \$37,184.00; f.o.b. Bonneville, Ore.; (2) \$6,216.00; \$7,130; (3) \$285.00; \$326.00; total, \$38,755.00; \$44,640.00; f.o.b. points as above.

Lehigh Structural Steel Co.: (1) \$29,594.00; f.o.b. Allentown, Pa.; \$34,534.00; f.o.b. Bonneville, Ore.; (2) \$5,790.00; \$6,740.00; (3) \$265.00; \$306; total, \$35,649.00; \$41,580.00; f.o.b. points as above. * 25

BIDS OPENED

SAN FRANCISCO—Lerer Bros., 375 11th St., San Francisco, at \$144 per unit submitted low bid to T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 2122, for the rental of 8 3-yard dump trucks for use at San Francisco Airport, WPA project, Rock & Gravel Trucking Co., at \$224, submitted the only other bid. * 25

BIDS WANTED

BOULDER CANYON PROJECT—Until Jan. 3, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 818, for furnishing and delivering three 55,000-kva, 60-cycle, single-phase, oil-immersed, water-cooled, 16,320 to 166,000/287.500 Y-volt transformers for units A-1 and A-2 in the Boulder Power Plant, Boulder Canyon project, Arizona-California-Nevada; f.o.b. shipping point and/or Boulder City, Nevada. All of the apparatus will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$1.50, not returnable. * 25

CONTRACT AWARDED

LOS ANGELES, Calif.—Pennsylvania Transformer Co., at \$6445 has awarded contract by U. S. Indian Irrigation Service, Los Angeles, for three 833 kva transform-

ers for standby generating station, San Carlos proj., Ariz., f.o.b. Coolidge, Ariz., Adv. FO-4. * 25

LOW BIDDERS

BRAWLEY, Imperial Co., Calif.—Nordberg Mfg. Co., Milwaukee, Disc., at \$449,137.00, submitted the low bid to the Imperial Irrigation District, for two new Diesel-engine driven generating equip. for the Brawley plant, Spec. 2-B, a FWA project. The units are of 2500-hp capacity each. The General Mchy. Co., of Hamilton, Ohio, submitted the next bid at \$458,372. * 25

BIDS WANTED

SALT RIVER PROJECT, Arizona.—Until Dec. 28, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 1154-D, for furnishing and delivering misc. parts for alterations to the existing power-drive equipment for operating the hoists for the sluice gates in the diversion dam and misc. parts for alterations to the existing power-drive equipment for operating the hoists for the three intake gates in the intake structure of the Roosevelt power canal, Salt River project, Arizona; f.o.b. shipping point and/or Mesa, Arizona. All materials and equipment will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others \$0.50 not returnable. * 25

BIDS WANTED

SACRAMENTO, Calif.—Until Dec. 21, 3:00 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Building, Sacramento, under Bid No. 1105-39-135, for 36 fire extinguishers; f.o.b. Sacramento.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

LOS ANGELES, Calif.—Until Dec. 21, 2:00 P. M., bids will be received by U. S. Indian Irrigation Service, Room 523, 8th and Figueroa Bldg., L. A., for 3000 hp electric motors and control equipment, complete, f.o.b. bidder's shipping point and/or f.o.b. Polson, Mont., for Flathead River pumping plant, Flathead Indian Irrigation project, Mont., Adv. FO-7. * 25

BIDS WANTED

SAN MATEO & SANTA CLARA COUNTIES, Calif.—Until Dec. 19, 2 P. M., bids will be received by the State Division of Highways, John H. BIDS RECEIVED ON FOUR COAST NAVY PROJECTS

**American Bridge, Bethlehem
Steel Low on Structural
Steel Jobs**

WASHINGTON, D. C., Dec. 21.—Bids on four major contracts for work on West Coast naval projects were opened here today by the Navy Department Bureau of Yards & Docks.

American Bridge Co., Frick building, Pittsburgh, Pa., at \$508,366 (item one) submitted low bid for structural steel work for the Mare Island Navy Yard machine shop.

Bethlehem Steel Corp., San Francisco, second low bidder at \$523,700 for the Mare Island steel work, submitted a low proposal of \$212,300 for structural steel framework for the assembly and repair shop at the Alameda Naval Air Station.

Winslow Marine Railway and Shipbuilding Co., Burke building, Seattle, was low bidder at \$389,650 for structural steel caisson gate at the Puget Sound Navy Yard. Second low bid was \$389,750, submitted by Consolidated Steel Corp., Los Angeles.

Heating, Piping Men Plan Annual Meeting

The annual meeting of the Heating and Piping Contractors Association of San Francisco will be held January 10, at the Club Lido, 915 Columbus avenue, S. W. Finney, executive secretary of the Association, announces.

Arrangements have been made to take over the entire club, according to Mr. Finney, including the orchestra and floor show. The entertainment will be augmented by thirty additional acts. Admission to the meeting, including dinner and entertainment will be \$3.50 per person.

INVITE AIRPORT DREDGING BIDS

The San Francisco Public Utilities Commission yesterday issued two calls for bids for dredging at San Francisco Airport and laying eight-inch cast iron mains in an easement at Third street and Islais creek.

The first contract involves the rental of a dredge for 600 hours for work at San Francisco Airport. Bids will be opened December 30. The second contract, for which bids will be opened January 5, involves laying 2,230 lineal feet of 8-inch cast iron mains at Third street and Islais creek. Excavation and backfill for a 17 by 36-inch trench, repavement and installation of fittings are involved in the job.

Bids for Sonoma Buildings Jan. 17

SACRAMENTO, Dec. 20.—Bids for construction of the dairy milk house and a school addition at Sonoma State Home, Eldridge, will be opened by the State Division of Architecture here January 17, Acting State Architect W. K. Daniels announced today.

The dairy milk house will be a 1-story reinforced concrete building with wood roof construction, composition roofing and steel sash.

The addition to the school building will contain three classrooms, as well as incidental rooms and a cloister connecting it with the existing school structure.

Additional Work at Hassler Home Slated

Director A. D. Wilder of the San Francisco Department of Public Works yesterday called for bids, to be opened December 28, for construction of mechanical equipment and plumbing, and electrical work for the kitchen and dining room building at Hassler Health Home.

The mechanical equipment and plumbing work is estimated to cost \$8,000; the electrical work, \$3,000.

AZEVEDO LOW ON J. C. UNITS AT SACRAMENTO

\$234,285 Low Proposal Submitted; Lindgren & Swinerton Second

SACRAMENTO, Dec. 20.—Azevedo Construction Co., Sacramento today submitted a low bid of \$234,285 to the Sacramento board of education for construction of four new buildings at the Sacramento Junior College.

Lindgren & Swinerton, Inc., San Francisco, at \$244,500 submitted the second low proposal.

Other bidders included: H. W. Robertson, Sacramento, \$244,812; Campbell Const. Co., Sacramento, \$244,826; and Lawrence Const. Co., Sacramento, \$256,600.

To be constructed under the contract for which bids were received today are:

1. Home economics building.
2. Aeronautics shop building.
3. Cafeteria and students' cooperative store.
4. Engineering building.

The building will be financed in part by a special bond issue approved by the voters at an election in September, together with a 45 per cent grant from the Public Works Administration.

Plans for the buildings were prepared by Architect Harry J. Devine of Sacramento.

Iron, Steel Meeting Set for Feb. 9-10-11

Final plans for the Fifteenth Annual Conference of the Iron, Steel and Allied Industries, to be held under sponsorship of the California State Chamber of Commerce, were underway this week following announcement of the dates scheduled for the sessions.

The conference will be held at Hotel Del Monte during the second week in February, it was announced. Dates are February 9, 10 and 11.

BIDS JAN. 11 ON SISKIYOU GRADING WORK

Bids Also Invited for Underpass, Paving Projects in Los Angeles

SACRAMENTO, Dec. 20. — The State Highway Commission today authorized advertising for bids on three contracts for grade separation and highway construction in Siskiyou and Los Angeles counties.

Bids on the Northern California job will be opened in Sacramento January 11; bids on the two Los Angeles county projects will be opened in Los Angeles, January 12.

The first contract involves grading approximately 1.4 miles of highway between one-half mile east of Hamburg and Scott River in Siskiyou county.

On the following day bids will be opened for construction of an undergrade crossing under tracks of the Atchison, Topeka and Santa Fe Railway Company at Chapman Station on Rosemead boulevard in Los Angeles county.

The crossing will consist of steel track spans on reinforced concrete piers and abutments on treated pile foundations. About 0.3 mile of grading and paving with Portland cement concrete are involved in the contract, also.

Principal items include: 33,600 cubic yards of unclassified excavation; 4,850 cubic yards of structural excavation; 98 tons of liquid asphalt; 1,670 cubic yards of Class B concrete pavement; 160,500 lbs. of bar reinforcing steel; 960 cubic yards of Class A Portland cement concrete structures; 428,000 pounds of structural steel; 91,000 pounds of ballast plates; 320 lineal feet of CMP; and 500 cubic yards of Class A Portland cement slope paving.

The State Division of Highways in Los Angeles will also open bids on a contract for 0.4 mile of grading and paving with asphaltic concrete, Portland cement concrete and plant-mixed surfacing between North Main street and Mission road in Los Angeles county.

NEW WESTINGHOUSE CATALOG AVAILABLE

A ribbon of paper 11,000,000 ft. long and five feet wide has begun whirring through the presses to form 82,000 copies of the new 1939-40 General Catalog listing some 100,000 styles and sizes of products of the Westinghouse Electric & Manufacturing Company. Edited at the East Pittsburgh Westinghouse Works, the new catalog will have provided more than 26,000 man-hours of work.

A special copy of the catalog was included among the exhibits of this age deposited within the Time Capsule at the New York World's Fair grounds recently, to await discovery by archaeologists 5,000 years from now.

PWA Assistance Given to Airport Work Across U. S.

Travelers of the Nation's skyways will enjoy better airport facilities in twenty cities from New England to California as a result of municipal airport projects aided by PWA funds, Public Works Administrator Harold L. Ickes announced recently.

PWA has made a total grant of \$7,369,435 toward projects for new hangars, administration and concession buildings, loading and taxi aprons and other improvements to cost \$11,765,641.

Topping the list was a grant of \$6,300,000 for the construction of an entirely new airport for the Nation's Capital that will, when completed, be one of the finest in the world and will set a standard for future airport construction.

Improvements at the Municipal Airport of Indianapolis to cost \$97,000 will not only affect air travelers but will be part of the plan of the Civil Aeronautics Authority and the City of Indianapolis for the development of a large aeronautical testing station for the promotion of safety in air transportation.

Because of greatly increased air travel in and out of Reading, Pa., a concession building for the convenience of air passengers will be built with PWA funds and at a cost of \$14,910. A new \$240,000 passenger terminal at the Kansas City, Missouri Airport will be built to replace the present terminal, which is deemed to be obsolete and inadequate for present needs. The last word in construction and design, the new terminal will include waiting rooms, ticket offices, administration offices, air traffic control room, beacon and observation tower.

In line with general improvements at the Municipal Airport at Houston, Texas, a project has been approved for a new administration building, hangar, loading platforms and landscaping—to cost \$250,000. In addition to the Municipal Airport improvements, the State of Texas applied for and was allotted \$69,525 toward the construction of an administration building and two hangars to be used by the 36th Aviation Division of the Texas National Guard at the National Guard Airport in Houston.

Thus PWA has had a share in the nation-wide improvement of airports for the comfort of passengers and the safety of air transportation.

Factory sales of mechanical strikers during Oct., 1938, amounted to 15,728 units, as compared to sales totaling 14,492 units during October, 1937, the Bureau of Census reports.

WESTERN GOV'T BUILDING JOBS NEAR BID STAGE

Preparing Specs. on Fresno Project; S.S.F. Post Office Plans Complete

Several new Western contracts in the current federal building program will be ready for bids soon, according to a summary released this week by the Procurement Division, Public Buildings Branch.

Status of the program as of December 1 for California, Arizona and Nevada was as follows:

Specification Stage

Fullerton, \$123,000; Livermore, \$87,000; Venice, \$160,000; Fresno, \$870,000; Riverside, \$330,000; Yerington, Nev., \$75,000.

Plans 100 Per Cent Complete

Los Angeles (post office and courthouse addition), \$550,000; San Diego, \$150,000; South San Francisco, \$111,000.

Working Drawings

San Francisco, \$2,000,000.

Tentative Plans

Lancaster, \$75,000; Reedley, \$75,000; Oxnard, \$124,000; Bell Gardens, \$122,000; Lynwood, \$75,000; Placerville \$85,000; San Francisco (appraiser's store), \$4,250,000; Wilmington, \$189,000; Yuba City, \$109,000.

Sites Selected

Antioch, \$75,000; Bellflower, \$75,000; Brulington, \$215,000; Ontario \$150,000.

Sites Advertised for

Albuquerque, N. M., \$925,000; Bakersfield, \$320,000; Eagle Rock, \$90,000; Mill Valley, \$75,000; St. Helena, \$75,000; San Leandro, \$100,000; Tempe, Ariz., \$85,000; Yreka, \$146,000; Campo (Border Station), \$20,000; Los Angeles (appraiser's store), \$1,175,000; Sonoyta, Ariz. (Border Station), \$20,000; Lochiel, Arizona (Border Station), \$13,000.

Site Surveys Ordered

Covina, \$82,000; Gardena, \$75,000; Calexico, \$111,000; Culver City, \$129,000; San Francisco, \$90,000.

G-E LIGHT CONTROL INSTALLED IN L. A.

An installation of automatic light control has been made by Van Camp Sea Food Co., Inc., of the Pacific Coast, at its Terminal Island offices. In the installation, four rows of luminaries are controlled independently by General Electric photoelectric equipment.

Although the office has a large amount of natural illumination, the four phototubes, each of which controls one row of luminaries, keeps the illumination level at a desired point at all times, according to General Electric. The lights next to the windows are turned off first, as natural illumination increases, while the inner rows of lights are on the greater portion of the time.

1938 BUILDING TOTAL FOR S. F. AT \$12,273,325

**Construction During Year Tops
'37 Figure By More Than
\$1,000,000**

Construction in San Francisco from January 1 to December 17, 1938, inclusive, amounted to \$12,273,325, more than \$1,000,000 higher than the figure for the same period in 1937, according to a report issued yesterday by Chief Clerk S. J. Rosenblum of the Central Permit Bureau.

While substantial gains were made in all but one type of residential construction, commercial building dropped below the record for last year, Edward C. Johnson, Bureau statistician, pointed out.

The abatement for residential and commercial construction during the first eleven and one-half months of 1938 shows 2,284 permits issued for work costing \$12,273,325, as compared to 1,757 permits for construction estimated to cost \$11,067,983 issued during the same period in 1937.

Construction of 1-family frame dwellings was the bright spot of the year, with 1,984 permits issued for this type of work estimated to cost \$8,078,240 in the aggregate. During 1937, 1,517 permits were issued for one-family dwellings cost \$6,558,407.

Two-family dwellings also showed striking gains with 178 permits issued for construction costing \$1,361,820, as compared to 88 permits issued in 1937 for homes costing \$619,900.

Although twenty-two apartments were constructed in each year, the total for 1938 was \$1,033,700, as compared to \$754,000 for 1937. Construction of one- and two-family dwellings with stores dropped slightly.

Declines were registered in all types of commercial construction. For Class A, B, and C construction, 93 permits were issued this year for a total of \$1,764,015, as compared to 123 permits issued in 1937 for a total of \$3,092,976.

DECEMBER WELDING BULLETIN PUBLISHED

The December issue of Oxy-Acetylene Tips, published by the Linde Air Products Company, is off the press and ready for distribution, it is announced. Copies may be obtained from the Linde Air Products Company, 30 East Forty-second street, New York.

Articles in the December issue include: Longer life for steel producing and fabricating equipment; Better hog knives; More poles per day; Good as new; and notes on the industry. The cover illustration shows a 90-degree welding elbow being tied-in to standard 6-inch diameter pipe for 125 pound per square inch steam service.

NAVY INVITES BIDS ON MARE ISLAND WORK

WASHINGTON, D. C., Dec. 19. —Today saw activity on four fronts as the Navy Department, Bureau of Yards & Docks, called for bids on two projects, opened bids on a \$43,000 job, and awarded a \$431,000 contract.

Bids were called, to be opened January 25, for construction of a supply storehouse at the Navy Yard on Mare Island. The proposed storehouse is estimated to cost \$800,000.

The second call for bids involves construction of the superstructure for the foundry building at Mare Island. Announcement of the \$350,000 project was made some time ago.

Today the Bureau of Yards and Docks set January 25 as the date for opening bids.

\$350,000 Job

The proposed superstructure will be 180 feet wide by 408 feet long. The contract will include: earthwork; concrete work; miscellaneous steel and iron; roofing; sheet metal work; membrane waterproofing; metal windows and doors; carpentry and woodwork; hardware; glazing; painting and a roof drainage system.

F. E. Young, at \$43,000 (Item One), submitted the low bid for improvements to Building No. 4 (battery and metal shop), at the Naval Operating Base, San Diego.

Other bidders included: Hunt & Curry, \$43,900; E. F. Bryans, \$43,923; George Goedhart, \$44,444; H. H. Peterson, \$44,640; and Georgia Construction Co., \$45,110.

Healy-Tibbitts Construction Co., at \$431,000, was awarded the contract for construction of a 1,000-foot extension to the quay wall at the Navy Yard, Mare Island.

Northwest Lumber Bookings Steady

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending December 10, 1938 produced 89,911,322 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 57.2 per cent of its average weekly cut during 1926-1929.

The new business reported taken by the 151 mills was 102,601,444 board feet. Shipments were 74,212,772.

The unfilled order file at these mills stood at 310,607,177 board feet.

Production of steel railway specialties during Oct., 1938, amounted to 5,986 short tons, as compared to production of 8,353 short tons during the preceding month, the Bureau of Census reports.

GEO. SWANSTROM LOW ON SCHOOL RECONSTRUCT'N

**Bids Golden Gate Jr. High
Work; Johnson Low on
Toler Heights Job**

Low bids aggregating approximately \$72,000 were submitted yesterday to the Oakland school board for reconstruction work at Golden Gate Junior High School and Toler Heights elementary school.

George Swanstrom, 1615 78th avenue, Oakland, at \$53,150 was low bidder for reconstructing the South wing of the Golden Gate Junior High School, 63rd street and San Pablo avenue.

F. C. Stolte Co., Alameda, was second low bidder at \$55,444. Other bids included Carl N. Swenson Co., San Jose, \$55,700; Peter Sartorio, San Francisco, \$64,844; and Central California Construction Company, San Francisco, \$68,888.

Toler Heights School

Lowest bidder for reconstruction of the Toler Heights Elementary School was S. G. Johnson, 4652 Dolores avenue, Oakland, with a proposal of \$18,975.

Second and third low bidders, respectively, were George Swanstrom at \$19,366 and Carl N. Swenson Co., at \$20,500.

Other bids were: E. T. Leiter Sons, Oakland, \$22,887; and F. C. Stolte Co., Alameda, \$23,663.

Plans for both reconstruction projects were prepared under direction of Charles A. Whitton, engineer for the Oakland School District.

Geo. Windsor Heads Eastbay Contractors

George Windsor last week was elected president of the General Contractors & Builders Association of the East Bay. Executive-Manager Geo. H. Sharp announced Saturday.

Other members of the board of directors who were elected officers at last week's board meeting are: A. A. Fair, vice-president; H. K. Schultz, secretary-treasurer; A. B. Villadsen, assistant treasurer. Geo. H. Sharp was re-appointed executive-manager for the ensuing year.

New members of the board of directors elected at the November 29 membership meeting are Walter Pressler and Frank W. Anderson. Re-elected were Messrs. Windsor, Fair, Schulz, S. G. Johnson, S. M. Shapero, J. J. Moore and A. E. Gould.

Factory sales of mechanical stokers for the first ten months of 1938 amounted to 83,249 units, as compared to sales of 90,699 units during the same period in 1937, the Bureau of Census announces.

\$8,800,000,000 Construction Volume For 1938 Largest Total in Eight Years

Construction activity in the United States during 1938 will aggregate approximately \$8,800,000,000, the largest total reported in any year since 1930, according to the annual estimate released today by the Bureau of Foreign and Domestic Commerce and published in the December issue of the Survey of Current Business. The total, which includes not only the estimated current expenditure during the year for new construction, but also maintenance and work-relief construction, is an increase over the revised estimates of \$8,675,000,000 for 1937. The increase in 1938 was the result of a gain of \$540,000,000 in public construction, which more than offset the decline in private work. The movements of the preceding year were thus reversed—in 1937 the expansion as compared with 1936 was the result of a substantial increase in private work, while public expenditures for construction projects declined. Although the increase for the year 1938 was the fifth consecutive yearly gain, total expenditures for construction in 1938 were one-fourth less than the average volume during the decade from 1920 to 1929. The report continues:

"There is a considerable variation in the movement of construction volume not indicated in the yearly estimates. While no series is fully adequate to measure construction expenditures in a given month, the indications are that projects were initiated in comparatively large volume during the first half of 1937, continuing the upward movement of the previous three years. Beginning in August and September, 1937, the volume of construction started fell off and continued at lower levels to the end of the year. The recession in construction projects initiated, excepting work-relief projects, continued through the first half of 1938, but in the third quarter the volume of construction work undertaken rose to higher levels than a year earlier, and in the closing months of this year the totals were considerably larger than in 1937. The advance in construction in the latter part of 1938 was the result of a larger volume of public-works projects under the revived program of the Public Works Administration and increased private residential building stimulated by lower building costs and lower interest charges and smaller initial payments required under the amended program of the Federal Housing Administration.

"New construction activity, which does not include maintenance and work-relief, declined slightly from \$5,340,000,000 in 1937 to \$5,200,000,000 in 1938; however, it was more than twice the 1933 figure. This category of construction averaged \$9,000,000,000 annually in the ten-year period ending in 1929 and attained a peak

of \$10,948,000,000 in 1927. The significance of this loss of nearly \$5,000,000,000 is not fully realized until one considers the effect upon the whole economy of such an expenditure not only in the industry itself but also upon the attendant industries such as building materials, real estate, transportation, etc. Private residential construction declined in 1938 more than \$100,000,000 to \$1,285,000,000 and constituted but 25 per cent of all new construction as compared with an average of about 40 per cent for the decade of the 1920's. In spite of a decline in dollar volume the number of dwelling units upon which construction was started in 1938 was higher than in any year since 1929 and may attain 360,000 units. This total includes both private and public residential, but the increase is virtually all in the private field. As compared with other recent years residential building in 1938 was improved, but as compared with the years 1920 to 1929 when the annual average number of units reached the high average of 675,000, activity was relatively low.

"Primarily as a result of a drop of about one-third in factory building in 1938, total private non-residential construction declined from \$894,000,000 to \$745,000,000. Public utility companies spent approximately 20 per cent less for new construction in 1938 than in the previous year. Recently improved business conditions have favorably influenced the outlook for this type of construction.

"New public construction, excluding federal work-relief construction, of the Federal Government was \$1,275,000,000 in 1936. The total for 1937 was slightly lower, and in 1938 the total is estimated at \$1,310,000,000. The work-relief construction of the Federal Government under the Works Progress Administration is estimated to be 1,000,000,000 for 1938, a considerable increase over the preceding year and almost equal to the total expenditure made for the peak year 1936. State and local government construction also increased in 1938 and totaled more than \$1,000,000,000."

Shipments of deep well water systems during Oct., 1938, amounted to 2,704 units, as compared to shipments totaling 2,642 units during the same month in 1937, according to the Bureau of Census.

CITY SPEEDING WORK ON PWA BUILDING JOBS

Wilder Opens Bids on Six Projects; Awards Contracts For Seven Others

Rushing work on San Francisco's PWA school and hospital construction programs, Director A. D. Wilder of the Department of Public Works yesterday opened bids on six projects and awarded seven contracts.

Star Delta Electric Works, at \$17,990, submitted the low bid for installing a steam turbine generator set at Laguna Honda Home, the largest job for which bids were opened. H. S. Tittle Company, at \$18,394, and Corey and Joslin, at \$18,842, offered the second and third lowest proposals.

Only two bids were submitted for installing an elevator in the psychopathic building at San Francisco Hospital. Otis Elevator Co., at \$9,214, was the low bidder, followed by Westinghouse Electric Elevator Company at \$10,657.

Removing Partitions

Miller Construction Company at \$2,365 was the low bidder for removing tile partitions and other work at San Francisco Hospital.

Piombo Brothers and Company, at \$2,650 submitted low proposal for grading at Hassler Health Home.

Low bidder for work at Laguna Honda Home was Simon Brothers at \$1465.

M. B. McGowan, Inc., submitted the low bid for driving piles for Engine House No. 35 on Bluxome street.

Contracts Awarded

Awards were made as follows: West Construction Co., at \$8,735, for roads at San Francisco Junior College; De Luca & Sons, at \$19,748, for construction of a kindergarten building at Glen Park School; Rosenberg Bros., at \$422,50, for grading at Francis Scott Key School; Cleveland Wrecking Co., at \$185, for clearing Outer Mission High School site; R. A. McLean & Co., at \$51,639, for constructing kitchen and dining room building at Hassler Health Home; and M. E. Vukicevich at \$4,127, for partitions at the Public Welfare Department Building.

The bid call for construction of the Science Building at San Francisco Junior College, slated for December 28, was cancelled. Bids will be called at a later date.

The cost of interurban facilities over and in connection with the Bridge which the California Toll Bridge Authority furnishes is approximately \$18,000,000.

Peak Passed in All-American Canal Work; Coachella Branch Construction Underway

While work is still in progress on certain structures along the 80-mile route of the All-American Canal and work is only well started on the 130-mile Coachella Branch Canal, the peak of construction on this project has been passed, John C. Page, Commissioner, Bureau of Reclamation, reported yesterday to Secretary of the Interior Harold L. Ickes.

With the completion of the Imperial Dam and Desilting Works and completion of the excavation of the great canal this year, the biggest part of the job was done. In addition, all structures on the first 35-mile stretch of the canal have been completed, including 4 major siphons, 8 overchutes to carry flood waters from washes across the canal, three highway and one railroad bridges, a check and wasteway at Pilot Knob and several canal turnouts and minor structures.

Work is in progress on all the remaining structures along the main line of the canal and these features should be completed next summer. Major structures now under construction include four power drops, a siphon of two steel pipes 15 feet, 6 inches in diameter across the New River and a crossing of the Alamo River. In addition a number of turnouts, bridges and minor control works are being built.

From a high point of more than 2,500, employment has now settled down to about 1,000 men.

Coachella Branch

Construction of the branch canal to the Coachella Valley was begun August 4, 1938. This canal leaves the All-American Canal at the western edge of a ridge of sand hills which parallel the Colorado River and extends north to the upper end of Salton Sea before curving west. Excavation of 40 miles of this canal is in progress, and excavation of the next 13 miles soon will be advertised for contract.

The Boulder Canyon Act of December 21, 1928, provided for the construction of Boulder Dam and Power Plant and for a canal entirely in the United States, from the Colorado River to the Imperial Valley. The canal which now serves this area loops through Mexican territory for some sixty miles before reaching the farm lands in the United States. Operation and maintenance of this portion of the canal has always been difficult and expensive. Another serious feature has been that in periods of low water in the river, the Mexican lands were served first and farms in the United States frequently suffered from water shortage. Removal of silt from canals and maintenance of levees as protection against the floods of the Colorado have cost the farmers of Imperial Valley three-quarters of a million dollars annually. The All-American Canal will deliver water, from which the silt has been re-

moved by mechanical clarifiers, to this valley and to the Coachella valley through a canal lying entirely within the United States, the largest irrigation canal in the western hemisphere.

Imperial Dam constructed across the Colorado River about 17 miles above Yuma, Arizona, is a hollow concrete structure 32 feet high resting on a compacted earth fill 10 feet thick. At the eastern or Arizona abutment are the headgates for the canal which will serve the lands of the Gila project, now under construction.

Four Roller Gates

At the western or California abutment are the four 75-foot by 23-foot roller gates for the All-American Canal and the sluiceway. The total length of the dam is 3,430 feet. Adjacent to the dam are the desilting works for the All-American Canal, unique in irrigation practice. Covering almost 80 acres, three basins have been constructed, each containing 24 revolving scrapers 125 feet in diameter. Water entering the basins flows slowly across to an effluent weir allowing the heavier silt to fall to the bottom. The clarifiers moving at the rate of one revolution every 13 minutes will drag the silt toward the center of the scraper where by means of a pipe system it will be carried back into the sluiceway of the dam. Water carrying only the finest or colloidal silt will pass into the All-American Canal. Almost all of this silt will remain in suspension and little, if any, will be dropped to clog the canal system.

On October 18, Imperial Dam was formally dedicated by Secretary Ickes. Several thousand people watched the first water pour through the diversion channels as the Secretary threw the switch opening the headgates of the All-American Canal. As water flowed into the desilting basins, another switch was thrown which started the 72 revolving clarifiers. Thus, the seasoning of the first section of the canal was begun. The seasoning process will continue, as conditions in the river permit, throughout the coming year.

Orders for commercial steel castings booked during October, 1938, amounted to 25,418 short tons, as compared to orders for 25,565 short tons booked during the preceding month, the Bureau of Census reports.

S. F. HOUSING PROJECT LOANS WIN APPROVAL

\$1,985,000 Work to be Authorized Shortly; Architects Appointed.

San Francisco's slum clearance and low cost housing program this week enters the active stage following approval by U. S. Housing Administrator Nathan Straus of two loans aggregating \$1,985,000 for construction of the two initial units of the program.

Mr. Straus approved a loan of \$565,000 for construction of the Holly Park unit, to be erected at Holly Park Circle, and a loan of \$1,657,000 for the Potrero unit.

Executive Director A. J. Evers, A.I.A., of the San Francisco Housing Authority, under whose direction construction of the projects will be managed, last week rushed immediate preparations in order to get the program underway as soon as possible.

Architects Frederick H. Meyer, Warren C. Perry and John Bakewell have begun preparation of plans for the Potrero unit, according to Mr. Evers. Architect Meyer is chairman of the group which has been appointed to design the \$1,657,000 structures. This estimated cost includes the cost of land.

The Potrero unit, to be erected on Potrero Hill, will house three hundred dwelling units, Mr. Evers states.

Meanwhile, Architect Arthur Brown, Jr., is preparing plans for the Holly Park unit.

Land and buildings of the unit are estimated to cost \$565,000. The project, which is to be erected at Holly Park Circle, will contain 118 dwelling units.

Dept. of Electricity Starts 5-day Week

In accordance with a bill recently passed by the San Francisco Board of Supervisors, the Department of Electricity henceforth will operate on a five-day week, according to Chief Ralph W. Wiley.

The office at Room 205, City Hall, will be open from Monday to Friday, inclusive, from 8:20 A. M. to 5:15 P. M., and on Saturdays from 8:30 to 12:00 noon. On Saturday mornings there will be a skeleton crew in the office, but no inspections will be made in the field.

It is the desire of the Department not to curtail service to the public in any way, according to Mr. Wiley, and to this end the cooperation of the electrical industry is requested.

 - (2) 31 each remove trees;
 - (3) 3 each, remove stumps;
 - (4) 21,536 l.f. remove fence;
 - (5) 9 c.v. remove concrete head-gates;
 - (6) 1 each, remove culverts (timber);
 - (7) 3 each, move timber bridges;
 - (8) 15 c.v. remove riprap;
 - (9) 6 each, move mail boxes;
 - (10) 1 each, move timber diversion box;

- (11) 8882 c.v. roadway excav.;
- (12) 35 c.v. drainage excav.;
- (13) 12,423 c.v. borrow;
- (14) 62,164 yd. sta. overhaul (yd. sta.).

- (15) 46771 yd. ml. overhaul (yd. ml.);
- (16) 170 c.v. struc. excav.;
- (17) 75 c.v. backfill;
- (18) 2.05 mile subgrade, Type "B";
- (19) 686 M gal. water.
- (20) 14,860 tons Type 1 gravel base;
- (21) 6,076 tons gravel surface;
- (22) 14 tons liq. asph., Type MC2 or MC3 (seal);
- (23) 163 tons liq. asph., Type MC2 or MC3 (roadmix);
- (24) 2.03 miles roadmix;
- (25) 12 each, roadmix intersections;
- (26) 46 c.v. Class "A" concrete;
- (27) 3,820 lbs. reinf. steel;
- (28) 10 l.f. 6-in. corr. metal pipe (dipped);

- (29) 24 l.f. 12-in. do
- (30) 52 l.f. 24-in. do
- (31) 22 l.f. 30-in. do
- (32) 14 l.f. 48-in. do
- (33) 100 c.v. hand laid riprap;
- (34) 3 each, move pipe culvert head-walls;

- (35) 20,639 l.f. reconstruct fence;
- (36) 26 each, monuments.

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada; or from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon the deposit of \$10.00, of which \$5.00 will be refunded. * 29

CONTRACT AWARDED

SAN FRANCISCO—E. J. Treacy, 430 Call Bldg., at \$1,593.40 awarded contract by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,173 for draining and surfacing of Laidley St. slide between Mateo and Roanoke Streets. * 29

CONTRACT AWARDED

OAKLAND, Calif.—Ransome Co., 4030 Hollis St., Emeryville, at \$10,028.36 awarded contract by the Oakland City Council, W. W. Chappell, City Clerk City Hall, for the improvement of Santa Clara Avenue bet. Grand and Van Buren, Oakland. * 29

CONTRACT AWARDED

OAKLAND, Calif.—Independent Const. Co., Ltd., 14th Avenue and Clement, Oakland, at \$14,861.90 was awarded contract by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for the improvement of Broadway Terrace between Hermosa and Edith Place. * 29

CONTRACT AWARDED

LASSEN CO., Cal.—Harms Bros., Winton, at \$9,979.00 awarded contract by the State Division of Highways, F. W. Haselwood, District Engineer, District H. Redding, for about 0.6 mile of grading and surfacing with gravel and applying penetration oil treatment between three miles south of Standish and Wendel, Lassen Co. * 29

AWARD RECOMMENDED

TULARE CO., Calif.—Hemstreet & Bell, P. O. Box 550 Marysville, at \$147,494.50 recommended for award of contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for 19.843 miles placing bituminous treated surface on Section B (portion) and placing a top course, paving shoulders and gutters and placing seal coat on Sections C1, C2, and D1, D2, and D4, of Sequoia Route 1, Generals Highways, Sequoia National Park, Tulare Co., Calif.

December 16, 1938

AWARD RECOMMENDED

SIERRA AND NEVADA COUNTIES, Calif.—Fredericks & Westbrook, P. O. Box 138, Lower Lake, at \$149,771.15, recommended for award of contract by the U. S. Bureau of Public Works, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for constructing road mix surface course on 7.948 miles of Sections B and C, Route 22, Sierra-Hobart National Forest Highway Tahoe National Forest, Sierra and Nevada Counties. * 29

AWARD RECOMMENDED

COCONINO COUNTY, Ariz.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$91,872 recommended for award of contract by the U. S. Bureau of Public Roads, New Post Office Bldg., Phoenix, for grading, draining and placing surfacing (base) with bituminous treatment on approximately 10.761 miles of Section C and a portion of Section D of Route 28, the Fredonia-Houserock Valley National Forest Highway, Kaibab National Forest, Coconino County, Ariz. * 29

BLUE PRINTS AVAILABLE

SACRAMENTO, Cal.—State Highway Engineer C. H. Purcell announces the cost of blue prints now available for work for which bids will be opened in Sacramento Jan. 4 and in Los Angeles Jan. 5.

Following is a list of blue prints and prices:

VIII-SBd-26-C, across San Antonio Wash. Bids to be opened in Los Angeles: PLANS (No. of sheets) 11; (Cost) \$1.70; CROSS - SECTIONS (No. of sheets) 4; (Cost) \$4.00; (Total) \$2.10.

IX-Mno-76-B bet. Benton Station and Nevada State Line: bids to be opened in Sacramento: PLANS (No. of sheets) 18; (Cost) \$1.80; CROSS-SECTIONS (No. of sheets) 116; (Cost) \$11.60; (Total) \$13.40.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, spec-

ifications and proposal form must be addressed to the office of the State Highway Engineer, P. O. Box 1489, Sacramento, Calif. * 29

December 16, 1938

BIDS WANTED

STATE OF WASHINGTON:—Until Jan. 4, 10:00 A. M., bids will be received by the State of Washington Director of Highways, L. V. Murrow, Olympia, for construction as follows:

Snohomish County: Constructing sidewalks, signals and ladders on four bridges on Primary State Highway No. 1, Everett to Marysville. **Edridge State Project** in Snohomish County, Washington, involving about 50 cubic yards of excavation, 245 cubic yards of concrete, 58,000 lbs. of steel reinforcing bars, 181,500 lbs. of structural steel, 34 M.B.M. of treated and 1 M.B.M. of untreated timber and lumber, 9,500 pounds of steel punchings and other items.

Spokane County: Grading, draining and constructing a reinforced concrete girder bridge on about 0.1 mile of Primary State Highway No. 2, Liberty Lake Junction to Idaho State Line—Spokane River Bridge, Federal Aid Project No. 50-B (1), in Spokane County, Washington, involving about 10,530 cubic yards of excavation, 2,664 cubic yards of concrete, 520,000 pounds of steel reinforcing bars, 5,700 pounds of structural steel, 1,850 pounds of chromium steel, 320 linear feet of pipe culverts and other items.

Clark and Skamania Counties: Grading, draining, surfacing and manufacturing and stockpiling surfacing materials and mineral aggregates (oil rock) on about 9.7 miles of Primary State Highway No. 8, Washouet to Prindle, State Project, in Clark and Skamania Counties, Washington, involving about 3,380 cubic yards of excavation, 63,170 cubic yards of crushed stone surfacing, 2,150 cubic yards of mineral aggregates (oil rock), 1,610 cubic yards of selected roadway borrow, 770 linear feet of perforated concrete drain pipe, 1,450 linear feet of pipe culvert and other items.

Clallam County: Clearing, grading, draining and surfacing of about 7.5 miles of Primary State Highway No. 9, Elwah River to Port Angeles, Federal Aid Projects Nos. 166-A (2) and 166-B (4), in Clallam County, Washington, involving 5,480 cubic yards of excavation, 1,820 cubic yds. of shoulder material, 35,940 cubic yards of selected roadway borrow, 12,660 cubic yards of crushed stone surfacing, 4,130 linear feet of half round corrugated metal gutters, 742 linear feet of perforated corrugated iron pipe, 1,541 linear feet of pipe culverts and other items.

Adams County: Grading, draining, surfacing and constructing a steel and concrete railroad undercrossing on about 2.9 miles of Primary State Highway Nos. 11 and 18, Ritzville West-N.P. Railway Undercrossing and Ritzville South Revision, Federal Aid Projects Nos. 280-C (1) and 93 (2) and Federal Aid Grade Crossing Project No. 7AHC 280-D (1), in Adams County, Washington, involving about 87,590 cubic yards of excavation, 18,610 cubic yards of selected roadway borrow, 9,100 cubic yards of crushed stone surfacing on roadway from stockpiles, 789 cubic yards of concrete, 58,310 pounds of steel reinforcing bars, 235,000 pounds of structural steel, 10,000 pounds of cast steel, 602 linear feet of pipe culverts and other items.

Pacific County: Clearing, grading, draining, surfacing, manufacturing

and stockpiling surfacing materials and mineral aggregates (oil rock) and constructing a light bituminous surface treatment on about 3.1 miles of Primary State Highway No. 12, Bear River Hill to Jct. SSH No. 12-A, State Project, in Pacific County, Washington, involving about 4 acres of clearing, 13,970 cubic yards of excavation, 8,750 cubic yards of ballast, 9,510 cubic yards of crushed stone surfacing, 620 cubic yards of mineral aggregates (oil rock), 79 tons of bituminous cement, 656 linear feet of pipe culverts and other items.

Douglas and Grant Cos.: Clearing, grading, draining and surfacing of about 3.3 miles of Secondary State Highway No. 10-B, Leahy to Coulee Dam, Wallace Canyon Section, Federal Aid Secondary Project No. FAS 37-A, in Douglas and Grant Counties, Washington, involving about 180,160 cubic yards of excavation, 9,690 cubic yards of ballast, 5,970 cubic yards of crushed stone surfacing, 1,688 linear feet of pipe culverts and other items.

Plans and specifications may be obtained from the above office upon deposit of \$2.00. * 29

BIDS WANTED

KINGMAN, Mohave Co., Ariz.—Until Dec. 31, 10:00 A. M., bids will be received by the Arizona State Highway Commission, Phoenix, for highway improvement on FAGH 85-A (1) (1938) (1939), AFE 6603, Kingsman-Needles Highway; AFE 123-D (1) (1939), AFE 9304, Kingman-Boulder Dam Highway. The work, which is located in and adjacent to the town of Kingman, consists of grading, draining, agg. base course and oil processing (SC-6 road oil, plant mix), and is to be completed on or before Sept. 30, 1939. The principal items are:

- (1) 121,000 c.y. roadway excav.;
- (2) 14,300 c.y. slides and overbreakage;
- (3) 39,300 c.y. drainage excav.;
- (4) 2,800 c.y. struc. excav.;
- (5) 170,000 cu. yds. overhaul;
- (6) 170,000 c.y. m. haul;
- (7) 19,100 c.y. m. haul;
- (8) 22,400 c.y. imported borrow;
- (9) 19,900 tons agg. base course;
- (10) 5,200 M gals. sprinkling;
- (11) 1,300 hrs. rolling;
- (12) 2,274 c.y. concrete;
- (13) 995,000 lbs. reinf. steel;
- (14) 1,016 lf. CMP (6 sizes);
- (15) 24,200 lf. line fence;
- (16) 7,350 lf. road guard;
- (17) 800 lf. rail bank protection;
- (18) 7,630 tons plant mix;
- (19) 380 tons road oil (SC-6);
- (20) 750 tons screenings.

Plans and specifications may be obtained from the office of Howard S. Reed, state highway engineer. Certified or cashier's check for 5% must accompany each proposal. *

LOW BIDDER

LOS ANGELES CO., Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$85,584.50 submitted low bid to State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 1.9 miles grading and surfacing with asphalt concrete, Portland cement concrete, and plant mixed surface, on a portion of the State Highway between Lomita Blvd. and Wilmington-San Pedro Road (VII-LA-165-LA), Los Angeles Co. * 29

LOW BIDDER

FREDONIA, Coconino Co., Ariz.—Oswald Bros., 266 E 58th St., Los Angeles, at \$194,076 submitted low bid to Arizona State Highway Commission, Phoenix, for improvement

of the Flagstaff-Fredonia Highway FL 9-A (1), FA 132-B (1) (1939) AFE 8903. The work, which extends from the town of Fredonia southeast for about 14 1/2 miles, consists of grading and draining and is to be completed on or before Oct. 15, 1939.

Complete bids will be published shortly. 29

BIDS WANTED

LOS ANGELES COUNTY, Calif.—Until January 12, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Building, Los Angeles, for about 0.4 mile of grading and paving with asphalt concrete, Portland cement concrete, and plant mix surfacing between North Main Street and Mission Road (VII-LA-4-LA), Los Angeles County.

Work involves:

- (1) 22 sta. clear and grub;
- (2) 300 M gals. water;
- (3) 600 c.y. remove concrete;
- (4) 15,000 c.y. unclass. rdwy. excav.;
- (5) 9,100 c.y. struc. excav.;
- (6) 9,000 sq. yds. prepare subgrade;
- (7) 22 sta. finish rdwy.;
- (8) 1,060 tons min. agg. plant mix surf.;
- (9) 56 tons liq. asphalt ROMC-4 or -5 plant mix surf.;
- (10) 5 tons liq. asphalt SC-2 prime coat;
- (11) 5 tons asphaltic emulsion plant binder and seal coat, asphalt. conc.
- (12) 3,800 tons asphalt. conc.;
- (13) 55 c.y. Class A Portland cement conc. pave.;
- (14) 1,500 lbs. bar reinf. steel;
- (15) 150 each pavement dowels;
- (16) 6,500 lbs. misc. iron and steel;
- (17) 70 c.y. Class A Portland cement conc. struc.;
- (18) 600 lf. 12-in. standard reinf. conc. pipe;
- (19) 100 lf. 18-inch do.;
- (20) 50 lf. 18-inch do.;
- (21) 60 lf. 21-inch do.;
- (22) 70 lf. 27-in. special reinf. conc. pipe 1250-D;
- (23) 240 lf. 42-in. do. 2000-D;
- (24) 650 lf. 42-in. do. 3000-D;
- (25) 560 lf. 6-in. vit. clay pipe stand. strength;
- (26) 50 lf. 8-in. vit. clay pipe extra strength;
- (27) 650 c.y. Class A Portland cement conc. curbs, gutters, sidewalks and driveways;
- (28) 3000 lf. curb bar;
- (29) 470 lf. curb armor;
- (30) 4 each adjust manholes to grade
- (31) 50 lf. laminated guard railing;
- (32) brick junction chamber sewer;
- (33) 1 lot misc. items of work.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. * 29

CONTRACT AWARDED

LOS ANGELES CO., Cal.—Griffith Co., 501 Los Angeles Railway Bldg., Los Angeles, at \$85,584.50, awarded contract by State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 1.9 miles grading and surfacing with asphalt concrete, Portland cement concrete, and plant mixed surface, on a portion of the State Highway between Lomita Blvd. and Wilmington-San Pedro Rd. (VII-LA-165-LA), Los Angeles County.

BIDS WANTED

SISKIYOU COUNTY, Calif.—Until Jan. 11, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for about 1.4 miles grading between one-half mile east of Hamburg and Scott River, Siskiyou County.

Work involves:

- (1) 11 acres clear and grub;
- (2) 38,500 c.y. rdwy. excav. without class;
- (3) 600 c.y. struc. excav.;
- (4) 40,000 sta. yds. overhaul;
- (5) 20 c.y. ditch and channel excav.;
- (6) 4,900 c.y. import. borrow;
- (7) 75 sta. finish roadway;
- (8) 18 c.y. class A Portland cement concrete struts.;
- (9) 1,500 lbs. bar reinf. steel;
- (10) 732 lf. installing 18-in. CMP;
- (11) 46 lf. installing 48-in. CMP;
- (12) 214 lf. salvage metal pipe culverts;
- (13) 32 each culvert markers;
- (14) 50 each monuments.

(The State will furnish C.M.P. under Items 10 and 11).

Plans and specifications may be obtained from the above office. * 29

BIDS OPENED

LaGRANDE, Union Co., Oregon—Mountain States Construction Co., 1644 Washington St., Eugene, at \$37,327, submitted low bid to Union County Board of Supervisors, U. G. Couch, Judge, Union Co., for grading Sanderson Springs-Phillips Creek and Union-High Valley Units 1 and 3 in Union County near Summerville and Union. PWA docket 1254-F. Total bids follow:

Mountain States Constr. Co., Eugene	\$37,327
J. A. Terteling & Sons, Boise	37,811
Loanard and State, Multnomah, Oreg.	39,830
J. C. Pappin-Carson, Washington	42,881
E. L. Gates, Florida, Oreg.	43,421
E. H. Itschner, Molalla, Oreg.	43,754
Homer S. Johnson, Portland	47,004

December 22, 1938

CONTRACT AWARDED

LaGRANDE, Union Co., Oregon—Mountain States Const. Co., 1644 Washington St., Eugene, at \$37,327 awarded contract by Union County Board of Supervisors, U. G. Couch, Judge, Union County, for grading Sanderson Springs-Phillips Creek and Union-High Valley Units 1 and 3 in Union County near Summerville and Union. PWA docket 1254-F. * 29

December 22, 1938

CONTRACTS AWARDED

STATE OF OREGON—Bids were received and contracts awarded by the Oregon State Highway Commission, Public Service Bldg., Portland, for construction as follows:

(1) Baker County: Grant county line-Union Section of John Day Highway, PWA Docket 1373-F, Unit F, involving surfacing and oiling about 10.63 miles of highway roadbed. Contract Awarded: Babler Bros. Portland, \$46,538.

(2) Coos County: Coquille Section of Oregon Coast and Coos Bay-Roseburg Highways, PWA Docket 1374-F, Unit A, involving furnishing and stockpiling about 7400 cu. cr. rock or crushed gravel. Contract Awarded: O. C. Yocum, Willamina, \$17,892.

(3) Hood River County: Polalife Creek-Hood River Section of Mt. Hood Highway, PWA Docket 1375-F, Unit C, involving furnishing and stockpiling about 6000 cu. crushed rock.

Low Bidder: Saxton, Looney and Riley, Oak Grove, \$13,600. Bids rejected.

(4) Klamath County: Crescent-Beaver Marsh Section of The Dalles-California Highway, PWA Docket

1375-F, Unit F, involving furnishing and stockpiling about 7000 c.y. of rock.

Contract Awarded: Fisher Bros. Oregon City, \$13,800.

(5) Klamath and Lake Counties: Devil's Garden-Quartz Mountain Section of Klamath Falls-Lakeview Highway, PWA Docket 1404-F, involving about 12,700 c.y. excavation, 2,200 c.y. crushed rock materials and 728 tons of asphaltic road oil.

Contract Awarded: J. C. Compton & Rogers Const. Co., McMinnville, \$79,331.

(6) Lake County: Horse Ranch-Chewacan Narrows Section of Fremont Highway, PWA Docket 1375-F, involving furnishing and stockpiling about 10,500 c.y. of crushed gravel.

Contract Awarded: Schneer, Williams & Gentemann, Portland, \$12,186.

(7) Lane County: Rough Creek-Belknap Springs Section of McKenzie Highway, PWA Docket 1374-F, Unit F, involving furnishing and stockpiling about 9100 c.y. crushed gravel.

Contract Awarded: Mtn. States Const. Co., Eugene, \$14,932.

Complete bids will be published shortly. 29

30—RESERVOIRS & DAMS

CONTRACT AWARDED

YUBA and Nevada Cos., Calif.—Arundel Corp. and L. E. Dixon Co., 309 S Grand Ave., Los Angeles, at \$2,175,271.50 awarded contract by the United States Engineer Office, District Engineer, Room 208, Post Office Bldg., Sacramento, for the construction of the Upper Narrows Dairies Control Dam on the Yuba River.

The dam will be of the concrete arch type, about 1153 feet in length on the crest and about 265 feet high above the main foundation bedrock. The spillway will be the overflow type discharging over the central portion of the dam. It is estimated that approx. 231,500 c.y. of foundation excavation and placing of approximately 334,410 c.y. of concrete will be required to complete the dam. 30

BIDS OPENED

TUCSON, Ariz.—R. H. Martin, 311 N 3rd Ave., Tucson, at \$53,999.35 (unit bid extension, \$53,969.35), submitted low bid to the Tucson city council for the construction of a reservoir at the Osborne St. plant. The capacity of the present Osborne St. reservoir will be increased from 1,500,000 gals. to 9,000,000 gals. The work involves 700 c.y. concrete, 53,000 sq. ft. gunite and 34,000 bd. ft. of lumber. Phil J. Martin, Jr., water supt.; John A. Carollo, consulting engineer; R. E. Butler, city manager. The contract was awarded subject to PWA approval.

Total bids follow:
 R. H. Martin, Tucson.....\$53,999.25
 Vinson & Pringle, Phoenix.....56,900.35
 Gates & Huntley, L. A.....59,200.00
 Lewis Bros., Phoenix.....59,984.00
 M. N. Sundt, Tucson.....61,682.05
 Herbert F. Brown, Tucson.....65,182.50
 Panner Const. Co., Phoenix.....66,570.65
 Arizona Conc. Co., Phoenix.....66,641.89
 Pearson & Dickerson, Prescott.....80,600.00
 20

CONTRACTS AWARDED

EUGENE, Lane Co., Ore.—Mountain States Const. Co., Eugene, at \$51,523, awarded contract by Eugene City Water Board, Eugene, for the excavation and preparatory work for concrete reservoir of 15,000,000-gallon capacity. Steel Tank and Pipe Co.,

Portland, at \$9300, awarded contract for the elevated steel tank of 100,000-gal. capacity on steel tower 70-ft. high. Awards are subject to PWA approval. 30

CONTRACT AWARDED

BONNEVILLE, Oregon—Morrison-Knudsen Co., Inc., P. O. Box 1518, Boise, Idaho, at \$359,186.00 awarded contract by the U. S. Engineer Office, District Engineer, Bonneville, under Bid No. 694-39-57, for constructing a total of about 26,590 l.f. of pile dikes in the Columbia River at 32 different sites located between the Interstate Bridge at Vancouver, Wash., and Dodson, Ore. 30

31—PIPE LINES & WELLS

CONTRACT AWARDED

LAGUNA BEACH, Orange Co., Calif.—J. L. Kruly, 1449 Reeves St., Los Angeles, at \$37,286.96, was awarded the contract by the Laguna Beach city council, for the construction of cast iron pipe lines, reservoirs, and pumping plant, a PWA project, partly financed by 1911 Act. Plans and specifications were prepared by A. J. Stead, city engineer.

The work was divided into two schedules for assessment purposes, but the job was bid as a whole. Bids were taken on:
 Schedule 1: Laguna Canyon.
 Schedule 2: Temple Hills

Bids were:
 J. L. Kruly, Sch. 1, \$37,421.35; Sch. 2, \$49,865.61; total, \$87,286.96.

Fred W. Weber, South Gate—Sch. 1, \$38,518.23; Sch. 2, \$57,011.80; total, \$95,530.02.

H. G. Klushman, Cucamonga—bid on items 33 to 37, incl., only, total \$6493.30. Bids declared irregular. 31

BIDS WANTED

LOS ANGELES COUNTY, Calif.

—As previously reported, until December 27, 10 A. M., bids will be received by the Metropolitan Water District, 306 West Third St., L. A., for the construction of precast concrete or welded steel-plate pipe lines and appurtenant works for the Long Beach, Torrance, and Compton laterals of the Colorado River Aqueduct distribution system, Spec. 293. The work is located in the City of Los Angeles, and in unincorporated territory of the County of L. A.

Proposals will be received for two alternative types of pipe line construction. The lengths, diameters, and types of pipe required for the respective schedules are as follows:

(P) Lock-joint steel cylinder reinforced precast concrete pipe: Sch. 26: 4.7 miles of 36-in. pipe; Sch. 27: 1.2 miles of 39-in. pipe; Sch. 28: 1.3 miles of 21-in. pipe.

(SC) Welded steel-plate pipe with Gunite exterior coating and centrifugally applied (spun) mortar lining: Sch. 26: 4.7 miles of 37-in pipe; Sch. 27: 1.2 miles of 3-in. pipe; Sch. 28: 1.3 miles of 22-in. pipe.

Award will not be made for less than all the items in a schedule. Schedules 26P and 26SC for the construction of the Long Beach lateral are alternative and both will not be awarded. Schedules 27P and 28P likewise alternative to Schedules 27SC and 28SC for construction of the Torrance and Compton laterals, respectively, and award will not be made under said schedules for more than one type of construction. A bid on either Schedule 27P or 28P will not be considered unless the

bidder submits a proposal for both of said schedules; and an award if made thereunder will not be made for less than both of said schedules in a single contract. Similarly, a bid on either Schedule 27SC or 28SC will not be considered unless the bidder submits a proposal for both; and an award if made thereunder will not be made for less than both of said schedules in a single contract. Subject to the foregoing conditions the bidder may make any stipulations he desires regarding combination of Schedule 26P or 28SC with the pair of Schedules 27P and 28P or with the pair of Schedules 27SC and 28SC.

Plans and specifications may be obtained at Room 107, 306 W. Third St., Los Angeles, upon payment of \$5.00, not returnable, but contractors who submitted bids December 12 and to whom such bids were returned unopened will be given an additional copy of the specifications without charge. Certified or cashier's check for 10% must accompany each proposal. F. E. Weymouth, Chief Engineer.

The schedule and items are.

(1) Trench excav., cu. yds.:			
Long Bch 26P	43,000	26SC	40,500
Torrance 27P	7,800	27SC	6,700
Compton 28P	5,200	28SC	4,600
(2) Excav. for struc., cu. yds.:			
Long Bch 26P	750	26SC	750
Torrance 27P	100	27SC	100

RIVERSIDE COUNTY—BRIDGE CONSTRUCTION—(STATE)

RIVERSIDE COUNTY, Cal.—Vinson & Pringle, 2020 W. Grant Street, Phoenix, Ariz., at \$88,154.70 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete girder bridge across Santa Ana River and about 0.3 mile of roadway to be graded and surfaced with plant mixed surfacing on a portion of the State Highway near Norco (VIII-Riv-193-A), Riverside County.

Work involves:

- (1) Clearing and grubbing;
- (2) Remove existing concrete and timber structures;
- (3) 274 gals. water;
- (4) 12,000 c.v. rdwy. excav., unclass.;
- (5) 37,000 sta. yds. overhaul;
- (6) 2,200 c.v. struc. excav.;
- (7) 1,200 c.v. imported surf. material;
- (8) 11 sta. finish rdwy.;
- (9) 500 sq. yds. asph. paint binder;
- (10) 540 tons min. agg. plant mix surf.;

- (11) 30 tons liq. asph. SC-4, plant mix surf.;
- (12) 4,000 sq. yds. prepare, mix and shape detour;
- (13) 49 tons liq. asph. SC-2 road mix surf. treatment detour;
- (14) 32 tons screen seal coat;
- (15) 2 tons liq. asph. 90-95 seal coat;
- (16) 415,000 lbs. bar reinf. steel;
- (17) 315 c.y. Class A Portland cement conc. footing block;
- (18) 1,675 c.y. Class A Portland cement conc. struc.;
- (19) 3,200 lbs. misc. steel;
- (20) 17 ft BM untreated Douglas fir timber;
- (21) 1,432 l.f. timber rail;
- (22) 5,000 l.f. furnish steel piles, including test piles;
- (23) 166 each drive do.;
- (24) 2,400 sq. yds. Class B Portland cement concrete articulated slope paving;
- (25) 22 l.f. 18-in. CMP;
- (26) 56 l.f. 24-in. CMP;
- (27) 44 l.f. remove, clean and salvage pipe culverts;
- (28) 2 each culvert markers;
- (29) 14 each guide posts;

- (30) 0.4 mile new property fence;
- (31) 18 each monuments;
- (32) 1 lot elec. equipment;
- (33) 1 lot misc. items of work.

Total bids follow:

- (A) Vinson & Pringle, Phoenix, Arizona, \$88,154.70.
- (B) White & Wilberg, Santa Monica, \$104,861.30.
- (C) C. O. Sparks & Mundo Engrg. Co., Los Angeles, \$107,105.20.
- (D) Byerts & Dunn, Los Angeles, \$187,312.00.
- (E) J. S. Metzger & Son, \$117,998.00.
- (F) John Strom, Cheno, \$119,392.00.
- (G) Contracting Engineers Co., Los Angeles, \$122,866.00.
- (H) Oscar Oberg, Los Angeles, \$123,761.00.
- (I) R. E. Campbell, Los Angeles, \$125,284.00.
- (J) United Concrete Pipe Corp., Los Angeles, \$126,154.50.
- (K) Baruch Corp., Los Angeles, \$128,203.76.
- (L) J. E. Haddock, Ltd., Pasadena, \$135,331.70.

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies & Accounts, Navy Department, Washington, D. C., for furnishing supplies and materials, as follows:

SCH. 5133: Sheets, tube, copper-nickel alloy for Boston, Charleston and Puget Sound; Jan. 6.

SCH. 5148: One steel solid propeller shaft for Mare Island; Jan. 10.

SCH. 5126: Seamless copper tubing for eastern yards, and Puget Sound; Jan. 6.

SCH. 5138: Two metal melting furnaces, fuel oil, for San Diego; Jan. 10.

SCH. 990-2247: Spare parts for diesel engines (12 resistance thermometers) for Mare Island; Jan. 4.

SCH. 990-2248: 288 piston rings, compression; 96 piston rings, oil drain; and 48 piston rings, oil scraper; Jan. 4.

SCH. 1656: White oak for eastern yards and Puget Sound; Jan. 13.

SCH. 5172: 500 rolls masking tape, 72-yd. rolls for Mare Island; Jan. 10.

SCH. 5154: Hose assemblies for eastern and western yards; Jan. 10.

SCH. 5152: 12 electric drinking fountains and spares for Mare Island; Jan. 10.

SCH. 5129: Two electric driven bench drill presses for San Diego; Jan. 10.

SCH. 5140: Motor driven milling machine for San Diego; Jan. 10.

SCH. 5158: Motor driven pipe expanding and flanging machine for eastern or western yards; Jan. 10.

SCH. 5141: Motor driven precision bench lathe for San Diego; Jan. 10.

SCH. 5146: One 2-ton motor tractor truck with cab and equipment; one 9-ton semi-trailer with stake body; one do, with van body; 4 7-c.v. semi-trailers, semi-dump, refuse body for Puget Sound; Jan. 10.

SCH. 5157: Boring bar, for power drive, portable with worm gear drive, for eastern or western yard; Jan. 10.

SCH. 5159: Two 25-ton capacity chain hoists for eastern or western yard; Jan. 10.

SCH. 5160: Motor driven knife grinder, for Mare Island; Jan. 10.

SCH. 5161: 3 motor driven double grinders, dry, floor type, for Mare Island; Jan. 10.

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing misc. supplies and materials, as follows:

SCH. 5050: Pot type salt bath electric furnace for eastern or western yard; Dec. 20.

SCH. 5056: Electric seam welder and control for Puget Sound; Jan. 6.

SCH. 5084: Motor driven light type universal horizontal milling machine, for Keyport, Wash.; January 6.

SCH. 5067: 4 motor driven plain vertical milling machines for Mare Island; Jan. 6.

SCH. 5087: motor driven vertical metal shaper for Puget Sound; Jan. 6.

SCH. 5068: 9 motor driven geared

head engine lathes for Mare Island; Jan. 6.

SCH. 5064: 3 motor driven 12-inch universal vertical shapers for Mare Island; Jan. 6.

SCH. 5069: 2 motor driven heavy duty buffing lathes for Mare Island; Jan. 6.

SCH. 5082: 3 motor driven pedestal grinders for Puget Sound; January 6.

SCH. 5078: motor driven pedestal grinder for Puget Sound; Jan. 6.

SCH. 5077: 2 motor driven pedestal grinders for Puget Sound; January 6.

SCH. 5063: motor driven engraving machine for Mare Island; Jan. 6.

SCH. 5055: turbine and motor driven pumps and spares for Boston, Charleston and Puget Sound; Jan. 6.

SCH. 5044: Laminated glass for eastern and western yards; Dec. 20.

SCH. 5057: motor driven hydraulic test pump for Mare Island; January 6.

SCH. 900-2237: spare parts for fire extinguishers for eastern and western yards; Jan. 6.

SCH. 5083: motor-driven turret lathe for Keyport, Wash.; Jan. 6.

SCH. 5079: motor-driven hollow chisel mortiser for Puget Sound; Jan. 6.

SCH. 5065: motor-driven universal horizontal milling machines for Mare Island; Jan. 6.

WAR DEPARTMENT

SACRAMENTO, Calif.—Until Dec. 27, 3:00 P. M., bids will be received by the U. S. Engineer Office, Col. L. E. Chambers, District Engineer, Room 208, Post Office Bldg., under Bid No. 1105-39-151, for shore pipe and dredge pump "casing wear rings"; f.o.b. Rio Vista.

Plans and specifications may be obtained from the above office. *

SAN FRANCISCO.—Until Dec. 27, 3:00 P. M., bids will be received by the U. S. Engineer Office, Lt. Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-39-163, for lumber, plywood and wallboard; f.o.b. Fort Cronkhite.

Plans and specifications may be obtained from the above office. *

FORT MASON, Calif.—Until Dec. 28, 10:00 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-39-182, for softwood lumber; f.o.b. shipping point and/or Fort Mason.

Plans and specifications may be obtained from the above office.

SAN FRANCISCO, Calif.—Until December 27, 3:00 P. M., bids will be received by the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-39-165, for two gas tight ventilator shaft closure for 18-inch dia. shaft, and five gas tight ventilator shaft closure for 12-inch dia. shaft; fob Fort Cronkhite, Marin County.

Plans and specifications may be obtained from the above office. *

SAN FRANCISCO.—Until Dec. 28, 3:00 P. M., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. 868-39-166, for furnishing and installing 5 rolling steel doors in the power room, Battery Davis, Fort Funston.

Plans and specifications may be obtained from the above office. *

FORT MASON, Calif.—Until Jan. 2, 10:30 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco, General Depot, Fort Mason, under Bid No. 928-39-186 for punches, furnaces; fob Motor Warehouse No. 6, Presidio of San Francisco.

Plans and specifications may be obtained from the above office. *

SAN FRANCISCO.—Until Jan. 3, 3:00 P. M., bids will be received by Lt. Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-39-167, for 2 special rubber gaskets for ladder trunnion (inside diameter is 4'-03/4" 1 special rubber gasket for ladder trunnion (inside diameter is 2'-5-1/4") and 2 rubber seat rings for 26" gate valve, fitted with brass rings and copper nickel alloy ferrules; f.o.b. U. S. Engineer Storehouse, Foot of Marina Blvd.

Plans and specifications may be obtained from the above office. *

SACRAMENTO, Calif.—Until Jan. 3, 3:00 P. M., bids will be received by the U. S. Engineer Office, Col. L. E. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, for furnishing supplies and materials, as follows:

BID No. 1105-39-154: nuts, cut washers, nails, steel bars, drills, hand taps, dies, files; f.o.b. Rio Vista.

BID No. 1105-39-158: welding rods; f.o.b. Rio Vista.

BID No. 1105-39-158: entrance switches, lamp holders, wire fuses, fuse links; f.o.b. Rio Vista.

Plans and specifications may be obtained from the above office. *

CALIFORNIA STATE

SACRAMENTO, Calif.—Until Dec. 29, 10:00 A. M., bids will be received by the State Purchasing Agent, Sacramento, under Quot. No. 32205, Reg. No. 6615, for one 10-ft. pneumatically-tired, dual-drive, diesel-powered motor-grader, with scarifier; f.o.b. Fresno.

Plans and specifications may be obtained from the above office. *

SACRAMENTO, Calif.—Until Dec. 23, 10:00 A. M., bids will be received by the State Purchasing Agent, Sacramento, under Quot. No. 31885, Reg. No. 15935, for one pneumatically-tired, wheel-type tractor; f.o.b. Sacramento. Trade-in allowance to be made on McCormick-Deering 10-20 Tractor CHC 515.

SAN FRANCISCO CITY

SAN FRANCISCO.—Until Dec. 30, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 2139 for furnishing safety zone end bars and reflector type lane markers

Specifications obtainable from above office.

No. 53

DENNIS, GREEN LOW ON STATE HIGHWAY JOBS

Dennis Bids \$172,463 for Riverside Grading; Green Low on Bridge

LOS ANGELES, Dec. 29.—Low bids aggregating more than \$207,000 were received here today by the State Division of Highways on two Southern California projects. The low bidders were:

V. R. Dennis Construction Co., P. O. Box F, Station A, San Diego, at \$172,463, for grading and paving about 4.8 miles in Riverside county.

Edward Green, 3025 George St., Los Angeles, at \$35,278 for construction of a bridge across Mojave river at Baker, San Bernardino county, including approach road work.

The Riverside job involves grading and paving with plant-mixed surfacing and Portland cement concrete here at Corona, Riverside county, and the Orange county line.

The Mojave river bridge will be 408 feet long and will consist of timber stringer spans with concrete decks on pile bents.

LIGHTING EQUIPMENT EMPLOYMENT HIGHER

Manufacturers of lighting equipment in the United States reported considerable increase in employment, wages and value of products for 1937, as compared with 1935, according to preliminary figures compiled by Director Wm. L. Austin of the Bureau of Census.

These manufacturers employed 21,743 wage earners in 1937, an increase of 30.4 per cent over 16,677, the number reported for 1935. Wages paid, \$24,819,165, showed a gain over the 1935 figure, \$17,231,798, of 44.6 per cent. The value of products of the industry for 1937, \$115,096,494, exceeded the value reported for 1935, \$85,700,128, by 34.3 per cent.

ANDERSON LOW ON COTTAGES

SACRAMENTO, Dec. 28.—A. Frederick Anderson, 1093 Londridge Road, Oakland, today submitted a low bid of \$18,342 to the State Division of Architecture for construction of three assistant physicians' cottages at Sonoma State Home, Eldridge. S. C. Giles of Stockton was second low bidder at \$18,628.

Low bidder for electric work was Norman A. Russell of Santa Rosa at \$2,000. Scott Co., Inc., San Francisco, submitted a low bid of \$5,687 for plumbing and heating.

Northwest Lumber Production Steady

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending December 17, 1938, produced 95,293,090 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 60.5 per cent of its average weekly cut during 1926-1929.

The new business reported taken by the 151 mills was 105,043,577 board feet. Shipments were 86,263,970.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	47,175,197	35,024,200
Domestic		
Cargo	42,717,194	37,775,085
Export	6,986,357	5,299,856
Local	8,164,829	8,164,829
	105,043,577	86,263,970

The unfilled order file at these mills stood at 327,892,914 board feet.

New orders for malleable iron castings booked during October, 1938, amounted to 32,989 short tons, as compared to orders for 29,061 short tons taken during the previous month, the Bureau of Census reports.

BIDS JAN. 18 ON MENDOCINO SPAN PROJECT

State Advertises Contract for Bridge Over Jack Peter's Creek

SACRAMENTO, Dec. 27.—The State Highway Commission today authorized the Division of Highways to advertise for bids for construction of a bridge across Jack Peter's Creek about 10 miles south of Ft. Bragg in Mendocino county.

Bids on the contract will be opened in Sacramento, January 18, State Highway Engineer C. H. Purcell announces.

In addition to construction of the bridge, about 0.22 mile of grading and applying penetration oil treatment are required under the terms of the contract.

Principal items include: clearing and grubbing; 60 M. gallons of water; 4,600 cubic yards of unclassified roadway excavation; 700 cubic yards of structural excavation; 1,050 cubic yards of imported borrow; 12 stations finish roadway 7 tons of liquid asphalt SC-2 penetration oil treatment; and 36 lineal feet of CMP.

Other principal items include: 147,000 pounds of bar reinforcing steel; 800 cubic yards of Class A Portland cement concrete structures; 17 cubic yards of Class A Portland cement concrete railing; 2,300 pounds of miscellaneous steel and removing and disposing of the existing bridge.

Realty Appraisers Call Council Meet

The American Institute of Real Estate Appraisers of the National Association of Real Estate Boards has called meetings of its governing council and committees to be held at the Drake hotel, Chicago, in January. The admissions committee of the Institute will meet all day January 23. The governing council will meet in the afternoon and evening of January 23 and in the morning of January 24.

Biasotti, Wood & Marks Submit \$148,212 Low Proposal for Wawona Road Surfacing

Louis Biasotti and Son, Claude C. Wood and Frank B. Marks, bidding jointly, yesterday submitted the low proposal to District Engineer C. H. Sweeter of the U. S. Bureau of Public Roads, San Francisco, for placing a bituminous treated surfacing on 11.435 miles of the Wawona Road, Sections A1, B1, B2 and B3 of Route 2, Yosemite National Park, Mariposa county.

The low bid totaled \$148,212.50.

The second lowest offer was submitted by Mountain Construction Company, at \$153,075.75, followed by Heafey-Moore Co. and Fredrickson & Watson Construction Co. at \$154,934.50.

Other bidders were: Triangle Rock and Gravel Company and Ralph A. Bell, at \$157,396, and Isbell Construction Company, at \$199,237.50.

Principal Items

Principal items included: 4,500 cubic yards of unclassified excavation; 20,000 station yards overhaul; 11,435 miles fine grading, sub grade and shoulders; 32,100 tons of crushed rock base course; 1180 tons of asphalt of various types; 14,400 tons of Class F-2 open graded plant mixture; 2,200 tons of aggregate of various types, and 1,300 M. gallons of watering.

A force account item involved one-way traffic control and sanding asphaltic material; and lump sum bids were submitted for furnishing water plants.

The Mariposa county project was the last for which bids will be opened by the U. S. Bureau of Public Roads, San Francisco, this year. The only other job out for bids involves grading and constructing bridges on portions of Sections A, B, C and E of Route 21, the Deer Meadows National Forest Highway, Lassen National Forest, Tehama county.

Bids January 17

Bids will be opened January 17 at the Federal Office building.

Principal items include: 13,500 cubic yards of unclassified excavation; 3,407 cubic yards of unclassified excavation for structures; 1,600 cubic yards of unclassified excavation for borrow; 8,900 station yards overhaul; 4,100 cubic yard miles borrow haul; 1,963 cubic yards of concrete; 225,510 lbs. of reinforcing steel; 391,700 lbs. of structural steel; 3.9 M FBM of untreated timber, including bridge iron; and removal and disposal of existing structures.

Plans and specifications may be obtained from the office of the U. S. Bureau of Public Roads upon deposit of \$10.00.

Shipments of fire extinguishing motor apparatus during the first ten months of 1938 amounted to 640 units, as compared to shipments of 715 units during the same period in 1937, the Bureau of Census reports.

PLAN SALUTE TO BUILDERS

A Salute to the Building Industry of California will be presented over radio station KSFO, on Thursday evening, January 12, at 9:45, as a feature of the Salute to Industry Program of the California State Chamber of Commerce.

Curtis Smith, President of Dinwiddie Construction Company, will be the leading speaker on the program, with Walter Guild, of KSFO, as master of ceremonies.

Board to Consider S. F. Street Work

The designating of eight streets as "streets of major importance" will be studied by the Streets Committee of the San Francisco Board of Supervisors at the next meeting of the group, it is expected, following submission of a recommendation by City Engineer John J. Casey.

The designation: "streets of major importance" qualifies the street for improvement with State second quarter-cent gas tax funds.

The following locations were listed: Brannan, Division to The Embarcadero; Bush, Market to Presidio avenue; Divisadero street, Fell to Clay; Golden Gate avenue, Van Ness avenue to Parker; Oak street, Market to Stanyan; Oakdale avenue, Bay Shore boulevard to Third; Quint street, Palou to Oakdale; and Turk street, Arguello boulevard to Market street.

To Display Fountain Of Stainless Steel

One of the world's most unusual fountains will be found in the Palace of Electricity at the Golden Gate International Exposition.

Fashioned of mirrors, stainless steel and glass, it will be one of the features of the General Electric exhibit.

The octagonal basin of stainless steel will be 22 feet in diameter, according to J. P. Price, General Electric exhibit manager. Eight stainless steel columns will rise to a canopy of mirrors which will reflect rainbow lighting effects from under-water fluorescent lamps and mobile floodlights.

FARM EXHIBIT BUILDING OUT FOR PROPOSALS

Bids Jan. 17 on Dixon Bleachers, Frame Exhibit Structure

(Special to Daily Pacific Builder) SACRAMENTO, Dec. 17. — The State Architect today called for bids for general construction of bleachers and an exhibit building for the Thirty-sixth District Agricultural Association at Dixon in Solano county.

Bids will be opened in Sacramento January 17.

The bleachers will be of wood frame construction. They will be approximately 216 feet long and 60 feet wide, according to present plans.

Frame Construction

The exhibit building will be about 100 feet long and 60 feet wide, and will be of wood frame construction. Alternate bids will be received on the contract with portions of the work omitted.

Concrete foundations are being installed under a separate contract. Tomorrow bids will be opened for construction of three assistant physicians' cottages at Sonoma State Home, Eldridge.

The cottages will be one-story frame structures with garages. Minor roadway is called for under the terms of the contract, also.

Bids will be taken as follows: (1) general construction; (2) plumbing and heating work; and (3) electrical work.

Dairy Milk House

The only other project from the State Architect's office now out for bids is a dairy milk house at Sonoma State Home. Bids will be opened January 17.

The proposed dairy milk house will be a one-story reinforced concrete structure containing 3,450 sq. ft. of floor space. Specifications call for wood roof construction, composition roofing, and steel sash.

The building will be situated on a farm about one-half mile from the main institution.

Also called for is construction of an addition to a school at Eldridge. The addition will be a 3-classroom structure with incidental rooms and a connecting cloister.

Concrete Walls

The addition will have reinforced concrete walls, wood floors and roof, tile roofing and wood sash, according to the State Architect.

Bids will be taken as follows: (1) general construction; (2) mechanical work; (3) refrigeration work and dairy equipment; and (4) electrical work.

Shipments of shallow well water systems during October, 1938, amounted to \$416,931, as compared to shipments totaling \$395,768 during the same month in 1937, according to the Bureau of Census.

PWA Work Raises November Construction Employment; Drop on Private Jobs Slight

Gains in employment on PWA projects continued last month, while private construction employment declined less than seasonally, the U. S. Bureau of Labor Statistics reported this week.

The Bureau's November report, covering private and public construction, declared:

"Employment in the private building construction industry decreased less than seasonally, by 4.1 percent, and payrolls declined 7.8 percent, according to reports received from 13,057 contractors employing over 108,000 workers. All parts of the country reported declines with the exception of a small increase in the East South Central States. The reports received do not cover public construction projects financed by the Public Works Administration, the Reconstruction Finance Corporation, or by regular appropriations of the Federal, State and local governments. In public construction there was a decline in employment, largely because of seasonal reductions in work on roads.

"On projects operated by the Works Progress Administration, a small reduction occurred in working forces during November. There were 3,212,000 persons at work, a decrease of 33,000 from October but an increase of 1,645,000 from November 1937. Payrolls amounting to \$172,500,000 were \$2,153,000 greater than in October due to a marked increase in the number of man-hours worked during the pay period. Compared with November a year ago, payrolls for November 1938 were \$89,786,000 greater. On Federal projects under The Works Program, employment for the month ending November 15 showed a gain of 2,000, primarily on projects on which work was starting, while payrolls dropped \$130,000, because of the transfer of some workers with high wage rates on reclamation projects to the payrolls of the Public Works Administration. There was a gain of 55,000 in the number of students given aid in November.

"On construction projects financed from regular Federal appropriations during the month ending November 15, a decrease of 21,000 employees was reported. Seasonal reductions in the number working on roads under the jurisdiction of the Bureau of Public Roads and the transfer of some workers on reclamation projects to the payrolls of the Public Works Administration accounted for this decline. The payrolls for the 238,000 workers on projects financed from regular Federal appropriations were \$22,930,000, or \$1,720,000 less than in October.

"On State-financed road projects the number of men engaged in maintenance work increased sufficiently to offset the decrease in the workers on new construction. For the month ending November 15, 232,000 were at work, or 11,000 more than during the preceding

period.

"The upward movement of employment and payrolls on projects of the Public Works Administration continued, but at a less rapid rate than during the period from September 15 to October 15. The gain of 18,000 workers and the increase in payrolls of \$2,377,000 was attributed to the new projects financed from funds provided by the Public Works Administration Appropriation Act of 1938. For the month ending November 15, 166,000 men were working and payrolls amounted to \$14,467,000.

"The total number in camps of the Civilian Conservation Corps was 335,000, a gain of 10,000 from October, but 16,000 less than in November, 1937.

"The value of orders placed for materials on construction projects financed by regular Federal appropriations amounted to \$30,438,000 in November. Orders placed for materials for P.W.A. projects totaled \$25,788,000 and for Federal projects under The Works Program \$1,252,900."

RURAL ELECTRIC CONFERENCE SET FOR JANUARY 9

DAVIS, Dec. 28.—One hundred rural electrification experts, farmers, and manufacturers are expected to attend the eleventh annual Rural Electric Conference to be held on the Davis campus of the University of California on January 9, 10, and 11, according to J. F. Taveretti, of the division of Agricultural Engineering, who is in charge of arrangements.

Both morning and afternoon sessions will be held on Monday and Tuesday of the conference.

On Monday night the annual dinner will be held, with Geo. Tenney, editor of "Electrical West", acting as toastmaster, and O. B. Zimmerman, of the College of Agriculture staff, as main speaker.

Discussions at the meeting will cover a wide range of subjects, including such problems as the use of domestic water pumps, orchard sprinklers, electric dairy equipment, and electric insect traps.

An especially interesting discussion will be held on Tuesday afternoon on the use of blowers for frost protection.

Several members of the College of Agriculture staff, as well as representatives of frost protection companies, and other experts will take part in this seminar.

OPENING DATES FOR EXTENSION CLASSES TOLD

U. C. Planning S. F. Courses In Structural Mechanics, Concrete Design

The University of California Extension Division announces that courses in structural mechanics, concrete design and air conditioning will be given at 540 Powell street, San Francisco, and 1730 Franklin street, Oakland.

Titles, descriptions and opening dates of the courses are:

Structural Mechanics (856A) Force systems necessary for the support of any structure and the stresses in its various members due to loads. Prerequisite to courses in reinforced concrete design.

Opening dates: San Francisco, Monday, Jan. 9, 8 P. M.; Oakland, Tuesday, Jan. 10, 7 P. M.

Reinforced Concrete Design (860B) Combined bending and direct stress; design of tile void floors, flat slabs, retaining walls.

Opening Date: San Francisco, Monday, Jan. 9, 7 P. M.

Reinforced Concrete Design (860A) For architects, engineers, and draftsmen; design of a reinforced concrete building.

Opening Date: Oakland, Tuesday, January 10, 8 P. M.

Reinforced Concrete Design; Continuous Beams (863). Moment distribution applied to continuous concrete structures; analysis of one-story frames; beams and columns with variable moment of inertia.

Opening Date: San Francisco, Wednesday, January 11, 7 P. M.

The courses above will all be given by Mr. Victor E. Johnson.

Air Conditioning (870 A-B). The processes of air-conditioning associated with particular emphasis on the fundamental principles involved.

Opening Dates: San Francisco, Thursday, January 19, 7:30 P. M.; Oakland, Monday, Jan. 16, 6:30 P. M.

Air Conditioning Systems (871 A). Emphasizes the application of fundamental technical principles and analytical methods to the design, selection and operation of equipment for complete air-conditioning systems. The course is intended primarily for men already associated with the air-conditioning industry who desire to broaden their knowledge through critical analysis of typical application problems.

Opening Dates: San Francisco, Friday, February 3, 7:30 P. M.; Oakland, Wednesday, Feb. 1, 6:30 P. M.

The air conditioning courses will be given by Mr. F. W. Hutchinson, instructor in mechanical engineering at the University of California; the other courses will be conducted by Mr. Victor E. Johnson, teacher of mechanical drawing and mathematics, Oakland High School.

Shipments of distillate oil burners during the first ten months of 1938 amounted to 291,147 units, as compared to a total of 415,705 units shipped during the corresponding period in 1937, according to the Bureau of Census.

ENLARGE FHA WESTERN ZONE OFFICES HERE

**To Move Rental Housing Zone
Units to San Francisco
From L. A.**

Almost simultaneously with the action of President Roosevelt in authorizing the Federal Housing Administration to insure an additional \$1,000,000,000 in home mortgages, both the Western zone office and the Northern California district office of the FHA will move to larger quarters in the Commercial Union building, 315 Montgomery street, on January 1, 1939. Present offices of both organizations are at 433 California street.

With the extension of present financing facilities assured, and with indications that next year will show further gains in public acceptance of the FHA plan of home ownership, the San Francisco organization of the Federal Housing Administration will occupy the entire third floor of the Commercial Union building with 11,640 square feet of space.

It is also announced that the Rental housing, land planning and other units connected with the Western rental housing zone office which are now located in Los Angeles, will be moved to San Francisco on January 1 and assigned space in the enlarged quarters. All operations of the Federal Housing Administration in the eleven Western States, known as Zone 5, will continue to be directed by W. J. Lockwood, Deputy Administrator for the Federal Housing Administration.

Personnel Increases

The Northern California district office, opened on August 16, 1934, with a personnel of four, has grown to require the services of a force of 185. Despite the increased personnel of the Federal Housing Administration, D. C. McGinness, one of the original four employed in this office of which he was recently appointed district director, predicts that for the fiscal year 1940 the FHA should be able to operate the Mutual Mortgage Insurance System at little or no cost to the Federal government. Income from insurance premiums and appraisal fees should provide for this, he points out.

With 534 applications for FHA-insured mortgages during the week ending Saturday, December 17, this was the largest number received by the Northern California district office during any week in 1938. The previous record was established during the week ending March 18, 1938, when 530 were received. The value of applications received during the week ending December 17 was \$2,494,800, it is announced.

New Program Past Six Months Mark; 5,509 Jobs Start

Six months old last week, the 1938 PWA program has succeeded in "making the dirt fly" on the largest aggregation of public works projects ever undertaken in so short a time, according to Public Works Administrator Harold L. Ickes.

The 1938 PWA Act was signed by President Roosevelt June 21. As of December 21, Administrator Ickes stated that PWA has placed under construction a total of 5,509 public works projects, in every section of the nation, costing \$1,222,670,867.

With approximately 75 per cent of the program already under way, Administrator Ickes declared, and the remaining 25 per cent to begin before the January 1 deadline set by Congress, PWA has scheduled construction within the next ten days on the balance of some 1,500 projects, with an estimated cost of more than \$300,000,000.

In almost every single county in the United States there are under construction or completed public works projects which represent the willingness of States, cities and other local governments to participate in the financing and erection of structures which tend to satisfy the social needs of the people. Altogether, in the five and a half years of its existence, PWA has allotted funds for the construction of public works costing about six billion dollars. These projects have provided to date almost ten billion man-hours of work at prevailing wages under normal private enterprise, and have released hundreds of millions of dollars in wages to men who might otherwise not have been employed.

Private industry, including transportation, mining, lumbering and milling, as well as production and fabrication of steel, brick, cement and other products, has already benefited to the extent of almost two and a half billion dollars in material orders, and will continue to benefit under the current program. Local communities participating in the program by contributing 55 per cent of the cost of the non-Federal projects have indicated their need and desire for a wide variety of projects all of which are self-selected.

California Projects Allotted PWA Funds

California last week received two more last-minute grants, totaling \$106,613, from the Federal Public Works Administration, announced Kenneth A. Godwin, PWA Regional Director. Both projects, approved by Public Works Administrator Harold L. Ickes, are to be put under construction immediately, the deadline being Jan. 1.

HIGHWAY USERS GROUP ADOPTS TAX PROGRAM

**Conference Publishes Outline
Of Policies; Urges
Modern Roads**

WASHINGTON, Dec. 29.—With 47 states now completing surveys upon which they will base their future highway programs, major farm, industrial and business groups joined today in urging that state legislatures soon to convene be guided by policies assuring that the more than a billion and a half tax dollars paid annually by highway users in special taxes and fees shall be used to provide roads "suitable for the movement of modern traffic with safety, economy and facility."

Acting through the National Highway Users Conference, groups representative of farmers, retailers, dairymen and other leading users of highway transportation united with organizations in the automotive-highway field in presenting what they term "well-defined" principles for future guidance in dealing with the problems of highway taxation, finance and administration.

"These highways," the statement continues, "must in every instance be predicated on traffic needs, and long-term, rational planning surveys should point definitely to where needs exist. They must embody every practical safety aid. The growing need for adequate intermediate rural roads, as well as arterial routes through cities, must not be overlooked.

"The revenues from special motor-vehicle fees and taxes should be dedicated exclusively to highway purposes. There should be adopted in every state appropriate provisions to prevent diversion of motor-vehicle revenues to other than highway purposes."

The principles of highway taxation, finance and administration suggested by the National Highway Users Conference are set forth in a pamphlet made public today. They cover the following subjects: statement of policy, classification of highway, responsibility for cost of highways, principles of motor-vehicle taxation, planning, special motor imposts, diversion and fundamental policies (general, federal, state and administrative and engineering).

California Leading In FHA Acceptances

California is still leading the United States in gross volume of mortgages accepted for insurance by the Federal Housing Administration, according to latest figures received from Washington by D. C. McGinness, director, Northern California district office of the F H A.

TO ADVERTISE FRIANT WORK NEXT SPRING

Deputy Commissioner to Seek Final Clearance of Water Rights

Hope that bids for the \$15,000,-000 Friant unit of the Central Valley Project would be advertised this spring was seen last week as Reclamation Commissioner John C. Page moved to wind up negotiations over water rights and other legal problems.

Mr. Page instructed Deputy Commissioner Roy B. Williams to entrain for Sacramento about the first of the year with the intention of staying with negotiations until all legal tangles are ironed out.

Progress in this direction has been made already since Harold L. Ickes, Secretary of the Interior, recently approved as to form two San Joaquin River water rights contracts with Miller & Lux. Negotiations are pending with the Madera and Fresno Irrigation Districts; Chowchilla Farms, Inc.; Southern California Edison Company, and several others.

In sending Mr. Williams to Sacramento, Reclamation Commissioner Page said: "It is my hope that he will get things moving to the point where we can realize our ambition of advertising for bids for construction of the dam in the late spring."

He added: "I have instructed Mr. Williams to live with the negotiations indefinitely."

In commenting on progress made at the Friant Dam site, Walker R. Young, supervising engineer for the U. S. Bureau of Reclamation, said recently that a Government Camp is completed at the site approximately 20 miles from Fresno.

Field location of the 160-mile Friant-Kern Canal has been advanced as far as Woodlake, a distance of seventy miles. Location of the 40-mile Madera Canal is advanced as far as the Fresno River, a distance of twenty-two miles.

At that time, Mr. Young said: "As a result of flood control studies in the San Joaquin Valley, consideration is being given a plan to increase the height of the proposed Friant Dam by fifteen feet to provide 70,000 acre-feet of flood control storage in the reservoir."

FHA Home Payments Include City Taxes

Approximately 42,000 purchasers of homes under the FHA plan of home ownership were conspicuous by their absence at city tax collector's windows and offices in Northern California when the final date for payment of real estate taxes arrived a few weeks before

Fowler to Head S. F. Section of Civil Engineers

The San Francisco Section of the American Society of Civil Engineers last week elected Frederick H. Fowler president of the organization for 1939 at its annual meeting devoted to the hearing of annual reports and election of officers.

Harold B. Hammill was elected first vice-president, and James I. Ballard was named second vice-president. Re-elected to the post of secretary-treasurer was T. J. Corwin, Jr.

Guy F. Atkinson, widely known contractor, was the guest speaker at the meeting. His topic was: "The Construction of the Foundations of Grand Coulee Dam". Ralph G. Wadsworth presided.

U. S. Building 67% Above 1937 Level

Permit valuations for residential buildings in November were 67 percent higher than in November of 1937, Secretary of Labor Frances Perkins reported this week. "For five consecutive months the value of residential buildings has shown an increase of more than 50 percent over the corresponding month of 1937", she said.

"The value of new nonresidential buildings increased 47 percent, as compared with November, 1937. The value of additions, alterations, and repairs, on the other hand, declined 7 percent over the year period. Total permit valuations, covering residential and nonresidential buildings and additions, alterations and repairs, were 43 percent higher.

"There was a decrease of 9 percent in total permit valuation in November as compared with October. This decrease is much smaller than the usual seasonal decline. The value of new residential buildings declined 5 percent during the current month as compared with October. The value of new nonresidential buildings showed a decrease of 9 percent and the value of additions, alterations and repairs a decline of 23 percent. These data are based on reports received by the Bureau of Labor Statistics from 2,049 cities having an aggregate population of 59,650,000."

Shipments of malleable iron castings during Oct., 1938, amounted to 28,554 short tons, as compared to shipments totaling 26,941 tons during the preceding month, the Bureau of Census announces.

Christmas, points out D. C. McGinness, District Director, Federal Housing Administrator, San Francisco.

ASK WEST COAST REPRESENTATION ON COMMISSION

Chamber Committee Sees Hope In Maritime Board Vacancy

A request for Pacific Coast representation on the U. S. Maritime Commission was made this week by R. E. Fisher, chairman of the State Chamber of Commerce committee on Shipbuilding and Ship Operation.

Resignation of Commissioner Truitt, according to Fisher, leaves a vacancy on the commission which it is expected will be filled in January, 1939. "Our needs are just as grave as those of any other section", Fisher stated, "and the Maritime Commission should have a Pacific Coast member to see that they are given proper consideration."

"We are pleased with the recent announcement that contracts for some \$6,000,000 for construction of three type C-3 ships have been assigned to a western yard," Fisher continued, "but, at the same time, approximately \$130,000,000 in shipbuilding contracts were assigned to eastern yards.

"We still have a long way to go, and we all hope that every Pacific Coast shipyard will be successful in receiving sufficient peace time work to restore them to the efficiency necessary in our National Defense."

With Fisher on the Shipbuilding and Ship Operation Committee of the State Chamber of Commerce are: R. A. Balzari, San Francisco; Philip Coxon, San Francisco; R. L. Eltringham, San Francisco; O. H. Fischer, San Francisco; G. L. Fox, San Francisco; W. W. Glosser, Emeryville; Chas. M. Gunn, San Francisco; F. T. Letchfield, San Francisco; Warren G. Libbey, San Francisco; Dr. Howard M. McKinley, San Francisco; H. R. Noack, San Francisco; Frank P. Tibbets, Menlo Park; and Walter J. Walsh, San Francisco.

WESTINGHOUSE LISTS TWO STRIP HEATERS

Two new types of strip heaters designed to produce quick heat have been announced by the Westinghouse Electric & Manufacturing Company. Made in two temperature ratings of 750 deg. F. and 1200 deg. F. on the sheath, these heaters are particularly applicable on crane cabs, valve house, elevators, ovens, metal water tanks, pipe lines, hydrants, hot tables, metal moulds, foundry platens, according to the company.

Heaters may be obtained either with both terminals at one end or at opposite ends for installation convenience. Heating elements, with refractory insulation and sealed against moisture, are completely enclosed and bolt holes are provided at each end.

S. F. Utilities Commission Lets \$800,000 Work in 1938; Several Contracts Delayed

The San Francisco Public Utilities Commission awarded contracts aggregating approximately \$800,000 to private contractors during the twelve months of 1938, an unofficial tabulation revealed yesterday.

Work on the \$2,850,000 airport improvement program, for which funds were voted in 1937, accounted for more than half the total amount spent on construction and improvements during the year.

Following are the totals under each division of the Public Utilities Commission's set-up: airport, \$449,611; exposition, \$66,970; municipal railway, \$83,158; Hetch Hetchy, \$22,635; electric power bureau, \$2,723; and water department, \$169,001.

More Work Seen

Considerable work is expected during the balance of the fiscal year, ending June 30, as several contracts were held up awaiting action on an application for a P W A grant. The grant was not approved in Washington.

The Public Utilities Commission wound up its Golden Gate International Exposition program in January, letting a \$66,970 contract to Dinwiddie Construction Company for finishing offices in the airport terminal building on Yerba Buena Shoals. The contract called for electrical work; plastering; glazing; plumbing; composition flooring; painting; heating and venting; finish hardware; masonry and miscellaneous carpentry.

The largest contracts awarded during the year involved construction at San Francisco Airport.

To Macco Construction Company at \$325,571.25, went the contract for earth and rock fill.

Airport Paving

Lee J. Immel, at \$97,430, was awarded the contract for paving at the airport. The work involved: 320,000 gallons of emulsified asphalt, in place, in asphalt stabilized pavement base; 430,000 gallons of emulsified asphalt, in place, in asphaltic concrete wearing surface; 150,000 gallons of emulsified asphalt, in place, in asphaltic concrete fill under wearing surface; and 60,000 gallons of emulsified asphalt, in place, in seal coat and penetration asphaltic treatment.

Other airport jobs included: Frank J. Reilly Company, at \$5331 for improving the administration building; Mangrum, Holbrook and Elkus, at \$6834 for finishing rooms in the administration building; A. S. Dutra, at \$6,084, for exploring and dredging, and at \$8,360 for additional dredging of a channel.

Completion of the San Francisco-Oakland Bay Bridge Terminal provided the bulk of the work for the Municipal Railway. Eaton & Smith, at \$59,902, were awarded the contract for construction of tracks from Market street to the terminal; and H. S. Tittle Company, at \$9,250, started work on

the trolley system for the terminal loop.

Car Track Changes

Reconstruction of Nineteenth avenue necessitated changes in tracks on Judah street between Eighteenth and Twentieth avenues. All proposals received the first time bids were called were rejected, and at the second bid opening the Municipal Railway submitted the low proposal of \$7,400.

Painting of car barns and stations by the American Building Maintenance Company, at \$3,433, and the Aristo Painting Company at \$3,173, wound up the year's work for the Municipal Railway.

Approximately \$22,635 worth of work was done under Hetch Hetchy contracts during the year.

The largest job—for constructing walks, water, electrical and sewer services at Moccasin and Priest—went to L. Ubels, at \$12,457.75

Drainage Pump

Other contracts included: C. Dudley de Velbiss, at \$1,500, for levee work at San Joaquin Valve House; Pacific Coast Construction Co., at \$1,677, for construction of a drainage pump, electrical work and pipe at the valve house; Link Belt Company, at \$5,600 for installing a mechanical cleaned bar screen at Lower Cherry aqueduct; and Charles D. Warner, at \$1,400, for riprapping the levee at San Joaquin Valve House.

The customary Electric Power Bureau Contracts were awarded during the year.

San Francisco Water Department contracts awarded during 1938 amounted to \$169,001. The largest went to W. O. Tyson, at \$37,318.40, for construction of a temple and improvements at Pulgas Outfall.

Pacific Pavements Co., Ltd., at \$37,185, again submitted the low bid for repaving sidewalk openings made by the Water Department during the year. The next largest contract—for preliminary excavation and pipe relocation for the reconstruction of Calaveras Stillage Basin—went to Sibley Grading & Teaming Company, Ltd., at \$20,035.

Water Main Projects

E. J. Treacy led the field in the regular main-laying contract division, receiving nine contracts aggregating \$31,240.

Martin Murphy was awarded four contracts for laying mains, totaling \$9,749. W. J. Tobin received two contracts aggregating \$4,811.

Other contracts awarded included: Lowrie Paving Co., at \$8,737.-

ANNUAL OAKLAND HOUSING EXHIBIT SET FOR JAN. 20

FHA Shipping Entire Carload
Of Display Material From
Washington

The Federal Housing Administration is shipping an entire carload of exhibits from Washington for a mammoth display at the second annual Oakland National Housing Exposition to be held in that city January 20 to 28, inclusive. It will be the first appearance of this exhibit on the Pacific Coast.

In extending an invitation to builders, material dealers and prospective home owners throughout Northern California to attend this building exposition in Oakland, Grover McDonald, general manager, appointed by the Oakland Real Estate Board and Associated General Contractors of the East-bay, sponsors, reports that all branches of the home building industry are uniting in presenting to the public a demonstration in housing that will be both educational and practical.

Held in cooperation with the Federal Housing Administration, the sponsors are planning one exhibit to show both the wrong and the right way to build a house by erection of cut aways using actual building materials.

Every item will be labeled so that the demonstration is in "cafeteria" style and needs no verbal explanation.

Every detail, they state, will be strictly in accord with the Federal Housing Administration's construction requirements.

06, for laying mains in Lakeside Subdivision No. Two; Western Asbestos Company, at \$1,983, for acoustical treatment at the Water Department building; Lowrie Paving Company, at \$1,949, for laying mains in Forty-eighth, Forty-first, Esmeralda and Sweeney avenues; California Steel Products Co., at \$4,210, for altering condenser tubes at Central Pumps; Fay Improvement Company, at \$3,438.55, for laying mains in Fifteenth avenue; A. Frederick Anderson, at \$2,493, for altering cottages at Calaveras and Sunol; Peter Sartorio, at \$2,158, for altering caretaker's cottage and garage at University Mound; and San Francisco Elevator Company, at \$1,647, for altering the sidewalk elevator at the Water Department building.

Shipments of deep well water systems during the first 10 months of 1938, amounted to \$1,723,814, as compared to shipments totaling \$2,131,612 registered during the same period in 1937, the Bureau of Census reports.

25— MACHINERY AND EQUIPMENT

BIDS OPENED

LOS ANGELES, Calif.—Bids for 6 service gates complete with gate frames, guides, elec. motor operated hoists, etc., for Prado Dam, Invit. 184, opened by U. S. Engineer, Los Angeles, were:

Phillips and Davies, Inc., \$9666.66 each; total \$58,000 shipped from Kenton, Ohio on govt. bill of lading.

Consolidated Steel Corp., \$12,190 each; total \$73,140; f.o.b. Prado Dam.

Hardie-Tynes Mfg. Co., \$12,467; each; total \$74,802 shipped from Birmingham Alabama, on govt. bill of lading; telegraphic modification, add \$210 each, total \$1260 for tests. * 25

CONTRACT AWARDED

COLORADO PROJECT, Colorado.—Koppers Co., Bartlett-Hayward Division, Baltimore, Md., at \$54,000.00, awarded contract by the U. S. Bureau of Reclamation, Denver, under Spec. No. 811, for furnishing and delivering two 102-in. ring-seal gates and two sets of conduit units for installation in the outlet works at the Green Mountain Dam, Colorado-Big Thompson Project, Colo.; for shipping point and/or Kremmling, Colo. Gates and conduit units will be installed by the Government. * 25

CONTRACT AWARDED

DESCHUTES PROJECT, Oregon.—Koppers Co., Bartlett-Hayward Division, Baltimore Md., at \$35,000.00, awarded contract by the U. S. Bureau of Reclamation, Denver, under Spec. No. 812, for furnishing and delivering two 96-inch ring-follower

gates and two sets of conduit units for installation in the outlet works at Wickiup Dam, Deschutes Proj., Oregon; for shipping point and/or Lapine, Ore. Gates and conduit units will be installed by the Government. * 25

CONTRACT AWARDED

LOS ANGELES, Cal.—Bethlehem Steel Corp., at \$1,814,493 (subject to PWA grant) awarded contract by Los Angeles Water & Power Commission for furnishing and delivering single circuit galv. steel transmission line towers, Spec. 2712, for the third circuit between Los Angeles and Boulder power plant. * 25

LOW BIDDERS

SAN BERNARDINO CO., Calif.—Low bids submitted to the State Highway Dept., San Bernardino, for the rental of misc. equipment for use in San Bernardino - Riverside counties for storm restoration work are:

1/2-Yd. Shovel with 3-Yd. Trucks—Five Required

Jesse H. Hubbs, San Bernardino—Shovel, \$2.57; standby time, \$1; transportation, \$10; Trucks, power loading, \$2.18; hand loading \$1.78; standby time, \$1.13; transportation, \$1.00.

Holly Truck Co., Bellflower—Shovel, operating time, \$2.89; standby time, 90c; transportation, \$15. Power loading truck, \$2.18; hand loading, \$1.78; standby time, 45c.

George Butler, San Bernardino—Shovel, \$3 and \$1; no charge for transportation. Trucks, \$2.18, \$1.78 and \$1.13. No charge for transportation.

P. E. Naylor, Pasadena—Shovels, \$3.94 and 75c; no charge for trans. Trucks, \$1.95 and \$1.60; no charge for standby and transportation.

One 90-h.p. Tractor with Bulldozer

Lee A. Phillips, Inc., Brentwood—Operating rental, \$6.17; standby, \$1.75 transportation, \$300.

One 46-h.p. Tractor with Bulldozer

Dean Fletcher, Wildomar—Operating time, \$3.25; standby, 75c; no charge for transportation.

Two 1/4-c.y. Shovels with 4-yd. Trucks

Triangle Rock & Gravel Co.—Operating time, \$6.25; no charge for standby; no charge for transportation. Trucks, \$2.50, power loading; \$2.10, hand loading; standby time, 50c; no charge for transportation.

Forty-six bids submitted were referred to the engineer for tabulation and recommendation. * 25

BIDS OPENED

LOS ANGELES, Calif.—Bids for oil circuit breakers, Spec. 2783, were opened by Los Angeles Water and Power Purchasing Agent.

The items were:
(I) Four 287,500-volt, 1200-amp., 2-500,000 kva. interrupting capacity, 3 cycle interrupting time, 3 pole, single throw, automatic trip free, 250-volt DC operated, oil circuit breakers furnished complete with current transformers and oil:

- (a) fob cars bidder's factory, lump sum;
- (b) 2 circuit breakers, fob cars at Silver Lake, Calif., and 2 circuit breakers fob cars Victorville, all four circuit breakers for a lump sum;
- (II) Two 138,000-volt, 1200-amp., 60-cycle, 2,500,000 kva interrupting capacity, 3 cycle interrupting time, outdoor type, 3 pole, single throw, electrically operated, oil circuit breakers complete with oil:

- (a) fob cars bidder's factory, lump sum;
- (b) fob cars, Los Angeles, lump sum;
- (III) four 138,000 volt, 1200-amp., 60-cycle, 2,500,000 kva interrupting capacity, 5 cycle interrupting time outdoor type, floor mounted, 3 pole, single throw, electrically operated oil ckt. breakers:
- (a) fob cars bidder's factory, lump sum;
- (b) fob cars, Los Angeles, lump sum;

OPTIONS:

- (I) To purchase two additional volt breakers within 120 days after award:
- (a) fob cars bidder's factory;
- (b) fob cars Boulder City, Nev.;
- (II) To purchase one complete unit for spare unit at time of purchase:
- (a) and (b) fob cars Victorville.

Complete bids were:
(A) Westinghouse Elec. & Mfg. Co., factory at East Pittsburgh. For omission of oil duct \$16 gal. fob Silver Lake, Victorville, and Los Angeles: I (b) \$462,360; II (b) \$74,300; III (b) \$104,960; Option I (b) \$231,180; Option II (b) \$46,236; spare parts, (I) \$180; (III) \$520.

(B) Kelman Electric Mfg. Co., factory at Los Angeles. For omission of oil duct \$18 fob shipping point, and \$185 for Los Angeles: II (a) \$49,700; (b) \$49,700; III (a) \$78,088; (b) \$78,088; spare parts I, \$1,426; III \$1,426.

(C) General Electric Co., factory at Philadelphia. For omission of oil duct \$16 all points: I (a) \$383,000; II (a) \$60,200; (b) \$60,200; III (a) \$95,840; (b) \$95,840; Option I (a) \$191,000; (b) \$191,000; Option II (a) \$31,835; (b) \$31,835; spare parts I, \$650; III, \$440. * 25

Geo. J. Bock Co., Los Angeles, (1) \$101,400; (2) \$1.25; total, \$101,510.00.

The bids of W. E. Hall Co., R. L. Oakley, United Concrete Pipe Corp. and C G Willis & Sons were not declared, being unaccompanied by affidavits of non-collusion. * 29

30—RESERVOIRS & DAMS**LOW BIDDERS**

CORVALLIS, Benton Co., Oregon.—Empire Construction Co., per Robert A. Bitar, Portland, at \$148,880, (Sch. A—cast iron pipe) and \$119,052 (Sch. B—steel pipe) submitted low bid to the Corvallis Water Commission, W. F. Groves, Clerk, Corvallis, Benton Co., under PWA Docket 1370, for furnishing material and building pipe line from Rock Creek to Baldy Butte Reservoirs, consisting mainly of about 21,000 ft. of 20-in. pipe and 21,000 ft. of 16 inch pipe. Alts. on cast iron and welded steel pipe. * 30

LOW BIDDERS

LOS ANGELES, Cal.—Daley Corporation, 4430 Boundary St., San Diego, at \$484,258.50, submitted low bid to the Metropolitan Water District, 506 W. 3rd St., Los Angeles, for the construction of the Falos Verde Reservoir and appurtenant works of the Colorado River Aqueduct distribution system; Spec. 288. W. E. Hall Company, Alhambra, at \$588,960, submitted the second low bid.

Complete bids will be published shortly. * 30

31—PIPE LINES & WELLS**BIDS OPENED**

LOS ANGELES COUNTY, Calif.—Following submitted bids to Metropolitan Water District, 206 W. Third St., Los Angeles, for the construction of precast concrete or welded steel-plate pipe lines and appurtenant works for the Long Beach, Torrance and Compton laterals of the Colorado River Aqueduct distribution system; Spec. 293. The work is located in the City of Los Angeles, and in unincorporated territory of the County of Los Angeles. Proposals were received for two alternative types of pipe line construction. The lengths, diameters, and types of pipe required for the respective schedules are as follows:

(P) Lock-joint steel cylinder reinforced precast concrete pipe; Sch. 26: 4.7 miles of 36-in. pipe; Sch. 27: 1.2 miles of 30-in. pipe; Sch. 28: 1.3 miles of 21-in. pipe.

(SC) Welded steel-plate pipe with gunite exterior coating and centrifugally applied (spun) mortar lining; Sch. 26, 4.7 miles of 37-in. pipe; Sch. 27: 1.2 miles of 3-in. pipe; Sch. 28: 1.3 miles of 22-in. pipe.

Bids were:
Western Pipe & Steel Co. of Calif., Los Angeles; Sch. 26SC: \$260,336.70; Sch. 27SC: \$58,073.80; Sch. 28SC: \$47,906.20; total Sched. SC, \$366,316.70.

United Concrete Pipe Corp., Los Angeles; Sch. 26P: \$260,175.40; Sch. 26SC: \$295,081.55; Sch. 27P: \$62,006.75; Sch. 27SC: \$63,293.10; Sch. 28P: \$52,746.40; Sch. 28SC: \$55,731.80; total Sch. P: \$374,928.55; total Sch. SC, \$414,096.45. Stipulation: will accept only 26P, 27P, and 28P together, or 26SC, 27SC and 28SC together.

The Southwest Welding & Mfg. Co., Alhambra, Sch. 26SC \$279,713.50; Sch. 27SC, \$60,224.50; Sch. 28SC, \$49,966; total Sch. SC, \$359,904. Stipulation: will accept all or none.

American Concrete & Steel Pipe Co., Southgate; Sch. 26P: \$300,782; Sch. 27P: \$66,314.25; Sch. 28P: \$51,535; total Sch. P, \$418,659.25. Stipulation: will accept all three schedules, or will accept Sch. 26P alone, and will not accept Sch. 27P and 28P without 26P.

Consolidated Steel Corp., Ltd., Los Angeles; Sch. 26SC, \$302,077.50; Sch. 27SC, \$72,278.50; Sch. 28SC, \$62,215; total Sch. SC, \$436,571. Stipulation: if awarded all three schedules, deduct 26c per l.f. on Items 15A, 16A, and 17A.

Complete bids will be published shortly. * 31

BIDS OPENED

CORVALLIS, Benton Co., Oregon.—Empire Construction Co., per Robert A. Bitar, Portland, at \$148,880.00 (Sch. A—cast iron pipe), and \$119,052.00 (Sch. B—steel pipe) submitted low bid to the Corvallis Water Commission, W. F. Groves, Clerk, Corvallis, under PWA Docket 1370, for furnishing material and building pipe line from Rock Creek to Baldy Butte

Reservoirs, consisting mainly of about 21,000 ft. of 20-in. pipe and 21,000 ft. of 16-in. pipe. Alternates on cast iron and welded steel pipe.

Other Bidders: (1st figure for cast iron, 2nd figure for steel): A. E. Downer, Oakland, Calif., \$164,565; none; Acme Const. Co., Seattle, \$164,880, \$158,730; Eugene Ruedy, Portland, \$171,025, \$130,957; Williams and van Valkenburgh, Los Angeles, \$157,905, \$131,146; Steel Tank and Pipe Co. of Oregon, Portland, none, \$145,772; Kuckenbergs Const. Co., Portland, \$165,525, \$141,280; Parker-Schram Co., Portland, \$193,390, \$141,170; Jacobsen-Jensen Co., Portland none, \$154,000; C. A. Dunn, Klamath Falls, \$154,720; F. C. Dillard, Medford, \$163,400, \$125,975. 31

32—SEWERS & SEWAGE DISPOSAL PLANTS

BIDS STILL UNDER ADVISEMENT

SAN LEANDRO, Alameda Co., Cal.—Bids submitted to the San Leandro City Council for the construction of sewage pumping and treatment work are still being held under advisement. No action was taken at the last meeting of the City Council. 32

Total bids follow:

A. E. Downer, Oakland	\$6,300
Holdener Const. Co., Sacramento	8,475
San Francisco	8,780
J. W. Terrell, Sacramento	8,890

CONTRACT AWARDED

SACRAMENTO, Cal.—Union Paving Co., 212 Babcock Building, San Francisco, at \$1,290, submitted low bid and was awarded contract by the Sacramento City Council, H. G. Denton, City Clerk, for the construction of "E" St. and McKinley Blvd. Sewers, located at Sacramento.

Total bids follow:

Union Paving Co., S. F.	\$1,290.
A. E. Downer, Oakland	\$86,784.
Artukovich Bros., Hynes	\$88,000.
A. Telcher & Son, Inc., Sacramento	\$89,500.
Bebek & Brkich, L. A.	\$91,700.

MARIPOSA CO—SURFACING—(GOV'T)

MARIPOSA COUNTY, Cal.—Louis Biasotti & Son (Stockton), and Claude C. Wood (Lodi), & Frank B. Marks & Sons (Newman) at \$148,212.50, submitted low bid to the United States Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for placing a bituminous treated surfacing on 11.435 miles of the Waxona Road (Sections A1, B1, B2, B3 of Route 2), Yosemite National Park, Mariposa Co.

- Work involves:
- (1) 4,500 c.y. unclass. excav.;
 - (2) 20,000 sta. yds. overhaul;
 - (3) 11.435 miles fine grading, sub-grade and shoulders;
 - (4) 1,300 M. gals. watering;
 - (5) lump sum water plant or plants for project;
 - (6) 32,100 tons crushed rock base course;
 - (7) 300 tons cutback asphalt (Type MC-2) for prime coat;
 - (8) 14,400 tons Class F-2 open graded plant mixture;
 - (9) 625 tons 90-95 liquid asph. for

- Class F-2 plant mixture;
- (10) 1,100 tons Class F-2 choker aggregate;
- (11) 1,100 tons Class F-2 cover aggregate;
- (12) 240 tons emulsified asphalt for Class F-2 seal;
- (13) 15 tons cutback asphalt (Type MC-2) for seal coat on gutters, shoulders and dikes;
- (14) force account one-way traffic control, and sanding asphaltic material.

- Total bids follow:
- (A) Louis Biasotti & Son & Claude C. Wood & Frank B. Marks & Sons, \$148,212.50.
 - (B) Mountain Const. Co., Sacramento, \$153,075.75.
 - (C) Heafey-Moore Co., & Fredrickson & Watson Const. Co., Oakland, \$154,934.50.
 - (D) Triangle Rock & Gravel Co., & Ralph A. Bell, San Francisco, \$157,396.00.
 - (E) Isbell Const. Co., Reno, Nevada, \$199,237.50.

 ALTER dwelling, \$475; 221 Faralones; owner, Oral H. Curtiss, premises; contractor, Donnelly Roofing Co., 652 Fulton St.
 WALL, retaining, \$300; W 3rd St. 50 22nd St.; owner, T. P. Dineen, 815 El Dorado St.; contractor, T. W. McClenahan, 333 16th Ave.
 ALTER flats, \$500; 269 Green Street; owner, F. Brian, 273 Green St.

33— WATER WORKS

BIDS OPENED

SAN FRANCISCO—E. J. Treacy, 430 Call Bldg., San Francisco, at \$1,361.90, submitted low bid to the Public Utilities Commission, Room 287, City Hall, under Spec. No. W.D 197, for the laying of 6-inch cast iron mains in Melrose Ave. and Los Falmos Drive.

Work involves:

- (1) 90 l.f. excavation and backfill for 6-in. pipe, trench 17-in. wide by 36-in. deep;
- (2) 5 c.v. additional excavation and backfill;
- (3) no item 3;
- (4) installing 560 l.f. 6-inch bolted joint cast iron pipe;
- (5) installing 1,000 lbs. fittings, gate valves, etc.;
- (6) 25 l.f. bell and spigot joints for pipe and fittings;
- (6a) 94 bolted joints for 6-inch cast iron pipe;
- (7) 200 sq. ft. of street pavement;
- (8) installation of 25 3/4-in. screw taps;
- (9) installation of 275 l.f. 3/4-in. copper service pipe;

- (10) furnishing 560 l.f. 6-in. bolted joint cast iron pipe, Class 150, at \$0.74 per l.f.;
 - (11) furnishing bell end gate valves: (a) 2 4-in. valves at \$12 each; (b) 1 6-in. valve at \$17;
 - (12) furnishing 1,000 lbs. bell and spigot cast iron fittings at \$0.06 per lb.;
 - (13) furnishing 100 lbs. steel band an bolts at \$0.05 per lb.;
 - (14) furnishing 275 l.f. 3/4-in. copper service pipe at \$0.17 per l.f.;
 - (15) furnishing 3/4-in. fittings for services at \$41.25;
 - (16) engineering and supervision at \$79.00;
 - (17) connections: \$102.00.
- Total bids follow:
 (A) E. J. Treacy, \$1,361.90.
 (B) The Fay Improvement Co., \$1,564.86.
 (C) The S. F. Water Dept., \$1,641.80.

CLARK CO., NEV.—HIGHWAY CONSTR.—(STATE)

CLARK COUNTY, Nevada.—Fred-ericksen & Westbrook, P. O. Box 138 Lower Lake, Calif., at \$83,632.30 submitted low bid to the State of Nevada Directors of the Department of Highways, Heroes' Memorial Bldg., Carson City, for the construction of approximately 14.37 miles of highway in Clark County, from a point approximately 1½ mi. north of Searchlight to a point approximately 2½ miles south of Railroad Pass, 14E, 5, Section B, Clark County, Nevada.

Work involves:

- (1) 93 acres clearing;
- (2) 109,120 c.y. rdwy. excav.;
- (3) 1380 c.y. drainage excav.;
- (4) 188 sta. "V" type ditches;
- (5) 1062 c.y. borrow;
- (6) 145,860 yd. sta. overhaul;
- (7) 970 yd. ml. overhaul;
- (8) 790 c.y. struc. excav.;
- (9) 1420 c.y. backfill;
- (10) 14.37 miles subgrade, type C;
- (11) 14 M. gals. water;

- (12) 77,420 tons gravel surface;
 - (13) 150 tons liquid asphalt, type RC-2 (seal);
 - (19) 950 tons do, type SC-3 or SC-4 (roadmix);
 - (15) 14.37 miles roadmix;
 - (16) 7 each roadmix intersections;
 - (17) 128 c.y. Class B concrete;
 - (18) 3890 lbs. reinf. steel;
 - (19) 532 lf. 18-in. corr. metal pipe (dipped);
 - (20) 1575 lf. 24-in. do;
 - (31) 96 lf. 30-in. do;
 - (22) 320 lf. 36-in. do;
 - (23) 110 each culvert markers;
 - (24) 74 each guide posts;
 - (25) 54 each monuments.
- Total bids follow:
- (A) Fredericksen & Westbrook, Lower Lake, Calif., \$83,632.30.
 - (B) Nevada Rock & Sand Co., Reno, \$84,652.54.
 - (C) J. A. Casson Co., Hayward, Cal., \$87,292.92.
 - (D) W. W. Clyde & Co., Springville, Utah, \$88,192.70.

- (E) Utah Const. Co., Ogden, Utah, \$88,620.10.
- (F) M. J. Ruddy, Modesto, Calif., \$89,701.59.
- (G) Silver State Const. Co., Inc., Fallon, \$90,402.90.
- (H) Strong and Grant, Springville, Utah, \$93,203.10.
- (I) Isbell Const. Co., Reno, \$93,933.49.
- (J) A. Teichert & Sons, Inc., Sacramento, Calif., \$99,472.44.
- (K) Hoops Const. Co., Twin Falls, Idaho, \$103,815.44.
- (L) Dodge Const., Inc., Fallon, Nev., \$107,067.80.
- (M) Union Paving Co., San Francisco, \$108,371.90.
- (N) Hemstreet & Bell, Marysville, Calif., \$109,492.00.
- (O) McNutt Bros., Eugene, Oregon, \$114,770.40.
- (P) R. L. Oakley, Pasadena, Calif., \$115,727.30.

CLARK CO., NEV.—HIGHWAY CONSTR.—(STATE)

CLARK COUNTY, Nevada.— Utah Construction Co., Ogden, Utah, at \$195,827.63 submitted low bid and was awarded contract by the State of Nevada Directors of the Dept. of Highways, Heroes' Memorial Bldg., Carson City, Nev., for the construction of approximately 12.62 miles of highway in Clark County from a point near Apex to a point approximately four miles west of Crystal, Route 6, Sections D1, E2, and E1, Clark County, Nevada.

Work involves:

- (1) 175 hours 75-h.p. crawler type tractor;
- (2) 50 hours 75-h.p. tractor with power scraper;
- (3) 175 hours 10-in. blade grader;
- (4) 500 hours motor grader with scarifier;
- (5) 250 hours 1½-ton truck;
- (6) 50 hours 75-h.p. tractor with bulldozer or angledozer;
- (7) Force account special detours;
- (10) 266 lf. remove culvert pipe;
- (11) 7 each remove headwalls;
- (12) Lump sum remove building;
- (13) Lump sum move building;
- (14) 1333.334 sq. yd. remove and relay roadmix surface;
- (8) 10245 tons selected detour surfacing;
- (9) 13949 tons ml. haul on selected detour surfacing;

- (15) 128,019 c.y. roadway excav.;
- (16) 680 c.y. drainage excav.;
- (17) 37 sta. "V" type ditches;
- (18) 18,883 c.y. borrow;
- (19) 88 sta. slope rounding;
- (20) 348,911 yd. sta. overhaul (yd. sta.);
- (21) 21,573 yd. ml. overhaul (yd. ml.);
- (22) 1,075 c.y. structure excav.;
- (23) 1,610 c.y. backfill;
- (24) 12,49 miles subgrade, type "B";
- (25) 565 c.y. rock cleanup;
- (26) Force account roadside cleanup;
- (27) 5,449 M. gal. water;
- (28) 68,756 tons type 1 gravel base;
- (29) 42,995 tons type 2 gravel base (1½-in. size);
- (30) 418 tons liquid asphalt, type SC-1A (prime);
- (31) 969 tons screenings;
- (32) 112 tons liquid asphalt, type MC-4 (seal);
- (33) 492 tons liquid asphalt, type SC-2 (detours and intercessions);
- (34) 2 each roadmix intersections;
- (35) 296 c.y. class "A" concrete;
- (36) 34 c.y. class "B" concrete;
- (38) 96 lf. 15-in. corr. metal pipe;
- (39) 1,188 lf. 18-in. corr. metal pipe;
- (40) 710 lf. 24-in. corr. metal pipe;
- (41) 94 lf. 30-in. corr. metal pipe;
- (42) 62 lf. 36-in. corr. metal pipe;
- (43) 120 lf. relay culvert pipe;
- (44) 39 each move pipe culvert head-walls;
- (37) 31,660 lbs. reinf. steel;

- (45) 52 each culvert markers;
 - (46) 4 each monuments;
 - (47) 1082 tons liquid asphalt, type SC4 or SC5;
 - (48) 21,623 tons class B2 plantmix bituminous surface;
 - (49) 54 each remove and reset culvert markers;
 - (50) 26 each remove and reset guide posts;
 - (51) 36 each remove and reset monuments.
- Total bids follow:
- (A) Utah Const. Co., Ogden, Utah, \$195,827.63.
 - (B) Nevada Rock & Sand Co., Inc., Reno, \$199,520.84.
 - (C) Isbell Const. Co., Reno, \$203,882.33.
 - (D) Silver State Const. Co., Fallon, Nev., \$204,130.31.
 - (E) W. W. Clyde & Co., Springville, Utah, \$208,491.06.
 - (F) Olof Nelson Const. Co., Logan, Utah, \$210,166.94.
 - (G) Hemstreet & Bell, Marysville, Calif., \$215,889.12.
 - (H) Union Paving Co., San Francisco, \$217,332.63.
 - (I) Dodge Const., Inc., Fallon, Nevada, \$219,358.53.
 - (J) Hoops Const. Co., Twin Falls, Idaho, \$219,984.51.
 - (K) McNutt Bros., Salem, Oregon, \$254,872.66.

PALOS VERDES RESERVOIR—(DISTRICT)

LOS ANGELES, Cal.—Daley Corporation, 4430 Boundary Street, San Diego, at \$484,258.50 submitted low bid to the Metropolitan Water District, 306 W. 3rd Street, Los Angeles for the construction of the Palos Verdes Reservoir and appurtenant works of the Colorado River Aqueduct distribution system; Spec. 289. Fifteen bids previously advertised for this project were returned unopened Dec. 9. Work includes excav., rolled fill embank. and Gunite lining for a 1000-acre ft. capacity reservoir and the construction of an outlet tower, spillway, and supply tunnel. There are also included a short section of road, a concrete-walled open storm drain approx. 2800 ft. in length, a steel foot bridge, fences, and appurtenant works.

Schedule of items follows:

- (1) 1,600,000 c.y. excav. for reservoir and outlet tower;
- (2) 39,000 c.y. excav. for struc.;
- (3) 4,000 c.y. excav. for road;
- (4) 1,000 c.y. excav. in tunnel;
- (5) 10 tons furnishing and erecting steel support in tunnel;
- (6) 16 M ft. b.m. furnishing and placing permanent timbers in tunnel;
- (7) 14,000,000 c.y. trips compacting earth blanket and main embankment;
- (8) 2,000,000 c.y. trips compacting road fill and toe embankment;
- (9) 2,000 c.y. backfill, sluiced or flooded;
- (10) 18,000 c.y. backfill, compacted;

- (11) 100 tons gravel refill;
- (12) 600 c.y. riprap;
- (13) 570 c.y. conc. in outlet tower;
- (14) 6,500 c.y. conc. in storm drain and pipe incasement;
- (15) 1,900 c.y. conc. in spillway, stilling basin, and misc. structures;
- (16) 640 c.y. conc. in tunnel;
- (17) 2,000,000 lbs. fabricating and placing reinf. steel;
- (18) 1,300,000 sq. ft. Gunite lining of reservoir;
- (19) 300 l.f. drilling grout holes;
- (20) 100 connections for grouting;
- (21) 150 c.y. mixing and placing grout;
- (22) 980 l.f. furnishing and installing mortar lined steel-plate pipe;
- (23) 1,300 lbs. furnishing and installing steel thimble and cover;
- (24) 9,000 lbs. furnishing and erecting steel bridge;
- (25) 7,700 l.f. furnishing and installing fence, 84-in. fabric;
- (26) 3,900 l.f. furnishing and installing fence, 36-in. fabric;
- (27) 100 sq. ft. furnishing and installing glass in metal sash;
- (28) 70,000 lbs. installing misc. metal-work;
- (29) 400 l.f. installing 6-in. concrete pipe;
- (30) 700 l.f. installing 12-in. conc. pipe;
- (31) 84,000 sq. ft. oiled roadway on embankment crest;
- (32) 28,000 sq. ft. disintegrated rock base 6 in. thick;
- (33) 33,000 sq. ft. pre-mix wearing surface 1½ in. thick.

- (34) 75 posts furnishing and installing highway guard posts;
- (35) 8,000 ton-miles hauling steel;
- (36) 42,000 ton-miles hauling cement;
- (37) 600,000 sta. c.y. at the stipulated price of three miles (\$0.003) per sta. c.y. overhaul or road fill materials. • 30

SANTA BARBARA COUNTY, Cal. --Mountain Construction Co., 1846 37th, Sacramento, at \$58,959.15, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading, treating, portions with liquid asphalt (road-mix) and applying seal coat on about 10 miles of Feeder Road between Santa Ynez river and San Antonio Creek, Santa Barbara County.

- (1) 557 sta. clear and grub;
- (2) 100 M. gals. water;
- (3) 180,900 c.y. rdwy. excav., unclassified;
- (4) 1,750 c.y. struc. excav.;
- (5) 1,150 c.y. ditch and channel excavation;
- (6) 662,800 sta. yds. overhaul;
- (7) 30,500 c.y. imported borrow;
- (8) 2,400 c.y. imported surf. material;
- (9) 557 sta. finish rdwy.;
- (10) 285 c.y. remove concrete;
- (11) 10 tons liquid asph. SC-2 prime coat;
- (12) 115 tons liquid asph. SC-3 road mix surf. treat.;
- (13) 9,200 sq. yds. prepare, mix and shape roadbed;
- (14) 7 tons liquid asph. 90-95 seal coat;
- (15) 85 tons screen seal coat;
- (16) 5,000 lbs. bar reinf. steel;
- (17) 75 c.y. Class A Portland cement concrete struc.;
- (18) 106 lf. 8-in. CMP;
- (19) 2,266 lf. 18-in. CMP;
- (20) 194 lf. 36-in. CMP;
- (21) 144 lf. 42-in. CMP;
- (22) 8 each spillway assemblies;
- (23) 600 lf. 6-in. perf. metal pipe underdrains;
- (24) 100 c.y. rock filling material;
- (25) 160 lf. move and reset existing guard rail;
- (26) 190 each guide posts;
- (27) 57 each culvert markers;
- (28) 0.75 mile new property fences;
- (29) 2 each drive gates;
- (30) 214 each monuments.

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Until Jan. 9, 2:00 P. M., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials, as follows:

BID NO. 6254: purchase of new Caterpillar (or equal) tractor replacement parts, f.o.b. shipping point, including lump sum trade-in allowance and/or cash offer on used equipment located at Government Island.

BID NO. 6257: purchase of new G.M.C. (or equal) replacement parts; f.o.b. shipping point and/or Glendale; including lump sum trade-in allowance and/or cash offer on used equipment located at Glendale.

BID NO. 6258: purchase of new Caterpillar (or equal) tractor replacement parts; f.o.b. shipping points; including lump sum trade-in allowance and/or cash offer on used equipment located at Glendale.

NAVY DEPARTMENT

WASHINGTON, D. C.—Until Jan. 25, bids will be received by Bureau of Yards and Docks, Washington, D. C., for four 50-ton traveling jib cranes for use at Boston, Philadelphia, Mare Island and Puget Sound navy yards.

Plans and specifications may be obtained from the above office.

WAR DEPARTMENT

SACRAMENTO, Calif.—Until Jan. 5, 3:00 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-39-160, for standard hoisting rope of uncoated plow steel; 6 strands, 19 wires to strand; Seale construction and right regular lay; f.o.b. Rio Vista.

Plans and specifications may be obtained from the above office.

FORT MASON, Calif.—Until Jan. 4, 10:00 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-39-193, for parts for Federal 2½-ton trucks, Model Q-9, 1935, and for parts for Diamond "T" reconn. car, 12-pass., 226-S, 1934; f.o.b. Motor Warehouse 6, Presidio of San Francisco.

Plans and specifications may be obtained from the above office.

CANAL ZONE

PANAMA CANAL.—Until Jan. 5, 10:30 A. M., bids will be received by the General Purchasing Officer, Washington, D. C., under Sch. No. 3409, for furnishing misc. supplies and materials, including:

Electric industrial trucks, flat steel strapping, water coolers, liquid spray-

ers, wheelbarrow wheels (with pneumatic tires), wedge gate valves, brass screws, steel cap screws, brass machine-screw nuts, butt hinges, "T" hinges, strap hinges, bronze case-moment fasteners, screw anchor shackles, gate hooks and eyes, toilet-paper holders, white cottoning machine thread, and watertight marine vibrating bells.

Plans and specifications may be obtained from the above office or from the Asst. Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing misc. supplies and materials as follows:

SCH. 5167: one flood lighting unit, landing field, with electric generating set mounted on a 1½- to 2-ton capacity platform body motor truck, for San Pedro; Jan. 10.

SCH. 5187: 600 wire rope steel marine line spikes for Sewall's Point and Mare Island; Jan. 10.

SCH. 5183: copper alloy nickel for eastern and western yards; Jan. 10.

SCH. 5042: five portable inhalators, complete with 2 cylinders and carrying case for eastern and western yards; Jan. 13.

SCH. 5217: 8,000 sq. ft. galv. steel expanded metal for Boston and Norfolk; 1,300 sq. ft. galv. expanded metal for Puget Sound; Jan. 13.

SCH. 5211: motor driven punch and shear machine for Mare Island; Jan. 13.

SCH. 5197: silver solder for eastern and western yards; Jan. 13.

SCH. 5221: 8,800 pounds of remelting nickel for Puget Sound; Jan. 17.

SCH. 5205: straight ash oars for eastern and western yards; Jan. 10.

SCH. 5194: motor driven high pressure hydraulic test pump for Mare Island; Jan. 10.

SCH. 5199: 145 carbon tetrachloride portable fire extinguishers for Puget Sound; 40 chemical fire extinguishers, soda and acid type; for Mare Island; Jan. 10.

SCH. 5186: leather, belting, lacing for eastern and western yards; Jan. 10.

SCH. 5223: 200 lbs. aluminum foil for Puget Sound; Jan. 17.

SCH. 5181: soldered corrosion tube fittings for Mare Island; Jan. 10.

Sch. 5192: approx. 14,000 lbs. solder for eastern and western yards; Jan. 13.

SCH. 5220: aluminum and aluminum alloy for eastern and western yards; Jan. 13.

SCH. 5231: 2 gasoline engine driven industrial tractors and 20 4-ton capacity all-steel trailers, 5th wheel type, for Mare Island; Jan.

ALAMEDA COUNTY PERMITS UNDER \$1000

GARAGE, \$500; 929 Adams, Albany; owner, J. C. Rutan, prem.; contractor, Joe Vila, 1207 Solano.

ADDITION, \$150; 2216 Blake, Ber-

keley; owner and contractor, A. E. Wilson, premises.

ALTERATIONS, \$500; 1812 Dwight Way, Berkeley; owner and contractor, Troy-Manhattan Laundry, premises.

BARBER pole, \$90; 2811 Grove St., Oakland; owner and contractor, C. H. Roberts, premises.

SIGNS, two metal, \$10 each; 851 58th St., Oakland; owner, Genoa Grocery; contractor, Bob's Sign Co., 599 19th St.

REPAIRS, \$150; 2242 Coloma Ave., Oakland; owner, C. Fowler, 1085 Bella Vista Avenue; contractor, Douglas & Wolfe, 3961 Vale Ave.

ALTERATIONS, \$12; 591 12th St., Oakland; owner, L. Untermahr, Oakland.

ROOF repairs, \$12; 3510 Rhoda Ave., Oakland; owner, Mrs. P. L. Dewey, 2708 Stuart St., Berkeley; contractor, Wm. J. Finn, 15 Echo Ave.

ROOF repairs, \$22; 2302 Park Blvd., Oakland; owner, Frank Lewis, 172 Grand Ave.; contractor, Wm. J. Finn, 15 Echo Ave.

ALTERATIONS, \$250; 1232-38 23rd Ave., Oakland; owner, Sid Sankovitz, 2789 Foothill Blvd.; contractor, W. Spivock, 2789 Foothill Blvd.

ROOF repairs, \$35.00; 5915 Chabot Crest, Oakland; owner and contractor, W. C. Humphreys, 5915 Chabot Crest.

FIRE escape, \$129; 510 28th Street, Oakland; owner, F. W. De Brutz, 314 15th St.; contractor, Broadway Orn. Iron Wks, 4162 Broadway.

CANOPY, steel, \$175; 365 3rd St., Oakland; owner, John Morrell Packing Co., 364 2nd St.; contractor, C. H. Thrans, 28 Home Place.

ADDITION, \$175; 5844 Merriewood Dr., Oakland; owner and contractor, H. P. Ingebrigtsen, 5844 Merriewood Drive.

ALTERATIONS, \$850; 3776 Ruby St., Oakland; owner and contractor, Ray M. Loper, premises.

REPAIR roof, \$72; 1037 Hubert Rd., Oakland; owner, Mrs. D. Blingman, 1037 Hubert Road; contractor, Lester T. Thompson, 593 Sycamore St.

REPAIR roof, \$200; 725 Grove St., Oakland; owner, St. John's Episcopal Church, 8th and Grove Sts; contractor, Bay Cities Asbestos Co., 5th Ave. and East 12th St.

FOUNDATION, \$300; 3715 Madrone Ave.; owner, Chas. E. Roberts, Sr., 987 Scott St.

ADDITION, \$200; 9932 E. St., Oakland; owner, Wm. Rodrigues, 9932 E. St.

ADDITION, \$250; 2166 East 27th St., Oakland; owner and builder, Francis M. Frodsham, 1709 University Ave., Berkeley.

RE-ROOF, \$119; 9406 Hillside St., Oakland; owner, A. Vinsitt, 9046 Hillside St.; contractor, Elliott & Elliott, 770 22nd St.

CHIMNEY, patent, \$20; 4077 Allendale Ave.; owner, O. C. Mitchell, 2960 E. 14th St.; contractor, J. F. Hertz, 1540 39th Ave.

RE-ROOF, \$90; 1220 Ward St., Oakland; owner, J. McCarthy, 1220 Ward St.; contractor, Crown Roof Co., 1911 E. 12th St.

ADDITION, \$250; 583 Sycamore St.; owner and builder, Mrs. M. Balthich, 583 Sycamore St.

No. 54

NINE BIDDERS FIGURE SEWER FOR PRESIDIO

Fazio, McGuire & Hester Low-est Bidders with Proposal Of \$69,636

A low bid of \$69,636 for construction of an intercepting sanitary sewer system from Ft. Scott through the Presidio of San Francisco including two sewage pumping plants in the Presidio was submitted to the Constructing Quartermaster at Fort Mason yesterday by J. A. Fazio, M. J. McGuire and M. Hester, 1483 Hopkins street, Oakland.

Heafey-Moore Co. and Fredrickson & Watson Construction Company were second low bidders at \$75,500. Nine firms figured the contract.

The contract calls for constructing an intercepting sanitary sewer system from Fort Scott through the Presidio, through Letterman General Hospital, through Crissy Field, necessary laterals, two sewage pumping plants in the Presidio and an intercepting sanitary sewer system at Fort Mason. The bidding scheduled allowed for deductions in case it was decided not to construct Sewage Pump Plant No. 1 and the Fort Mason East Portial line.

MacDonald & Kahhn Co., Ltd., San Francisco, was third low bidder with a total proposal of \$82,938.

Other bidders were: West Construction Co., \$86,535; Fay Improvement Co., \$88,900; W. J. Tobin, \$90,101; Chas. L. Harney, \$96,000; Pacific States Construction Co., \$98,500; and Eaton & Smith, \$107,185.

MOOSAIC TILE COMPANY TAKES NEW QUARTERS

The Mosaic Tile Co. announces removal of its San Francisco office and warehouse to 575 Tenth street and the new showroom now is prepared to take care of increased business. Telephone numbers at the firm's new quarters are UNDERhill 3233 and 3234. Mosaic Tile Company formerly was located at 524 Second street.

CITY RECEIVES EXHIBIT BIDS

Albert E. Mangs & Associates, San Francisco, yesterday submitted low bids to Director A. D. Wilder of the San Francisco Department of Public Works on two contracts for construction of exhibits in the San Francisco building on Yerba Buena Shoals.

Mangs submitted a proposal of \$3,286 for constructing an exhibit for the Recreation Commission, and a bid of \$5,496 for building a similar affair for the Board of Education. The only other bidder on both jobs was C. L. Wold Construction Company, Ltd. The bids amounted to \$4,298 and \$5,964, respectively.

Northwest Lumber Production Lower

A total of 151 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending December 24, 1938 produced 91,540,374 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 58.1 per cent of its average weekly cut during 1926-1929.

The new business reported taken by the 151 mills was 81,652,888 board feet. Shipments were 92,587,709.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	42,217,725	35,169,651
Domestic	25,868,239	45,414,769
Export	6,994,400	5,430,765
Local	6,572,524	6,572,524
	81,652,888	92,587,709

The unfilled order file at these mills stood at 316,090,568 bd. ft.

Shipments were greater than in the preceding week, but orders and production both were at a lower level.

OAKLAND FIRM LOW ON OXNARD DREDGING WORK

Hydraulic Dredging Bids \$434,775 on Harbor Project in South

OXNARD, Ventura Co., Jan. 4.—Low bids aggregating \$802,000 were submitted here today to the Oxnard Harbor District for construction of miscellaneous harbor works, including 4,250,000 cubic yards of dredging, two rock mound jetties and rock revetment.

Hydraulic Dredging Co., 1221 Central Bank building, Oakland, was low bidder at \$434,775 on Sch. One, covering dredging.

Low bidder for construction of jetties and revetment was Baruch Corp., 625 South Olive street, Los Angeles.

Bids Three Schedules

Amounts of Baruch Corporation's low proposals on these schedules were: Schedule Two, West Jetty, \$141,684; Schedule Three, East Jetty, \$102,980; and Schedule Five, revetment work in entrance channel and central basin and slip, \$120,980.

Case Construction Co., P. O. Box 6, Berth 109, San Pedro, submitted a low bid of \$2,000 for Schedule Four, concrete foundation for beacon lights on jetties.

Bids were referred to Code and Hill-Leeds & Barnard, consulting engineers on the project, for tabulation and calculation of freight rates. Low bids as read are subject to correction and are not the final official totals, it was pointed out.

POTTSCO AGGREGATE PLANT IS COMPLETED

The Celotex Corporation has announced that on December 1 a new plant for the manufacture of Pottscoc lightweight aggregate was placed in operation at Pittsburgh, Pa. This is the fourth plant for the manufacture of this expanded blast-furnace slag which is sold by the Pottscoc Division of The Celotex Corporation.

\$500,000 S. F. Street, Sewer Projects To Be Advertised During Next 6 Months

With contracts aggregating approximately \$750,000 awarded to private contractors for street and sewer construction during the twelve months of 1938, the San Francisco Department of Public Works this week opened the new year with about half a million dollars worth of engineering construction slated for action prior to July 1.

Possible construction of the third section of the Nineteenth avenue project—from Pacheco to Taraval streets—was the best news offered yesterday. Plans are being prepared for the \$131,000 job while negotiations for property purchases are in progress. Construction of the Taraval-Pacheco section will leave only one four-block portion to be completed.

Other jobs scheduled for the first six months of 1939 include: reconstruction of Army street, Bryant to Harrison, \$45,000; construction of permanent pavement on the Nineteenth avenue extension and one other location; reconstruction of Ninth street, Market to Division, \$84,000; improving Market street, Van Ness avenue to Tenth street, \$15,000; reconstruction of Third street, Market to Howard, \$26,000; reconstruction of Fourth street, Third to Channel, \$10,000; improvement of Army St., Harrison to Van Ness avenue So., \$87,000; reconstruction of the Islais Creek and Fourth street bridges, \$32,000; and miscellaneous work, \$57,400.

Healy-Tibbitts Construction Co., at \$26,465, took the first job of 1938—construction of fenders at Islais Creek bridge.

Eaton and Smith finished the Alemany Sewer project, constructing Section F, from Evans Ave. to Napoleon, at the bid price of \$48,210. The same firm widened and reconstructed Market street between Eleventh and Brady, and Van Ness avenue and Gough street, at a cost of \$20,010.

The last contract at the Richmond-Sunset Sewage Treatment Plant went to Clinton Construction Company, at \$70,950. The firm constructed a primary digester and miscellaneous equipment at the Golden Gate Park plant.

In March, A. G. Raisch, at \$35,949, was awarded the contract for reconstructing Golden Gate avenue between Van Ness avenue and Taylor street, and two months later, Lowrie Paving Company, at \$57,101 carried off the contract for reconstructing Third St. between Howard and Channel streets.

The two largest jobs of the year went to Charles L. Harney. He was awarded the contract for reconstructing Nineteenth Ave. be-

Agnews Sewer, Phone Extension Advertised

SACRAMENTO, Jan. 3. — Bids for construction of sewer and telephone extensions at Agnews State Hospital were invited here today by the State Division of Architecture. They will be opened January 24.

The sewer and telephone extension job consists of approximately 640 feet of 15-inch vitreous tile pipe; 7200 feet of 10-inch asbestos cement pipe; 900 feet of two-inch asbestos cement pipe; 10,000 feet of 100-pair underground telephone cable; 1250 feet of 2300-volt underground electric service; a complete sewage screening and pumping plant; electric transformers, motors, pumps, screening equipment, mechanical equipment, and connections to existing sewer, telephone and service lines.

Contractors desiring to figure the work may obtain plans and specifications from the Division of Architecture upon deposit of \$25, returnable.

twoen Lincoln way and Lawton street, at \$121,845.20, and late in December received the contract for reconstructing Park-Presidio boulevard between Fulton street and the Presidio. The latter contract totaled \$105,879.

Other large contracts were awarded as follows: improving Bernal avenue, Arlington to Randall, Fay Improvement Co., \$47,206; reconstructing streets in Golden Gate Heights District, A. G. Raisch, \$23,257; reconstructing Polk street, Market to Grove, M. J. Lynch, \$12,786; constructing a drainage tunnel and shaft at Parker avenue slide, R. G. Clifford, \$37,610; and paving Alemany boulevard westerly from Bayshore boulevard, Pacific States Construction Company, \$16,458.

Other contracts were awarded to the following during 1938: M. Bertolino; Love & Haun; Pacific Pavements, Ltd.; D. E. Burgess; W. J. Tobin; West Construction Co.; and E. J. Treacy.

Shipments of domestic water softening apparatus during the first 11 months of 1938 amounted to 11,251 units, as compared to shipments totaling 11,955 units during the same period in 1937, according to the Bureau of Census.

SEE 20 PERCENT FIXTURE SALES GAIN THIS YEAR

Bureau Predicts Best Plumbing, Heating Year Since 1929

With an expected increase in sales of about 20 per cent in 1939, the year is expected to be the best for the plumbing and heating industries since 1929, according to Geo. E. Hoffman, president of the Plumbing and Heating Industries Bureau.

The accelerating volume of residential construction will account for a large part of the increase, Hoffman says. The trend of residential construction has been upward since July, 1938, with the result that current inventories of boilers, radiators, bathtubs, sinks, pipe, valves, fittings and all plumbing and heating materials are low.

Modernization of residential, commercial, industrial, institutional, and educational buildings will continue in 1939, as in 1938 and 1937, to be an important factor in the plumbing and heating market.

Only 72 per cent of city homes and 14 per cent of farm homes have bathtubs, according to the federal Real Property Inventory and Farm Housing Survey Hoffman points out. Owners of apartment buildings and hotels are expected to be among the best prospects in 1939.

Prices are still low. The current index number for staple plumbing fixtures as reported by the United States Bureau of Labor Statistics is 78.5 as compared with the base index of 100 for 1926.

Prices of some individual fixtures, as for instance bathtubs, are so low that the homeowner today can buy two for the price paid for one in 1920.

Form Clamp Firm In New Quarters

The Universal Form Clamp Co., Inc., announces the removal of their office and warehouse to 333 Seventh street, San Francisco.

Increasing business has necessitated larger quarters for the more efficient handling of business on the Pacific Coast.

A complete line of form clamps of every description is carried in stock. Recently they have brought out a new type of clamp, known as the "Baby" Spiro-loc, which should be of interest to all contractors engaged in the erection of concrete buildings of every description, according to the firm.

The Universal Form Clamp Co. manufactures its "Twisteyes" and concrete accessories, as well as many other products, in San Francisco, enabling them to make prompt deliveries to all points on the Pacific Coast.

GRADE CROSSING JOBS IN SOUTH OUT FOR BIDS

State Invites Proposals on L.A., San Diego Separation Projects

SACRAMENTO, Jan. 3. — Bids on two grade separation contracts were invited today by the State Division of Highways.

Proposals for both contracts will be opened at the Division's Los Angeles office January 26, State Highway Engineer C. H. Purcell announced.

One contract calls for construction of an underground crossing under the Atchison, Topeka and Santa Fe tracks at Chapman Station on Rosemead boulevard, Los Angeles county.

The underpass will consist of steel track spans on reinforced concrete piers and abutments on timber pile foundations. The contract also includes about three-tenths of a mile of roadway to be graded and paved with Portland cement concrete.

The second of the projects advertised for bids today is located in San Diego county.

The contract calls for construction of an overhead structure over the San Diego and Eastern Railroad tracks at La Mesa.

The structure will consist of one 47-foot span, two 30-foot spans, and two 10-foot cantilevers on concrete piers.

Heating Group Plans Annual Dinner Meet

The Heating & Piping Contractors Association of San Francisco will hold its annual meeting and election of officers Tuesday, January 10, at Club Lido, according to Executive Secretary S. W. Finney.

At this meeting three contractor members will be elected to the board of directors to replace retiring Directors Alec Atwood, Chas. Gibbs, and George Sweeney.

The business meeting will be held at 6 P. M., dinner will be served at 7 P. M. at the Club Lido, and at the end of the banquet at 9 P. M. a special floor show will be staged. Both the regular Lido floor show, which will be staged during dinner, and the special show at 9 P. M. will have Buddy Brown acting as master of ceremonies. The dinner and entertainment this year will be the best the association has ever held, according to Chairman C. N. Gilley of the program committee.

Shipments of fire extinguishing motor equipment during the first 11 months of 1938 amounted to 684 units, as compared to shipments of 785 units during the same period in 1937, the Bureau of Census reports.

MATERIAL PRICE AVERAGE HIGHER

The average of wholesale building material prices rose one-tenth of one per cent during the pre-Christmas week ending December 24, according to the weekly survey of the U. S. Bureau of Labor Statistics. Slightly higher prices for yellow pine lath, concrete blocks and certain paint materials accounted for the increase in the index, the bureau reported.

Slightly lower prices were reported for yellow pine flooring and timbers and ethyl acetate. Other changes within the building materials group, according to the bureau, were negligible.

BIDS JAN. 26 FOR VALLEJO SCHOOL JOBS

Science Building, Girls' Gym At Senior High Advertised

Bids for construction of two high school buildings in Vallejo will be opened January 26, it was announced yesterday, following authorization by the school board of a call for proposals.

The contract will be officially advertised today.

Contracts for excavation work for the two buildings and for similar work at the site of an elementary school were let by the board late last month in order that work might be underway by the first of the year to meet the PWA deadline. Both grading contracts went to E. E. Lowell of Vallejo.

To be officially advertised for bids today are the new science building and girls' gymnasium at Vallejo Senior High School.

The science building will be two stories in height, of reinforced concrete construction. Plans for the gymnasium call for a one-story frame and stucco structure.

Architect John J. Donovan of Berkeley prepared plans for the high school buildings.

Contractors desiring to figure the project may obtain plans and specifications from the office of the architect upon deposit of \$25.

Production of galvanized range boilers during the first 11 months of 1938 amounted to 679,032, as compared to production of 695,497 units during the same period in 1937, the Bureau of Census reports.

S. F. Trades School Opens Spring Term; List Many Classes

Special evening classes for adults engaged in the building trades are announced for the spring semester at Samuel Gompers Trades School, 22nd and Bartlett streets, San Francisco. Although the spring term opened this week, new students may enroll at any time.

Under Instructors Theodore G. Ruegg, W. H. Baker and W. C. Pidge, several groups of classes are scheduled for the current semester. Instruction is free and only nominal laboratory fees are charged in a few courses. Classes include the following:

I. For men working in skilled Civil Engineering Trades:

(a). Trade Drafting and Blue Print Reading.

(All Trade Drafting and Blue Print Reading courses teach the fundamental elements of a good set of working drawings. The standard indications of materials and symbols and their proper application.)

(b). Industrial Applied Mathematics.

(A thorough grounding in the principles of Arithmetic, Estimating Algebra, Trigonometry, Analytic Geometry and the Calculus with practical applications.)

II. For men working in Structural Engineering Trades:

(a). Trade Drafting and Blue Print Reading.

(b). Design of Timber Reinforced Concrete and Steel Construction. (This is a thorough course in calculating stresses, graphic statistics and strength of materials, for structures of timber, steel and reinforced concrete. Includes use of the slide rule, design book tables, and the estimating of quantities.)

III. For men working in any of the Building Trades:

(a). Trade Drafting and Blue Print Reading.

(b). Estimating and Quantity Surveying.

(This course makes practical application of algebra and geometry to mensuration, teaches the fundamental elements of an estimate, waste, overhead, standard practice, intelligent short cuts for speed and accuracy, and the use of the slide rule.)

(c). Practical Architectural Drawing.

(Special emphasis on data required to make good working drawings. Perspective drawing is also taught.)

These courses are designed on practical lines to impart pertinent information for every-day use. The instructors are trained men of long experience who maintain daily contact with industry. Spring semester started Tuesday evening, Jan. 3, 1939, and school is in session from 7:00 to 9:15 P. M. five evenings per week.

Work on 75,000 Dwelling Units in U. S. Housing Program to be Started in 1939

More than 20,000 low-income families who formerly dwelt in slum tenements and shacks today are residing in safe and sanitary living quarters in public housing projects administered by the United States Housing Authority, according to a year-end recapitulation made public this week by Nathan Straus, USHA Administrator. In 1939 thousands more will migrate from the slums into decent low-rent homes.

At present, twelve large low-rent housing projects to provide about 9,000 new homes, are under construction contracts and during 1939, it is estimated that construction will be started on between 75,000 and 80,000 additional homes.

Mr. Straus pointed to the increase in the number of local housing authorities during the year just closed as indicative of the enthusiasm with which the National slum-clearance and rehousing program is being received from coast to coast.

A year ago, there were 46 local public housing agencies; today there are 221.

To date, 140 low-rent housing projects in 73 cities and two counties in 22 States, the District of Columbia and the Territory of Hawaii are under contract for USHA loans totaling \$320,986,000. These loans represent 90 per cent of the cost of the projects. In addition, 123 communities have received earmarkings of \$328,803,000, making a grand total of \$649,789,000 so far committed by the USHA.

The demand for local housing authorities for USHA financial aid in clearing their slums and rehousing families of low income has been so great that all USHA loan funds have been committed and there is great unfilled demand for more funds and more projects.

To date, Administrator Straus has approved construction contracts totalling \$28,964,621 for 12 projects inaugurated under the USHA program in eight cities to be built at a total estimated development cost of \$45,384,201.

The following data is based upon the total estimated development costs of the 12 projects for which the greater portion of the construction work has been approved:

Total estimated development cost	\$45,384,201
No. of Dwelling Units	8,956
Funds to be Expended for Materials	15,967,523
Funds to be Paid in Direct Wages to Workers on the Site	13,227,500
Man-hours of Labor Directly on the Site	12,109,200
Man-hours of "Behind the Scenes" Labor off Site	18,164,100
Man-hours of Director Labor both on and off Site	30,273,300
Total Number of Men to be Emp. During Const.	10,085

New orders for malleable iron castings booked during Oct., 1938, amounted to 32,989 short tons, as compared to orders totaling 34,810 short tons taken during the same month in 1937, according to the Bureau of Census.

366 MILLIONS PUBLIC WORKS FUNDS NEEDED

Continuance of Current Projects, No New Program Asked by President

Although President Roosevelt requested no new public works program in his annual budget message to Congress yesterday, he estimated that \$366,000,000 would be needed to carry on the work already underway.

A vast rearmament program will take the place of public works expenditures during the fiscal year commencing July 1, the President's report intimated.

Armaments, farm relief and WPA costs bulked large in the report which called for \$8,995,663,200 of Federal spending during the next fiscal year.

The President warned against a violent contraction in public spending, pointing to the "existing upward movement of business and employment" since the inauguration of the administration's spending program.

He requested that \$1,609,000,000 be earmarked for national defense, although only \$210,000,000 of that sum would be spent during the next fiscal year. An additional \$500,000,000 to speed up the armament program was included in this sum.

Estimating that at least \$750,000,000 would be needed to operate WPA until June 30, the President requested that \$1,500,000,000 be allotted for the Works Progress Administration during the coming fiscal year.

He estimated that the deficit for the year would be \$3,326,343,200, but again suggested that the best means of obtaining a balanced budget is in promoting economic recovery.

plant is equipped with three huge pumps, each driven by a large electric motor. Each of these pumps will lift water at the rate of 90,000 gallons per minute. The electric motors are the largest pump motors ever built in America and range in horsepower from 9,500 at the Intake plant to 12,500 at the Hayfield plant, which is located 126 miles west of the Colorado River.

Plans were also completed yesterday for the celebration that will take place Saturday when the aqueduct's Intake plant begins operations. These ceremonies will take place in the Gene basin reservoir, a mile and a half west of the river, where water pumped by the Intake plant will flow into the first of a series of aqueduct reservoirs.

The thirteen Water District cities are Los Angeles, Anaheim, Beverly Hills, Burbank, Compton, Fullerton, Glendale, Long Beach, Pasadena, San Marino, Santa Ana, Santa Monica and Torrance.

FIRST AQUEDUCT PUMP OPERATIONS START TOMORROW

Ceremonies to Precede Start of Regular Operation at Intake Plant

Final preparations for the beginning of operation of the great Metropolitan Aqueduct, were being completed today by F. E. Weymouth, general manager, and J. M. Gaylord, chief electrical engineer, of the Metropolitan Water District.

On Saturday afternoon, January 7, the Intake pumping plant, located on the Colorado River at the eastern end of the 392-mile Metropolitan Aqueduct, will begin regular operation.

Although it will be a number of months before water is delivered to Los Angeles and the 12 other local cities that comprise the Metropolitan Water District, Saturday's epochal event will mark a highlight in the construction of the \$200,000,000 water supply system, which is the largest aqueduct in the world and has been one of the largest construction jobs in the United States.

Intensive engineering and construction work has been continuously under way for more than 15 years on the tremendous problem of tapping the Colorado river and bringing a billion gallons a day of its waters to the thirteen cities which are located on the semiarid coastal plain of Southern California.

At approximately 1:00 P. M. tomorrow afternoon the first water will be pumped out of the new man-made lake behind Parker Dam which will make a reality of one of Southern California's most cherished dreams, that of an abundant, controlled water supply.

Located two miles above Parker Dam, and approximately 300 miles east of Los Angeles, the Intake pumping plant is the first of five Metropolitan Aqueduct plants which will lift water more than 1600 feet over the mountain ranges that lie between the Colorado river and Southern California's coastal plain.

These five plants represent the greatest water pumping plant installation that has ever been constructed. At the present time each

TOURS PLANNED FOR DELEGATES TO CONVENTION

Special Trains Slated for Eastern, Northwest A.G.C. Groups

Comprehensive arrangements for travel to San Francisco by delegates to the national convention of the Associated General Contractors of America, to be held here March 6-11, were being completed this week.

During the convention week, San Francisco also will be the scene of the American Road Builders Association National Exhibit and Road show; the annual convention of the Western Association of State Highway Officials; and the annual convention of the National Equipment Distributors Association.

Special convention rates from all points of the United States have been provided by rail, air and steamship lines, with liberal stop-over privileges either en route to or returning from San Francisco. At the same time the national offices of A.G.C. have announced a special Santa Fe train, leaving Chicago Wednesday evening, Mar. 1, and arriving in San Francisco at 4 P. M., Sunday, March 5.

Two Stopovers Planned

The Convention special will make two one-day stopovers—the first at Santa Fe and the second at Grand Canyon. Chapter groups desirous of availing themselves of this facility are urged to communicate with the national offices at as early a date as possible in order that the necessary space arrangements may be made.

In order to facilitate the departure of the Convention special and for the accommodation of A.G.C. members en route for San Francisco via Chicago, Convention headquarters have been established at the Palmer House. A staff will be on hand to aid in making rail, air and hotel arrangements and to otherwise assist A.G.C. members bound for San Francisco.

The Pacific Northwest branch of A.G.C. is also sponsoring a special train out of Portland. This train will be routed via Southern Pacific Lines. Those desirous of coming to San Francisco from the Northwest or from eastern points via the Northwest may arrange their itineraries so as to connect with this train.

It is anticipated that many A. G. C. members will make the trip to San Francisco by automobile. These may be satisfied that they will find no difficulty west of Chicago. The Central route, via Denver, Cheyenne, Salt Lake City, Reno and Sacramento, is kept open throughout the year. This route is paved the entire way and is in splendid shape.

All southern routes into Los Angeles via Texas, New Mexico and Arizona are ideal during the

Structural Steel Bookings Gaining; Backlog Increases

New orders booked by the structural steel industry during November, according to reports received by the American Institute of Steel Construction, were the largest for any month since July, 1937. During November the industry booked 150,988 tons, whereas for the eleven months of 1938 the industry booked a total of 1,075,171, which approximated the total booked during the twelve months of 1935.

The shipments during November continued about the average for the year to date, and consequently the back-log of business began to show an increase.

Following is the complete tabulation of bookings and shipments:

	(A)	(B)
Contracts Closed		
January	80,320	153,806
February	57,144	101,710
March	84,257	206,321
April	91,158	158,471
May	77,322	122,939
June	98,899	175,552
July	96,013	158,341

Tonnage available for future fabrication: 421,527.

months of February and March and offer appropriate alternate routings either going to or returning from the convention, thus providing a wide diversity of scenic attractions.

Routings between San Francisco and the Pacific Northwest, especially the scenic Pacific Highway, are open throughout the year and in splendid condition. This holds true with respect to the Northwest route, traversing Montana and the Dakotas.

Motorists making the trip to San Francisco by steamship from New York, via the Panama Canal, may find it convenient to carry their machines with them at a comparatively reasonable expenditure. This will enable them to drive home by any route they may choose at the conclusion of the convention.

1938 BUILDING TOTAL IN S. F. REVEALS GAIN

Year's Building \$3,000,000 Over 1937 Total; December Volume Heavy

Continued building activity during December brought the San Francisco building permit total for 1938 to \$23,232,331, approximately \$3,000,000 higher than the 1937 figure of \$20,245,440. Chief Clerk S. J. Rosenblum of the Central Permit Bureau announced yesterday.

During December 649 permits were issued for construction valued at \$2,120,328, a heavy gain over the \$930,831 total registered in December, 1937.

Frame construction remained steady with 179 permits issued for work costing \$784,828, as compared to 105 permits issued last December for construction estimated at \$452,725.

Although construction in 1938 lagged behind the 1937 pace for a greater part of the year, a steady drive started during the second quarter brought the final total well over the 1937 figure. In 1938 there was no let-down during the last four months of the year, which characterized the 1937 building record.

Following are the classified building totals for December, this year and last:

Class	No.	Est.	
		1938	1937
B	3	\$ 78,000	1 \$ 15,000
C	11	131,000	10 142,750
Frames	179	784,828	105 452,725
Alter.	443	339,611	413 232,154
Sub-total	636	\$1,333,439	529 \$42,659
Public	7	\$ 164,520	5
Harbor			1 48,748
1939 Exp.	4	128,896	1 49,424
U. S. Govt.	2	493,473	
Total	649	\$2,120,328	531 \$930,831
1938 (12 Months)			1937 (12 Months)
8,061	\$23,232,331	7,807	\$20,245,449

New orders for distillate oil burners during the first ten months of 1938 amounted to 292,513 units, as compared to orders for 417,050 units during the same period in 1937, the Bureau of Census reports.

Construction Starts On Conduit Contract

Work has been started on the third eight-mile unit of the Contra Costa conduit, which will carry the concrete-lined waterway to a point near Nichols, it was announced this week.

Haas, Doughty & Jones & Marshall & Stacy have started rough dragline excavation about 4 miles east of Pittsburgh, initiating work on their \$316,331 contract for the U. S. Bureau of Reclamation.

The contract includes the Los Medanos waterway, a 9,000-ft. diversion canal which will return excess water to the San Joaquin river near Pittsburg.

Residential Expansion of Past Year Held First Sign of General Building Recovery

While the national trend in building during 1938 has been steadily upward, the longer term outlook will be shaped by basic social and economic conditions, according to Frederick H. Meyer of San Francisco, vice-president of the American Institute of Architects. Continuance of the upswing is seen by Mr. Meyer who summarizes the current situation as follows:

"The trend of the building cycle is definitely improving, and is following the usual pattern. The first stimulation, namely, alterations and repairs of buildings, has reached its peak, and is on the descending curve. The second phase, residential, is following a steadily upward curve, and promises to continue. All classifications of buildings, except alterations and repairs, are improving, with further progress indicated.

"The construction of schools, hospitals, and buildings of like character is showing rapid gains. Commercial buildings, factories and manufacturing plants are still at the bottom of the cycle, and await the stimulation of buyer demand. The building industry should be encouraged by the improved labor conditions, the stabilization of material price structure, and the renewed confidence of the building public."

Reports which are now available for the ten months of 1938, Mr. Meyer points out, indicate that, while in the country at large the total value of building permits is practically the same as a year ago, the number is about one-fifth greater, which is directly attributable to the acceleration in the residential classification.

Gain Throughout Nation

Mr. Meyer cites an increase in the building of the nation of 8.6 per cent in October over the same month in 1937. Residential building was up 35.4 per cent but non-residential building was off 4 per cent and alterations and repairs were off 20 per cent.

"Conditions, in the light of these statistics, are not abnormal," says Mr. Meyer. "It is well to remember," he adds, "that the first effort of the Government in its admirable plan to stimulate the building industry was, first, to encourage home owners and building owners to improve, repair, paint and powder their buildings and to help finance these improvements thru reasonable Government insured loans on the easy payment plan.

"San Francisco alone started and completed more than \$11,000,000 in alterations and improvements to existing buildings in a single year. This program reached its peak in the early part of 1938 and will continue to decline and is now off 20 per cent in a single year.

"The second phase of the Government program, new home building, is now in full swing, stimulated by bank loans, a sound financial plan of Government-insured loans at a reasonable interest

rate, and monthly payments of principal and interest kept within the budget of the borrower. Judging by the eagerness with which the public has grasped this opportunity, the program is constructive. The result shows that residential building is up 35 per cent. San Francisco alone during the first ten months of 1938 built 1,650 new single-family homes, or enough to make an unbroken line of new residences eight miles long, costing about \$8,000,000, as compared with 440 homes in 1933.

Eastern Construction

"Reports on construction east of the Rockies for the ten months of 1938 compared with same period last year show the total number of projects to be up 18.2 per cent. In the residential classification, the number of permits was up 25.7 per cent. In the non-residential classification, the floor area was off 20 per cent, and the valuation off 15.9 per cent.

"Reports on all building west of the Rockies for the ten months of 1938 show valuations up 0.6 per cent over 1937, 10.3 per cent over 1936, and 98 per cent over 1935. The residential classification valuation for the ten months of 1938 gained 10.5 per cent over 1937 and 36.5 per cent over 1936, and was the highest for any similar period in eight years. Reports from 18 cities in the Far West show that the value of residential permits for the ten-month period of 1938 was greater than the combined total for the four full years of 1932, 1933, 1934 and 1935.

"Building reports on California cities for the ten months show the total value was up 3.1 per cent over 1937 and 11.2 per cent over 1936, while the value of residential building was at the best level in eight years with a gain of 11.3 per cent over 1937 and 34 per cent over 1936.

"Reports on the combined building in San Francisco and Oakland during the ten months show the total number of permits was 15.9 per cent above the same period in 1937, but the valuation was 2.2 per cent under a year ago. The number of residential permits was up 22.1 per cent and the valuation 19 per cent. Non-residential construction was off 17.6 per cent.

West Held Signpost

"From the above, it is quite apparent that the San Francisco Bay Area, California and the Far West have been making good strides recently in residential construction. This is the first sign of a general building recovery.

"Under the stimulation of the PWA and the vast Federal grants made to towns, cities and states, communities have anticipated their needs for schools and other buildings and public works and have been crowding to completion a vast area of new covered space, giving employment to a large number of architects, draftsmen, contractors and mechanics, using millions of dollars worth of building materials, and thus pushing ahead the second phase of building recovery by this plan of Government stimulation. The wisdom of this plan is yet to be proved. Perhaps it would have been better if the time could have been extended over a longer period.

"The program of the United States Housing Authority is now well under way, and in anticipation of clearing away slum areas many cities have 'earmarked' millions of dollars for local use. The local authorities are slowly breaking down the resistance against Government subsidized housing and are gradually getting underway.

"This third phase of the building program will carry the housing boom well past the anticipated peak and decline of single-family housing, and should have the effect of stimulating large scale housing programs by private capital. This, will, I feel sure, revolutionize the general conception of mass housing, with full consideration given to proper site plan, garden areas, play areas, light and sun, and will offer an example and perhaps a solution in the prevention of 'blighted areas' caused primarily by the greed of the subdivided, the crowding together of houses, and the ill-advised and senseless land coverage, poor building material and poor planning.

Homes for Workers

"It is plain to those who have investigated and studied the present Government program of slum clearance and low rental housing that the very financial structure requires assurance that tenants must be able to pay their rent. The vast number of poor who occupy the sub-standard slum housing, who cannot be considered good rental risk, and the millions of industrial workers must be cared for by some other plan and it is inevitable that the effort to meet this need must be made by industry itself.

"I believe the solution can be met only in one way—by applying the principles of mass production, so successful in the production of automobiles, to ready-made unit houses capable of being expanded into two, three, four or five rooms by simply adding ready-made units, constructed undoubtedly of steel in some new rust-resisting form and made available at low cost.

"No single unit of the building industry alone can succeed in such an experiment; it must be the result of the cooperative effort of many producers of building materials."

COCONINO COUNTY, Ariz.—Oswald Bros., 366 E 5th St., Los Angeles, at \$91,972 was awarded contract by the U. S. Bureau of Public Roads, New Post Office Bldg., Phoenix, for grading, draining and placing surfacing (base) with bituminous treatment on approx. 10.761 miles of Section C and a portion of Section D of Route 28, the Fredonia-Houserock Valley National Forest Highway, Kaibab National Forest, Coconino County, Ariz. * 29

PERSHING COUNTY, Nev.—Silver State Construction Co., Inc., Fallon, Nevada, at \$30,846.97 submitted low bid and awarded contract by the State of Nevada, Directors of the Dept. of Highways, Heroes Memorial Building, Carson City, for the construction of approx. 2.05 miles of state highway from a point approx. 5 miles south of Lovelock to a point approx. 7 miles south of Lovelock (Lower Valley Road), Pershing County, Nevada.

- Work involves:
- (1) Force account, trim trees.
 - (2) 31 each remove trees;
 - (3) 3 each, remove stumps;
 - (4) 21,536 l.f. remove fence;
 - (5) 9 c.y. remove concrete head-gates;
 - (6) 1 each, remove culverts (timber);
 - (7) 3 each, move timber bridges;
 - (8) 15 c.y. remove hiprap;
 - (9) 6 each, move mail boxes;
 - (10) 1 each, move timber diversion box;
 - (11) 8882 c.y. roadway excav.;
 - (12) 35 c.y. drainage excav.;
 - (13) 12,423 c.y. borrow;
 - (14) 62,164 yd. sta. overhaul (yd. sta.);
 - (15) 46771 yd. ml. overhaul (yd. ml.);
 - (16) 170 c.y. str. excav.;
 - (17) 75 c.y. backfill;
 - (18) 2.05 mile subgrade, Type "B";
 - (19) 685 M gal. water.
 - (20) 14,860 tons Type 1 gravel base;
 - (21) 6,076 tons gravel surface;
 - (22) 14 tons liq. asph., Type MC2 or MC3 (seal);
 - (23) 163 tons liq. asph., Type MC2 or MC3 (roadmix);
 - (24) 2.03 miles roadmix;
 - (25) 12 each, roadmix intersections;
 - (26) 46 c.y. Class "A" concrete;
 - (27) 3,820 lbs. reinf. steel;
 - (28) 10 l.f. 6-in. corr. metal pipe (dipped);
 - (29) 24 l.f. 12-in. do
 - (30) 52 l.f. 24-in. do
 - (31) 22 l.f. 30-in. do

- (32) 14 lf. 48-in. do
- (33) 100 c.y. hand laid riprap;
- (34) 3 each, move pipe culvert head-walls;
- (35) 20,639 lf. reconstruct fence;
- (36) 26 each, monuments.

- Total bids follow:
- (A) Silver State Const. Co., Inc., Fallon, Nev., \$30,846.97.
 - (B) Dodge Construction, Inc., Fallon, Nev., \$33,669.52.
 - (C) Isbell Const. Co., Reno, \$33,870.61.
 - (D) Nevada Rock & Sand Co., Inc., Reno, \$34,275.38.
 - (E) Union Paving Co., San Francisco, \$37,526.12.

Unit prices follow:

	(A)	(B)	(C)	(D)	(E)

BIDS WANTED

GILA AND PIMA COUNTY, Ariz.
 —Until Jan. 13, 10:00 A. M., bids will be received by the Arizona State Highway Commission, Phoenix, Ariz., for highway construction on the Superior-Miami Highway, FA 16 (2) (1939), AFE 7018. The work, which is to extend from the Gila-Pima county line southwesterly for a distance of approx. 2½ miles, consists of grading, draining, aggregate base course and oil processing, SC-4 Road Oil Road Mix, and is to be completed on or before Sept. 15, 1939.

- Work involves:
- (1) 15,100 sq. yds. removing and salvaging oil cake;
 - (2) 103,400 c.y. roadway excavation;
 - (3) 8,000 c.y. slides and overbreakage;
 - (4) 1,400 c.y. drainage excavation;
 - (5) 950 c.y. structural excavation;
 - (6) 90,600 sta. yd. overhaul;
 - (7) 11,400 c.y. mi. haul;
 - (8) 14,800 tons coarse agg. base course;
 - (9) 6,500 tons fine aggregate base course;
 - (10) 3,600 M. gals. sprinkling;
 - (11) 900 hours rolling;
 - (12) 562 c.y. class A concrete;
 - (13) 50,300 lbs. reinf. steel;
 - (14) 1034 lf. CMP (3 sizes);
 - (15) 19,700 lf. line fence;
 - (16) 3,500 lf. road guard;
 - (17) 6,600 tons mineral aggregate;
 - (18) 83,500 gals. road oil (SC-4);
 - (19) 2.75 miles processing road mix;
 - (20) 650 tons screenings;
 - (21) 2,000 tons crushing and relaying old oil mix.

Plans and specifications may be obtained from the Arizona Highway Department, Howard S. Reed, State Highway Engineer, 17th Avenue and Jackson Street, Phoenix, Ariz. * 29

CONTRACT AWARDED

FREDONIA, Coconino Co., Ariz.—Oswald Bros., 266 E. 58th St., Los Angeles, at \$194,075.93, awarded contract by the Arizona State Highway Commission, Phoenix, for improvement of the Flagstaff-Fredonia Highway FL 9-A (1), FA 132-B (1) (1939), AFE 8903. The work, which extends from the town of Fredonia southeast for about 14½ miles, consists of grading and draining and is to be completed on or before Oct. 15, 1939. * 29

CONTRACT AWARDED

TULARE CO., Calif.—Hemstreet & Bell, P. O. Box 550, Marysville, at \$147,494.50 awarded contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Building, Civic Center, San Francisco, for 19.848 miles placing bituminous treated surface on Section B (portion) and placing a top course, paving shoulders and gutters and placing seal coat on Sections C1, C2, and D1, D2, and D4, of Sequoia Route 1, Generals Highways, Sequoia National Park, Tulare Co., Calif. * 29

CONTRACT AWARDED

SAN FRANCISCO.—West Constr. Co., 1129 Irving St., San Francisco, at \$1,437.40 (standard city specifications), awarded contract by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,195 for reconstructing Lynch Street between Hyde and Leavenworth. * 29

CONTRACT AWARDED

SAN FRANCISCO, Calif.—Lowrie Paving Co., 1540 16th St., San Francisco, at \$870.00, awarded contract by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,176 for reconstructing Homestead Street from 24th to 25th Sts.; Lloyd St. from Scott St. to Castro St. extension; and 12th Ave. from Kirkham to Lawton St. * 29

CONTRACT AWARDED

SAN FRANCISCO.—Chas. L. Harney, 443 Calif Bldg., at \$105,879.84 (standard city specifications), awarded contract by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,136 for the improvement of Park-Fresidio Blvd. between Fulton St. and the Presidio Military Reserve. * 29

AWARD RECOMMENDED

MARIPOSA COUNTY, Cal.—Louis Biasotti and Son (Stockton), and Claude C. Wood (Lodi), and Frank B. Marks & Sons (Newman) at \$148,212.50 recommended for award of contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for placing a bituminous treated surfacing on 11.435 miles of the Wawona Road (Sections A1, B1, B2, E3 of Route 2), Yosemite National Park, Mariposa County. * 29

CONTRACT AWARDED

CLARK COUNTY, Nevada.—Fredricksen & Westbrook, P. O. Box 138, Lower Lake, Calif., at \$83,632.30 was awarded contract by the State of Nevada Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for the construction of approximately 14.37 miles of high-

way in Clark County, from a point approximately 1½ miles north of Searchlight to a point approximately 20 miles south of Railroad Pass, Rtc. 5, Section B, Clark Co., Nev. * 29

BIDS OPENED

LONG BEACH, Cal.—Sully-Miller Contr. Co., 1500 W 7th Street, Long Beach, at \$26,748.15 submitted the low bid to R. M. Dorton, city manager, City Hall, Long Beach, for widening and improving Willow Street bet. American Ave and west city limits about 175 miles, to be financed by quarter-cent gas tax funds. J. W. B. Blackman, city engineer-director of public service.

Total bids were:

Sully-Miller Contr. Co.	\$26,748.15
Anso Constr. Co.	31,527.98
Griffith Company	32,797.92

LOW BIDDER

KINGHAM, Mojave Co., Arizona.—Tanner Construction Co., P. O. Box 1832, Phoenix, at \$209,780.00, submitted low bid to the Arizona State Highway Commission, Phoenix, for highway improvement on FAGH 85-A (1) (1938) (1939), AFE 6603, Kingman-Needles Highway; FA 123-D (1) (1939), AFE 9304, Kingman-Boulder Dam Highway. The work, which is located in and adjacent to the town of Kingman, consists of grading, draining, aggregate base course and oil processing (SC-6 road oil, plant mix), and is to be completed on or before Sept. 30, 1939. * 29

CONTRACT AWARDED

SAN JOSE, Santa Clara Co., Cal.—J. C. Bateman, 590 Stockton Ave., San Jose, at \$1,274.48 awarded contract by the San Jose City Council, John J. Lynch, City Clerk, San Jose, for the improvement of portions of Topeka Avenue. * 29

30—RESERVOIRS & DAMS

CONTRACT AWARDED

LOS ANGELES, Calif.—W. E. Hall Co., 1025 Westminster Ave., Alhambra, at \$588,960, was awarded contract by Metrop. Water Dist., Los Angeles, for construction of the Palos Verdes reservoir and appurtenant works of the Colorado River Aqueduct distribution system, Spec. 289. Work includes excav., rolled fill embankment, and Gunite lining for 1000 acre ft. capacity reservoir and construction of an outlet tower, spillway and supply tunnel. A short section of road, a concrete walled open storm drain approx. 2800 ft. long, a steel foot bridge, fences, and appurtenant works, are also included in the contract. The chief engineer had recommended that the bids be rejected and new bids called as a result of a claim by the low bidder of an error of approximately \$88,000. By a vote of 82 to 24, with two directors absent, the board voted to award the contract to the second bidder after defeating a motion to approve the engineer's recommendation. * 30

31—PIPE LINES & WELLS

BIDS OPENED

COLORADO RIVER AQUEDUCT
 —Complete bids submitted to the Metropolitan Water District, Los Angeles, for construction of Long Beach, Torrance, and Compton laterals of the Colorado River Aqueduct distributing system, including unit prices, appear today on Page 2. * 31

BIDS OPENED

LOS ANGELES COUNTY, Calif.—Western Pipe & Steel Co. of California, 5717 S. Santa Fe Ave., Los Angeles, at \$366,316.70 (based on the use of welded steel-plate pipe with gunite exterior coating and mortar lining) submitted low bid to the Metropolitan Water District, Los Angeles, for constructing the Long Beach, Torrance and Compton laterals of the Colorado River Aqueduct distributing system, under Revised Spec. No. 293.

United Concrete Pipe Corp., 1347 W. 208th St., Los Angeles, at \$374,928.55 submitted low bid on lock-joint steel cylinder reinforced precast concrete pipe.

Proposals were received for two alternative types of pipe line construction. The lengths, diameters and types of pipe required for the respective schedules are as follows:

SCHEDULE 26P

Construction of precast concrete pipe for the Long Beach lateral of the Colorado River Aqueduct distribution system bet. stations 0+00 and 248+45. Inside diameter of pipe 36-in.; length, 24,860 ft.

SCHEDULE 26SC

Construction of gunite-coated welded steel pipe for the Long Beach lateral of the Colorado River Aqueduct distribution system bet. station 0+00 and 248+45. Inside diameter of steel pipe 37-in.; length 24,860 ft.

SCHEDULE 27P

Construction of precast concrete pipe for the Torrance lateral of the Colorado River Aqueduct distribution system bet. stations 0 plus 95 and 66 plus 00. Inside diameter of pipe, 30-in.; length, 6,505 ft.

NOTE: A bid on either Schedule 27P or 28SP will not be considered unless the bidder submits a proposal on both said schedules; and an award, if made thereunder, will not be made for less than both of said schedules in a single contract.

SCHEDULE 27SC

Construction of gunite-coated steel pipe for the Torrance lateral of the Colorado River Aqueduct distribution system bet. stations 0 plus 95 and 66 plus 00. Inside diameter of steel pipe, 3-in.; length, 6,506 ft.

NOTE: A bid on either Schedule 27P or 28SC will not be considered unless the bidder submits a proposal on both said schedules, and an award if made thereunder, will not be made for less than both of said schedules in a single contract.

SCHEDULE 28P

Construction of precast concrete pipe for the Compton lateral of the Colorado River Aqueduct distribution system bet. stations 0 plus 89 and 71 plus 05. Inside diameter of pipe 21-in.; length, 7017 ft.

NOTE: A bid on either Schedule 27P or 28P will not be considered unless the bidder submits a proposal on both said schedules, and an award, if made thereunder, will not be made for less than both of said schedules in a single contract.

SCHEDULE 28SC

Construction of gunite-coated welded steel pipe for the Compton lateral of the Colorado River Aqueduct distribution system bet. sta. 0+89 and 71+05. Inside diameter of steel pipe 22-in.; length, 7017 ft.

NOTE: A bid on either Schedule 27SC or 28SC will not be considered unless the bidder submits a proposal on both said schedules, and an award if made thereunder, will not be made for less than both of said schedules in a single contract.

The complete total bids were:

(A) Western Pipe & Steel Co.:
Sched. 26P, no bid; Sch. 26SC, \$260,-
336.70; Sch. 27P, no bid; Sch. 27SC,
\$58,073.80; Sch. 28P, no bid; Sch. 28-
SC, \$47,906.20; grand total, \$366,316,-
70. No stipulations.

(B) United Concrete Pipe Corp.:
Sch. 26P, \$260,175.40; Sch. 26SC, \$295,-
051.55; Sch. 27P, \$62,006.75; Sch. 27-
SC, \$63,283.10; Sch. 28P, \$52,744.40;
Sch. 28SC, \$55,731.80; grand total,
\$627,247 and 28P, \$374,928.55; grand
total, 26SC, 27SC and 28SC, \$414,-
096.47. Stipulations: Will only accept
Sched. 26P, 27P and 28P to-
gether, or will only accept 26SC,
27SC and 28SC together.

(C) Southwest Welding & Mfg. Co.
Alhambra: Sch. 26P, no bid; Sch. 26SC,
\$279,713.50; Sch. 27P, no bid;
Sch. 27SC, \$60,224.50; Sch. 28P, no bid;
Sch. 28SC, \$49,966; grand total,
\$389,904. Stipulations: All or none.

(D) American Concrete and Steel
Pipe Co., South Gate: Sch. 26P, \$300,-
782; Sch. 26SC, no bid; Sch. 27P, \$7,
\$66,342.25; Sch. 27SC, no bid; Sch. 28P,
\$51,535; Sch. 28SC, no bid; grand
total, \$418,659.25. Stipulations: Will
accept all three schedules, or will
accept 26P alone. Will not accept
27P and 28P without 26P.

(E) Consolidated Steel Corp., Ltd.,
Los Angeles: Sch. 26P, no bid; Sch. 26SC,
\$302,077.50; Sch. 27P, no bid;
Sch. 27SC, \$72,278.50; Sch. 28P, no bid;
Sch. 28SC, \$62,215; grand total,
\$432,571. Stipulations: If awarded
26SC, 27SC and 28SC in combination
deduct 26c l.f. from Items 15a, 16a
and 17, which amounts to \$9,929.40,
making a net total of \$426,641.60 for
the three schedules.

The complete unit bids for each
schedule follow:

PRESIDIO—SEWER SYSTEM—(GOVT)

FORT MASON, Calif.—J. A. Fazio
and M. J. McGuire and M. Hester,
1483 Hopkins St., Oakland, at \$69,-
636, submitted low bid to the Con-
structing Quartermaster, Fort Ma-
son, under Bid No. W. 6616-39-45,
for the construction of an intercept-
ing sanitary sewer system at Presidio
of San Francisco.

Bids were taken on:

(I) Construction of an intercepting
sanitary sewer system from Fort
Scott, through the Presidio, through
Letterman General Hospital, through
Crickey Field, necessary laterals, two
sewage pump plants in the Presidio
of San Francisco, and an intercept-
ing sanitary sewer system at Fort
Mason.

(II) Deduction if Pumping Plant
No. 1 Schedule is not constructed.

(III) Deduction if the Fort Mason
East Portal line and connections is
not constructed.

Work involves:

- (1) earth excav., per cu. yd.;
- (2) rock excav., per cu. yd.;
- (3) concrete in place (including
forms), per cu. yd.;
- (4) steel bars, reinf. (in place), per
cwt.
- (5) 6-in. clay sewer pipe (in place,
including excav. and backfill),
per lin. ft.;
- (6) 8-in. clay pipe do;
- (7) 10-in. clay sewer pipe, do;
- (8) 12-in. clay sewer pipe, do;
- (9) 15-in. clay sewer pipe, do;
- (10) 18-in. clay sewer pipe, do;
- (11) 21-in. clay sewer pipe, do;
- (12) 6-in. cast iron, Class A pipe, do;
- (13) 8-in. cast iron, Class A pipe, do;
- (14) 16-in. cast iron, Class A pipe, do;
- (15) 4-in. cast iron, Class A pipe, do;
- (16) wyves, 8-in. by 8-in. (clay sewer
pipe), each;
- (17) wyves, 10-in. by 10-in. by 8-in.,
do;

- (18) wyves, 12-in. by 12-in. by 8-in.,
do;
- (19) wyves, 15-in. by 15-in. by 8-in.,
do;
- (20) wyves, 18-in. by 18-in. by 8-in.,
do;
- (21) wyves, 21-in. by 21-in. by 8-in.,
do;
- (22) cast iron fittings, per lb.;
- (23) manhole, complete, depth 5 ft.,
each;
- (24) manhole, per ft. or depth over
or under 5 ft.;
- (25) manhole frame and cover, coat-
ed, each;
- (26) sheeting left in place, per M ft.
E.M.;
- (27) gravel (in place), per cu. yd.

Total bids follow:

- (A) J. A. Fazio and M. J. McGuire
and M. Hester, Oakland, (I) \$69,636;
(II) \$5,385; (III) \$1,594.
- (B) Heafey, Moore Co., & Fredrick-
son & Watson Const. Co., Oak-
land, (I) \$75,500; (II) \$6,000;
(III) \$1,500.
- (C) MacDonald & Kahn Co., Ltd.,
San Francisco, (I) \$82,938; (II)
\$5,900; (III) \$1,200.
- (D) West Constr. Co., San Francisco,
(I) \$66,535; (II) \$6,371.80; (III)
\$1,500.
- (E) The Fay Improvement Co., San
Francisco, (I) \$88,900; (II) \$5,-
800; (III) \$850.
- (F) W. J. Tobin, Oakland, (I) \$90,-
101.16; (II) \$8,773.04; (III) \$1,-
770.
- (G) Charles L. Harney, San Fran-
cisco, (I) \$98,000; (II) \$9,000;
(III) \$2,000.
- (H) Pacific States Const. Co., San
Francisco, (I) \$98,500; (II) \$11,-
000; (III) \$2,000.
- (I) Eaton & Smith, San Francisco,
(I) \$107,185; (II) \$8,772; (III)
\$5,205.

MONO CO.—GRADING AND TREATMENT—(STATE)

MONO COUNTY, Calif.—Jack Cas-
son, 319 Warren St., Hayward, at
\$49,877.20, submitted low bid to the
State Division of Highways, C. H.
Purcell, State Highway Engineer,
Public Works Bldg., Sacramento, for
about 7 miles of grading and road-
mix surface treatment and Class A
seal coat to be applied on highway
between Benton Station and Nevada
State Line (IX-Mno-76-B), Mono Co.

Work involves:

- (1) clearing and grubbing;
- (2) 45,400 cu. yd. roadway excavation
without classification;
- (3) 34,700 sta. yd. over haul;
- (4) 1,160 cu. struct. excav.;
- (5) 7,970 cu. ditch excav.;
- (6) 13,700 cu. Imported borrow;
- (7) 369 sta. finish roadway;
- (8) 91,820 sq. yds. prepare, mix, and
shape roadbed;

- (10) 95 tons of liquid asphalt SC-2 prime coat and penetration oil treatment;
- (11) 950 tons liq. asph. ROMC-2, -3, or -4 road mix surf. treatment;
- (12) 94 tons liq. asph. MC-3 seal coat;
- (13) 690 tons sand seal coat;
- (14) 92 c.y. rubble masonry;
- (15) 116 lf. 18-in. CMP;
- (16) 1970 lf. 24-in. CMP;
- (17) 394 lf. 30-in. CMP;
- (18) 94 lf. 36-in. CMP;
- (19) 52 lf. 48-in. CMP;
- (20) 356 lf. removing, cleaning and relaying pipe culverts;

- (21) 40 lf. removing, cleaning, and salvaging pipe culverts;
 - (22) 106 each culvert markers;
 - (23) 56 each monuments.
- Total bids follow:
- (A) Jack Casson, Hayward, \$49,877.-20.
 - (B) Basich Bros., Torrance, \$52,376.-85.

San Francisco's Finest Printers—STARK-RATH Printing Company

CONTRACT AWARDED
 LOS ANGELES, Calif.—Western Pipe & Steel Co., 5717 Santa Fe Ave., Los Angeles, at \$86,316.70 awarded

the contract by Metropolitan Water District, Los Angeles, for constructing the Long Beach, Torrance and Compton laterals of the Colorado aqueduct, Spec. 293. The award was based on the use of welded steel plate pipe with gunite exterior coating and mortar lining, Sch. 26-SC, 47 miles of 37-in. pipe; Sch. 27-SC, 4.2 miles of 31-inch pipe, and Sch. 28-SC, 1.3 miles of 22-inch pipe. * 31

CONTRACT AWARDED

CORVALLIS, Benton Co., Oregon—Empire Construction Co., per Robt. A. Bitar, Portland, at \$119,052 (Sch. B—steel pipe) awarded contract by the Corvallis Water Commission, W. F. Grove, Clerk, Corvallis, under P W A Docket 1370, for furnishing material and building pipe line from Rock Creek to Baldy Butte Reservoirs, consisting mainly of about 21,000 ft. of 20-in. pipe, and 21,000 ft. of 16-in. pipe. Alternates on cast iron and welded steel pipe. * 31

32— SEWERS & SEWAGE DISPOSAL PLANTS

BIDS WANTED

SAN LEANDRO, Alameda County, Calif.—Until Jan. 16, 5:00 P. M., bids will be received by the San Leandro City Council, E. F. Hutchings, City Clerk, 1120 East 14th St., San Leandro, or until 8:00 P.M. by the City Clerk, 250 Davis St., San Leandro and will be opened at 8 P.M. (at the Council Chambers, City Hall, 250 Da-

vis St., San Leandro), for the construction of a Municipal Sewage Disposal Project—Unit 2, located at San Leandro. The bids formerly received were all rejected, and this new call for bids eliminates the garbage disposal plant, calling for a sewage system only.

Plans and specifications may be obtained from the above office upon the deposit of \$20.00. * 32

CONTRACT AWARDED

SILVERTON, Marion Co., Oregon.—Kuckenberg Const. Co., 11104 NE Holman, Portland, at \$34,247 awarded contract by George W. Hubbs, City Recorder, Silverton, under P W A Docket 1334, for sewage treatment plant-outfall sewer and interconnections. * 32

BIDS WANTED

FRFSNO, Calif.—Until Jan. 12, 11 A. M., bids will be received by the Fresno city commission for constructing sewers in the New High School Addition, Boulevard Gardens, Lot 9 of Montpelier Tract, Paul's Gardens, Subdivision of Lot 7, Poppy Colony, Normal View, and Van Ness Heights, Res. of Intention No. 136-D (1911 Act), in accordance with plans and specifications prepared by Jean Vincenz, Commissioner of Public Works. The work involves: (1) 4320 ft. 6-in. vitrified sewer; (2) 2146 ft. of 8-in. vitrified sewer; (3) 22 concrete manholes. * 32
H. S. Foster, city clerk.

33— WATER WORKS

FIFTEEN FIRMS BID SISKIYOU GRADING JOB

**Hemstreet and Bell Submit
\$31,494 Proposal
To State**

SACRAMENTO, Jan. 11.—Hemstreet & Bell, Marysville, at \$31,494, today submitted the low bid to the State Division of Highways for grading 1.4 miles of highway between Scott river and a point one-half mile east of Hamburg in Siskiyou county.

The second lowest proposal was submitted by Guerin Brothers, San Francisco, at \$34,953.30, followed by A. Soda & Son, at \$36,252.90.

Total Bids

Complete total bids follow:

Hemstreet and Bell.....	\$31,494
Guerin Brothers.....	34,953
A. Soda & Son.....	36,252
Claude C. Wood.....	36,316
Harold Smith.....	38,226
J. M. Walker.....	38,245
Poulos & McEwen.....	38,324
Young & Son Company.....	38,567
Wm. Van Der Hellen.....	38,840
Larsen Bros. & Harms Bros. 41,992	
John Burman & Sons.....	44,423
West Construction Co.....	44,545
Bennett and Taylor.....	45,389
J. P. Brennan.....	53,377
Valley Construction Co.....	65,458

Principal items include: 38,500 cubic yards of unclassified excavation; 600 cubic yards of structural excavation; 4,900 cubic yards of imported borrow; and 1500 pounds of bar reinforcing steel.

CLAY PRODUCTS GROUP REPORTS HEAVY GAIN

A considerable increase in employment and large increases in wages and value of products were reported by establishments engaged primarily in the manufacture of clay products and of pottery, including porcelain ware, for 1937, as compared with 1935, according

MATERIAL PRICE AVERAGE LOWER

The wholesale building material price average dropped 0.1 per cent during the closing week of December, the U. S. Bureau of Labor Statistics reports. For the concluding 1938 week the index stood at 89.2 per cent of the 1926 level.

The slight decline in the group average was the result of lower prices for yellow pine flooring and timbers, linseed oil and turpentine, according to the bureau. Average wholesale prices for brick and tile and structural steel were firm.

Utilities Commission Calls Main Proposals

The San Francisco Public Utilities Commission yesterday issued a call for bids for laying six- and eight-inch cast iron mains in 33rd, 34th, 35th avenues and Moraga street.

Bids will be opened January 19 in the Commission's office, City Hall.

Principal items include: excavation of trenches for 3,960 lineal feet of pipe; 20 cubic yard's additional excavation and backfill; installing 3,960 lineal feet of pipe; installation of 4,500 pounds of fittings and gate valves; and 180 lineal feet of making bell and spigot joints. The contract is one in the Commission's regular program of main-laying for the Water Department.

Shipments of fire extinguishing motor equipment during November, 1938, amounted to 44 units, as compared to 70 units shipped during the same month in 1937, the Bureau of Census reports.

to preliminary figures released by Director William L. Austin of the Bureau of Census.

E. W. CALVIN LOW ON CITY FAIR EXHIBIT

Three Bids Received for Public Utilities Commission Exhibit

Ernest W. Calvin, Inc., at \$15,260 yesterday submitted the low bid to the San Francisco Public Utilities Commission for construction of an exhibit for the Commission on Yerba Buena Shoals.

Lindgren & Swinerton, Inc., at \$16,500, submitted the second lowest proposal. The only other bidder was Barrett & Hilp who bid \$22,000 on the job.

Light Effects

Additions to Ernest W. Calvin's bid were: \$363 for installing neon lighting around the ceiling; \$914 for electrification of the Municipal Railway map under plan one; and \$2,235 for electrification of the map under plan two. The additions did not alter Calvin's position as low bidder, it was understood.

The Public Utilities Commission's exhibit on Yerba Buena Shoals for the 1939 Exposition will consist of wall charts and panels. They will explain the municipal railway, the Hetch Hetchy project, street lighting, and San Francisco Airport.

The panels will consist of paintings, charts and blown-up photographs explaining each utility in easy steps. Lighting effects are expected to play a large part in the success of the exhibit.

Finish Work

Complete finishing of the exhibit room, in addition to construction of the panels, is included in the contract.

Architect Ernest Born designed the exhibit for the Public Utilities Commission.

New orders for distillate oil burners totaled 35,218 units during November, 1938, as compared to orders for 36,381 units booked during the same month in 1937, the Bureau of Census reports.

SPAN APPROACH VIADUCTS OUT FOR PROPOSALS

San Francisco, San Bernardino Out for Proposals; Date Set

SACRAMENTO, January 10.—The State Highway Commission today authorized advertising for bids on bulkhead and viaduct construction in San Bernardino and San Francisco counties. Bids on the San Francisco job will be opened in Sacramento February 1; bids on the other contract will be opened in Los Angeles February 2.

The San Francisco contract calls for construction of three viaducts between Lake street and the Golden Gate Bridge approach.

The viaducts, portions of the Funston avenue approach to the Golden Gate Bridge through the Presidio, will consist of reinforced concrete girder spans on reinforced concrete bents and abutments, according to engineers.

Other Contracts

Contracts for grading the approach in the Presidio, and reconstructing Park-Presidio boulevard, City feeder road, have been awarded.

Principal items in the new contract include: 6,600 cubic yards of structural excavation; 1,497,000 lbs. of bar reinforcing steel; 6,720 cubic yards of Class A Portland cement concrete structures; 4,280 lin. ft. furnishing treated Douglas fir piles; 9,700 lbs. of miscellaneous iron and steel; 2,690 lineal feet of steel rail viaducts; 1,298 lineal feet of merchant casing of various sizes; and engineers' offices.

Timber Bulkheads

The second job, for which bids will be opened in Los Angeles February 2, involves 1.1 miles of plant-mixed surfacing; construction of pipe and timber bulkheads; and backfilling with imported borrow between San Bernardino and the Santa Ana river in San Bernardino county.

Principal items include: 66 M. gallons of water; 300 cubic yards of unclassified roadway excavation; 5,960 cubic yards of structural excavation; 2,000 cubic yards of imported borrow; 18,000 square yards of asphalt paint binder; 3,800 tons of mineral aggregate plant-mixed surfacing; 190 tons of liquid asphalt SC-4 plant-mixed surfacing; 16 tons of liquid asphalt 90-95 seal coat; 80 tons of seal coat screenings; 230 tons of sand seal coat; 166 M FBM treated Douglas timber; 7,650 lineal feet of treated Douglas fir piles; 225 treated Douglas fir piles driven; and 1,110 lineal feet of laminated guard railing.

Plumbing Specialty Standards Higher, Say Manufacturers

Generally improved business conditions were indicated by reports presented at the recent tenth annual convention of the Plumbing and Drainage Specialty Manufacturers' Association, held at the Hotel Statler, Cleveland, last month.

M. J. Hirschstein, director of sales, Josam Manufacturing Co., Cleveland, was elected president of the Association; T. Van Helms, Central Specialty Co., Detroit, was elected vice president; and Olin C. Eckley, Ypsilanti, was re-elected secretary-treasurer.

Speakers reported an increased demand for higher standards of plumbing and drainage specialties, including improved types of roof and floor drains to meet the rapid changes in design and construction of modern buildings. Progress was reported in the specification of grease interceptors for residential buildings to protect against clogging of drain lines and septic tanks, and of new design oil, gasoline, and special interceptors for industrial waste to provide protection against fire and explosion and to eliminate costly maintenance, particularly in garages, filling stations and cleaning and dyeing establishments.

Members commented on the higher standards for plumbing work which are currently being insisted upon by plumbing inspectors. City and state plumbing inspectors, it was pointed out, have taken a firmer attitude since the Chicago amebic dysentery epidemic.

Members of the association and Federal Housing Administration have a mutual interest in the efforts of the FHA to improve the quality of plumbing workmanship and materials in houses financed under the 20-year mortgage plan, according to Mr. Hirschstein.

WESTINGHOUSE TO LIST CONTROL UNITS

Westinghouse fluorescent control units, used with tubular fluorescent lamps to maintain current and voltage at proper values, are announced by the lighting division of Westinghouse Electric & Manufacturing Company, Cleveland, Ohio.

Each lamp requires a control unit suited to the electrical operating characteristics of the fluorescent lamp selected. Operation is on alternating-current circuits only and the over-all power factor for a lamp and control units is approximately 60 per cent.

Shipments of galvanized range boilers during the first 11 months of 1938 amounted to 688,282, as compared to 695,743 units shipped during the same period in 1937, the Bureau of Census reports.

AMMUNITION DEPOT BIDS OPEN FEB. 8

\$470,000 Hawthorne Project Work Advertised By State

WASHINGTON, D. C., Jan. 10.—Bids for construction of 34 ordnance buildings, railroad tracks, roads and services at the Hawthorne, Nevada, naval ammunition depot will be opened here February 8, Navy Department officials announced today.

The work will cost in the neighborhood of \$470,000, according to Navy Department estimates.

Bids will be opened here by the Bureau of Yards & Docks. The work is covered in Specification No. 8966, which, with plans, may be obtained from the bureau upon deposit of \$50.00.

The buildings will be one-story structures. Work will include concrete; earthwork; steel and iron; brick and hollow tile; glass-block masonry; roofing, sheet metal work, corrugated asbestos and membrane waterproofing; metal doors, metal windows; plastering; woodwork; glazing; electrical work lightning protection; painting; cranes and hoists; and sewerage, plumbing and water systems.

Navy Department officials announced last week that bids would be taken for the work, but no opening date was set at that time.

Western PWA Jobs Employing 12,931

The new Federal Public Works Administration program, now under way 100 per cent in this Far Western region, has been responsible for the re-employment of 45,259 men in the last two months, according to Kenneth A. Godwin, PWA Regional Director.

All of the 423 new PWA projects of the 1938 program, approved by Public Works Administrator Harold L. Ickes, were put under actual construction before the deadline date of January 1st, and there are 12,931 men at work on these project sites. Another 32,328 workers have been given jobs producing the necessary materials for and transporting them to the sites of this vast construction, which will cost a total of \$64,123,549.

More than half of these new jobs have been created in California alone, according to Director Godwin. The others are divided between Arizona, Utah and Nevada, the other states comprising this PWA region.

Shipments of oil burners totaled 11,518 units during Nov., 1938, as compared to 10,546 units shipped during Nov., 1937, according to the Bureau of Census.

FHA REPORTS HOUSING GAIN FOR OAKLAND

Home Mortgages Increase 336 Percent Over Previous Year

An increase of 336 percent in the number of new home mortgages accepted for insurance by the FHA in Oakland during the year of 1938 over the previous year is reported by the Northern California district office of the Federal Housing Administration.

During the year of 1937, only 253 new home mortgages were accepted for insurance in Oakland against 935 building permits, or 27 per cent. In 1938, the Federal Housing Administration accepted for insurance 850 new home mortgages against 1077 building permits issued by this city, or approximately 80 per cent, according to D. C. McGinness, district director of the FHA.

New Homes

The value of new home mortgages accepted for insurance by the FHA in 1937 was only \$1,327,700 compared to \$4,248,400 in 1938. The entire value of building permits issued by the city of Oakland during 1938 totaled \$4,853,999. Mortgages accepted for insurance by the FHA during the same year qualified within \$605,599 of the total value of Oakland building permits for FHA insured loans.

Mr. McGinness also revealed that 1444 existing homes in Oakland were accepted for mortgage insurance by the Northern California district office during 1938 and that the value of these mortgages amounted to \$5,958,320. Total home units, both new and old, up to and including four-family dwellings, totaled 2294 with a value of \$10,206,700.

69 Institutions

Mr. McGinness points out again that the Federal Housing Administration lends no money. It insures loans made by private financial institutions operating under the provisions of the National Housing Act. He reports that there are now 69 private lending institutions in Northern California qualified to accept applications for an FHA-insured mortgage. These include commercial and savings banks, building and savings banks, building and loan associations, insurance companies and mortgage companies.

Production of malleable iron castings during November, 1938, amounted to 35,351 short tons, as compared to production of 32,457 short tons during the same month in 1937, the Bureau of Census announces.

UNION PAVING AWARDED MAIN LAYING WORK

Following the opening bids yesterday, the Union Paving Company, 212 Babcock building, San Francisco, at \$20,368 was awarded the contract by the Hillsborough Town Council for laying four-six-eight- and ten-inch cast iron water mains.

The second lowest bid was submitted by A. W. Clark, Jr., and Company, at \$21,295.35, followed by W. J. Tobin, at \$23,426.

Total Bids

Complete total bids follow:

Union Paving Company..	\$20,368
A. W. Clark.....	21,295
W. J. Tobin.....	23,426
Underground Const. Co.....	24,768
Pacific States Const. Co.....	25,570
The Lowrie Paving Co.....	25,776
H. E. Connor.....	25,861
Charles L. Harney.....	26,392
West Construction Co.....	27,312
Williams & Van Valkenburgh.....	29,960

28,000 Feet

Principal items included: excavation of 28,000 lineal feet of cast iron pipe of various diameters; 300 cubic yards of additional excavation and backfill; installing 28,000 lineal feet of cast iron pipe; installing 32,000 pounds of fittings, gate valves and appurtenances; 3,000 lineal feet making bell and spigot joints; installing 23 hydrants; replacing 8600 square feet of six-inch asphaltic concrete; replacing 2700 square feet of six-inch water bound macadam, oil and screenings; and installing 200 screw caps.

LUMBER INDUSTRY REPORTS INCREASES

A considerable increase in employment and large increases in wages and value of products were reported by establishments in the lumber and timber products industry for 1937 as compared with 1935, according to preliminary figures compiled under the direction of Director William L. Austin of the Bureau of Census.

The number of wage earners employed in this industry increased 26.9 per cent, from 255,230 in 1935 to 323,928 in 1937, while the wages paid increased 50.2 per cent from \$183,074,245 for 1935, to \$275,033,684 for 1937. The value of products increased 53.8 per cent, from \$551,614,009 for 1935, to \$848,481,316 for 1937.

The total lumber cut reported for 1937 amounted to 25,996,857 M. feet, a gain of 6.7 per cent over 24,354,884 M. feet for the preceding year, and a gain of 33.1 per cent over the 19,535,781 M. feet for 1935.

NEW STANDARDS FOR PLASTER ISSUED BY ASA

Specifications for Gypsum Plastering and Lathing Released

The American Standards Association has recently approved the first of a series of standard specifications for plastering of general interest to the building and construction trades, and to other groups concerned with the manufacture or use of building materials.

This, "American Standard Specifications for Gypsum Plastering Including Requirements for Lathing (A42.1-1938)", has been developed by a committee of 19 national organizations and represents the best current usage. It includes both general and special requirements for gypsum plastering. It also covers requirements for sand, and for proper drying of plaster; specifications for lathing; and a special section on plastering monolithic surfaces. The materials that go into gypsum plaster are covered by reference to the specifications of the American Society for Testing Materials. Specific instructions for mixing and preparing various types of gypsum plaster are included, as well as instructions for finishes, and for applying different thicknesses of plaster on different types of bases.

The section on lathing covers specific requirements for lathing, exact measurements for various types of lath, minimum weight per square yard in pounds, and requirements for applying.

The standard is now being printed, and copies will be available in a few weeks at a probable cost of 25c per copy.

Work on plastering specifications was started under the auspices of the ASA in 1929. The committee in charge of this work is under the administrative leadership of the American Institute of Architects and the American Society for Testing Materials.

In addition to the standard for gypsum plastering, specifications for cement, both interior and exterior, are now in draft form, and specifications for lime plastering and for masonry cement stucco are to be developed. The committee's next job, specifications for Portland cement stucco and plaster, is well under way and will probably be approved by American Standards Association before the end of the year.

Shipments of electrical industrial trucks and tractors during the first 11 months of 1938 amounted to 767 units, as compared to shipments of 1,683 units during the same period in 1937, the Bureau of Census reports.

HOME BUILDING LEADING OTHER TYPES IN S. F.

**1938 Residential Volume
Largest; Public Works
Jobs Second**

Two thousand and fifty-two permits for construction of one-family dwellings estimated to cost \$8,297,168 were issued in San Francisco during the twelve months of 1938, Chief Clerk E. J. Rosenblum of the Central Permit Bureau announced Saturday.

Construction of one-family dwellings led all types of construction during the year with public works and utilities work ranking in second place.

Sixty permits for public works and utilities were issued for a total of \$4,055,992.

Flat Construction

In residential work, construction of two-family dwellings passed the million dollar mark with 185 permits issued for construction of flats costing \$1,411,820, in the aggregate. Only seven one- or two-family dwellings with stores beneath were built during the year. The aggregate cost of these structures was \$35,550.

Frame apartment houses led the multi-family dwelling division with twenty-two permits issued for a total of \$846,700.

Only one Class C apartment house was listed, costing \$200,000, and housing forty-one families.

Twenty-three permits were issued for work on public and private schools costing \$1,914,983.

Alteration Jobs

Other classifications in the million dollar division included: 1,220 permits for non-residential building alterations, \$1,872,594; 2,626 permits for housekeeping dwelling alterations, \$1,347,293; and five permits for City and State public buildings, \$1,167,389.

In all, 8,061 permits were issued during the year for construction costing \$23,232,331, a heavy gain over the 1937 record of 7,807 permits for a total of \$20,245,440.

Construction of stores, warehouses and other mercantile buildings just failed to reach the million dollar mark with 75 permits issued for construction estimated to cost \$985,709.

Three Church Permits

Other totals were: amusement, club and association buildings with bedrooms, five permits totaling \$174,500; churches, three permits totaling \$72,000; factories, four permits totaling \$42,500; public garages, three permits totaling \$63,000; private garages, 57 permits totaling \$21,958; gas and service stations, 33 permits totaling \$128,590; institutions and hospitals one permit for \$40,000; office buildings, seven permits totaling \$106,000; sheds, 20 permits totaling

Ostendorf to Take Office as Realty Association Head

Proposed central objectives for real estate nationally for the year 1939 will be sketched by E. L. Ostendorf, Cleveland, Ohio, president-elect of the National Association of Real Estate Boards, in making his inaugural address to the Association, to be delivered at Dallas, Texas, Friday evening, January 27.

Joseph W. Catharine, Brooklyn, N. Y., as president of the Association, will formally induct his successor into office at a banquet to be held as the high point of the South Central Regional conference of the Association.

The conference, January 27-28, which will have headquarters at the Adolphus hotel, Dallas, will be preceded by the initial 1939 meeting of the Association's board of directors, to be held at the Baker hotel, and by executive committee meetings of its Land Developers and Home Builders Division, Brokers Division, Farm Lands Institute, and Secretaries Council, all to be held January 26 at the Baker hotel.

Officers of the Association to serve with Mr. Ostendorf, and officers of its Institutes, Divisions and Councils, will take office formally at a dinner to be held at the Baker hotel January 26.

The eight South Central states whose Realtors will meet with national leaders in every field of real estate activity in the two-day conference on current business methods at Dallas are: Missouri, Kansas, Texas, Louisiana, Oklahoma, Colorado, Arkansas, and New Mexico.

OXY-ACETYLENE TIPS FOR JANUARY READY

The January issue of Oxy-Acetylene Tips, published by The Linde Air Products Company, 30 East Forty-second street, New York City, is off the press and ready for distribution, it is announced. Copies may be obtained without charge upon application to the company at the above address.

The January issue of Oxy-Acetylene Tips features a brief review of the year's outstanding developments in the oxy-acetylene process. Included in the discussion are new cutting machines and cutting techniques, new multi-flame tips and welding rod, and new developments in flame-hardening, flame-softening, heating, steel conditioning, hard-facing, and alloy steel welding, it is announced.

\$26,300; alterations to non-housekeeping dwellings, 88 permits totaling \$145,545; and sign and billboard installations, 1,564 permits totaling \$276,740.

In all, quarters for 2,724 families were provided by new dwelling construction during 1938, it was announced.

STATE INVITES PROPOSALS ON WATER SYSTEM

**Eldridge Pipe Contract Out
For Bids; Two Contracts
Awarded**

SACRAMENTO, January 10.—Director Frank W. Clark of the State Department of Public Works today authorized calling for bids for installation of additions and improvements to the water distribution system at Sonoma State Home, Eldridge.

Bids on the job will be opened in Sacramento January 31, the State Architect announces.

Pipe Job

The additions and improvements to the water distribution system include the installation of approximately 17,500 lineal feet of water piping, varying in size from three-quarter to eight inches in diameter, together with valves and miscellaneous fittings.

Also included under the contract will be the installation of a new deep-well turbine pump in an existing well, and the overhauling of an existing pump.

Plans and specifications may be obtained from the office of the State Architect in Sacramento upon deposit of \$25.00.

Coincident with the issuance of a call for bids, Mr. Clark announced that two contracts for bridge and highway work had been awarded.

Riverside County

The largest contract—involving 4.8 miles of grading and paving with plant-mixed surfacing and Portland cement concrete between Corona and the Orange county line in Riverside county—was awarded to V. R. Dennis Construction Company, San Diego, at the bid price of \$172,463.95.

Principal items include: 340,200 cubic yards of unclassified excavation; 5,100 cubic yards of structural excavation; 1,850 cubic yards removing bituminous surfacing; 89,600 tons of surfacing material; 486 cubic yards of Class A Portland cement concrete structures; 48,000 pounds of bar reinforcing steel; 325 cubic yards of Class B Portland cement concrete pavement; and 52,000 square yards of preparing, mixing and shaping roadbed.

Merced County

The second contract was awarded to A. A. Tieslau, Berkeley, at \$14,134.50.

The work involves redecking and widening a bridge across Fresno river about 17.4 miles east of Los Banos in Merced county.

Shipments of hand fire extinguishers during November, 1938, amounted to 28,508 units, as compared to 31,219 units shipped during November, 1937, the Bureau of Census announces.

PROPOSED
SAN DIEGO, Calif.—David H. Ry-
 an, 1615 Fern St., San Diego, engi-
 neering contractor, has presented to
 the San Diego harbor commission a
 proposal of a syndicate of San Diego,
 Los Angeles, and San Francisco cap-
 italists to lease a 20-acre tideland

site at the foot of 28th St. for a
 shipbuilding plant with a capacity
 to handle naval ship construction
 of the type being bid on by the Navy
 Dept. Feb. 15, when bids for two
 6500-ton cruisers will be opened.
 Two other cruisers of the same type
 will be bid on before summer. The
 estimated cost of the proposed plant
 is \$500,000. Harbor commissioners
 state that no action on the lease will
 be taken until after a conference
 with Mr. Ryan and his associates. 18

21— BRIDGES

SPOKANE COUNTY, Washington.
—As previously reported, until Feb. 1, bids will be received by Clarence Griggs, Spokane County Engineer, for a reinforced concrete cellular deck (hollow girder) bridge, G. N. tracks at Francis and Market, 488 ft. long; 24 ft. roadway with 4 ft. sidewalk on either side, cement rails, earth approaches with concrete sidewalks, asphalt road bed. Footings on bridge 25 ft. maximum height. Eight spans, three 45 ft, two 70 ft, three 71 ft. Preliminary work was started before December 31 to get under PWA deadlines. Structure is financed by PWA grant of \$27,000, G. N. and county funds. Estimated cost, \$60,000.

Plans and specifications may be obtained from the above office. * 21

CONTRACTS AWARDED

SEATTLE, Kings Co., Wash.—Contracts for construction of the Laks Washington pontoon bridge project between Seattle and Mercer Island, were awarded by Washington State Toll Bridge Authority, Olympia, Wash. The awards are as follows:
Unit 1, to Northwest Constr. Co., Seattle \$357,009.

Unit 2, to Bates & Rogers Constr. Corp., Chicago, \$1,422,737.

Unit 3, to General Constr. Co., and Columbia Constr. Co., of Seattle and Bonnevillie, \$460,470.

Unit 4, to Puget Sound Bridge & Dredging Co., J. H. Pomeroy & Co. Inc., and Parker-Schram Co., combined bid, \$3,253,597.

Unit 5, to Puget Constr. Co., Seattle, \$465,147.

Unit 6, to Florio Brothers, Inc., Seattle, \$265,742.

Unit 7, to Dally Constr. & Engrg. Co., Seattle, \$275,195.

Unit 8, to N. Florito, Inc., Seattle, \$253,151.

Unit 9, to Puget Constr. Co., Seattle, \$527,010.

Unit 10, to N. Florito, Inc., Seattle, \$92,836.

Unit 11, to Rumsey & Co., Seattle, \$609,175.

On two of the units, numbers 3 and 6, the awards were made to the second low bidders. On all others the contracts went to the low bidders. * 21

LOW BIDDER

SAN BERNARDINO COUNTY, Cal.
—G. E. Kerns, 3712 Gaviota Avenue, Long Beach, at \$44,964.50, submitted low bid to the State Division of Highways, C. H. Purcell, State High-

way Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asphalt concrete about one-eighth mile east of Los Angeles County line (VIII-SBD-26-C), San Bernardino County.
Complete bids will be published shortly. * 21

BLUE PRINTS AVAILABLE

SACRAMENTO, Cal.—State Highway Engineer C. H. Purcell announces the cost of blue prints now available for work for which bid will be opened in Los Angeles on Jan. 26, 1939.

VII-LA-168-C. Undergrade crossing under the tracks of the AT & SF Railway Company at Chapman Station on Rosemead Blvd. **PLANS**—No. of Sheets 29, cost \$4.40; **CROSS-SECTIONS**—No. of Sheets, 28, cost \$2.80, total \$7.20.

XI-S-D-12-LMsa. Overhead structure over the San Diego and Arizona Eastern Railroad at La Mesa. **PLANS**—No. of Sheets 9, cost \$1.40; **CROSS-SECTIONS**—No. of Sheets, none; total \$1.40.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P. O. Box 1499, Sacramento, Calif. * 21

LOW BIDDER

PLUMAS COUNTY, Calif.—M. A. Jenkins, 3560 Y St., Sacramento, at \$7,636.00, submitted low bid and was awarded contract by the Plumas Co. Board of Supervisors, John Donner-wirth, Clerk, Quincy, for the construction of the Arlington bridge.

Total bids follow:
M. A. Jenkins, Sacramento.....\$7,636.00
O. G. Wardlow, Greenville.....9,463.00
A. A. Tieslau, Berkeley.....11,938.00
George Pollock Co., Sacramento14,692.00
E. T. Lesure, Oakland17,163.00
* 21

BIDS WANTED

SAN FRANCISCO.—Until Feb. 1, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for the construction of three viaducts, consisting of reinforced concrete spans on reinforced concrete bents and abutments, between Lake Street

and Golden Gate Bridge approach, San Francisco.

- Work involves:
- (1) 1 lot existing garages removed;
 - (2) 6,600 cu. struc. excav.;
 - (3) 1,497,000 lbs. bar reinf. steel;
 - (4) 89 cu. yd. Class A Portland cement concrete footing blocks;
 - (5) 6,720 cu. yd. Class A Portland cement concrete struc.;
 - (6) 25 cu. yd. Class B Portland cement concrete;
 - (7) 4,280 l.f. furnish treated Douglas fir piles;
 - (8) 142 each driving treated Douglas fir piles;
 - (9) 9,700 lbs. misc. iron and steel;
 - (10) 2,390 l.f. steel rail viaducts;
 - (11) 68 l.f. steel railing sub-station;
 - (12) 10 l.f. 8-inch CMP;
 - (13) 140 l.f. 12-inch CMP;
 - (14) 120 l.f. 8-in. perf. metal pipe underdrains;
 - (15) 20 cu. yd. rock filling material underdrains;
 - (16) 146 l.f. 4-in. glazed vit. clay pipe;
 - (17) 146 l.f. 5½-in. merchant casing;
 - (18) 708 l.f. 8¼-in. merchant casing;
 - (19) 444 l.f. 12½-inch do;
 - (20) 646 sq. yds. gunite;
 - (21) 1 each double steel door;
 - (22) 1 each steel gate;
 - (23) 280 lbs. copper strips;
 - (24) 1 lot remove and relocate wire lines;
 - (25) 1 lot elec. equipment;
 - (26) 46 each furnish electrolers;
 - (27) 1 lot misc. items of work;
 - (28) 1 lot engineers offices.

Plans and specifications may be obtained from the above office. * 21

CONTRACT AWARDED

MERCED COUNTY, Calif.—A. A. Tieslau, 2819 Telegraph Ave., Berkeley, at \$14,134.50 awarded contract by the State Division of Highways, Frank W. Clark, State Director of Public Works, Sacramento, for re-constructing and widening a bridge across Fresno River about 17.4 miles east of Los Banos, District X, Route 32, Section C, Merced County. * 21

22— DREDGING HARBOR WORKS, EXCAVATION

CONTRACT AWARDED

PORTLAND, Multnomah Co., Ore.—Port of Astoria at \$15,680 awarded contract by the Army Dept., Engineering Division, Washington, D. C., for dredging channel 200 ft. wide, 28 ft. deep at low water, Westport Slough, tributary of Columbia River, about 70 miles below Portland. Involves about 196,000 cu. yd. of dredging and disposal of dredged material. * 22

CONTRACT AWARDED

LINCOLN COUNTY, Ore.—Kuckenberg Constr. Co., 11104 NE Holman St., Portland, at \$25,857, awarded contract by the U. S. Engineer Office, 628 Pittcock Block, Portland, under Bid No. 698-39-284, for excavation in connection with improvement of the entrance and inner harbor at DePoe Bay, Lincoln Co., Ore. * 22

BIDS OPENED

OXNARD, Ventura Co., Cal.—Bids for construction of works for harbor development at Point Hueneme, Ventura County, were opened by the Oxnard Harbor District, Oxnard. Nine bids were received and the proposals

Capital City Title Company

JAMES E. BANCROFT

Manager

801 J Street
Sacramento : California

were referred to Mr. Barnard of the firm of Quinton, Code & Hill-Leeds & Barnard, consulting engineers, for computation of freight rates on rock, analysis of the figures and report. The bid of the Hydraulic Dredging Co. of Oakland, was qualified to provide that work would not start until September but agreed to complete the work according to specifications. The bids are printed below as read but the engineer's analysis may change their relative positions. The items and quantities follow:

- SCHED. 1—Dredging
(1) 4,250,000 cu. dredging;
SCHED. 2—West Jetty
(2) 38,000 tons Class A stone;
(3) 24,000 tons Class B stone;
(4) 3,000 tons Class C stone;
SCHED. 3—East Jetty
(5) 26,000 tons Class A stone;
(6) 20,000 tons Class B stone;
(7) 4,000 tons Class C stone;

- SCHED. 4—Concrete Foundation for Beacon Lights on Jetties
(8) 80 cu. relmf. concrete;
SCHED. 5—Revetment Work in Entrance Channel and Central Basin and Slip
(9) 17,000 tons revetment stone at wharf;
(10) 39,000 tons revetment stone at Central Basin and Entrance Channel.

The bids follow:

- SCHEDULE 1
Hydraulic Dredging Co., (1) \$1,023; total, \$434,775.
Standard Dredging Co., (1) \$117; total \$497,250.
American Dredging Co., (1) \$1,348; total, \$572,900.
Case Const. Co., (1) \$1,274; total, \$541,450.
San Francisco Bridge Co., (1) \$1,275; total, \$541,875.

- SCHEDULE 2
Baruch Corp., (2) \$226; (3) \$214; (4) \$148; (total) \$141,684.
Standard Dredging Co., (2) \$256; (3) \$256; (4) \$256; (total) \$166,400.
American Dredging Co., (2) \$299; (3) \$299; (4) \$299; (total) \$196,350.

- United Concrete Pipe Corp., (2) \$4; (3) \$3.45; (4) \$2; (total) \$240,800.
Geo. Pollock Co., (2) \$3; (3) \$2.90; (4) \$2.50; (total) \$258,000.
Case Const. Co., (2) \$4.50; (3) \$4.30; (4) \$4.30; (total) \$277,100.

- SCHEDULE 3
Baruch Corp., (5) \$217; (6) \$2.05; (7) \$1.39; (total) \$102,980.
Standard Dredging Co., (5) \$2.56; (6) \$2.56; (7) \$2.56; (total) \$130,000.

- Geo. Pollock Co., (5) \$3; (6) \$2.90; (7) \$2.50; (total) \$146,000.
Pacific Rock & Gravel Co., (5) \$2.99; (6) \$2.99; (7) \$2.99; (total) \$149,500.
United Concrete Pipe Corp., (5) \$4; (6) \$3.45; (7) \$2; (total) \$181,000.
Case Const. Co., (5) \$4.50; (6) \$4.30; (7) \$4.30; (total), \$220,200.

- SCHEDULE 4
Case Const. Co., (8) \$25; (total) \$2000.
Baruch Corp., (8) \$28; (total) \$2240.
Standard Dredging Co., (8) \$30; (total) \$2400.
Geo. Pollock Co., (8) \$30; (total) \$2,400.00.
United Concrete Pipe Corp., (8) \$40; (total) \$3200.
American Dredging Co., (8) \$50; (total), \$4000.

- SCHEDULE 5
Baruch Corp., (9) \$2.16; (10) \$2.16; (total) \$120,980.
Standard Dredging Co., (9) \$2.56; (10) \$2.56; (total) \$143,360.
Geo. Pollock Co., (9) \$2.85; (10) \$2.85 (total) \$159,600.
American Dredging Co., (9) \$2.99; (10) \$2.99; (total) \$167,440.
Case Const. Co., (9) \$4; (10) \$3.70; (total) \$212,300.

United Concrete Pipe Corp., (9) \$1; (10) \$4; (total) \$224,000.

23— CANALS

BIDS WANTED

SUISUN, Solano Co., Calif.—Until Jan. 17, bids will be received by the Suisun City Council, Suisun, for the construction of a levee around the area between the Southern Pacific right-of-way, Union Ave. and Common St.

Plans and specifications may be obtained from the above office.

LOW BIDDERS

YAKIMA PROJECT, Wash.—Natt McDougall Co., Portland, Oregon, at \$211,445 (Schedule 1) and Macri Bros. and L. Coluccio, Seattle, at \$152,402 (Schedule 2) submitted a combination low bid of \$363,547, to the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 815, for the construction of a earthwork, canal lining, and structures, station 1952 to station 2387, Yakima Ridge canal, Roza division, Yakima project, Wash. The work is located near Yakima, Washington.

BIDS WANTED

MODESTO, Stanislaus Co., Calif.—Until Jan. 23, 3:00 P. M., bids will be received by the Modesto Irrigation District, C. S. Abbott, Secretary, 823 11th St., Modesto, for the construction of concrete lining, concrete pipe and appurtenant concrete structures in the canals and service ditches of the Modesto Irrigation District.

Plans and specifications may be obtained from the above office.

COMPLETE BIDS

SHOSHONE PROJECT, Wyoming.—Complete bids submitted to the U. S. Bureau of Reclamation, Cody, Wyo., under Spec. No. 814, for the construction of the Shoshone River siphon and the Buck Springs Creek siphon, Heart Mountain, canal, Heart Mountain division, Shoshone Project, Wyo., are on file at the office of the Daily Pacific Builder, 465 Tenth St., San Francisco.

24—STREET LIGHTING

January 6, 1939

CONTRACT AWARDED

MERCED, Calif.—Dutra's Electric Service, 525 17th, Merced, at \$1,681.21, awarded contract by the Merced City Council, W. T. Clough, City Clerk, City Hall, Merced, for installing automatic traffic signals at the intersection of 16th and M Streets.

Total bids follow:

Dutra's Electric Service, Merced	\$1,681.21
Robinson's Electric, Fresno	1,873.00
Sanitary Plumbing Co., Merced	1,960.00
Bennett & Taylor, Los Angeles	2,080.50
Underground Const. Co., Oakland	2,292.50

25— MACHINERY AND EQUIPMENT

BIDS OPENED

MERCED, Merced Co., Cal.—Dutra's Electric Service, 534 J Street, Merced, \$1,681.21 submitted low bid

to Merced City Council, W. T. Clough, City Clerk, City Hall, for the installation of an automatic traffic signal at the corner of 16th and M Streets.

Total bids follow:
Dutra's Elec. Serv., Merced, \$1,681.21.
Robinson Elec. Co., Fresno, \$1,873.00
Sanitary Pblg. Co., Merced, \$1,960.00
Bennett & Taylor, Los Angeles, \$2,080.50.
Underground Const. Co., Oakland, \$2,292.50.

AWARD RECOMMENDED

LOS ANGELES, Calif.—Phillips & Davies, Inc., at \$58,000 recommended for award of contract by U. S. Engineer, Los Angeles, for six service gates shipped from Kenton, Ohio, on government bill of lading for Prado Dam; Invit. 184.

BIDS WANTED

DENVER, Colo.—Until Jan. 20 bids will be received by the U. S. Bureau of Reclamation, Denver, under Proj. E-47418-A, for four 8-ton capacity, single motor, double-girder, overhead traveling crane, with hand-gear bridge travel, hand-gear trolley, and motor-operated hoist.

Plans and specifications may be obtained from the above office.

CONTRACT AWARDED

OAKLAND, Calif.—United Iron Works, 580 Second Street, Oakland, at \$2,768, submitted the only bid and was awarded contract by the Oakland Port Commission, Foot of Grove Street, Oakland, for furnishing and installing low list draining pump for Oakland Airport.

BIDS WANTED

WASHINGTON, D. C.—Until Jan. 16, bids will be received by the Purchasing Agent, Post Office Department, Washington, D. C., under Pro. No. 1538, for screen line equipment for the post office, Rio Vista, Calif.

Plans and specifications may be obtained from the above office.

CONTRACT AWARDED

OAKLAND, Cal.—Boiler Tank and Pipe Co., 800 75th Ave., Oakland, at \$11,470 awarded contract by the East Bay Utility District, John Kimball, Secretary, 512 16th Street, Oakland, under Bid No. LS 224, for furnishing and erecting one 1,000,000-gallon steel water tank at Point San Pablo tank site.

BIDS WANTED

PORTLAND, Oregon.—Until Feb. 9, 10:30 A. M., bids will be received by the Bonneville Project, 811 N.E. Oregon, for conductor, deadends, connectors, equipment-tools for river crossing. Work involves (1) 24,500 ft. conductor for Bradford Island, (2) 107,000 ft. for Columbia-Willamette Section, Bonneville-Vancouver and Vancouver-Eugene lines.

Plans and specifications may be obtained from the above office.

BIDS OPENED

COLUMBIA BASIN PROJECT.—Following submitted bids to the U. S. Bureau of Reclamation, Denver, under Spec. No. 1163-D, for furnishing and delivering eighteen cast-steel, draft-tube pier noses for the Grand Coulee power plant, Columbia Basin Project, Wash., for shipping point and/or Oadir, Wash. The pier noses will be installed by the Government.

Total bids follow:
The American Rolling Mill Co., Middletown, Ohio, \$18,669.20; 1/4% 30 days; fob Middletown.

Hardie-Tynes Mfg. Co., Birmingham, Ala. \$20,782; net; fob Milwaukee, Wis.

Enterprise Foundry Co., San Francisco, \$11,070; net; fob San Francisco.

Continental Roll & Steel Foundry Co., Pittsburgh, Pa., \$22,050; net; fob East Chicago, Ind.

Bethlehem Steel Co., Bethlehem, Pa., \$25,525; 1/2% 30 days; fob Bethlehem.

Pacific Car & Foundry Co., Seattle, \$29,465; net; fob Renton, Wash.

Eric Forge Co., Erie, Pa., \$19,800; 1/2% 30 days; fob Erie.

John W. Beam, Denver, \$20,750; 1/2% 30 days; fob Milwaukee.

Columbia Steel Co., San Francisco, \$25,706; 1/2% 30 days; fob Odir, Washington.

BIDS OPENED

BOULDER CANYON PROJECT—General Electric Co., Schenectady, N. Y., at \$376,350, submitted low bid to the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 818, for furnishing and delivering three 55,000-kva. 60-cycle, single-phase, oil-immersed, water-cooled, 16,320 to 166,000/287,500 Y-volt transformers for units A-1 and A-2 in the Boulder Power Plant, Boulder Canyon project, Arizona-California-Nevada; f.o.b. shipping point and/or Boulder City, Nevada. All of the apparatus will be installed by the Government.

Total bids follow:
General Electric Co., Schenectady, N. Y., \$376,350, net, f.o.b. Boulder City, Nev.

Allis-Chalmers Mfg. Co., Milwaukee, Wisc., \$388,050, net, f.o.b. Boulder City, Nev.

Westinghouse Electric & Mfg. Co., Denver, Colo., \$393,500, net, f.o.b. Boulder City, Nev.

27—WPA PURCHASES, RENTALS

BIDS WANTED

SAN FRANCISCO.—Until Jan. 17, 10 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, 49 Fourth St. (Room 518), San Francisco, for furnishing materials and supplies, as follows:
BID NO. 6848: Concrete and river sand, crushed rock; fob Letterman General Hospital, San Francisco.

BID NO. 6849: Granite; fob 3 Potrero Ave., San Francisco.

BID NO. 6850: Terra cotta statuettes; fob Beach and Larkin Sts., San Francisco.

BID NO. 6853: Bars, cesspools, traps, ells, tubing, Y branches, stops, nipples, tees, W. I. pipe, caps, lead, bath tubs, closets, shower, cabinets, shelves, sinks, etc.; fob Fort McDowell, San Francisco.

BID NO. 6854: Special projection apparatus; fob 216 Market St., San Francisco.

BID NO. 6857: Steel pipe elbows, heaters, plates, straps, etc.; fob 900 19th Ave., Oakland.

BID NO. 6858: Lava'ories, closets, urnals, sinks, fountains, holders, seats, valves, putty, screws, anchors, toggle bolts, drills, bolts, bushings, etc.; fob Moscow St. and Geneva Ave., San Francisco.

BID NO. 6859: Concrete sewer pipe; fob Chowchilla.

BIDS OPENED

SAN FRANCISCO.—Bids received as follows by the U. S. Treasury Department, 49 Fourth St., San Francisco, under Bid No. 6860, for fur-

nishing 750 tons of concrete mix; fob Oakland:

Rhodes & Kennedy: \$1,575; \$1181.25; 2% 30.

General Bldg. Mat. Co.; Contra Costa Bldg. Mat.; Rhodes & Jamieson; Albert C. Moe; Charles S. Hughes; Melrose Bldg. Mat.; Alta Bldg. Mat.; and Henry Cowell: identical.

CONTRACTS AWARDED

SAN FRANCISCO.—The following contracts awarded by U. S. Treasury Dept., 49 Fourth St., San Francisco, for furnishing misc. materials and equipment for use on WPA projects:
BID NO. 6803: San Leandro Rock: \$1.15; \$977.50; net; macadam material.

BID NO. 6800: Charles S. Hughes: \$352.35; 2% 30; aggregates.

BID NO. 6787: Loop L. C.: \$2324.48; 2% 30; lumber.

BID NO. 6788: F. Granzotto: \$1.60; \$920; 2% 20; aggregates.

BID NO. 6736: Yellow Truck and Coach Mfg. Co.: \$2875 net; truck; Trailer Co. of America: \$1330; 2% 20; two trailers.

BIDS WANTED

SAN FRANCISCO.—Until Jan. 18, 10 A. M., bids will be received by the U. S. Treasury W. Knox, Procurement Officer, 49 Fourth St. (Room 518), San Francisco, under Bid No. 6861, for the following equipment:

- Lot 1—fob Thornton
- (1) 1 John Deere Hammer Mill, with 6 screens;
 - (2) 1 case 17x22-inch Hay Baler equipped with 20-h.p. Waukesha 4-cylinder gasoline motor;
 - (3) 1 McCormick Deering No. 8 Little Genius Tractor;
 - (4) 2 John Deere No. 902-S Farm Truck Trainers;
 - (5) 1 McCormick Deering No. 4-A All-steel Manure Spreader with steel end gate;
 - (6) 1 D2 Caterpillar 25-drawbar h.p. Tractor;
 - (7) 1 BNH John Deere Tractor;
 - (8) 1 John Deere Power Mower Attachment;

- (9) 1 McCormick Deering 12-foot Self-Dump Hay Rake;
 - (10) 1 Case 8-ft. adjustable Double Disc.
- (11) 1 John Deere Side Delivery Rake.

- Lot 2—fob Winters
- (1) 1 John Deere No. 902-S Farm Truck Tractor;
 - (2) 1 Oliver Row Crop No. 70-KD Tractor;
 - (3) 1 BNH John Deere Tractor;
 - (4) 1 John Deere Power Mower Attachment;
 - (5) 1 McCormick Deering 12-foot Self-Dump Hay Rake;
 - (6) 1 Case 8-ft. adjustable double disc.

CONTRACTS AWARDED

SAN FRANCISCO.—Following contracts awarded by the U. S. Treasury Department, 49 Fourth Street, San Francisco, for furnishing misc. materials and equipment for use on WPA projects:

BID NO. 6783: Du Pont: \$352.50; net; blasting supplies.

BID NO. 6779: Diamond Match Co.: \$262.50; net; Portland cement.

BID NO. 6778: Western Pipe and Steel: \$1200.48; 1/2 of 1%; culvert and couplers.

BID NO. 6777: Hayward Bldg. Material: \$390; net; liquid asphalt.

BID NO. 6776: John Graf: \$837.50; net; aggregates.

BID NO. 6749: P. E. O'Hair: \$324.18; 2%-30; pipe.

BID NO. 6738: Rolph Mills: \$327.30; 1%-20; metal partitions.

BID NO. 6713: Gladding McBean: \$762.71; 2%-20; tile.

BID NO. 6701: Lee J. Immel: \$260; 1%-30; liquid asphalt.

BID NO. 6700: General Elec. Supply Corp.: \$655.88; var. disc.; elec. supplies.

SAN FRANCISCO.—Following contracts awarded by the U. S. Treasury Department, 49 Fourth Street, San Francisco, for furnishing misc. materials and equipment for use on WPA projects:
BID NO. 6795: Calif. Pottery Co.: \$848.23; 2%-30; sewer pipe.
BID NO. 6793: San Joaquin Brick Co.: \$2,014.90; net; gravel.
BID NO. 6781: Central Supply: \$430; 2%-30; aggregates.
BID NO. 6779: United Conc. Pipe Co.: \$2030; 2%-30; conc. pipe.
BID NO. 6773: H. V. Carter Co., Inc.: \$70; net; rental—tractor.

BIDS WANTED

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, 49 Fourth St. (Room 518), San Francisco, for furnishing materials and supplies, as follows:
JANUARY 16, 10 A. M.:

BID NO. 6823: Douglas, redwood, ponderosa pine; fob Stockton;

BID NO. 6842: Steel, ridge cap, nails; fob Benicia;

BID NO. 6843: Asphalt primer, dust; fob Fresno.

BID NO. 6844: Concrete pipe; fob Coolidge and Carmel Sts., Oakland;

BID NO. 6845: C. I. pipe, valves, rings, gaskets and glands, flanges bolts, ells, tees, couplings, etc.; fob Stockton;

BID NO. 6845: Panelboard, switch, fuses, wire, conduits, connectors, paste, fixtures, etc.; fob Ft. McDowell;

BID NO. 6847: Insulators, connectors, wire, straps, switches, brackets, fixtures; fob Fort Scott.

BIDS WANTED

SAN FRANCISCO.—Until Jan. 16, 10:00 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, 49 Fourth St. (Room 518), San Francisco, under Bid No. 6827, for the rental of one portable centrifugal pump, gas engine driven, to be equipped with 20 feet of 2-inch suction hose with foot valve and 200 feet of 2-inch discharge hose; f.o.b. Mills Field, San Mateo County.

28— FIRE EQUIPMENT

NOTICE

REDDING, Shasta Co., Calif.—The PWA has rejected the amendatory application of the City of Redding requesting an increase of \$12,000 in the grant allotment of the municipal water system for the purpose of including the purchase of fire fighting equipment. * 28

29— STREETS AND HIGHWAYS

CONTRACT AWARDED

STATE OF WASHINGTON.—E. F. Rockey & Son, 2705 3rd, N. Seattle, at \$38,804.80, awarded contract by the State of Washington, Director of Highways, L. V. Murrow, Olympia, for clearing, grading, draining, surfacing, manufacturing and stockpiling surfacing materials and mineral aggregate (oil rock) and constructing a light bituminous surface treatment on about 3.1 miles of

Primary State Highway No. 12, Bear River Hill to Jct. SSH No. 12-A, State Project, in Pacific County, Washington. 29

CONTRACT AWARDED

LONG BEACH, Calif.—Sully-Miller Contr. Co., 1526 W Seventh St., Long Beach, at \$26,748.15 awarded contract by R. M. Dorton, city manager, City Hall, Long Beach, for widening and improving Willow Street bet. American Ave. and west city limits, about 1.75 miles, to be financed by quarter-cent gas tax funds. J. W. B. Blackman, city engineer-director of public service. 29

CORRECTION—LOW BIDDER

SAN BERNARDINO CO., Cal.—G. E. Kerns, 3712 Gaviota Ave., Long Beach, at \$44,862.50 submitted low bid to the State Division of Highways, C. H. Furell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asphalt concrete about one-eighth mile east of Los Angeles county line (VIII-SEB-26-C), San Bernardino County. Amount of the low bid previously reported incorrectly. 29

January 9, 1939

BIDS OPENED

STATE OF WASHINGTON—Bids were received and contracts awarded by the State of Washington Directors of Highways, L. V. Murrow, Olympia, for construction, as follows:

Snohomish County: Constructing sidewalks, signals and ladders on four bridges on Primary State Highway No. 1, Everett to Marysville, Bridges State Project, in Snohomish County, Washington, involving about 50 cubic yards of excavation, 345 cubic yards of concrete, 58,000 lbs. of steel reinforcing bars, 181,500 lbs. of structural steel, 34 M.B.M. of treated and 1 M.B.M. of untreated timber and lumber, 9,500 pounds of steel punchings and other items. Awarded: A. W. Stevens Constr. Co., 711 2nd. Mt. Vernon, \$66,230.

Other bidders: L. J. Dowell Inc., Seattle, \$67,925; MacRae Bros., Seattle, \$92,704.

Spokane County: Grading, draining and constructing a reinforced concrete trestle bridge on about 0.1 mile of Primary State Highway No. 2, Liberty Lake Junction to Idaho State Line—Spokane River Bridge, Federal Aid Project No. 50-B (1), in Spokane County, Washington, involving about 10,530 cubic yards of excavation, 2,664 cubic yards of concrete, 520,000 pounds of steel reinforcing bars, 5,700 pounds of structural steel, 1,850 pounds of chromium steel, 320 linear feet of pipe culverts and other items. Awarded: Alloway & Georg, Hutten Bldg., Spokane, \$107,068.

Other bidders: Clifton and Applegate, Spokane, \$115,557; C. A. Power, Spokane, \$121,075; Henry Hagman, Cashmere, \$121,830; David Nygren, Spokane, \$129,484; Siems-Spokeane Co., Spokane, \$144,657.

Clark and Skamania Counties: Grading, draining, surfacing and manufacturing and stockpiling surfacing materials and mineral aggregates (oil rock) on about 9.7 miles of Primary State Highway No. 8, Washougal to Prindlie, State Project, in Clark and Skamania Counties, Washington, involving about 3,380 cubic yards of excavation, 53,170 cubic yards of crushed stone surfacing, 2,150 cubic yards of mineral aggregates (oil rock), 1,610 cubic yards of selected roadway borrow,

770 linear feet of perforated concrete drain pipe, 1,450 linear feet of pipe culvert and other items.

Awarded: A. Milne, 7253 N.E. Broadway, Portland, \$92,128.

Other bidders: Bahler Bros., Portland, \$94,405; The Mirene Co., Portland, \$92,609; Newport Construction Co., Portland, \$95,035; R. C. Dail and Warren Bros., Portland, \$102,576; Homer G. Johnson, Portland, \$103,242; Warren Northwest Inc., Portland, \$107,408.

Clallam County: Clearing, grading, draining and surfacing of about 7.5 miles of Primary State Highway No. 9, Elwha River to Port Angeles, Federal Aid Projects Nos. 166-A (2) and 166-B (4), in Clallam County, Washington, involving 5,480 cubic yards of excavation, 1,820 cubic yds. of shoulder material, 36,940 cubic yards of selected roadway borrow, 12,660 cubic yards of crushed stone surfacing, 4,130 linear feet of half round corrugated metal gutters, 742 linear feet of perforated corrugated iron pipe, 1,541 linear feet of pipe culverts and other items.

Awarded: Allen & Govan Inc., Olympia, \$59,991.

Other bidders: Homer G. Johnson, Portland, \$67,927; C. L. Creelman, Seattle, \$67,988; L. Coluccio and Macri Bros., Seattle, \$72,444; Central Construction Co., \$73,293; Warren Northwest Inc., Portland, \$73,646.

Adams County: Grading, draining, surfacing and constructing a steel and concrete railroad undercrossing on about 2.9 miles of Primary State Highway Nos. 11 and 18, Ritzville West-N.P. Railway Undercrossing and Pitzville South Revision, Federal Aid Projects Nos. 280-C (1) and 93 (2) and Federal Aid Grade Crossing Project No. FAGH 280-D (1), in Adams County, Washington, involving about 87,590 cubic yards of excavation, 18,610 cubic yards of selected roadway borrow, 9,100 cubic yards of crushed stone surfacing on roadway from stockpiles, 759 cubic yards of concrete, 58,310 pounds of steel reinforcing bars, 235,000 pounds of structural steel, 10,000 pounds of cast steel, 602 linear feet of pipe culverts and other items.

Awarded: Henry Hagman, Cashmere, \$84,526.

Other bidders: Elliott and Co., Inc., Seattle, \$84,957; Norris Bros., Burlington, \$91,744; Charles A. Power, Spokane, \$99,908; Goetz and Brennan, Seattle, \$95,870; Newton Construction Co. and Sjoben Bros., Seattle, \$97,012; G. D. Lyon and Co., Spokane, \$100,071; Sather and Sons, Seattle, \$100,988; Clifton and Applegate, Spokane, \$102,780; M. P. Butler, Seattle, \$104,775; Erickson Paving Co., Seattle, \$109,696.

Pacific County: Clearing, grading, draining, surfacing, manufacturing and stockpiling surfacing materials and mineral aggregates (oil rock) and constructing a light bituminous surface treatment on about 3.1 miles of Primary State Highway No. 12, Bear River Hill to Jct. SSH No. 12-A, State Project, in Pacific County, Washington, involving about 4 acres of clearing, 13,970 cubic yards of excavation, 8,750 cubic yards of ballast, 9,510 cubic yards of crushed stone surfacing, 620 cubic yards of mineral aggregates (oil rock), 79 tons of bituminous cement, 656 linear feet of pipe culverts and other items.

Low bidder: E. F. Rockley & Son, 2705 3rd. N., Seattle, \$38,807.

Other bidders: A. Milne, Portland, \$47,904; Homer G. Johnson, Portland, \$59,454; Tidpoint Co., Astoria, Ore., \$59,690; The Mirene Co., Portland, \$59,580; R. O. Dail and Warren Bros., Portland, \$70,077.

Douglas and Grant Cos.: Clearing, grading, draining and surfacing of about 3.3 miles of Secondary State Highway No. 10-B, Leahy to Coulee Dam, Wallace Canyon Section, Federal Aid Secondary Project No. FAS 37-A, in Douglas and Grant Counties, Washington, involving about 180,160 cubic yards of excavation, 9,690 cubic yards of ballast, 5,970 cubic yards of crushed stone surfacing, 1,688 linear feet of pipe culverts and other items.

Awarded: Goetz and Brennan, Seaboard Bldg., Seattle, \$92,007.

Other bidders: Sno- Snokane, \$94,150; Tony Marrazzo, Boise, \$97,582; K. L. Goulter, Seattle, \$97,943; Siems Spokane Co., Spokane, \$102,430; Clifton and Applegate, Spokane, \$106,258; Erickson Paving Co., Seattle, \$106,578; Norris Bros., Burlington, \$112,717; Max J. Kurney Co., Spokane, \$114,244; L. Romano Engineering Corp., Seattle, \$114,196; J. C. Pavin, Carson, \$103,024; P. J. Loran Bros., Seattle, \$114,188; and Co. Inc., Seattle, \$94,509.

29

CONTRACT AWARDED

KINGMAN, Mohave Co., Arizona.—Tanner Const. Co., P. O. Box 1832, Phoenix, at \$209,780.21 awarded the contract by the Arizona State Highway Commission, Phoenix, for highway improvement on FAGH 85-A (1) (1938) (1939) AFE 6603, Kingman-Needles Highway; FA 123-D (1) (1939), AFE 9304, Kingman-Boulder Dam Highway. The work, which is located in and adjacent to the town of Kingman, consists of grading, draining, aggregate base course and oil processing (SC-6 road oil, plant mix) and is to be completed on or before Sept. 30, 1939.

Total bids were: Tanner Const. Co., Phoenix, \$209,780.21.

Pearson and Dickerson, Prescott, \$220,779.94.

Skousen Bros., Albuquerque, N. M. \$225,498.70.

Phoenix Tempe Stone Co., Phoenix \$226,184.77.

Geo. W. Orr, El Paso, Texas, \$231,159.62.

Lee Moor Const. Co., El Paso, Tex., \$244,584.21.

Oswald Bros., Phoenix, and Los Angeles, \$247,700.28.

Unit prices are on file at the office of Daily Pacific Builder, 465 Tenth St., San Francisco. 29

BIDS OPENED

COCONINO COUNTY, Arizona.—Following submitted bids to the U.S. Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, for furnishing 500 tons type SC-2 liquid asphaltic road materials for use on Sections C and D of Rt. 28, Fredonia-Houserock Valley National Forest Highway, Coconino Co., Ariz.

Bids were: The Petrol Corp., \$4.50, f.o.b. Los Angeles.

Richfield Oil Corp., \$4.50; f.o.b. Watsonville.

Union Oil Co., \$5.00; f.o.b. Maltha. Standard Oil Co., \$5.00; f.o.b. Seguro.

CONTRACT AWARDED

RIVERSIDE COUNTY, Calif.—V. R. Dennis Construction Co., 3911 5th Ave., San Diego, at \$172,463.95, awarded contract by the State Division of

Highways, Frank W. Clark, State Director of Public Works, Sacramento, for about 4.8 miles grading and paving with plant mix surfacing and Portland cement concrete between Orange County line and Corona (VIII-Riv-43-A), Riverside County. * 29

BIDS WANTED

ORANGE, Orange Co., Calif.—As previously reported, until Jan. 30, 2 P. M., bids will be received by the State Division of Highways, S. V. Cortelyou, District Engineer, State Building, Los Angeles, for about 0.3 miles grading and surfacing with asphalt concrete on Glassell Avenue, between Fairhaven Ave. and south city limits of Orange (VII-Ora-181-A), Orange Co.

- Work involves:
- (1) 14 sta. clearing and grubbing;
 - (2) 100 M. gals. water in place;
 - (3) 50 cu. yds. removing concrete;
 - (4) 350 cu. yds. roadway excavation without class;
 - (5) 10 cu. yds. imported borrow in place;
 - (7) 2,400 sq. yds. preparing sub-grade;
 - (8) 14 sta. finishing roadway;
 - (9) 5 tons liquid asphalt, SC-2, in place (prime coat);
 - (10) 2 tons liq. asphalt, ROMC-4 or ROMC-5, in place (plant-mixed surfacing);
 - (11) 40 tons mineral aggreg. in place (plant-mixed surfacing);
 - (12) 50 tons liquid asphalt, SC-2, in place (shoulders);
 - (13) 4,100 sq. yds. preparing, mixing, and shaping shoulders;
 - (14) 4 tons asphaltic emulsion in place (paint blinder and seal coat);
 - (15) 500 tons asphalt conc. in place (leveling course);
 - (16) 670 tons asphalt conc. in place (type "A" surface);
 - (17) 52 cu. yds. class "B" Portland cement concrete in place (borders);
 - (18) 20 l.f. 8-in. corr. metal pipe in place;
 - (19) 1 spillway assembly in place;
 - (20) 50 l.f. laminated guard railing in place;
 - (21) 0.1 mi. moving and resetting existing fence.
- Plans and specifications may be obtained from the above office. * 29

BIDS WANTED

HOOD RIVER & MULTNOMAH COUNTIES, Ore.—Until Jan. 25, 10 A. M., bids will be received by the U. S. Bureau of Public Roads, W. H. Lynch, District Engineer, 316 New Post Office Bldg., Portland, Oregon, for approximately 2,026 mi. reconstruction grading, surfacing, and bituminous paving of the Columbia River Highway, National Forest Road Project 28-B3C1, located within Mt. Hood National Forest, Councils of Hood River and Multnomah Oregon.

- Work involves:
- (1) Maintenance of existing road;
 - (2) Extra and misc. force account work;
 - (3) 2 acres grubbing;
 - (4) 33,500 c.y. unclass. excav.;
 - (5) 160,000 sta. yd. special overhaul;
 - (6) 4,500 c.y. ml. special overhaul;
 - (7) 33,000 tons dry choked stone or slag base course;
 - (8) 2,500 tons crusher run bottom course;
 - (9) 12,500 tons crusher run top course;
 - (10) 1,400 tons watering;
 - (11) 100 tons cutback asphalt MC-2 grade for prime coat;

- (12) 4,200 tons EO four application macadam;
- (13) 190 tons EO asphalt;
- (14) 420 l.f. concrete curb of 24-in. depth;
- (15) 950 l.f. floating, non-floating or beam type single element 90,000 lb. guard rail (posts 12 ft 6 in. centers);
- (16) 1,000 sq. yd. dry rubble slope pavement.

Plans and specifications may be obtained from the above office upon the deposit of \$10.00. * 29

CONTRACT AWARDED

MONO COUNTY, Calif.—Jack Casson, 319 Warren St., Hayward, at \$49,877.20, awarded contract by State Division of Highways, Frank W. Clark, State Director of Public Wks., Sacramento, for about 7 miles of grading and road-mix surface treatment and Class A seal coat to be applied on highway between Benton Station and Nevada State Line (IX-Mno-76-B), Mono Co. * 29

Painting—Willcoxon & Wilson, 1724 34th Street.

Plastering—Fred Stuckert, 5331 San Francisco Blvd.

Plumbing—Luppen and Hawley, 3126 J Street.

Roofing—Allyn L. Burr Co., 2417 28th Street.

Sheet Metal—J. H. Mendenall, 321 N 12th St.

All of Sacramento. * 32

33— WATER WORKS

BIDS WANTED

FALLBROOK, San Diego Co., Cal.—Until Jan. 16, 2 P. M., bids will be received by the Fallbrook Public Utility District, Fallbrook, for furnishing all labor, materials, transportation and services necessary for the construction and completion of additional water works improvements for the district, consisting of well drilling, pumping plant, and water mains, and lateral, in accordance with plans and specifications prepared by John H. Chase, consulting engineer, 4734 Somerset Dr., Riverside. Copies of the specifications and drawings may be obtained from the secretary, Katherine McEuen upon deposit of the following amounts: item (1) \$2.50; (2) \$2.50; (3) \$5, and (4) \$10, or \$15 for the entire set of four units.

- The work involves:
- (1) excavation, digging and completion of a 16-inch water well;
 - (2) acquisition, construction & completion of a pumping plant;
 - (3) construction and completion of a concrete reservoir;
 - (4) installation and laying of approx. 50,000 ft. of 12-in. water main and 2000 ft. 8-in. lateral.
- The estimated cost is \$138,919.

BIDS WANTED

VENTURA, Calif.—Until Jan. 23, 5:00 P. M., (opened at 7:30) bids will be received by Ventura city council for construction of untreated water mains and appurtenances from the Kingston reservoir to the city limits, a PWA project.

- Work involves:
- (1) 1837 l.f. 18-in. reinf. concrete pipe;
 - (2) 2 each 18-in. reinf. conc. angle collars;
 - (3) 1855 l.f. 16-in. welded steel pipe;
 - (4) 71 l.f. 6-in. std. steel pipe;
 - (5) 36 l.f. 4-in. same;
 - (6) 10 l.f. 3-in. same;
 - (7) 55 l.f. 2-in. same;
 - (8) 2090 l.f. 6-in. C. I. pipe;
 - (9) 1400 l.f. 4-in. C. I. pipe;
 - (10) 2 only 6-in. std. steel semi welded turns;
 - (11) 1 only 6-in., C. I., 90 deg. bend;
 - (12) 6 only 6-in., C. I., 45 deg. bends;
 - (13) 3 only 6x4-in., C. I. reducers;
 - (14) 1 only 6x6-in., C. I. tee;
 - (15) 1 only 6x4-in., C. I. tee;
 - (16) 1 only 6x3-in., C. I. tee;
 - (17) 3 only 4-in., 90 deg., C. I. bends;
 - (18) 30 only 4-in., 45 deg., C. I. bends;
 - (19) 2 only 4x3-in., C. I. reducers;
 - (20) 5 only 4x2-in., C. I. reducers;
 - (21) 4 only 4-in., C. I. caps;
 - (22) 1 only steel collar and plate for 6-in. service connection to 18-in. reinf. concrete pipe;
 - (23) 1 only 6x1/4x5-in. center Dayton coupling;
 - (24) 1 only 18-in. welded steel connection to existing 30-in. steel pipe;
 - (25) 1 only 4x6-in. nipple;
 - (26) 2 only 3x6-in. nipples;
 - (27) 2 only 2x6-in. nipples;
 - (28) 1 only 16x1/4-in. welded steel cap;
 - (29) 5 only 6-in. welding neck flanges;
 - (30) 3 only 6-in. lateral connections to 24-in. treated water mains;
 - (31) 15 only 4-in. lateral connections to 24-in. treated water mains;
 - (32) 2 only 6-in. tapping valve lateral connections to raw water main;
 - (33) 5 only 4-in. flanged valve lateral connections to steel pipe raw water main;
 - (34) 1 only 3-in. flanged valve lat-

- eral connection to steel pipe raw water main;
- (35) 1 only 2-in. screw valve lateral connection to steel pipe raw water main;
- (36) 2 only 6-in. flanged gate valves;
- (37) 2 only 3-in. same;
- (38) 1 only 4-in. screw gate valve;
- (39) 1 only 2-in. same;
- (40) 1 air vent;
- (41) 1 only air relief valve assembly;
- (42) 5 only air and vacuum valve assemblies;
- (43) 3852 sq. ft. 7-in. cement concrete pave. replacement;
- (44) 6921 sq. ft. plant mix surf. pave. replacement.

Estimated cost, \$31,700. Plans and specifications are available from Carl Froerer, city engineer, upon deposit of \$10. Certified check, 10%, must accompany bid. * 33

BIDS WANTED

SAN FRANCISCO.—Until January 19, 3 P. M., bids will be received by the Public Utilities Commission, Rm. 287, City Hall, under Spec. No. W.D. 201, for the laying of 6- and 8-inch cast iron mains in 33rd, 34th, 35th Avenues and Moraga Street.

- Work involves:
- (1) 3,960 l.f. excavating and backfilling for 6- and 8-inch pipe, trench 17-inches wide by 36-in. deep;
 - (2) 20 c.y. additional excavation and backfill;
 - (3) No item 3;
 - (4) installing pipe:
 - (a) 2,910 l.f. of 6-in. bolted joint cast iron pipe;
 - (b) 1,050 l.f. of 8-in. bell and spigot cast iron pipe;
 - (5) installation of 4,500 lbs. fittings, gate valves, etc.;
 - (6) making 180 l.f. bell and spigot joints for pipe and fittings;
 - (6a) making 485 bolted joints for 6-inch cast iron pipe;
 - (7) 270 sq. ft. of street pavement;
 - (8) installation of 210 3/4-in. screw taps;
 - (9) installation of 4,620 l.f. 3/4-inch galvanized iron service pipe;
 - (10) furnishing cast iron pipe, Class 150:
 - (a) 2,910 l.f. 6-in. bolted joint pipe at \$0.74 per l.f.;
 - (b) 1,050 l.f. 8-in. bell and spigot cast iron pipe at \$1.08 per l.f.;

- (11) furnishing bell end gate valves:
 - (a) 4 six-inch valves at \$17 each;
 - (b) 2 eight-inch valves at \$22.50 ea.
 - (12) furnishing 2,800 bell and spigot cast iron fittings at \$0.66 per lb.;
 - (13) furnishing 500 lbs. steel bands and bolts at \$0.5 per lb.;
 - (14) furnishing 4,620 l.f. 3/4-in. galv. iron service pipe at \$0.66 per l.f.
 - (15) furnishing 3/4-inch fittings for services, lump sum \$361.20;
 - (16) engineering & supervision, lump sum, \$150;
 - (17) connections, lump sum, \$254.
- Plans and specifications may be obtained from the Cashier's office, 6th floor, 425 Mason St., San Francisco, upon deposit of \$5. * 33

BIDS OPENED

SAN FRANCISCO.—E. J. Treacy, 430 Call Building, San Francisco, at \$4,911.30 submitted low bid to the Public Utilities Commission, Room 287, City Hall, San Francisco, under Spec. No. W.D. 188, for the laying of 8-inch cast iron main in Easement at 3rd St. and Islals Creek.

- Work involves:
- (1) 2,230 l.f. excav. and backfill for 8-in. pipe, trench 17-in. wide by 36-in. deep.
 - (2) 25 c.y. additional excavation and backfill;
 - (3) no item 3;
 - (4) installing 2,230 l.f. 8-in. bell and

- spigot cast iron pipe;
 - (5) installing of 2,400 lbs fittings, gate valves, etc.
 - (6) 330 l.f. bell and spigot joints for pipe and fittings.
 - (7) 700 sq. ft. of street pavement;
 - (8) no item 8;
 - (9) no item 9;
 - (10) furnishing 2,230 l.f. 8-in. bell and spigot cast iron pipe. Class 150; at \$1.08 per l.f.;
 - (11) furnishing bell end gate valves:
 - (a) One 4-in. valve at \$12 ea.;
 - (b) Two 8-in. valves at \$22 ea.;
 - (12) furnishing 2,000 lbs. bell and spigot cast iron fitting at \$0.66 each;
 - (13) furnishing 100 lbs. steel band and bolts at \$0.05 per lb.;
 - (14) no item 14;
 - (15) no item 15;
 - (16) Engineering and supervision, lump sum, \$200.00;
 - (17) connections; lump sum, \$133.00.

YAKIMA PROJECT—GOVT)

YAKIMA PROJECT, Wash.—Natt McDougall Co., Portland, Oregon, at \$211,144.50 (Sched. 1) and Macri Bros. and L. Coluccio, Seattle, at \$152,401.75 (Sched. 2) submitted a combination low bid of \$363,547, to the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 815, for the construction of a earthwork, canal lining, and structures, station 1952 to station 2387, Yakima Ridge canal, Roza division, Yakima project, Wash. The work is located near Yakima, Wash. Work involves:

- SCHEDULE NO. 1
- (1) 592,500 c.y. excavation, common, for canal;
 - (2) 24,000 c.y. excavation, rock, for canal;
 - (3) 50,000 c.y. excavation for core banks;
 - (4) 115,000 sta. c.y. overhaul;
 - (5) 3,600 c.y. excavation, common, for structures;
 - (6) 100 c.y. excavation, rock, for structures;
 - (7) 1,000 c.y. excavation, common, for drainage channels and dikes
 - (8) 50 c.y. excavation, rock, for do;
 - (9) 24,500 c.y. compacting embankment;
 - (10) 2,600 sq. yds. preparing rock foundations for concrete lining;
 - (11) 59,000 sq. yds. trimming earth foundations for concrete lining;
 - (12) 15,000 c.y. earth lining of canal;
 - (13) 1,200 c.y. gravel blanket on inside of canal embankment;
 - (14) 3,300 c.y. backfill;
 - (15) 2,000 c.y. puddling or tamping backfill;
 - (16) 645 c.y. concrete in structures;
 - (17) 6,800 c.y. concrete in canal lining;
 - (18) 640,000 lbs. placing reinf. bars;
 - (19) 400 sq. yds. dry-rock paving;
 - (20) constructing 13,300 l.f. 6-inch diam. undergrounds with uncemented joints;
 - (21) laying 500 l.f. 6-in. dia. sewer

- pipe with cemented joints;
 - (22) laying 270 l.f. 12-in. dia. concrete pipe;
 - (23) laying 360 l.f. 18-in. dia. concrete pipe;
 - (24) laying 225 l.f. 30-in. dia. concrete pipe;
 - (25) laying 100 l.f. 36-in. dia. concrete pipe;
 - (26) installing 5,400 lbs. gages;
- SCHEDULE NO. 2:
- (27) 44,500 c.y. excavation, common, for canal;
 - (28) 750 c.y. excavation, rock, for canal;
 - (29) 6,900 c.y. excavation, common, for structures;
 - (30) 525 c.y. excavation, rock, for structures;
 - (31) 33,600 c.y. backfill;
 - (32) 900 c.y. puddling or tamping of backfill;
 - (33) 7,800 c.y. concrete in struc.;
 - (34) placing 1,887,000 lbs. reinf. bars;
 - (35) 600 sq. yds. dry-rock paving;
 - (36) installing 1,500 lbs. blow-off valves and connections.

Total bids follow:
 (A) Natt McDougall Co., Portland (Sch. 1) \$211,144.50; (Sch. 2) \$195,570; total, \$406,714.50.

SAN BERNARDINO CO.—BRIDGE CONST.—(State)

SAN BERNARDINO COUNTY, Cal.—G. E. Kerns, 3712 Gaviota Ave., Long Beach, at \$44,964.50, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asphalt concrete about one-eighth mile east of Los Angeles County line (VII-SBD-26-C), San Bernardino County.

Work involves:

- (1) 260 cu. y. remove conc.;
- (2) 185 M. gals water;
- (3) 2,200 c.y. roadway excav. without class;
- (4) 2,000 cu. y. struc. excav.;
- (5) 5,100 c.y. import. borrow;
- (6) 3,700 sq. yds. prepar. subgrade;
- (7) 11 sta. finish roadway;
- (8) 3,000 sq. yds. prepar. mix and

- shape shoulders;
- (9) 40 tcns liq. asph. SC-2 road mix surf. treat.;
- (10) 1,700 sq. yds. asph. paint blnder;
- (11) 1,725 tcns asph. conc.;
- (12) 193,000 lbs. bar reinf. steel;
- (13) 1,152 c.y. Class A Port. cement conc. struc.;
- (14) 11 c.y. Class A Portland cement concrete railing;
- (15) 630 lbs. misc. iron and steel;
- (16) 1 lot temporary barricades;
- (17) 200 sq. yds. rock and wire bank protection;
- (18) 22 c.y. class A Port. cem. conc. slope paving and cut-off wall;
- (19) 464 l.f. 24-inch CMP;
- (20) 24 l.f. remove, clean and salvage culvert pipe;
- (21) 130 c.y. Class A Port. cem. conc. curbs, sidewalks and driveways;
- (22) 4 each monuments;
- (23) 5 sta. remove traffic stripes;
- (24) 1 lot misc. items of work.

ASK PROPOSALS FOR OVERPASS, FIVE BRIDGES

State Advertis Two North-
ern, Three Southern Calif.
Projects

SACRAMENTO, Jan. 17.—Five contracts covering construction of six bridges and grade separation structures and incidental highway work were ordered advertised for bids today by the State Highway Commission.

Bids on two Northern California projects will be opened in Sacramento February 8, State Highway Engineer C. H. Purcell announced. Proposals for the three remaining jobs, located in Southern California, will be opened February 9 in Los Angeles.

The work covered by the contracts ordered advertised today is located by counties as follows:

Humboldt County: construction of a reinforced concrete slab and girder bridge across Ohman Creek about nine miles north of Garberville. Work includes grading, road-mix surfacing and Class C seal coat to be applied to about two-tenths of a mile. Bids open February 8 in Sacramento.

Stanislaus County: Construction of a steel beam overhead structure with concrete deck across Southern Pacific tracks about four-tenths of a mile south of Turlock, and about three-tenths of a mile of grading and paving with Portland cement concrete. Bids open in Sacramento February 8.

Los Angeles County: Grading and paving four-tenths of a mile and construction of a reinforced concrete bridge on North Figueroa street between Sunset boulevard and Diamond street. Bids open Feb. 9 in Los Angeles.

San Bernardino County: Construction of two reinforced concrete single span slab bridge across Etiwanda wash, one located near Etiwanda avenue about 7 miles east of Ontario, and the other at East avenue about eight miles east of Upland. Bids open in Los Angeles February 9.

ROBERT E. MCKEE LOW ON BARRACKS

Robert E. McKee, 4700 San Fernando road, Los Angeles, yesterday submitted a low bid of \$479,100 to the Constructing Quartermaster at Ft. Mason for construction of Barracks "A" and "B" at Schofield Barracks, T. H. McKee's bid was the only one received at Fort Mason.

Lowest of the bids received at Hickam Field was \$514,700, submitted by Pacific Construction Co., Ltd., Honolulu. Tucker-McClure, Balboa, C. Z., received at New York in the amount of \$521,440.

H. Bertram Heads Master Plumbers

Officers and directors of the Master Plumbers' Association of San Francisco, Inc., to serve during the year 1939, were installed at the year's end, the group reports.

Harold Bertram is the new president, succeeding J. J. McLeod. Other officers are: S. J. DiVecchio, vice-president; Alex M. Forno, secretary; Chas. Noury, treasurer; and Geo. Y. Morton, executive secretary.

Directors to serve in 1939 are: J. J. McLeod, Wm. Monihan, E. A. Balling, Chas. Mayer, Chas. Welch, Kenneth Fahy, Geo. Rehn, Wm. R. Cook, J. Moresco, Wm. G. Koenig, and F. Boysen.

Delaware Firm Bids Boilers for Hawaii

WASHINGTON, D. C., Jan. 18.—Edgemoor Iron Works, Edgemoor, Delaware, today submitted low bid to the Navy Department Bureau of Yards and Docks on boilers for Pearl Harbor, T. H.

Amount of the Delaware firm's low proposal was \$288,157 on Item One and \$280,745 on Item Two.

Industrial Piping & Engineering Co., Baltimore, was second low bidder at \$297,500 for the first item. The Baltimore bidder submitted no price on Item Two.

JOSEPH SHAW BIDS TEHAMA HIGHWAY JOB

Oakland Bidder Low at \$110,-
000 on Bureau Grading,
Bridge Work

Joseph Shaw, Oakland, at \$110,000.31, yesterday submitted the low bid to District Engineer C. H. Sweetser of the U. S. Bureau of Public Roads, San Francisco, for 1,098 miles of grading and constructing bridges on portions of Section A, B, C and E of Route 21, the Deer Creek Meadows National Forest Highway in Tehama county.

The second lowest bid was submitted by Hemstreet and Bell, at \$119,095.60, followed by Bennett & Taylor, at \$127,325.97.

Other bidders were: J. S. Metzger, \$130,867.50; C. W. Caletti and Co., \$132,739.93; Fred J. Maurer & Son, \$134,745.40; United Concrete Pipe Corp., \$136,541.85; Heafey-Moore and Fredrickson & Watson Construction Co., \$138,583.95; Union Paving Co., \$139,445.40; A. Soda and Son, \$143,318.84; Campbell Construction Co., \$144,029.05; Albert H. Siemer and John Carcano, \$146,860; A. Teichert and Son, \$152,118.26; C. J. Montague & Son, \$153,000; and R. G. Clifford, \$157,552.90.

Principal items included: 13,500 cubic yards of unclassified excavation; 3,407 cubic yards of unclassified excavation for structures; 1,600 cubic yards of unclassified excavation for borrow; 4,100 cubic yard miles haul; 1,159 cubic yards of Class A concrete; 287 cu. yds. of Class B concrete; 517 cu. yds. of Class D concrete; 225,510 lbs. of reinforcing steel; 391,700 lbs. of structural steel; 3.9 M FBM of untreated timber, including bridge iron.

Bids were taken under advisement by District Engineer C. H. Sweetser.

Factory sales of mechanical stokers during November, 1938, amounted to 7,917 units, as compared to 6,500 units sold during November, 1937, according to the monthly report of the Bureau of Census.

BIDS WANTED
 COLORADO - BIG THOMPSON PROJECT.—Until February 2, 10 A. M., bids will be received by the U. S. Bureau of Reclamation, Denver, under Spec. No. 1175-D, for the construction of a transmission line from Loveland, Colo., to the east portal of the Continental Divide tunnel, near Estes Park, Colorado, Colorado - Big Thompson project, Colo.

The section of the line between Estes Park and the east portal of the Continental Divide tunnel will be about six miles long and will be constructed as a 33,000-volt, 3-phase, single-circuit, 60-cycle, single-pole line with pin-type insulators for 44,000-volt operation. The conductors for this section will be No. 4 AWG bare copper conductors. The section of the line from Estes Park to a point approximately 8 miles west of Loveland will be about 16 1/2 miles long and will be constructed as a 115,000-volt, 3-phase, single-circuit, 60-cycle, H-frame, wood-pole line. The conductors for this section will be 397,500-circular mil A.C.S.R. The section of the line from the end of the section described above to a point approximately one mile south of Loveland will be about 7 1/2 miles long and will be constructed as a 44,000-volt, 3-phase, single-circuit, 60 cycle, single-pole line with pin-type insulators. The conductors for this section will be No. 2/0 A.C.R.S. The

schedule is prepared on the basis of unit prices for constructing 341 pole structures of various types, attaching X-braces, constructing guys, placing plate and rock anchors, and stringing conductors.

Some of the materials are to be furnished by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$5.00, not returnable. 19

21— BRIDGES

CONTRACT AWARDED

SAN BERNARDINO CO., Cal.—G. E. Kerns, 3712 Gavilota Ave., Long Beach, at \$44,862.50 awarded contract by the State Division of Highways, Frank W. Clark, State Director of Public Works, Sacramento, for the construction of a reinforced concrete slab bridge across San Antonio Wash and about 0.2 mile of grading and paving with asph. concrete about 1/8 mile east of Los Angeles county line (VIII-SBD-26-C), San Bernardino County. * 21

BIDS WANTED

STANISLAUS COUNTY, Cal.—Until February 8, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for the construction of a steel beam overhead structure with concrete deck across the tracks of the Southern Pacific railroad and about 0.3 mile of grading and paving with portland cement concrete and asphalt concrete about 0.4 mile south of Turlock, Stanislaus Co.

Work involves:

- (1) 31 sta. clear and grub;
- (2) 500 c.y. remove concrete;
- (3) 875 M. gals. water;
- (4) 1,350 c.y. rdwy. excav., unclass.;
- (5) 2,500 c.y. struc. excav.;
- (6) 27,750 c.y. imported borrow;
- (7) 7,470 sq. yds. prepare subgrade;
- (8) 31 sta. finish rdwy.;
- (9) 2,750 tons untreated crushed gravel or stone surf.;
- (10) 530 c.y. salvage surf.;
- (11) 17 tons liquid asph. SC-2 prime coat shouldered and penetration oil treatment;
- (12) 63 tons liquid asphalt ROMC-3 or -4 or -5 plant mix surf.;
- (13) 1,250 tons min. agg. plant mix surf.;
- (14) 7 tons asph. emulsion seal coat and paint binder;
- (15) 65 tons screenings seal coat;
- (16) 1,000 sq. yds. prepare, mix and shape shouldered;
- (17) 410 tons asph. concrete;
- (18) 1,290 c.y. Class B portland cement concrete pave.;
- (19) 2,520 each pavement dowels;
- (20) 1,050 each tie bolt assemblies;
- (21) 683,000 lbs. bar reinf. steel;
- (22) 4,523 c.y. Class A portland cement concrete struc.;
- (23) 1,664,000 lbs. struc. steel;
- (24) 43,000 lbs. blast plates;
- (25) 4,050 lbs. misc. steel;
- (26) 2,560 l.f. steel railing;
- (27) 21,275 l.f. furnish treated Douglas fir piles including test piles;
- (28) 839 each drive do.;
- (29) 26 l.f. 12-inch CMP;
- (30) 36 l.f. 18-inch CMP;

- (31) 3 each cast steel frames and covers for drop inlets;
 - (32) 375 c.y. Class A portland cement conc. curbs, gutters, and sidewalks;
 - (33) 6 ea. culvert markers and guide posts;
 - (34) 0.72 mile new property fence;
 - (35) 7 each drive gates;
 - (36) 1,250 lbs. sheet copper;
 - (37) 19 each monuments;
 - (38) 6 sections pavement crossing devices, type B-12;
 - (39) 1 lot misc. items of work.
- Plans and specifications may be obtained from the above office. * 21

BIDS WANTED

SAN BERNARDINO CO., Calif.—Until February 9, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of two reinforced concrete single span slab bridges, one located near Etiwanda Ave. about 7 miles east of Ontario (VIII-Sbd-26-D), and the other located at East Ave. about 8 miles east of Upland (VIII-Sbd-9-A), San Bernardino county, and approx. 0.04 mile of grading and paving with portland cement concrete and asphalt concrete on approaches.

Work involves:

- (1) 322 c.y. remove and dispose of existing concrete;
 - (2) 16 M. gals. water;
 - (3) 1,200 c.y. rdwy. excav., unclass.;
 - (4) 1,090 c.y. struc. excav.;
 - (5) 1,980 sq. yds. subgrade for pave.;
 - (6) 5 sta. finish rdwy.;
 - (7) 82 tons plant mix surf.;
 - (8) 480 tons asph. conc.;
 - (9) 15 c.y. Class A portland cement concrete pave.;
 - (10) 123,000 lbs. bar reinf. steel;
 - (11) 782 c.y. Class A portland cement conc. struc.;
 - (12) 328 l.f. furnish steel piles including test piles;
 - (13) 20 each drive do.;
 - (14) 238 l.f. timber bridge railing;
 - (15) 1 lot temporary barricade;
 - (16) 130 l.f. temporary guard railing;
 - (17) 35 c.y. broken concrete riprap;
 - (18) 35 sq. yds. Class A portland cement conc. articulated apron;
 - (19) 15 each guide posts;
 - (20) 3 each monuments;
 - (21) 1 lot misc. items of work.
- Plans and specifications may be obtained from the State Highway Engineer, Public Works Building, Sacramento. * 21

BIDS WANTED

HUMBOLDT COUNTY, Calif.—Until Feb. 8, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway

Engineer, Public Works, Building, Sacramento, for the construction of a reinforced concrete slab and girder bridge across Ohman Creek and about 0.2 mile grading and surfacing with road mix surfacing and a Class "C" seal coat about 9 miles north of Garberville, Humboldt County.

Work involves:

- (1) 2 acres clear and grub;
- (2) 7 each remove and grub redwood trees, size 1;
- (3) 1 each remove and grub redwood trees, size 2;
- (4) 1 each remove and grub redwood trees, size 3;
- (5) 1 each remove redwood trees, size 3;
- (6) 67 M. gals. water;
- (7) 1,700 cu. yds. roadway excavation without class.;
- (8) 340 cu. yds. struc. excav.;
- (9) 2,500 cu. yds. import. borrow;
- (10) 12 sta. finish roadwy.;
- (11) 6 tons liq. asph. SC-1A prime coat;
- (12) 440 cu. yds. min. agg. road mix surfacing;
- (13) 34 tons liq. asph. SC-4 road mix surfacing;
- (14) 5 tons asph. emulsion seal coat;
- (15) 60 cu. yds. screen seal coat;
- (16) 96,000 lbs. bar reinf. steel;
- (17) 28 cu. yds. class A Portland cement concrete footing block;
- (18) 318 cu. yds. class A Portland cement concrete struc.;
- (19) 382 lin. ft. timber rail;
- (20) 6 M ft. Board measure second hand timber detour bridge;
- (21) 1,155 lin. ft. furnish untreated timber piles detour bridge;
- (22) 33 each driving untreated timber piles detour bridge;
- (23) 384 lin. ft. furnish cast in place concrete piles;
- (24) 12 each drive steel shells;
- (25) 140 lin. ft. 18-in. CMP;
- (26) 4 each culvert markers;
- (27) 0.18 mile new property fence;
- (28) 1 each drive gate;
- (29) 8 each monuments;
- (30) 1 lot temporary barricades;
- (31) 1 lot jacking operations;
- (32) 1 lot remove portions of existing bridge;
- (33) 1 lot remove detour bridge;
- (34) 1 lot misc. items of work.

The state will furnish C. M. O. P. and band couplers.

Plans and specifications may be obtained from the above office. * 21

CONTRACT AWARDED

SAN BERNARDINO CO., Calif.—R. M. Price, 5400 Imperial Highway, South Gate, at \$35,924.90 awarded contract by the State Division of Highways, Frank W. Clark, State Director of Public Works, Sacramento, for the construction of a bridge 408 feet in length, consisting of timber stringer spans with concrete deck on pile bents, the roadway approaches to be graded, imported surf. material to be placed thereon, and road mix surfacing treatment applied, across Mojave River at Baker (VIII-SBD-31-K), San Bernardino County. * 21

BIDS WANTED

LOS ANGELES COUNTY, Calif.—Until Feb. 9, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Building, Los Angeles, for the construction of a reinforced concrete bridge and about 0.4 mile grading and paving with

Capital City Title Company

JAMES E. BANCROFT

Manager

801 J Street
Sacramento : California

asphalt concrete and Portland cement concrete pavement on North Figueroa Street, between Sunset Blvd. and Diamond Street, (VII-LA-165-LA), Los Angeles County. Work involves:

- (1) Clear and grub;
- (2) 500 M gals water;
- (3) 3,400 cu. yds. remove concrete;
- (4) 31,500 c.y. roadway excavation without class;
- (5) 10,900 tons imp. subgrade material;
- (6) 34,000 c.y. struc. excav.;
- (7) 4,900 c.y. imp. struct. backfilling material;
- (8) 17,300 sq. yds. prepar. subgrade;
- (9) finish roadway;
- (10) 9,500 tons asph. concrete;
- (11) 13 tons asph. emulsion paint binder and seal coat;
- (12) 710 c.v. class B Portland cement concrete pavement;
- (13) 3,700 c.v. class A Portland cement concrete struc.;
- (14) 270 c.y. class F Portland cement concrete strcuts.;
- (15) 66 c.y. class A Portland cement concrete railing;
- (16) 1,042,000 lbs. bar reinf. steel pave. and struc.;
- (17) 1,300 each pave. dowels;
- (18) 310 sq. vds. mesh reinf.;
- (19) 19,500 lbs. misc. iron and steel;
- (20) 700 lin. ft. furnish cast in place concrete piles;
- (21) 36 each drive steel shells;
- (22) 770 lf. 12-in. stand. reinf. conc. pipe;
- (23) 390 lf. 15-in. do;
- (24) 350 lf. 18-in. do;
- (25) 420 lf. 21-in. do;
- (26) 270 lf. 24-in. special reinf. concrete pipe;
- (27) 10 lf. 27-in. do;
- (28) 150 lf. 30-in. do;
- (29) 30 lf. 33-in. do;
- (30) 120 lf. 36-in. do;
- (31) 140 lf. 42-in. do;
- (32) 870 lf. 54-in. do;
- (33) 340 lf. 72-in. do;
- (34) 430 lf. 84-in. do;
- (35) 4 lf. 8-in. CMP;
- (36) 300 lf. 8-in. perf. metal pipe undergrains;
- (37) 20 c.v. rock filling material;
- (38) 1,320 lf. 6-in. vit. clay pipe;
- (39) 1,420 lf. 8-in. vit. clay pipe extra strength;
- (40) 1,020 lf. 10-in. do;
- (41) 330 lf. 12-in. do;
- (42) 630 c.v. class C Portland cement concrete pipe reinf.;
- (43) 870 lf. 3-in. cast iron pipe;
- (44) 1,020 c.v. class A Portland cement concrete curbs, gutters, sidewalks and driveways;
- (45) 600 lf. curb armor;
- (46) 6,200 lf. curb bar;
- (47) 40 lf. pipe shaft manholes;
- (48) 4 each sewer manholes, type S;
- (49) 4 each sewer manholes, type B;
- (50) 1 each sewer manhole, type B JCF;
- (51) 3 each reconstruct exist. manholes;
- (52) 7 each adjust manholes to grade;
- (53) 7 each tying in house connections;
- (54) reconstruct exist. street lighting system at Temple street;
- (55) 70 lf. 1½-in. electrical conduit;
- (56) 190 lf. 2-in. elec. conduit;
- (57) 500 sq. yds. membrane waterproofing;
- (58) 6,200 sq. ft. deck waterproofing;
- (59) 252 sq. yds. glazed tile work;
- (60) electrical equipment bridge;
- (61) misc. bridge items of work.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Building, Sacramento. * 21

BIDS WANTED

WINSLOW, Navajo Co., Arizona.—Until January 27, 10 A. M., bids will

be received by Arizona State Highway Commission, Phoenix, for construction of steel plate girder bridge on concrete pile foundations at the highway crossing of the Little Colorado River about 2½ miles east of Winslow on Holbrook-Winslow Highway. FA 40-B (1) (1939) AFE 6605.

- Work involves:
- (1) 880 c.y. struc. excav.;
 - (2) 972 c.y. Class A concrete;
 - (3) 655 c.y. Class C concrete;
 - (4) 188,200 lbs. reinf. steel;
 - (5) 746,600 lbs. struc. steel;
 - (6) 6,830 lf. concrete piles;
 - (7) 164 each driving piles;
 - (8) 145 lf. concrete test piles;
 - (9) 3 each driving test piles;
 - (10) 8,420 lf. steel sheet piling;
 - (11) 248 each driving steel sheet piling;
 - (12) 1,300 c.y. rock backfill.

Certified or cashier's check for \$500 must accompany bid. Howard S. Reed, State Highway Engineer.

LOW BID REJECTED

SAN BERNARDINO CO., Calif.—The bid of Edward Green, at \$35,278, on the bridge across the Mojave River at Baker, San Bernardino Co. (VII-SBd-31-K), has been rejected by the State Highway Engineer, placing R. M. Price of Huntington Park at \$35,924 in first place. The low bid irregular. * 21

22—DREDGING HARBOR WORKS, EXCAVATION

CONTRACT AWARDED

OXNARD, Ventura Co., Calif.—Standard Dredging Co., 325 Central Bldg., Los Angeles, at \$957,410, awarded contract by Oxnard Harbor District, for construction of work for harbor development at Point Huemene, Ventura County. Rohl-Connelly Co., 4351 Valley Blvd., Los Angeles, was named as sub-contractor for schedules 2, 3, 4 and 5. Quinton, Code & Hill-Leeds and Barnard, Edison Bldg., Los Angeles, consulting engineers. * 22

23—CANALS

CONTRACT AWARDED

YAKIMA PROJECT, Wash.—J. A. Terteling and Sons, Box 1406, Boise, Idaho, at \$448,335.70, awarded contract by the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 813, for the construction of earthwork, tunnels, canal lining, and structures, station 1641 plus 15 to station 1952 plus 09, Yakima Ridge canal, Roza division, Yakima Project, Wash. * 23

24—STREET LIGHTING

CONTRACT AWARDED

LOS ANGELES CO., Calif.—R. H. Walker, 1307 W. 48th St., Los Angeles, awarded contract by the Los Angeles County Supervisors for the construction of street lighting system in Bellflower Blvd., between Park Ave. and east prolongation of Mayne St., and in first alley north of Oak Ave. and east from Bellflower Blvd., County Improvement No. 1019, involving 32 pressed steel standards, with cables, conduits, lamps, wire, and other appliances, in accordance with plans and specifications prepared by Alfred Jones, County Surveyor. Other bids were: Marbelite Corp. of America, Ltd. \$9415
A. C. Rice 8590
Joseph Korb 8594
H. O. Bauerle 8876
Newberry Elec. Corp. 8883

25—MACHINERY AND EQUIPMENT

BIDS WANTED

BERKELEY, Alameda Co., Calif.—Until Jan. 31, 10:00 A. M., bids will be received by the Berkeley City Council, Florence Turner, City Clerk, for ambulance.

Plans and specifications may be obtained from the above office. * 25

BIDS OPENED

SACRAMENTO, Calif.—Following submitted bids to the State Purchasing Agent, Sacramento, under Quot. No. 35770, Req. No. 13859, for one 8-ft. pneumatic tired, leaning-wheel grader without scarifier; f.o.b. Fruitvale, Oakland.

Bids were:
Knox Hale Co., \$1,160.00; 21 days (delivery); 2% 25 days.
Weaver Tractor and Equipment Co., \$1,070.41; 14 days; \$25 disc. 30 days.

Harron, Rickard and McCone, \$1,147.00; one day; \$18.40 disc. 30 days.

J. D. Adams Co., \$1,118.00; two days; net. * 25

BIDS OPENED

SACRAMENTO, Calif.—Following submitted bids to the State Purchasing Agent, Sacramento, under Quot. No. 35381, Req. No. 30765, for one 7-S standard concrete mixer mounted on 4 pneumatic tired wheels with roller bearings; f.o.b. Stockton State Hospital.

Bids were:
Industrial Equipment Co., \$949.15; 17 days (delivery); net.
Spears-Wells Mchy. Co., \$1,202; 15 days; \$50 disc. 30 days.
Harron, Rickard & McCone, \$1,081.00; 10 days; \$63 disc. 30 days.
Associated Equipment Co., \$971.20; alt. \$1,016.57; 15 days; 2%-10 days.
A. L. Young Mchy. Co., \$1,183.45; 10 days, net.

Knox Hale Mchy. Co., \$1,251.00; 20 days; 2% 25 days.

Jenison Mchy. Co., \$1,159.00; 15 days; 5% 10 days.

E. F. Bacon Co., \$1,192.50; one day; 5% 30 days; alt. \$1,132.50; one day; 5% 30 days.

Norris K. Davis, \$975.00; 14 days; 2% 10 days; alt. \$1,005.00; 14 days; 2% 10 days. * 25

BIDS WANTED

PHOENIX, Maricopa Co., Ariz.—Until January 24, 10 A. M., bids will be received by the Arizona State Highway Department, Phoenix, for furnishing one electric bridge crane of 15-ton minimum capacity and minimum lift of 23 ft. with assembly and beam complete for 50-ft. span center of rails. The department proposes to trade in this purchase one 20-ton steam hoist mounted on standard gauge railway flat car. Specifications may be obtained from the equipment engineer of the highway department. Howard S. Reed, state highway engineer. * 25

BIDS WANTED

TONOPAH, Nye Co., Nevada.—Until Feb. 7, 10:00 A. M., bids will be received by the Board of County Commissioners, Nye County, for furnishing two dump trucks with cabs, each to have a capacity of 6000 lbs. net, dual tires, with 3-cu. yd. reinforced heavy duty dump body, with hydraulic hoist; trucks to be 1938 model heavy duty with four-wheel hydraulic brakes. Thos. R. McCulloch, Chairman; Frank E. Bell, Clerk of the Board. * 25

CONTRACTS AWARDED

LOS ANGELES, Calif.—Contracts for porcelain suspension insulators, Spec. 2695, were awarded by Los Angeles Water & Power Commission as follows:

General Elec. Supply Co., items 1 and 3 at \$71,291.91.
Ohio Brass Co., items 2 and 4, \$50,752.80. *

BIDS OPENED

PORTLAND, Ore.—Nelly Co., Los Angeles, at \$3,158.00, submitted low bid to the Bonneville Project, Portland, Oregon, under Invt. 98, for guy strand for Vancouver-Eugene line of Bonneville transmission system; f.o.b. destination.

Total bids were:

Nelly Co., Los Angeles.....\$3,158.00
Graybar Electric Co.,
Portland 3,841.08
Indiana Steel & Wire Co.,
Muncie, Indiana 3,875.55
Electric Steel Foundry Co.,
Portland 4,595.00
Line Material Co., Portland, 4,636.00
Columbia Steel Co., Portland, 4,636.53
Westinghouse Electric Supply
Co., Portland 4,636.53
Beebe Co., Portland 4,636.53
John A. Roebing's Sons
Co., Portland 4,638.44
Jobbers Supply Co., Portland, 4,638.44
A. Leschen Co., Kenosha,
Wisc. 4,697.42
Bethlehem Steel Co. 4,701.89
Wire Rope Mfg. and Equip-
ment Co., Seattle 4,712.24
General Electric Supply Co.,
Portland 4,939.76
McWhyte Co., Portland 4,952.67
Pacific Wire Rope Co.,
Portland 5,101.23

BIDS OPENED

LOS ANGELES, Calif.—Bids for furnishing three 4-ft. diam. steel discharge pipe lines, each approximately 630 ft. long, and performing the field welding required for their erection for the Flathead River pumping plant, Flathead Irrigation Project, near Polson, Mont., Adv. FO-9, were opened by U. S. Indian Irrigation Service, Los Angeles. Items were:

(1) Lump sum—steel discharge pipe lines, including ring girders, rocker supports, elbows and bends, special fittings, discharge flap valves, vents, manholes, expansion joints, stairway, interior coating and painting and all necessary appurtenances and accessories required for a complete job and including the field welding and application of protective coating at the field joints;

(2) Addition to or deductions from the place work included under item 1;

(3) Additions to or deductions from any of the steel work included under item 1.

Bids were:

Western Pipe & Steel Co., San Francisco, (1) \$28,965, f.o.b. San Francisco, (2) \$.04, (3) \$.11; net. Start within 1 day and complete within 80 days for fabrication ready to ship; 40 days for erecting and assembling.

Puget Sound Machinery Depot, Seattle, (1) \$30,245, f.o.b. Seattle; (2) \$.06, (3) \$.08; net. Start within 10 days and complete within 80 days.

Southwest Welding & Mfg. Co., Alhambra, (1) \$29,361, f.o.b. Alhambra; \$38,261 f.o.b. Polson; (2) \$.055 and \$.07, (3) \$.15 and \$.18; net. Start within 10 days and complete within 120 days.

Thompson Mfg. Co., Denver, (1) \$30,717.92 f.o.b. Polson, Mont.; (2)

\$.0584, (3) \$.1487. Start within 30 days and complete within 80 days (84-in. long sections, 1-longitudinal seam—change from spec.). Consolidated Steel Corp., (1) \$31,080, f.o.b. Los Angeles; \$36,660 f.o.b. Polson, Mont.; (2) \$.043 and \$.055, (3) \$.0825 and \$.095; net. Start within 1 day and complete within 80 days.

Hydraulic Supply Mfg. Co., Seattle, Wash., (1) \$39,997.50, f.o.b. Seattle; (2) \$.08, (3) \$.10. Complete within 80 days (6x6 15½ lb. beams not to be used; change from spec.).

Berkeley Steel Constr. Co., (1) \$33,921, f.o.b. Berkeley; (2) \$.08, (3) \$.12; net. Start within 10 days and complete within 120 days.

Chicago Bridge & Iron Co., (1) \$35,800, f.o.b. Boyles, Ala., (2) \$.088, (3) \$.09; net. Start within 2 days and complete within 80 days. *

BIDS WANTED

WASHINGTON, D. C.—Bids will be received by the Division of Purchases, Sales and Traffic, Department of Agriculture, Washington, D. C., for miscellaneous supplies, as follows:

PRO. NO. 4493: One diesel powered shovel, 14-c.y. for Tucson, Ariz.; January 20.

PRO. NO. 4487: One wind transmitter, for Whittier, Calif.; Jan. 24. *

BIDS OPENED

SEATTLE, Washington.—Commercial Iron Works, Portland, at \$155,000, 225 days for completion, submitted low bid to Naval Architect Carl J. Nordstrom, National Building, for all-steel bulk oil carrier for Petroleum Navigation Co.

Total bids follow:

Commercial Iron Works, Portland, \$155,000, 225 days.

Bethlehem Steel Co., San Francisco, \$225,000, 210 days.

Todd Seattle Dry Docks, \$157,000, 180 days.

Lake Union Dry Dock and Machine Works, \$161,671, 210 days.

Lake Washington Shipyards, \$163,625, 270 days.

Winslow Marine Railway and Shipping Co., \$167,500, 220 days.

Los Angeles Shipyards, \$189,500, 155 days.

Washington Iron Works, Seattle, at \$25,389, submitted low bid for engine. *

No. 109, for 1,202,000 lf. conductor, 250,000 cm., 240 connectors, 500 deadends, 2 complete sets of special portable equipment for installing connectors and deadends, for Vancouver-Eugene, 115-kv transmission line (section from Salem to Eugene).

Other bids (using copper conductor) were:

Phelps-Wodge Copper Corp.....\$140,543
Anaconda Wire and Cable
Company 166,302
General Cable Corp. 166,922 *

CONTRACTS AWARDED

SACRAMENTO, Calif.—Pacific Foundry Co., Ltd., 3100 19th Street, San Francisco, at (1) \$3735 and (2) \$20, and Neptune Machine Works, 221 Tehama St., San Francisco, at (3) \$124, 2% 10 days, 1% 20 days, awarded contracts by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-39-159, for furnishing: (1) 3 dredge pump impellers; (2) one rough h.p. ring casting; and (3) one L.P. slide valve; fob Rio Vista.

Total bids follow:

Stockton Iron Works, Stockton, (1) \$5400; (2) \$29.

Golden State Miners Iron Works, San Francisco, (1) \$3945; (3) \$135; ½ of 1% 30 days.

General Engr. & Drydock Co., San Francisco, (1) \$5243; (2) \$235.

Moore Dry Dock Co., Oakland, (1) \$11510; (2) \$25; (3) \$204.

Neptune Machine Works, San Francisco, (3) \$124; 2% 10 days, 1% 20 days.

Pacific Foundry Co., Ltd., (1) \$3,735; (2) \$20; (3) \$160.

Bethlehem Steel Co., San Francisco, (1) \$4800. *

CONTRACTS AWARDED

KENDRICK PROJ., Wyo.—Contracts for control metering and switching equipment, transformers and lightning arrestors for Greeley and Cheyenne project substations, Kendrick project, Spec. 1146-D, were awarded by Bureau of Reclamation, Washington, D. C., as follows: Westinghouse Elec. & Mfg. Co., Denver, Sched. 2, \$8947.70; Sched. 4, \$1528; Sched. 5, \$498.96; Sched. 6, \$15,550. Memco Engr. & Mfg. Co., Long Island City, N. Y., Sched. 7, at \$10,150. *

BIDS WANTED

PORTLAND, Ore.—Until Jan. 31, 10:30 A. M., bids will be received by the Bonneville Project, 811 NE Oregon, for three 25,000-kva, 60-cycle oil insulated self-cooled outdoor type transformers 230-kv to 115 and 13.8-kv.

Plans and specifications may be obtained from the above office. *

BIDS WANTED

YAKIMA PROJECT.—Until Feb. 8, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 822, for furnishing and delivering two motor-driven gate hoists for operating the two 110-foot roller gates at the Roza diversion dam,

Roa division, Yakima Project, Wash. The gate hoists will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$2.50, not returnable. 25

BIDS WANTED

GILA PROJECT, Arizona.—Until January 31, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 1177-D, for furnishing and delivering top-seal radial gates and radial-gate operating and control equipment for the Gravity Main Canal, Gila Project, Arizona; f.o.b. shipping point and/or Blaisdell, Arizona. The material will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$2.50 not returnable. 25

BIDS WANTED

CENTRAL VALLEY PROJECT.—Until January 30, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 1176-D, for furnishing and delivering one full-revolving, convertible-type, truck crane with power-shovel attachment, mounted on a four-wheel drive, heavy-duty truck for use in handling materials at Shasta Dam, Kennett division, Central Valley Project.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$0.25, not returnable. 25

BIDS OPENED

OAKLAND, Calif.—Following submitted bids to the East Bay Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. No. 1123, for the rental of truck.

Bids taken on:
(1) rental loaded by hand;
(2) rental loaded by power.
Complete bids were:
Bruno & Skibo, (1) \$1,390; (2) \$1,790.

Portola Truck Service, (1) \$1,570; (2) \$1,970.

A. J. McCosker, (1) \$1,600; (2) \$2,000.
S. Gracotto, (1) \$2,960; (2) \$2,960.
Wm. Cowen, (1) \$2,800; (2) \$3,200.

BIDS OPENED

LOS ANGELES COUNTY, Calif.—Bids for the rental of a 105-cu ft. air compressor, for use on jobs in Los Angeles and Orange counties, opened by the State Highway Dept., Los Angeles, were:

M. A. Pryor, Chicago Pneumatic 1937, \$4.50 hour.
Foster Sand & Gravel Co., Gardner-Denver 160 cu. ft., \$4.50 hour.
Pneumatic Mchy. Co., Inc., Gardner-Denver 1937, \$3.84 hour. 25

LOW BIDDER

PORTLAND, Ore.—Graybar Electric Co., 809 N.W. Flanders, Portland, at \$4654, f.o.b. shipping point; and \$5306, f.o.b. delivery points, submitted low bid to the Bonneville Project, 811 N.E. Oregon, for conductor and ground wire hardware. 25

BIDS OPENED

OAKLAND, Cal.—Challenger Fire Equipment Co., at \$4117.73 submitted low bid to the East Bay Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. No. 1121, for one special motor truck chassis.

Total bids follow:

Challenger Fire Equipment Co., \$4,117.73.
Yellow Truck & Coach Mfg. Co., (alt.) 273.52.
Challenger Fire Equipment Co., (alt. bid) \$4,450.06.
Yellow Truck & Coach Mfg. Co., (alt. bid) \$4,569.08.
Sterling Motors Corp., \$4,854.39.
White Motors Corp., \$4,870.71.
Kenworth Motor Truck Corp., \$5,084.00. 25

BIDS WANTED

PORTLAND, Ore.—Until January 25, 11 A. M., bids will be received by the U. S. Engineer Office, Pittock Bldg., Portland, for one 10-kw motor, generator, 220- and 440-volts AC to 115- and 230- volts DC, complete and ready for installation in U. S. Dredge "Pacific", 8010 NW St. Helens Road.

Plans and specifications may be obtained from the above office. 25

BIDS WANTED

PORTLAND, Oregon.—Until Jan. 31, 10:30 A. M., bids will be received by the Bonneville Project, 811 N. E. Oregon, Portland, under Invt. 131, for 3 single-phase, 25,000 KVA, 60-cycle, oil insulated, self-cooled outdoor type transformer, f.o.b. Ampere, Wash., (North Vancouver) or f.o.b. shipping point.

Plans and specifications may be obtained from the above office. 25

BIDS OPENED

LOS ANGELES, Calif.—Bids for electric generator unit for Seal Beach steam plant, Spec. 2856, were opened by Los Angeles Water & Power Purchasing Agent, as follows:

Elliott Co. (1) automatic, quick starting, non-condensing, steam turbine, electric generator unit, \$53,800; (alt.) with closed system of generator ventilation with air coolers, \$56,800; (2) collector ring brushes and brush holders, \$128; (3) same for exciter, \$24; (4) erecting engineer, per day, \$27.

General Electric Co. (1) \$54,408; (alt.) \$57,418; (2) \$30; (3) \$35; (4) \$28.

Worthington Pump & Mchy. Corp.: (1) \$55,180; (lt.) \$57,545; (2) \$40; (3) \$30; (4) \$25.

Murray Iron Works: (1) \$57,643; (alt.) \$59,843; (2) \$42; (3) \$32; (4) \$50.00.

Westinghouse Elec. & Mfg. Co. (1) \$58,750; (alt.) \$61,760; (2) \$25; (3) \$50; (4) \$28.

Allis-Chalmers Mfg. Co. (1) \$64,000; (alt.) \$67,000; (2) \$25; (3) \$35; (4) \$28. 25

BIDS OPENED

SAN LUIS OBISPO, Cal.—Bids for rental of oil distributors, tank trailers and clamshell truck shovel, opened by State Highway Dept., San Luis Obispo, were (per hour):

Rock & Gravel Trucking Co., Oakland (P&H clamshell), location B, \$7.
R. B. Snow, Santa Maria (GMC and Mack distributors), locations A and B, \$4.50; (Newcomer and home-made tank trailers), locations A and B, \$3.5.

Portola Truck Service, San Francisco (Speeder Crane clamshell), locations A and B, \$7.45 (bid disqualified).

Bradley Truck Co., Santa Maria (Sterling and Fageol distributors), locations A and B, \$4.50; (Newcomer trailers), locations A and B, \$4.5.

John Fesler, Santa Maria (Byers clamshell), locations A and B, \$7.

L. A. Brisco, Arroyo Grande (International 1938 distributor), location A, \$4.50; (Weber trailer), location 9, \$4.0; bid not signed, bid disqualified. 25

26— RAILROADS

PLANNED

SEATTLE, Wash.—Union Pacific railroad plans to purchase more than 100,000 tons of steel rails and fittings at an estimated cost of nearly \$5,000,000, it was announced by W. M. Jeffers, president of the railroad.

The order will include the buying of more than 74,000 gross tons of rails or 360 track miles of rails, and approximately 30,000 net tons of fittings. The rail will all be of 131-pound weight, which is standard on all Union Pacific main lines.

27—WPA PURCHASES, RENTALS

CONTRACTS AWARDED

SAN FRANCISCO.—Following contracts awarded by the U. S. Treasury Department, 49 Fourth Street, San Francisco, for furnishing misc. materials and equipment for use on WPA projects:

Portland cement concrete pavement; and 4 tons asphaltic road oil.

Clackamas County: Abernethy Creek Bridge on Pacific Highway East, in Oregon City. Federal Aid Project No. 168-J (1). Requires approximately 330 cu. yds. excavation; 76,000 lbs. steel piling; driving only, 40 steel piling; 430 cu. yds. concrete; 73,400 lbs. metal reinforcement; and 150 lin. ft. concrete handrail.

Clatsop County: Bridge over Nehalem River on Wolf Creek Highway. Federal Aid Project No. FAP 181-G (2). Requires approximately 7,300 cu. yds. common excavation; 1,500 cu. yds. structural excavation; 2,800 cu. yds. concrete; 420,000 lbs. metal reinforcement; and 1,300 lin. ft. concrete handrail.

Clatsop County: Necanicum-Nehalem River Section of Wolf Creek Highway. Federal Aid Projects Nos. 181-A (4), 181-B (4), 181-C (3), 181-D (2), and 181-G (2). 12.3 miles surfacing and bituminous binder course, and 11.1 miles bituminous macadam wearing surface; also furnish 5,100 cu. yds. crushed rock in stock piles. Requires approximately 1,000 cubic yds. slide excavation; 75,700 cu. yds. crushed rock; and 1,400 tons asphaltic road oil.

Hood River County: Polallie Creek-Hood River Section of Mt. Hood Highway. Furnish 6,000 cu. yds. crushed rock in stock piles.

Lincoln County: Albany Overcrossing Section of Pacific Highway East. Federal Aid Grade Crossing Project No. FAGM 56-D (1). (On F.A. System). Grading approaches to overcrossing structure and paving work on intersecting streets. Requires approximately 282,000 cu. yds. excavation; 28 cu. yds. cement rubble masonry; 164 cu. yds. concrete curbs and gutters; 3,200 cu. yds. gravel subbase materials; 800 cu. yds. crushed base materials; and 1,750 tons asphaltic concrete.

Lincoln County: Albany Overcrossing on Pacific Highway East, at Albany. Federal Aid Grade Crossing Project No. FAGM 56-D (1). (On F.A. System). Requires approximately 1,100 cu. yds. excavation; 2,010 cu. yds. concrete; 302,000 lbs. metal reinforcement; 1,200,000 lbs. structural steel; 1,500 lin. ft. metal handrail; and electric wiring and fixtures.

Maiheuer County: Tudor Ranch-Ble Mountain Pass Section of I.O.N. Secondary Highway. Federal Lands Highway Project No. FLH 3 F (1). 22.06 miles grading. Requires approximately 230,000 cu. yds. excavation; 80 cu. yds. concrete; 11,500 lbs. metal reinforcement; and 28,000 cu. yds. gravel roadbed topping.

Plans and specifications may be obtained from the State Highway Commission, Room 319, State Office Bldg., Salem, Oregon, upon the deposit of \$5.00. 29

BIDS WANTED

SAN FRANCISCO.—Until March 1, 2:30 P. M., bids will be received by the Dept. of Public Works, Room 251, City Hall, under Spec. No. 19,198, for the widening and reconstructing Market Street between 10th St. and Van Ness Ave. Estimated cost \$12,265.00.

- Work involves:
- (1) 700 lf. stone curb reset;
 - (2) 125 sq. ft. stone curb redressed;
 - (3) 10 lf. armored concrete curb;
 - (4) 200 lf. new granite curb in place (tangent 6-in. top width);
 - (5) 50 lf. new granite curb in place (circular 6-in. top width);
 - (6) 4 each, catchbasins moved and reconstructed;
 - (7) 2 each, brick catchbasins, complete;
 - (8) 96 lf. 10-in. V.C.P. culvert in place;
 - (9) 5 each, street and traffic signs reset;
 - (10) 2 each, low pressure fire hydrants moved;
 - (11) 2 each, high pressure fire hydrants moved;
 - (12) 2750 lbs. new cast iron pipe;
 - (13) 300 lbs. new cast iron specials;
 - (14) 300 lbs. new cast steel specials;
 - (15) 360 lbs. lead.
 - (16) 48 c.y. high pressure hydrant excavation;
 - (17) 525 lbs. wrought iron bolts, nuts and washers;
 - (18) 2 each, electric traffic signals relocated (vehicular);
 - (19) 5 each, electric traffic signals relocated (pedestrian);
 - (20) 2 each, traffic signal control box relocated;
 - (21) 1 each, traffic beacon relocated;
 - (22) 360 c.y. asphaltic pavement removed;
 - (23) 250 sq. ft. concrete parking lane pavement removed;
 - (24) 6200 sq. ft. 8-in. class "E" concrete pavement, parking lane;
 - (25) 3000 sq. ft. 6-in. class "E" concrete base;
 - (26) 520 tons asphaltic concrete base course;
 - (27) 300 tons asphaltic concrete wearing surface;
 - (28) 3500 sq. ft. two-course concrete sidewalk.

Plans and specifications may be obtained from John J. Casey, Room 351, City Hall, upon deposit of \$10.00. 29

BIDS WANTED

VENTURA COUNTY, Calif.—Until February 9, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the reconstruction of a treated timber bridge across Cuyama river near Ozena (VIII-Ven-138-E), Ventura County.

- Work involves:
- (1) removing debris;
 - (2) 20 c.y. struc. excav.;
 - (3) 32,000 lbs. bar reinf. steel;
 - (4) 345 c.y. Class A Portland cement concrete;
 - (5) 83 MFBM treated Douglas fir timber;
 - (6) 16 MFBM dense select all heart struc. redwood timber;
 - (7) 120 c.y. sacked concrete riprap;
 - (8) 1 lot misc. items of work.
- Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. 29

CONTRACT AWARDED

SANTA BARBARA COUNTY, Cal.—Mountain Construction Co., 1846 37th, Sacramento, at \$58,059.15 awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading, treating por-

tions with liquid asphalt (roal-mix) and applying seal coat on about 10 miles of Feder Road between Santa Ynez river and San Antonio Creek, Santa Barbara County. 29

BIDS WANTED

PHOENIX, Maricopa Co., Ariz.—Until January 23, 7:30 P. M., bids will be received by the Phoenix City Council, City Clerk, City Hall, Phoenix, for the improvement of portions of Roosevelt and 15th Sts., Phoenix.

Plans and specifications may be obtained from James Girand, Supt. of Streets, Phoenix, upon deposit of \$5.00. 29

LOW BIDDERS

GILA & PIMA COUNTIES, Ariz.—W. E. Orr, Box 1150, Prescott, at \$119,512, submitted low bid to Arizona State Highway Department, Phoenix, for highway construction on the Superior-Miami Highway, FA 16 (2) (1939), AFE 7018. The work, which is to extend from the Gila-Pinal county line SE for a distance of approx. 2½ miles, consists of grading, draining, aggregate base course and oil processing (SC-4 road oil, road mix), and is to be completed on or before Sept. 15, 1939.

Skousen Bros., Albuquerque, N. M., at \$129,601 submitted second low bid. Complete bids will be published shortly. 29

BIDS OPENED

GILA & PINAL COUNTIES, Ariz.—W. E. Orr, 302 W. Monte Vista Rd., Phoenix, Ariz., at \$119,511.74 submitted low bid to Arizona State Highway Department, Phoenix, for highway construction on the Superior-Miami Highway, FA 16 (2) (1939), AFE 7018. The work, which is to extend from the Gila-Pinal county line SE for a distance of approx. 2½ miles, consists of grading, draining, aggregate base course and oil processing (SC-4 road oil, road mix), and is to be completed on or before Sept. 15, 1939.

Total bids follow:

W. E. Orr, Phoenix.....	\$119,511.74
Skousen Bros., Albuquerque, N. M.....	129,601.21
Geo. W. Orr, El Paso.....	135,103.77
Fisher Contr. Co., Phoenix.....	139,451.55
Pearson & Dickerson, Contractors, Inc., Prescott, Ariz.....	139,487.60
Lee Moor Contracting Co., El Paso.....	140,785.27
Oswald Bros., Los Angeles.....	143,382.83
Phoenix-Temple Stone Co., Phoenix.....	149,003.85
Tiffany Const. Co., Phoenix.....	156,019.97
Packard Contr. Co., Phoenix.....	159,389.27
H. J. Hagen, Globe, Ariz.....	161,447.98

Unit prices are on file at the office of Daily Pacific Builder, 465 Tenth St., San Francisco. 29

32—SEWERS & SEWAGE DISPOSAL PLANTS

BIDS WANTED

SAN FRANCISCO.—Until Feb. 1, 2:30 P. M., bids will be received by the Department of Public Works, Room 251, City Hall, for the improvement of Moraga Street between 40th and 41st Avenues, where not. Estimated cost, \$1,200.

- Work involves:
- (1) 108 lf. armored concrete curb;
 - (2) 2,688 sq. ft. of asphalt-concrete pavement consisting of a 6-in. Class F concrete base and a 2-in. asphalt. conc. wearing surface;
 - (3) 50 lf. 6-inch vitrified clay pipe side sewers.

Plans and specifications may be obtained from City Engineer John J. Casey, Room 351, City Hall, upon deposit of \$10.00. 32

BIDS WANTED

SAN FRANCISCO.—Until Feb. 1, 2:30 P. M., bids will be received by the Department of Public Works, Room 251, City Hall, for the improvement of Macondray St. easterly from Leavenworth St. and Leavenworth northerly from Macondray St. Estimated cost, \$750.00.

Work involves:

- (1) 2 brick manholes, complete;
- (2) 146.5 lf. 8-in. VCP sewer;
- (3) 18 lf. 6-in. VCP side sewers;
- (4) two 8x6-in. VCP Y branches.

Plans and specifications may be obtained from City Engineer John J. Casey, Room 351, City Hall, upon deposit of \$10.00. 32

COMPLETE BIDS

SAN LEANDRO, Alameda Co., Cal.—John F. Tulloch, 335 Eighth Street, Oakland, at \$182,200 (Sched. II) submitted low bid to the San Leandro City Council for construction of Municipal Sewage Disposal Proj., Unit 2.

Schedule I involves cast-in-place piling; Schedule II involves pre-cast piling.

Alternates were:

- (1) Deduct for the omission of general clearing of the site, rolled fill, finish grading, roadways and landscaping, entirely;
- (2) Deduct for the substitution of sludge digestion tank structures and equipment of 60-ft. diameter in lieu of 70-ft. diameter, complete;
- (3) Deduct for the omission of the chlorinator machine only of 100 lb/24 hour capacity, and the omission of the utility tractor and trailer;
- (4) Deduct for the omission of the west half of the sludge drying beds only.

Total bids follow:

- | | |
|---|-----------------|
| (A) John F. Tulloch, (I) \$185,200; | (II) \$182,200. |
| (B) Fred J. Early, Jr., San Francisco, (I) \$182,674; (II) \$184,674 | |

BIDS OPENED

FRESNO, Calif.—J. Jurkovich, 3530 Balch, Fresno, at \$7,017.19, submitted low bid to Fresno city commission for constructing sewers in the New High School Addition, Boulevard Gardens, Lot 9 of Montpelier Tract, Paul's Gardens, Subdivision of Lot 7, Pony Colony, Normal View, and Van Ness Heights, Res. of Inter. No. 136-D (1911 Act), in accordance with plans and specifications prepared by Jean Vincenz, Commissioner of Public Works.

Stewart & Nuss, Fresno, at \$8,363.90, submitted the only other bid. 32

CONTRACT AWARDED

FORT MASON, Calif.—J. A. Fazio and M. J. McQuire and M. Hester, 1453 Hopkins Street, Oakland, at \$69,636, awarded contract by the Quartermaster Construction Division, Army Department, Washington, D. C., under Bid No. W. 6616-39-45, for the construction of an intercepting sanitary sewer system at Presidio of San Francisco. 32

BIDS OPENED

SAN LEANDRO, Alameda Co., Cal.—John F. Tulloch, 335 Eighth Street, Oakland, at \$182,200 (Sched. 2) submitted low bid to the San Leandro City Council for construction of Municipal Sewage Disposal Proj., Unit 2. Schedule 1 involves cast-in-place piling; Schedule 2 involves pre-cast piling.

Total bids were:

- John F. Tulloch, (1) \$185,200; (2) \$182,200.

Fred J. Early, Jr., San Francisco, (1) \$182,674; (2) \$184,674.

George Petersen, San Leandro, (1) \$185,400; (2) \$184,000.

Heafey-Moore Co. & Fredrickson & Watson Const. Co., Oakland, (1) \$185,000; (2) \$191,000.

MacDonald & Kahn Co., Ltd., San Francisco, (1) \$198,000; (2) \$208,000. 32

33— WATER WORKS**BIDS WANTED**

SAN FRANCISCO.—Until Feb. 1, 3 P. M., bids will be received by the Public Utilities Commission, Rm. 287, City Hall, under Spec. No. W. D. 198, for laying of 6- and 8-in. cast iron mains in 28th and 31st Avenues.

Work involves:

- (1) 1,470 lf. excavation and backfill for 6- and 8-in. pipe, trench 17-in. wide by 36-in. deep;
- (2) 10 c.y. additional excavation and backfill;
- (3) No item 3;
- (4) Installing pipe:
 - (a) 1,400 lf. 6-in. bolted joint cast iron pipe;
 - (b) 70 lf. 8-in. bell and spigot cast iron pipe;
- (5) Installing 1,500 lbs. of fittings, gate valves;
- (6) Making 15 lf. bell and spigot joints for pipe and fittings;
- (6a) Making 235 bolted joints for 6-in. cast iron pipe;
- (7) 2,400 sq. ft. of street pavement;
- (8) Installation of 19 3/4-in. screw taps;
- (9) Installation of 460 lf. of 3/4-in. galv. iron service pipe;
- (10) Furnishing cast iron pipe, Class 150:
 - (a) (1,400 lf. 6-in. bolted joint pipe at \$7.4 per lf.;
 - (b) 70 lf. 8-in. bell and spigot cast iron pipe at \$1.08 per lf.;
- (11) Furnishing bell end gate valves:
 - (a) 1 four-in. valve at \$12 each;
 - (b) 2 six-in. valves at \$17 each;
- (12) Furnishing 760 pounds bell and spigot cast iron fittings at \$0.66 per lb.;
- (13) Furnishing 300 lbs. steel band and bolts at \$0.05 per lb.;
- (14) Furnishing 460 lf. of 3/4-inch galv. iron service pipe at \$0.66 per lf.;
- (15) Furnishing 3/4-inch fittings for services, lump sum, \$31;
- (16) Engineering, supervision and inspection; lump sum \$287.00;
- (17) Connections; lump sum \$100.

Plans and specifications may be obtained from 425 Mason St., San Francisco Water Dept. Bldg., upon deposit of \$5. 33

BIDS OPENED

FALLBROOK, San Diego Co., Cal.—Bids for furnishing materials, equipment, and labor for well drilling, pumping plant, reservoir, and water mains, a PWA project, were opened by the Fallbrook Public Utility District, bids were referred to John H. Chase, Riverside, Consulting Engineer, for analysis and report. Bids were taken as follows:

- (1) excavation, digging and completion of a 16-in. water well;
- (2) acquisition, construction, and

completion of a pumping plant;

- (3) construction and completion of a concrete reservoir;
 - (4) installation and laying of approximately 50,000 ft. of 12-inch water main and 2000 ft. 8-inch lateral.
- Estimated cost, \$138,919.

The bids were:

- (1) Well Drilling, 16-in. diameter, approximately 200 ft. deep: Brockman Drilling Co., 913 W. 6th St., Pomona, only bidder, at \$12 ft. for the first hundred ft. and \$8.60 ft. for the second hundred feet.

(2) Pumping Plant: Pacific Enterprise Co.—(2) \$18,755 plus \$513; (2a) \$6112.

Fairbanks, Morse & Co.—(2) \$25,348; (2a) \$5437.

Worthington Pump & Mch. Co.—(2) \$25,993.

Byron-Jackson Co.—(2a) \$6140.

Hudson-Tucker, Inc.—(2a) \$6999.50.

Mayer & Boyce—(2a) \$5564.05.

Peerless Pump Co.—(2a) \$5861.18.

(3) Concrete Reservoir, involving about 360 cu. yds. concrete: R. McKenna, Solana Beach, low bidder, at \$4866.30.

Leko & Bosnyak, \$9300.

H. H. Peterson, San Diego, \$9875.

H. L. Foster, San Diego, \$9890.

Walter Barber, San Diego, \$10,803.

Contracting Engineers Co., Los Angeles, \$10,900.

S. A. Cummings, San Diego, \$10,950.

Carl Hallin, Los Angeles, \$10,990.

V. R. Dennis Constr. Co., San Diego, \$10,943.

Charles G. Rieke, Oceanside, \$11,163.

C. F. Von Gunden & Son, San Diego, \$11,183.

Frank Doran, San Diego, \$11,500.

R. H. Liggett, Lynwood, \$11,956.

Macco-Robertson, Ltd., Clearwater, \$12,880.

S. M. Kemper, Los Angeles, \$13,800.

M. F. Milovich, Montebello, \$15,980.

J. S. Metzger & Son, Los Angeles, \$17,500.

(4) Laying of Water Mains and Laterals:

American Pipe & Steel Co., 230 Date Ave., Alhambra, low bidder on welded steel at \$59,522.50; no bid on tubing.

Williams & Van Valkenburgh, Los Angeles, low on tubing at \$69,180.

Harry L. Foster, San Diego, welded \$59,610; no bid on tubing.

Southern Pipe & Casing Co., welded \$64,525; no bid on tubing.

Frank Doran, San Diego, welded \$64,690; tubing \$74,160.

Western Pipe & Steel Co., welded \$65,540; no bid on tubing.

Consolidated Steel Corp., welded \$70,575; no bid on tubing.

Leko & Bosnyak, Los Angeles, welded \$72,020; tubing \$74,764.

S. M. Milovich, Montebello, welded \$75,986.

H. H. Peterson, San Diego, welded \$78,995; tubing \$83,740.

Chutuk Co., Los Angeles, \$97,900; same on tubing. 33

BIDS WANTED

BELLINGHAM, Whatcom County, Washington.—Until Jan. 30, 9:30 A. M., bids will be received by George Brock, City Water Supt., Bellingham, Washington, for the construction of waterworks intake tunnel between Lake Whatcom and the Whatcom Falls Park. Project involves construction of concrete-lined tunnel of horseshoe section 6 ft. 6 inches wide and 6 ft. 6 inches high inside lining, together with gate structure and intermediate shaft structure involving 7900 ft. of tunnel and 6500 cu. yds. concrete lining. Estimated cost, \$450,000.

Plans and specifications may be obtained from the City Comptroller,

Bellingham, and from Consulting Engineers, Baar and Cunningham Bldg., Portland, upon the deposit of \$10.00. 33

BIDS WANTED

SAN FRANCISCO.—Until Feb. 1, 3 P. M., bids will be received by the Public Utilities Commission, Rm. 287, City Hall, under Spec. No. W. D. 199 for laying of 6-inch cast iron main in LaSalle Ave., 3rd Street to Mendell Street.

- Work involves:
- (1) 460 lf. excavation and backfill for 6-in. pipe, trench 17-in. wide by 36-in. deep;
 - (2) 10 c.y. additional excavation and backfill;
 - (3) No item 3;
 - (4) Installing 460 lf. 6-inch bolted joint cast iron pipe;
 - (5) Installing 400 lbs. of fittings, gate valves, etc.;
 - (6) Making 10 lf. bell and spigot joints for pipe and fittings;
 - (6a) Making 77 bolted joints for 6-in. cast iron pipe;
 - (7) 200 sq. ft. of street pavement;
 - (8) Installation of 26 3/4-inch screw taps;
 - (9) Installation of 730 lf. 3/4-inch copper service pipe;
 - (10) Furnishing 460 lf. 6-in. bolted joint cast iron pipe, Class 150, at \$0.74 per lf.;
 - (11) Furnishing bell end gate valves, one 6-in. valve at \$17 each;
 - (12) Furnishing 220 pounds bell and spigot cast iron fittings at \$0.06 per lb.;
 - (13) No item 13;
 - (14) Furnishing 730 lf. 3/4-in. copper service pipe at \$0.14 per lf.;
 - (15) Furnishing 3/4-inch fittings for services, lump sum, \$35.10;
 - (16) Engineering & supervision, lump sum, \$219.00;
 - (17) Connections, lump sum, \$147.00.
- Plans and specifications may be obtained from the Cashier's Office, 425 Mason St., San Francisco, upon deposit of \$5.00. 33

PROPOSED

ARBUCKLE, Colusa Co., Calif. — Arhuckle voters approved the formation of a water and sewer public utility district. An election will be held shortly to name a board of directors and to decide whether bonds of between \$50,000 and \$55,000 shall be issued toward the construction of a proposed \$100,000 system. 33

BIDS WANTED

BELLINGHAM, Whatcom County, Wash.—As previously reported, until Jan. 30, 9:30 A. M., bids will be received by George Brock, City Water Supt., Bellingham, Wash., for the construction of waterworks intake tunnel between Lake Whatcom and the Whatcom Falls Park. Project involves construction of concrete-lined tunnel of horseshoe section 6 ft. 6 inches wide and 6 ft. 6 inches high inside lining, together with gate structure and intermediate shaft structure involving 7960 ft. of tunnel and 6500 cu. yds. concrete lining.

Quantities include 6500 cu. yds. concrete lining, 75,000 lbs. of reinforcing steel, 888 M ft. B.M. of timbering, 400 feet 3/4-inch liner plates, 3000 feet of copper water stops and 360 feet of 24-inch sewer pipe.

Estimated cost, \$450,000.

Plans and specifications may be obtained from the City Comptroller, Bellingham, and from Consulting Engineers, Baar and Cunningham Bldg., Portland, upon the deposit of \$10. 33

LOS ANGELES CO.—GRADING AND PAVING—(State)

LOS ANGELES COUNTY, Calif.—J. E. Haddock, Ltd., 357 N. Chester Ave., Pasadena, at \$49,693, submitted low bid to State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 0.4 mile of grading and paving with asphalt concrete, Portland cement concrete, and plant-mix surfacing between N. Main Street and Mission Road (VII-LA-4-LA), Los Angeles County.

- Work involves:
- (1) 22 sta. clear and grub;
 - (2) 300 M. gals. water;
 - (3) 600 c.y. remove concrete;
 - (4) 15,000 c.y. unclass. rdwy. excav.;
 - (5) 9,000 c.y. struc. excav.;
 - (6) 9,000 sq. yds. prepare subgrade;
 - (7) 22 sta. finish rdwy.;
 - (8) 1,060 tons min. agg. plant mix surf.;
 - (9) 56 tons liq. asph. ROMC-4 or 5-plant mix surf.;
 - (10) 5 tons liq. asphalt SC-2 prime coat;
 - (11) 5 tons asphaltic emulsion plant binder and seal coat, asph. conc. (12) 3,800 tons asph. conc.;
 - (13) 55 c.y. Class A Portland cement conc. pave.;
 - (14) 1,500 lbs. bar reinf. steel;
 - (15) 150 each pavement dowels;
 - (16) 6,500 lbs. misc. iron and steel;
 - (17) 70 c.y. Class A Portland cement conc. struc.;
 - (18) 600 lf. 12-in. standard reinf. conc. pipe;

- (19) 100 lf. 15-inch do.;
- (20) 50 lf. 18-inch do.;
- (21) 60 lf. 21-inch do.;
- (22) 70 lf. 27-in. special reinf. conc. pipe 1250-D.;
- (23) 240 lf. 42-in. do. 2000-D.;
- (24) 650 lf. 42-in. do. 3000-D.;
- (25) 560 lf. 6-in. vit. clay pipe stand. strength.;
- (26) 50 lf. 8-in. vit. clay pipe extra strength.;
- (27) 650 c.y. Class A Portland cement conc. curbs, gutters, sidewalks and driveways.;
- (28) 3000 lf. curb bar.;
- (29) 470 lf. curb armor.;
- (30) 4 each adjust manholes to grade.;
- (31) 50 lf. laminated guard railing.;
- (32) brick junction chamber sewer.;
- (33) 1 lot misc. items of work.

Total bids follow:

- (A) J. E. Haddock, Ltd., Pasadena, \$49,693.00.
- (B) Geo. R. Curtis Paving Co., Los Angeles, \$50,276.50.
- (C) Griffith Co., Los Angeles, \$53,361.70.
- (D) Radich & Brown, Burbank, \$53,368.00.
- (E) Osvald Bros., Los Angeles, \$58,945.00.
- (F) R. M. Price, Huntington Park, \$59,780.50.
- (G) P. J. Akmadzich, Los Angeles, \$64,524.50.

CADMAN HEADS CONSTRUCTION SECTION HERE

Graybiel, Grosh Elected Vice Chairmen; Committee Heads Named

Chas. M. Cadman yesterday was re-elected chairman of the Construction Industries Section of the San Francisco Chamber of Commerce. Instrumental in foundation of the section, Mr. Cadman has been one of its most active workers.

The section opened its 1939 activities yesterday by electing a complete slate of officers and committee chairmen and adopting a comprehensive plan covering all phases of organization.

Other officers named yesterday were Lloyd E. Graybiel, first vice-chairman, and Earl E. Grosh, second vice-chairman. Louis LeHane continues as section manager.

The following were named chairmen of the various standing committees:

R. T. Stephens, membership; Clarke E. Wayland, program; P. T. Farnsworth, advertising and publicity; Ellis Stoneson, residential construction; Ervin H. Clauen, residential modernization; Harry H. Hilp, commercial and industrial construction; John E. Mullen, commercial and industrial modernization.

Frederick H. Meyer, public building construction; B. F. Blair, trade relations; W. C. Tait, construction contract methods; Clarence B. Eaton, streets and highways; J. E. Mackie, legislative.

Election of officers and committee chairmen was unanimous, by acclamation, following announcement of recommendations of the nominating committee.

Members of the nominating committee were:

Raymond E. Alvord, vice-president, General Electric Co.; Leonard C. Hammond, president, Hammond Lumber Co.; Henry J. Brunner, engineer; Hubert M. Walker, president, P. J. Walker Co.; Howard Pallerday, president, Western Pipe and Steel Co. of California; Arthur Shelby, vice-president, Calaveras Portland Cement Co.; Albert J. Evers, executive director, San Francisco Housing Authority; and A. D. Wilder, Director, San Francisco Department of Public Works.

Production of malleable iron castings for the first eleven months of 1938 amounted to 250,970 short tons, as compared to production of 574,494 short tons during the same period in 1937, the Bureau of Census announces.

Heads Chamber Group

Charles M. Cadman, who yesterday was re-elected chairman of the Construction Industries' Chamber of Commerce.

APPORTIONMENT OF FOREST ROAD FUND ANNOUNCED

Allotment by States of Highway, Forest Trail Funds Made Public

Apportionment by states for the fiscal year beginning July 1 of \$10,000,000 for national forest highways, truck trails and foot trails has been announced by the Secretary of Agriculture.

The sum of \$6,666,667 represents the forest highway fund, by law expended upon those main roads within national forests which serve the needs of public travel.

The sum of \$3,333,333, the forest road development fund, is for the construction and maintenance by the U. S. Forest Service of truck trails, horse and foot trails within and adjacent to the national forests.

Apportionment of the forest highway and forest roads development funds to western states is as follows:

State	Forest Highway Funds	Forest Rd. Dev. Funds
Arizona	\$388,946	\$128,614
Alaska	400,000	21,614
California	952,825	534,557
Colorado	489,680	137,680
Idaho	687,173	492,661
Montana	535,677	323,000
Nevada	898,443	111,034
New Mexico	121,561	41,350
Oregon	273,502	109,847
Utah	224,463	111,034
Washington	459,350	237,146
Wyoming	295,516	106,833

DAN CAPUTO BIDS AGNEWS SEWER WORK

Fred J. Early Jr. Second on Sewer, Telephone Extension

SACRAMENTO, Jan. 24. — Dan Caputo, 985 Delmas avenue, San Jose, at \$37,974.95 today submitted the low bid to the State Architect for the installation of a sewer and telephone extension at Agnews State Hospital.

Total Bids

Complete total bids follow:

Dan Caputo	\$37,974.95
Fred J. Early, Jr.	41,450.00
Harvey E. Connor	43,102.00
Underground Const. Co.	44,989.00
Eddy Electric and Mechanical Co.	45,332.00

The following amounts of pipe will be used in the proposed sewer and telephone extension at the State Hospital: 640 feet of 15-in. vitreous tile pipe; 7200 feet of 10-inch asbestos cement pipe, and 900 feet of 2-inch asbestos cement pipe.

Plans call for 10,000 feet of 100-pair underground telephone cable; 1250 feet of 2300-volt underground electric service; a complete sewage screening and pumping plant; electric transformers; motors; pumps; screening equipment; and mechanical equipment.

The proposed sewer and telephone extension will be connected to existing sewer, telephone and service lines.

All bids on the proposed improvement of facilities at Agnews State Home, Santa Clara county, were taken under advisement by the State Architect.

Northwest Lumber Bookings Increase

A total of 143 down and operating mills in Washington and Oregon, which reported to the West Coast Lumbermen's Association for the week ending January 14, 1939, produced 89,998,749 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 58.5 per cent of its average weekly cut during 1926-1929.

The new business reported taken by the 143 mills was 100,398,387 board feet. Shipments were 84,545,471.

The unfilled order file at these mills stood at 330,312,986 bd. ft.

Missouri will ship 20 carloads of exhibits to Treasure Island to display in the Missouri Building at the 1939 California World's Fair.

Schools, Sewer Projects, Water Systems Head Current PWA Construction Program

Although American cities filed applications for many types of PWA projects ranging from ice plants to ferry boats and from oyster beds to bird farms the preponderance of projects the typical American community wanted were substantial, permanent public improvements.

This was shown in an analysis of the types of approved PWA projects prepared for Public Works Administrator Harold L. Ickes. The report showed schools to be the leading PWA project to receive allotment throughout American cities, with water systems second.

Villages, towns, cities, counties and States made more than 12,800 applications for projects in the 1938 program alone. Reviewing the entire course of PWA, the report showed that more than 37,000 requests for projects costing more than \$12,200,000,000 had been filed by American communities since 1933. In each instance the community backed its request by volunteering to assess itself for 55 per cent of the cost as a local contribution to the project.

But in addition, many unusual requests were filed with the PWA. Applications were submitted for zoo buildings, warehouses, fish hatcheries, oyster and shrimp packing plants and hotels.

The leading types of approved PWA projects shown by the report are as follows:

Type	No.	Est. Cost
Secondary schools ..	6,459	\$933,224,657
Water systems	2,421	310,628,061
Sewer systems	1,525	459,684,355
Hospitals and institutions	677	300,684,638
Colleges and universities	659	197,293,023
Courthouse and city halls	637	127,374,561
Roads and hiways.....	610	293,793,094
Bridges & viaducts.....	382	222,959,467
Flood control, water power & reclamation	128	197,362,047
Subways & tunnels.....	13	202,985,348

In addition to the 16,700 public works projects allotted to cities and towns in every section of the nation, the Federal Government has on its own initiative, erected many outstanding projects. Among these are the Fort Peck Dam in Montana—the largest earth-fill dam in the world, the Grand Coulee and Bonneville dams, and the All-American Canal that will bring to life the sections of the Imperial Valley now obtaining a dependable supply of water.

One of the more interesting applications for a non-Federal project was the request by the State Game and Fish Commission of the State of Colorado for a PWA grant to aid in the construction of a bird farm. With a request for a PWA grant of \$17,682 the plans called for an incubator house, brooder houses, a machine and carpentry building, caretakers' house and pipe

lines for vaporized heat. The total cost of the project was estimated at \$39,294 to represent the initial unit of the State bird farm to, as the application stated, "aid in the propagation and distribution of game birds in the State of Colorado."

Cincinnati applied for an allotment of two new buildings for the Municipal Zoo. One building, two stories of fireproof construction, would house not only keepers but provide 40 cages for reptiles and exterior and interior swamps for alligators. Each cage the application stated would be treated in keeping with the habitat of the reptile occupying it, with all the comforts of home including walls painted with scenic backgrounds. Floors would be treated as marsh—swamp or rocky soil as may be required with small pools, rocky ledges, and the like. A heating system would keep the temperature between 90 and 95 degrees. The cost of the reptile building was estimated at \$136,826 and to afford 52,500 man-hours of employment.

The second building would contain bear pits or barless enclosures, surrounded by a system of walls and moats so the animals would be unable to escape. This system has been successfully used in Berlin, Hamburg, St. Louis, Chicago and Detroit. Additional comfort would be provided by a series of caves or retiring dens with folding doors. To properly house Cincinnati's bears, the city estimated the cost at \$93,130. Fifty-five per cent of the cost of the two buildings would be borne by the City of Cincinnati and the balance a direct grant by PWA.

The City of Stockton, Calif., applied for an allotment to help build a \$60,000 cotton warehouse, to be leased to the Port Authority to afford adequate facilities for handling, warehousing, baling and shipping of California's long staple cotton. The project would, according to the applicant, be of benefit to Stockton, farmers and pickers and would pay for itself in 20 years.

South Dakota's State-operated hotel in the Black Hills was destroyed by fire two years ago and an application was made for funds to replace it with a new three-story structure to cost \$142,700. The application was filed by the Custer State Park Board. The hotel is to be located on Sylvan Lake near Rushmore Mountain.

CARMEL SEWAGE PLANT PROJECT OUT FOR BIDS

District to Open Proposals Feb. 3 on Treatment Plant, Outfall Sewer

Directors of the Carmel Sanitary District will open bids next week for construction of the \$100,000 outfall sewer and treatment plant, with February 3 set as the opening date for proposals.

At the same time the board will receive bids for laying sanitary sewers in Hatton Fields, it was announced.

The Treatment Plant contract covers construction of intercepting and outfall sewers, pumping stations, the treatment plant and appurtenances.

A total of 83 items is covered in the bidding schedule on which contractors will submit unit prices.

Principal divisions of the bidding schedule are:

1. Trunk line outfall and intercepting sewers.
2. Scenic Road pumping station and appurtenances.
3. Sixteenth Ave. pumping station and appurtenances.
4. Suspension bridge.
5. Detritor.
6. Flocculator-clarifier.
7. Two digestion tanks.
8. Valve house and pipe gallery to control building.
9. Control building.
10. Filter bed and sludge beds.
11. Miscellaneous items, including cast iron pipe and fittings, gate valves, gas and fresh water pipes, roadway and plant protection levee, bulkhead, grading and surfacing entrance roadway, and wire mesh fence.

O'Neil Joins S. F. Engineering Firm

Expansion of the consulting and industrial engineering firm of W. Harry Archer & Associates, 130 Bush street, San Francisco, to include a civil and structural engineering department headed by Hugh M. O'Neil is announced by Mr. Archer.

Mr. O'Neil is a graduate of the California Institute of Technology and possesses a varied experience in structural design.

Fields in which the firm now offers engineering services include structural, mechanical, electrical, air conditioning and power plant design and their many correlated phases.

Production of commercial steel castings during November, 1938, amounted to 29,994 short tons, as compared to production of 28,109 short tons during the preceding month, according to the Bureau of Census.

STATE FACTORY PAYROLLS SHOW DECEMBER GAIN

**Employment Under Dec. 1937
Figure; Average Weekly
Earnings Increase**

The January issue of the California Labor Market Bulletin, released yesterday by H. C. Carrasco, State Labor Commissioner, shows decreases in employment and payrolls in December, 1938, as compared with December, 1937. Average weekly earnings, however, increased from \$28.98 in December, 1937 to \$29.93 in December, 1938, an increase of 3.3 per cent. The total number of wage earners employed in manufacturing establishments covered by reports filed with the Division of Labor Statistics and Law Enforcement in its monthly survey of employment and earnings for the week ending nearest the 15th of December, 1938, was 175,597, a decrease of 5.2 per cent when compared with the number employed (185,199), in the same establishments during the corresponding week of December, 1937. These data are for 1,948 representative manufacturing establishments employing more than 65 per cent of all the wage earners in California manufacturing plants.

Among the important industries whose decline in employment from December, 1937 to December, 1938 was considerably greater than the average for all industries (5.2 per cent) were the following:

Industries	Decrease in Employment Dec. '37 to Dec. '38
Foundry and forge products.....	-12.9%
Machinery and machine tools.....	-28.6%
Electrical machinery, apparatus, supplies.....	-25.9%
Structural and ornamental metal work.....	-21.6%
Tin cans and other tinware.....	-11.1%
Non-ferrous metals.....	-12.7%
Aircraft.....	33.0%
Glass.....	-20.3%
Tires and rubber products (affected by strike conditions).....	-21.1%
Book and job printing.....	- 7.1%
Canning, preserving of fruits and vegetables.....	-17.7%
Canning and packing of fish.....	-13.0%
Beverages.....	- 7.1%

Among the important industries showing substantial increases in employment over December, 1937 were: Automobiles, bodies and parts (plus 31.9 per cent), shipbuilding (plus 4.7 per cent), textiles (plus 13 per cent), motion picture producing and developing (plus 8.6 per cent), and sugar, crude and refined (plus 38.7 per cent).

The average wage earner in California industries worked 37.5 hours per week in December, 1938, as compared with 36.9 hours in December, 1937. His hourly earnings increased from 77.9c in 1937 to 82.1c in 1938, an increase of 5.4

Plumbing, Heating Industry Nets Big Share of FHA Jobs

The plumbing and heating industry has received a large share of business generated by the Federal Housing Administration's loan insurance program, according to F H A officials. They estimate that about \$425,000,000 of the \$2,000,000,000 of insured financing on the FHA's books has been spent for the products of this industry.

As of December 31, 1938, the FHA had written total insurance total included \$1,300,000,000 of insured small home mortgages, \$62,500,000 of insured mortgages on large scale rental housing projects, and \$733,350,000 of insured property improvement loans.

Conceding the difficulty of estimating exactly what part plumbing and heating have had in these activities, FHA officials point out that various analyses conducted by the FHA afford a reasonable competent yardstick for measuring the participation of various industries in the program.

Average Participation

For example, FHA officials say, technical analyses made by experts in the small home mortgage field have shown a varying participation for plumbing and heating, but the "mean" average participation for this industry ranged from 22 per cent of the total cost of the house to 18 per cent when calculated on the cost of the whole property. Therefore, at the conservative lower percentage, the plumbing and heating industry has participated to the extent of \$234,000,000 out of \$1,300,000,000 of mortgages insured by the FHA in the small homes field.

Furthermore, surveys conducted by the Administration's large scale housing staff have found that approximately 17 per cent of expenditures in this program very consistently

per cent.

Employment in public utilities was off 5.6 per cent from December, 1937, and payrolls dropped 5.3 per cent. Wholesale trade employment decreased (-0.6 per cent), but payrolls increased (plus 0.2 per cent). Retail trade showed decreases in both employment (-0.6 per cent) and payrolls (-2.7 per cent).

In comparing December, 1938, employment in manufacturing establishments showed a less than seasonal decrease of 2.1 per cent. Payrolls, however, increased from November, a rise of 0.4 per cent. Exclusive of the fruit and vegetable canning industry, manufacturing showed a decrease of 0.4 per cent in employment and an increase of 1.2 per cent from November to December, 1938. Payrolls in the November week were affected by the Armistice Day holiday.

Report Progress On Debris Control Dams

Excavation for construction of the debris control dam on the Upper Narrows of the Yuba River will start shortly, Lieutenant-Colonel L. B. Chambers, district engineer of the U. S. Engineer Office, announces. Contractors have built the workmen's camp, and are already clearing land for the reservoir site which will be nine miles in length.

Work on the North Fork dam is well underway, and may be finished within a few months.

The dams will be concrete structures with spillways. Since debris, which would clog channels, settles in the reservoirs, hydraulic mining may be carried on upstream when the dams are completed. Still under consideration is the Ruck-a-Chucky dam, planned for the Middle Fork of the American River.

ently go to the plumbing and heating industry. On this basis, therefore, the industry has benefited directly to the extent of more than \$10,000,000 in large scale housing projects.

The part plumbing and heating have played in the Property Improvement Credit Plan of the FHA is the most difficult to estimate, officials state, doubly so because lending agencies have 30 days in which to report these loans and no individual accounting of contemplated expenditures is required. One indication of the extent to which plumbing and heating is participating may be found in the announcement of a spokesman for a large heating company who declared that one day's mail recently brought 2,700 applications from dealers for modernization loan application blanks, constituting "a response without parallel in our experience."

Estimate 25 Per Cent

A survey conducted in the early days of the FHA involving 11,000 Property Improvement Credit notes insured by it disclosed that 30 per cent of the proceeds were intended for either plumbing or heating purposes. Accepted trade journals declare a conservative estimate of plumbing and heating expenditures in improvements and repairs is 25 per cent. Using this latter estimate, therefore, it appears that of the \$733,350,000 expended for improvements and repairs with FHA-insured notes, plumbing and heating has benefited to the extent of more than \$183,000,000.

The wide range in the types of work being undertaken in the construction and modernization fields finds plumbing and heating installed in the pivotal position, in the opinion of FHA officials, who observe that few jobs in this category do not involve these items.

State Invites Bids on Three Bridge, Highway Contracts; To Open Feb. 15-16

SACRAMENTO, January 24.—The State Highway Commission today authorized advertising for bids on three contracts involving bridge and highway construction in Sonoma, Riverside and San Luis Obispo Counties.

Bids on the Sonoma and Riverside Counties jobs will be opened in Sacramento, February 15; bids on the Southern job will be opened in Los Angeles the following day.

The first contract calls for construction of two reinforced concrete slab bridges and retaining walls, and about 3.2 miles of grading and surfacing with gravel base and armor coat between Northwood Park and Guerneville in Sonoma county.

Principal items include: 97,410 cubic yards of unclassified roadway excavation; 800,000 sta. yds. overhaul; 4,920 cubic yards of structural excavation; 2,050 cubic yards of ditch and channel excavation; 10,850 cubic yards of retaining wall backfill; 171 stations finishing roadway; 27,670 cu. yds. of gravel base; 150 tons of liquid asphalt; 304 tons asphaltic emulsion armor coat and seal coat; 4,820 tons of screenings, armor coat and seal coat; 116,250 pounds of bar reinforcing steel; 678 cubic yards of Class A Portland cement concrete structures; 134 M FBM treated Douglas fir piles; 8,375 lineal feet of treated Douglas fir piles; 5,460 lineal feet of steel bulkhead and anchor piles furnished; 42,600 pounds of miscellaneous steel; and 5100 feet of CMP.

Bridge Job

The second contract, for which bids will be opened in Sacramento, February 15, involves construction of a reinforced concrete girder bridge in San Luis Obispo county.

The bridge will be built across Paso Robles Creek about six miles south of Paso Robles, and will consist of two 48-foot 6-inch spans and two 36-foot 6-inch spans on concrete piers and abutments with timber pile foundations.

Principal items include: 200 cubic yards of unclassified excavation; 1,550 cubic yards of structural excavation; 11 tons of asphalt; 128,000 pounds of bar reinforcing steel; 138 cubic yards of Class A Portland cement concrete footing blocks; 700 cubic yards of Class A Portland cement concrete structures; 4,890 feet of Douglas fir piles; and 900 square yards preparing, mixing and shaping road-bed.

Riverside County

Bids on the last job will be opened in Los Angeles February 16. The work involves construction of a reinforced concrete rigid frame bridge at Station 142 plus 10 about four miles west of Corona in Riverside county.

Concrete Yardage At Grand Coulee Reaches New Peak

The daily production of concrete for completion of Grand Coulee Dam is expected this year to break the world's record for output it established in 1937 when in a single day 15,844 yards of concrete were produced, enough to pave 6½ miles of 20-foot highway, according to officials of the U. S. Bureau of Reclamation. That 24-hour record may be exceeded by enough to lay an additional mile of pavement.

Since Thanksgiving Day, 1935, when concrete placing began, five million cubic yards of concrete have been placed in Grand Coulee Dam, the biggest block of artificial stone ever made, and already the biggest man-made structure of all time, though less than half completed. Five and a half million yards of concrete have yet to be placed.

The enormous quantity of concrete to be made, and the high rate of production required on this project justified the installation of mixing equipment of great capacity, and the use of control devices of great intricacy and precision. The mixing plant is known locally as the House of Magic.

Mixing cycles are controlled in terms of seconds, automatically, by ingenious electrical and compressed air devices; and by the simple shifting of a control lever the components of water, cement, sand and gravel for four-yard batches of concrete, are weighed out precisely in proper proportions for any one of five different mixes.

Rows of lights, under the remote control of the concrete dispatcher, tell the mixer operator how many batches and what kinds of concrete are wanted. Numerous pens, drawing lines on a wide moving strip of paper, record the filling of the weigh-bins, one for each component. When the proper quantities of materials for a complete 4-yard batch are weighed out, and no sooner—this takes 17 seconds—the batch is dumped into one of four continuously-rotating 4-yard mixers.

Factory sales of mechanical stokers during the first eleven months of 1938 amounted to 91,420 units, as compared to sales totaling 97,781 units registered during the same period in 1937, the Bureau of Census announces.

MODIFICATION OF ARCHITECTS ACT PROPOSED

Legislature Considers Measure Giving State Board Added Power

Proposed modifications of the Architects' Practice Act embodied in Senate Bill 186 are being considered by the Legislature, the State Association of California Architects reports.

A bulletin released yesterday by the association declares:

"The Legislature is considering a modification of the 'Architects' Practice Act' (S.B. 186) presented by Senator Kenny of Los Angeles. This bill is based on the present act with certain changes worked out by the State Board of Architectural Examiners, assisted by the State Code Commission, aiming to increase the efficiency of administration.

"All organizations of architects within the State are actively supporting the bill and, although submitted some time ago to all the groups within the building industry, no opposition has developed.

"To give the public the protection it has a right to expect when dealing with professions under the regulation of State Boards requires that more adequate disciplinary powers be provided under the 'Architects' Practice Act' which is one of the oldest professional acts on the statute books today. Great credit is due to the committee which after years of study has proposed an Act so well calculated to raise the standards of the profession.

Western PWA Jobs Employing 14,152

The number of new jobs created by the current Federal Public Works Administration program in this Far Western region totals 49,532, according to Kenneth A. Godwin, PWA Regional Director. He stated that 14,152 men are at work on PWA project sites and 35,380 other workers are being kept busy producing the materials necessary for the construction and transporting them.

In California alone, he added there are 11,257 men working on project sites at the prevailing wages. In Arizona, 2,116 men have found PWA jobs while in Utah 611 workers have been hired already. In Nevada 168 men are working on project sites.

The total amount of money being released for the new PWA program in this four-state region is \$64,123,549. This was made possible by grants and loans made, with presidential approval, by Public Works Administrator Harold L. Ickes, totaling \$30,545,825.

PERMITS AND CONTRACTS

NOTICE TO SUBSCRIBERS

This is the final issue of the Pacific Constructor, the publication having been merged with Daily Pacific Builder.

Now in its forty-ninth year, Daily Pacific Builder provides the same authoritative news of the industry in a more complete form, with the added timeliness made possible by its publication every business day of the year.

Parkinson, 434 Title Insurance Building, architects; Paul Jeffers, Architects' Bldg., structural engineer. 19

BIDS OPENED

PORTLAND, Oregon.—Commercial Iron Works, Portland, at \$53,691.00 submitted low bid to the U. S. Engineer Office, 628 Pittcock Block, Portland, under Bid No. 698-39-314, for drydocking, cleaning, painting and repairing the U. S. seagoing hopper derrick "Col. P. S. Michie."

Complete bids follow:
Commercial Iron Works, Portland, \$53,691.00.
General Engr. and Drydock Co., Oakland, \$56,584.69.
Todd Seattle Dry Docks, Inc., Seattle, \$56,750.00.

The Smith Corp., Portland, \$58,694.50.
The Winslow Marine Railway and Shipbuilding Co., Seattle, \$69,876.10. 19

BIDS WANTED

CONCHAS DAM, N. M.—Until Mar. 7 (tentative date), bids will be received by the U. S. Engineer Office, Conchas Dam, N. M., for the construction of irrigation headworks operating equipment of the Conchas Dam project. The site of the work is located about 24 miles north of Newkirk, N. M., and 30 miles north-

west of Tucumcari, N. M. It may be reached by the Southern Pacific or Rock Island Railroads or U. S. Highway No. 66, to Newkirk, N. M., and thence north via a construction road to the project site. The notice for bids will be issued about Feb. 10. The successful bidder will have 180 calendar days in which to complete the work. Plans and specifications will be sent to the U. S. Engineer Office, 751 S. Figueroa, Los Angeles, where they may be inspected by prospective bidders. Those wishing copies should forward to the Engineer at Conchas Dam, N. M., a certified or cashier's check payable to the Disbursing Officer, U. S. Engineer Office, Conchas Dam, N. M., for \$10, returnable.

The irrigation headworks operating equipment will consist of two emergency 6-ft. x 7-ft. 6-in. hydraulically operated, rectangular slide gates installed in a gate chamber; 2 similar slide gates for service operation installed in an outlet gate house; necessary oil pump, valves and piping, and approx. 161,000 lbs. conduit linings and 263,000 lbs. 90-in diam. steel penstocks installed in 377 ft. of horseshoe tunnel and gate chamber. The work will include the furnishing and installation of the above equip. and other misc. items and the construction of the concrete gate foundations, penstock, cradles and the outlet gate house. 19

BIDS WANTED

BOISE PROJECT, Idaho.—Until Feb. 10, 10:00 A. M., bids will be received by the U. S. Bureau of Reclamation, Boise, Idaho, under Spec. No. 1181-D, for the construction of structures A-Line canal laterals 5.4 to 9.4, Payette division, Boise, Idaho. The work is located near Plymouth, Idaho.

- Work involves:
- (1) 4,100 c.y. of all classes of excav. for structures;
 - (2) 6,200 c.y. of backfill about struc;
 - (3) 1,050 c.y. of concrete in struc;
 - (4) 2,400 sq. wds. of dry-rock pav;
 - (5) Placing 65,000 lbs. of reinforcement bars;
 - (6) Erecting 5.0 M. ft. B.M. of timber in structures;
 - (7) Laying 1,950 lf. of 15-inch to 36-inch diameter concrete pipe;
 - (8) Laying 40 lf. of 15-inch diam. corrugated metal pipe;
 - (9) Installing 7,000 lbs. of gates; &
 - (10) Installing 3,600 lbs. of misc. metalwork.

Plans and specifications may be obtained from the above office or from Denver, Colo.; no charge to prospective bidders; to others, \$2.50, not returnable. * 19

CONTRACT AWARDED

SAN CLEMENTE, Orange Co., Cal.—Bennett & Taylor, 598 San Fernando Road, Los Angeles, were awarded contract by Supply Depot, 11th Naval District, San Diego, at \$33,164.50, disc. 2% 10 days, 1% 20 days, for construction of gasoline fuel system at San Clemente Island, Schedule 1169. Other bids were:

Aqua Systems, Inc., New York City	\$35,235
Neptune Meter Co.	41,675
L. W. Phillips Co.	43,200

BIDS WANTED

PORTLAND, Ore.—Until Feb. 21, 10:30 A.M., bids will be received by the Bonneville Project, 811 N. E. Oregon St., Portland, for backbone transmission line from dam to Vancouver substation. Involves erection of 374 steel towers and footings, stringing of 219 miles of steel-reinforced aluminum cable.

Plans and specifications may be obtained from the above office. 19

20— MISC. SUPPLIES AND MATERIALS

CONTRACT AWARDED

LOS ANGELES, Calif.—Westinghouse Electric and Mfg. Co., at \$560,-856, awarded contract by Los Angeles Water & Power Commission, for auto transformers, Spec. 2743. 20

SONOMA COUNTY, Calif.—Until Feb. 15, 2:00 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for the construction of two reinforced concrete slab bridges and retaining walls and about 3.2 miles grading and surfacing with gravel base and armor coat between Northwood Park and Guerneville, Sonoma Co.

Work involves:
 (1) 171 sta. clear and grubbing;
 (2) 5,000 M. gals. water.
 (3) 97,410 c.y. roadway excav. without class;
 (4) 800,000 sta. yds. overhaul;

- (5) 4,920 c.y. struc. excav.;
- (6) 2,050 c.y. ditch and channel excavation;
- (7) 143 c.y. remove concrete;
- (8) 10,850 c.y. retaining wall backfill;
- (9) 171 sta. finish roadway;
- (10) 27,670 c.y. gravel base;
- (11) 152 tons liq. asph. SC-1A prime coat;
- (12) 304 tons asphaltic emulsion armor coat and seal coat;
- (13) 4,820 tons screenings armor coat and seal coat;
- (14) 2,400 sq. yds. scarifying and re-shaping exist. surface;
- (15) 116,250 lbs. bar reinf. steel;
- (16) 678 c.y. class A Portland cement concrete structures;
- (17) 17 c.y. class A Portland cement concrete curbs;
- (18) 134 M ft. board measure treated douglas fir timber;
- (19) 720 lf. solid timber railing;
- (20) 8,375 lf. furnish treated douglas fir piles including test piles;
- (21) 94 each drive treated douglas fir piles including test piles;
- (22) 5,460 lf. furnish steel bulkhead and anchor piles;
- (23) 135 each drive steel bulkhead piles;

- (24) 235 each drive steel anchor piles;
 - (25) 42,600 lbs. misc. steel;
 - (26) 20 c.v. sacked conc. riprap;
 - (27) 538 lf. 8-in. CMP;
 - (28) 2,982 lf. 18-in. CMP;
 - (29) 526 lf. 24-in. CMP;
 - (30) 188 lf. 30-in. CMP;
 - (31) 370 lf. 36-in. CMP;
 - (32) 90 lf. 36-in. CMP 10 gauge;
 - (33) 106 lf. 60-in. CMP 8 gauge;
 - (34) 1,048 lf. 8-in. perf. metal pipe;
 - (35) 160 c.y. rock filling material;
 - (36) 90 lf. remove pipe culverts;
 - (37) 28 each spillway assemblies;
 - (38) 1,560 lf. laminated guard rail;
 - (39) 4 each cast steel frames and covers for drop inlets;
 - (40) 72 each guide posts;
 - (41) 78 each culvert markers;
 - (42) 216 each monuments;
 - (43) 1 lot remove exist. structs.;
 - (44) 1 lot misc. bridge items.
- Plans and specifications may be obtained from the above office. * 21

BIDS WANTED

RIVERSIDE COUNTY, Calif.—Until February 16, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete rigid frame bridge at Station 142 plus 10 about 4 miles west of Corona (VIII-Riv-43-A), Riverside County.

Work involves:
 (1) 1,200 c.y. struc. excav.;
- (2) 134,000 lbs. bar. reinf. steel;
- (3) 750 c.y. Class A portland cement concrete;
- (4) 132 lf. solid timber railing;
- (5) 1 lot misc. items of work.

Plans and specifications may be obtained from the State Highway Engineer, Public Works Bldg., Sacramento. * 21

SAN LUIS OBISPO COUNTY, Cal.—Until February 15, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for the construction of a reinforced concrete girder bridge consisting of two 43-ft. 6-in. spans and two 36-ft. 6-in. spans on concrete piers and abutments with

timber pile foundations across Paso Robles Creek about six miles south of Paso Robles, San Luis Obispo County.

Work involves:
 (1) 1 only, remove existing bridge;
 (2) clear and grub;
- (3) 200 c.y. unclass. rdwy. excav.;
- (4) 1,500 c.y. struc. excav.;
- (5) 550 c.y. imported borrow;
- (6) 11 tons liquid asph. SC-2 road mix surf. treat.;
- (7) 900 sq. yds. prepare, mix and shape roadbed;
- (8) 350 c.y. salvage surf. detour;
- (9) 128,000 lbs. bar reinf. steel;
- (10) 138 c.y. Class A Portland cement conc. footing block;
- (11) 700 c.y. do for struc.;
- (12) 13 c.y. do, for railing;
- (13) 4,890 lf. furnish Douglas fir piles, including test piles;
- (14) 162 each drive do;
- (15) 5 c.y. broken concrete riprap;
- (16) 220 lf. moving and resetting guard rail;
- (17) 1 only detour bridge;
- (18) 350 lf. temporary guard rail;
- (19) 1 lot misc. items of work.

Plans and specifications may be obtained from the above office. 21

AWARD RECOMMENDED

TEHAMA COUNTY, Calif.—Joseph Shaw, 100 Broadway Terrace, Oakland, at \$110,000.31 recommended for award of contract by the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for 1,098 miles of grading and constructing bridges on portions of Sections A, B, C and E of Route 21, the Deer Creek Meadows National Forest Highway, Lassen National Forest, Tehama County. * 21

BIDS WANTED

WINSLow, Navajo Co., Arizona.—Until Feb. 7, 10:00 A. M. (postponed from Jan. 27), bids will be received by Arizona State Highway Commission, Phoenix, for construction of steel plate girder bridge on concrete pile foundations at the highway crossing of the Little Colorado River about 2 1/2 miles east of Winslow on Holbrook-Winslow Highway, FA 40-B (1) (1939-A) AFE 6605.

Work includes:
 (1) 880 c.y. struc. excav.;
- (2) 972 c.y. Class A concrete;
- (3) 655 c.y. Class D concrete;
- (4) 183,200 lbs. reinf. steel;
- (5) 746,600 lbs. struc. steel;
- (6) 6,830 lf. concrete piles;
- (7) 164 each driving piles;
- (8) 145 lf. concrete test piles;
- (9) 3 each driving test piles;
- (10) 8,420 lf. steel sheet piling;
- (11) 248 each driving steel sheet piling;
- (12) 1,300 c.y. rock backfill.

Certified or cashier's check for 5% must accompany bid. Howard S. Reed, State Highway Engineer. * 21

BLUE PRINTS AVAILABLE

SACRAMENTO, Cal.—State Highway Engineer, C. H. Purcell announces the cost of blue prints now available for work for which bids will be opened in Sacramento on Feb. 8, and in Los Angeles on Feb. 9, 1939.

Following is a list of blue prints and prices:
 I-HUB-2-B. Across Ohman Creek about 9 miles N. of Garberville. Bids to be opened in Sacramento. PLANS—No. of Sheets 12, cost \$1.80; CROSS-

SECTIONS—No. of Sheets 7, cost, \$0.70, total \$2.50.

VII-Yen-138-E. Across Cuyama River near Ozena. Bids to be opened in Los Angeles. PLANS—No. of Sheets 5, cost \$0.80; CROSS-SECTIONS—No. of Sheets, none, total \$0.80.

VII-L.A.-165-L.A. On North Figueroa Street, between Sunset Blvd. and Diamond Street. Bids to be opened in Los Angeles. PLANS—No. of Sheets 57, cost \$5.70; CROSS-SECTIONS—No. of Sheets 12, cost \$1.20, total \$6.90.

VIII-SB9-26-D and 9A. Bridges across Etiwanda Wash. Bids to be opened in Los Angeles. PLANS—No. of Sheets 19, cost \$2.40; CROSS-SECTIONS—No. of Sheets, none, total \$2.40.

X-Sta-4-A. Overhead structure over the tracks of the Southern Pacific Railway south of Turlock. Bids to be opened in Sacramento. PLANS—No. of Sheets 34, cost \$5.10; CROSS-SECTIONS—No. of Sheets 37, cost \$3.70, total \$8.80.

(Plans and special provisions for this project have been revised).

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P. O. Box 1499, Sacramento, Calif. * 21

BIDS WANTED

STATE OF WASHINGTON—As previously reported, until February 7, 10 A. M. bids will be received by the State of Washington, Director of Highways, 10 V. Murrow, Olympia, for construction as follows:

Spokane County: Paving with portland cement concrete and constructing a steel girder undercrossing on about 4 mile of Primary State Highway No. 3, Spangle North Undercrossing, Federal Aid Grade Crossing Project No. FAGH 201-E (1), in Spokane County, involving about 28,940 cubic yards of excavation, 4,680 cubic yards of selected roadway borrow, 5,021 square yards of cement concrete pavement, 11,680 pounds of steel reinforcing bars, 310 cubic yards of cast concrete, 368,000 pounds of structural steel, 7,600 pounds of cast steel 45,000 pounds of wrought iron, 2,920 lb. of pipe culverts and other items.

Snohomish County: Paving with portland cement concrete, constructing a reinforced concrete T-beam bridge and one reinforced concrete pier on about 1/2 mile of Primary State Highway No. 15, Everett Approach to Snohomish River Bridge, Federal Aid Project No. 189-H (1) in Snohomish county, involving about 5,560 c.y. of excavation, 1,738 sq. yds. of cement concrete pavement, 2,343 c.y. of concrete, 379,490 lbs. of steel reinforcing bars, 2,800 pounds of structural steel, 6,056 lb. of treated timber piling, 618 lb. of pipe culverts and other items.

Thurston County: Clearing, grading and surfacing of about 4.6 miles of Secondary State Highway No. 5-H, Rainier to Yelm, Federal Aid Secondary Project No. FAS 261-D (1) in Thurston County, involving about 28 acres of clearing, 137,550 cubic yards of excavation, 2,030 cubic yards of shoulder material, 6,310 cubic yards of selected roadway borrow, 9,410 cu. yds. of crushed stone surfacing, 3,650 lb. of cable guard rail design No. 6, 12 MEM. of treated timber and lumber, 2,290 lb. of pipe culverts and other items.

Plans and specifications may be obtained from the above office upon deposit of \$2.00. * 21

22— DREDGING HARBOR WORKS, EXCAVATION

BIDS WANTED

UMATILLA COUNTY, Ore.—Until Feb. 9, 3:00 P. M., bids will be received by the U. S. Engineer Office, Bonneville, Oregon, under Bid No. 694-39-89, for clearing the channel of Umatilla River between Yoakum and Nolin, Oregon.

Work involves:
(1) Clearing and grubbing;
(2) 15,000 c.y. excavation.

Plans and specifications may be obtained from the above office. * 22

BIDS WANTED

SACRAMENTO, Cal.—Until Feb. 10 3 P. M., bids will be received by the U. S. Engineer Office, 208 Post Office Bldg., Sacramento, under Bid No. 1105-39-152, for dredging approx. 2,465,700 cu. yd. of materials from the San Joaquin river deep water channel.

Plans and specifications may be obtainable from the above office. * 22

BIDS WANTED

OAKLAND, Calif.—Until Feb. 6, 4:30 P. M., bids will be received by the Oakland Port Commission, Foot of Grove Street, Oakland, for dry-docking the Port dredge.

Plans and specifications may be obtained from the above office. * 22

23— CANALS

CONTRACTS AWARDED

SUISUN, Solano Co., Calif.—A. J. Miller at \$725, awarded contract by the Suisun City Council, Suisun, for the construction of a levee around the area between the Southern Pacific right-of-way, Union Ave. and Common St. * 23

BIDS WANTED

BOISE PROJECT, Idaho.—Until Feb. 9, 10:00 A. M., bids will be received by the U. S. Bureau of Reclamation, Boise, Idaho, under Spec. No. 1180-D, for the construction of structures, Black Canyon canal laterals 248 to 262 and A-Line canal laterals 2.0 to 4.4, Payette division, Boise, Idaho. The work is located near New Plymouth, Idaho.

Work involves:
(1) 4,100 c.y. of all classes of excav. for structures;
(2) 5,500 c.y. of backfill about struc.;
(3) 1,050 c.y. yards of concrete in structures;
(4) 2,200 sq. yds. of dry-rock pav.;
(5) Placing 65,000 lbs. of reinforcement bars;
(6) Erecting 2.0 M. ft. B.M. of timber in structures;
(7) Laying 1,830 lb. of 15-inch to 36-inch diameter concrete pipe;
(8) Laying 70 lb. feet of 15-inch diameter corrugated metal pipe;
(9) Installing 5,500 lbs. of gates; &
(10) Installing 3,600 lbs. of misc. metalwork.

Plans and specifications may be obtained from the above office and from the office of the Bureau at Denver, Colo.; no charge to prospective bidders; to others, \$2.50, not returnable. * 24

25— MACHINERY AND EQUIPMENT

CONTRACTS AWARDED

LOS ANGELES, Calif.—Contracts for oil circuit breakers, Spec 2783, were awarded by Los Angeles Wa-

ter & Power Commission, as follows:
General Electric Co., Items
1 and 2 at \$442,850
Kelman Electric and Mfg.
Co., Item 3 at 80,414

January 26, 1939

CONTRACT AWARDED

LOS ANGELES, Cal.—Allis-Chalmers Mfg. Co., at \$432,253, awarded contract by Los Angeles Water and Power Commission, for transformers, Spec. 2800. * 25

BIDS WANTED

CHEHALIS, Lewis Co., Washington.—Until Feb. 20, 7:30 P. M., bids will be received by the Public Utility District 1, G. A. Peters, Secretary, Courthouse, Chehalis, Lewis County, under REA Project Washington 9027(G), Lewis, for furnishing diesel engines, electric equipment, power house building and accessories for generating station.

Complete Diesel-Electric generating station tested and ready for operation including 2 Diesel engine-generator units of about 37.5 true or 47 Kva capacity each with starters, radiators and accessories, switchboard, power house structure, foundations, fuel tank and complete installation of equipment.

Plans and specifications may be obtained from Consulting Engineers Baar and Cunningham, Spaulding Building, Portland, upon the deposit of \$5.00. * 25

BIDS WANTED

WASHINGTON, D. C.—Until Jan. 30, bids will be received by the Purchasing Officer, Interior Department, Washington, D. C., under Bid No. 4555, for two air operated concrete vibrators, for Boulder City.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

YAKIMA PROJECT.—Until Feb. 8, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 1178-D, for furnishing and delivering a radial-gate hoist to be used for the operation of a radial gate installed in the headworks of the Roza diversion dam, Roza division, Yakima Project, Washington; f.o.b. shipping point and/or Crownover, Washington. The radial-gate hoist will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others \$0.75, not returnable. * 25

LOW BIDDERS

CENTRAL VALLEY PROJECT.—General Electric Co., Schenectady, N. Y., at \$249,999, submitted low bid to the U. S. Bureau of Reclamation, Denver, under Spec. No. 816, for furnishing and installing four 75,000-kva. unit-power-factor, 138½-v. r.m.m., 13,800-volt, 3-phase, 60-cvcl, vertical-shaft, alternating-current generators for the Shasta power plant, Central Valley Project, California.

Westinghouse Electric and Mfg. Co., Denver, at \$255,500 submitted the second low bid. Allis-Chalmers Mfg. Co., Milwaukee, Wis., at \$254,043, submitted the third low bid.

Complete bids will be published shortly. * 25

BIDS OPENED

LOS ANGELES, Cal.—Bids for the rental of a 210-cf. air compressor complete, for use in Orange, Ventura and Los Angeles Counties, on intermittent work up to July 1, opened by the State Highway Department, Los Angeles, were:

Pneumatic Mchy. Co., Inc., 210-ft. Gardner-Denver, operating time \$7.24 hour; traveling time, \$3.75 hr. Alt., 210-ft. Gardner-Denver, 2-stage, operating, \$6.39 hr.; traveling, \$3.60 hr. Consolidated Crane Service: portable Ingersoll-Rand 220, \$5.90 per hr., portable Rix 210 ft., \$5.90 hr.; traveling, \$2.75.

Emasco Concrete Cutting Corp.: Gardner-Denver 210 or over, \$7.00 per hour; traveling, 1.75; 11 compressors are available at all times. 25

BIDS WANTED

YAKIMA PROJECT.—Until Feb. 9, 2:00 P. M., bids will be received by the U. S. Bureau of Reclamation, Denver, Colorado, under Spec. No. 1179-D, for furnishing and delivering seven revolving fish screens, complete and one additional roller chain for the headworks of the Yakima Ridge canal at the Roza diversion dam, Roza division, Yakima project; f.o.b. shipping point and/or Crownover, Washington.

All of the materials will be installed by the Government.

Plans and specifications may be obtained from the above office; no charge to prospective bidders; to others, \$1.00 not returnable. 25

BIDS WANTED

SEQUOIA NATIONAL PARK, Tulare Co., Calif.—Until Feb. 20, 2:00 P. M., bids will be received by Daniel J. Tobin, acting supt., Sequoia National Park for furnishing 8 units of materials for construction of incinerator, f.o.b. bidder's shipping point and/or Lemon Cove.

- Units are:
- (1) fire brick and fire clay;
 - (2) iron castings and grates;
 - (3) galv. steel pipe, fittings, gate valves, etc.
 - (4) oil burner and accessories;
 - (5) galv. steel fuel oil storage tank, 5x10 ft.
 - (6) redwood water storage tank, 6x6 ft.
 - (7) fabricated steel stack 45 ft. high, 20 in. I. D.;
 - (8) reinf. steel bars and black annealed wire. 25

BIDS WANTED

SAN FRANCISCO.—Until Jan. 31, 3 P. M., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. 868-39-188, for the rental of one road roller, with operator.

Plans and specifications may be obtained from the above office. 25

BIDS WANTED

PANAMA CANAL.—Until Feb. 6, 10:30 A. M., bids will be received by the General Purchasing Officer, Washington, D. C., under Sched. No. 3419, for furnishing material and equipment for rebuilding of steam plant at Gorgas Hospital, Ancon, C. Z. Equipment includes boiler room equipment, water heaters, condensate pump, steam traps, brass pipe fittings, and float valve; fob Cristobal and/or Balboa.

Plans and specifications may be obtained from the above office or from the Assistant Purchasing Agt., The Panama Canal, Fort Mason, San Francisco. 25

BIDS OPENED

ALAMEDA and Contra Costa Cos., Cal.—C. E. Huls, P. O. Box 963, Merced, at \$5.25, submitted low bid to State Division of Highways, John H. Skeggs, District Engineer, Room 211, State Building, San Francisco, for the rental of one not less than 4/10-cu. yd. capacity truck shovel equip-

ped with both shovel dipper and clamshell, to be used for approx. 420 hours work in Alameda and Contra Costa Counties.

Total bids were:

C. E. Huls, Merced.....	\$5.25
A. J. McCosker, Oakland.....	5.64
Rock & Gravel Trucking Co., Oakland.....	6.50
	25

COMPLETE BIDS

CENTRAL VALLEY PROJECT.—General Electric Co., Schenectady, N. Y., at \$2,490,999, submitted low bid to the U. S. Bureau of Reclamation, Denver, under Spec. No. 816, for furnishing and installing four 75,000-kva, unity-power-factor, 138½-r.p.m., 13,800-volt, 3-phase, 60-cycle vertical shaft, alternating-current generators for the Shasta power plant, Central Valley Project, Calif.

Complete bids follow:
General Electric Co., Schenectady, N. Y., \$2,490,999; net; fob Schenectady, N. Y.
Westinghouse Electric & Mfg. Co., Denver, \$2,555,000; net; fob East Pittsburgh, Pa.
Allis-Chalmers Mfg. Co., Milwaukee, Wis., \$2,584,043; net; fob Milwaukee. 25

BIDS OPENED

SAN MATEO and Santa Cruz Cos., Cal.—Following submitted bids to the State Division of Highways, John H. Skeggs, District Engineer, Room 211, State Building, San Francisco, for the rental of one ¾ to 1 c.y. capacity crawler type power shovel, and 4 pneumatic tired, 4-c.y. capacity dump trucks to be used for approximately 600 hours work in San Mateo and Santa Cruz Counties.

Bids were:
Manuel F. Cunha & Chas. W. Beuhler, Millbrae, \$5.25 (shovel); \$3.00 (power loading); \$3.00 (bunker loading).

L. C. Smith and K. I. Dowdy, San Mateo, \$6.64; \$2.82; \$2.42.
Al Clem and San Mateo Feed & Fuel Co., San Francisco, \$6.72; \$3.15; \$2.95.

Shovel & Truck Crane Service Co. and N. Giorgi, San Francisco, \$6.87; \$3.00; \$3.00.

J. P. Holland, Jr., San Francisco, \$6.90; \$2.99; \$2.69.

C. E. Huls, Merced, \$6.90; \$2.85; \$2.65.

Oranges Bros., Stockton, \$6.90; \$2.75; \$2.75.

Al Clem and H. Simon, \$6.94; \$2.98; \$2.85.

Rock & Gravel Trucking Co., Oakland, \$8.00; \$3.15; \$2.90.

Norman Mason, Fair Oaks, \$8.00; \$3.15; \$2.95.

Rosenberg & Simon, San Francisco \$8.50; \$3.15; \$3.00. 25

BIDS WANTED

SAUSALITO, Marin Co., Cal.—Until February 7, 8 P. M., bids will be received by the Sausalito City Council, W. Z. Tiffany, City Clerk, Sausalito, for police car and certain equipment. Allowance is to be made on existing police car and equipment.

Plans and specifications may be obtained from the above office. 25

BIDS WANTED

PORTLAND, Ore.—Until Feb. 18, 10:30 A. M., bids will be received by the Bonneville Project, 811 NE Oregon St., Portland, under Invt. 138 for three 4,000-kva single phase 60-cycle transformers, oil insulated, self cooled, outdoor type, with inert gas equipment and tap-changing devices and accessories; fob Eugene.

Plans and specifications may be obtained from the above office.

CONTRACT AWARDED

COLUMBIA BASIN PROJECT.—Enterprise Foundry Corp., 2902 19th St., San Francisco, at \$11,070, awarded contract by the U. S. Bureau of Reclamation, under Spec. No. 1163-D, for furnishing and delivering eighteen cast-steel, draft-tube pier noses for the Grand Coulee power plant, Columbia Basin Project, Washington; f.o.b. shipping point and/or Odair, Wash. The pier noses will be installed by the Government. 25

BIDS WANTED

LOS ANGELES, Calif.—Until Feb 14, 2 P. M., bids will be received by the Los Angeles Water and Power Purchasing Agent for:

- (1) eight 287,000-volt, 1200-amp, 3-pole, outdoor type, motor gang operated, disconnecting switches of the vertical break type for horizontal mounting:
 - (a) fob cars or truck, bidder's factory;
 - (b) 4 switches fob cars Silver Lake calif. and 4 switches fob cars or trucks, Victorville;
 Option to purchase a spare unit as per (1).
- (2) one 287,000-volt, 600-amp, outdoor type, 3-pole, manually gang operated grounding switch, fob 5740 Whittall Highway.
- (3) one group, 132,000-volt, 1200-amp, disconnecting switches, fob 5740 Whittall Highway;
- (4) 3 groups of 132,000-volt, 600-amp, outdoor type, disconnecting switches, fob 5740 Whittall Highway. 25

BIDS WANTED

SAN FRANCISCO.—Until Feb. 3, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, under Bid No. 2152 for furnishing passenger type motor buses.

Plans and specifications may be obtained from the above office. 25

BIDS OPENED

BONNEVILLE, Ore.—Following submitted bids to J. D. Ross, Administrator, The Bonneville Project, 1300 N.E. Union, Portland, under Bid No. 119, for insulator units, f.o.b. North Vancouver or f.o.b. shipping point.

Bids were:
Item 1, 269 insulators, f.o.b. Vancouver, identical bids of \$16,462.80 submitted by Ohio Brass Co., Royal Electric Manufacturing Co., Graybar Electric Co., Westinghouse Electric and Manufacturing Co., General Electric Co., Lapp Insulator Co., General Electric Supply Corp., Line Material Co., Jobbers Supply Co., Jeffery-DeWitt Insulator Co. bid \$17,496, f.o.b. Vancouver.

Item 1, 269 insulators, f.o.b. shipping point: Identical bids of \$15,979 submitted by General Electric Co., General Electric Supply Corp., Line Material Co.

Item 2, 45 insulators, f.o.b. Vancouver. Identical bids of \$4590 submitted by Ohio Brass Co., Royal Electric Manufacturing Co., Graybar Electric Co., Westinghouse Electric and Manufacturing Co.; General Electric Co.; Lapp Insulator Co.; General Electric Supply Corp.; Line Material Co.; Jobbers Supply Co., Jeffery-DeWitt Insulator Co. bid \$4878 f.o.b. Vancouver.

Item 2, 45 insulators, f.o.b. shipping point. Identical bids of \$4455 submitted by General Electric Co.; General Electric Supply Corp. and Line Material Co. 25

CONTRACT AWARDED

OAKLAND, Calif.—A. J. McCosker, 5509 Broadway, Oakland, at \$3,600,

awarded contract by the East Bay Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. No. 1123, for the rental of truck for 1939. * 25

BIDS REJECTED

OAKLAND, Calif.—The East Bay Utility District, John Kimball, Secretary, 512 16th St., Oakland, rejected all bids for one special motor truck chassis, under Pro. No. 1121. * 25

BIDS OPENED

COLUMBIA BASIN PROJECT.—Following submitted bids to the U. S. Bureau of Reclamation, Denver, under Spec. No. 1167-D, for furnishing and delivering misc. metalwork for fish traps for the control of migratory fish at the Rock Island Dam, Columbia Basin Proj., Washington: fob shipping point and/or railroad destination. The materials will be installed by the Government; Hansell-Elcock Co., Chicago, \$7,528; ½% 30 days; fob Chicago.

City Iron Works, Portland, \$5,613; net; fob Portland.

Lincoln Steel Works, Lincoln, Nebr., \$5,612; net; fob Lincoln.

John W. Beam, Denver, \$3,850; ¼% 30 days; fob Peotone, Ill.

The Stearns-Roger Mfg. Co., Denver, \$4,920; net; fob Denver.

Schmitt Steel Co., Portland, \$5,750.50 ¼% 30 days; fob destination.

Steel Const. Co., Portland, \$5,698; ¼% 30 days; fob destination.

Lakeside Bridge & Steel Co., Milwaukee, Wis., \$5,146; net; fob Milwaukee.

Independent Iron Works, Ltd., Oakland, \$11,500; ½% 30 days; fob Oakland.

Sumner Iron Works, Everett, Wash., \$6,609; ¼% 30 days; fob Everett.

Union Iron Works, Spokane, Wash., \$5,850; net; fob Spokane.

Berkeley Steel Const. Co., Inc., Berkeley, Calif., \$5,250; ½% 30 days; fob Berkeley.

Sylvester Sternberg, Inc., Brooklyn, N. Y., \$5,609; ½% 30 days; fob Brooklyn.

Milwaukee Bridge Co., Milwaukee, \$6,224; ½% 30 days; fob Milwaukee.

Spuck Iron & Foundry Co., St. Louis, \$4,800; net; fob St. Louis.

Smith Corp. d/b/a General Iron and Steel Works, Portland, \$6,070; net; fob Portland. * 25

BIDS OPENED

LOS ANGELES, Calif.—Bids for one 60,000 kva, 13,800 volt, 60 cycle, 3 phase, hydrogen cooled, synchronous condenser, complete, Spec. 2844, were opened by D. P. Nicklin, Purchasing Agent, Los Angeles Water and Power Department. Bids were taken as follows:

(a) f.o.b. cars bidder's shipping pt.; (b) f.o.b. cars So. Pac. siding, No. Hollywood;

(c) optional, f.o.b. cars bidder's shipping point with full freight allowed to Los Angeles.

Deduction or addition for furnishing vacuum tube type exciter and vacuum tube type voltage regulator, suitable for use with condenser in lieu of motor generator exciter set and voltage regulator specified.

Services of erecting engineer, per day.

The bids were: General Elec. Co.: (a) \$294,529, (b) \$304,889, (c) \$304,889. Deductions or additions: (a) \$6644 plus \$9116, (b) \$6644 plus \$9116, (c) \$6644 plus \$9116 (10% excess tube exciters). Deduct \$1304 for omission of motor generator spare parts. Deduct \$4948 for omission of spare armature parts. Deduct \$1800 for

omission of tests. Erecting engineer, \$25 per day. Deliv. 240 days. Est. shipping weight complete, 582,000 lbs.

Westinghouse Elec. & Mfg. Co.: (a) \$300,100, (b) \$313,500, (c) \$313,500. No deductions or additions. Erecting engineer, \$30. Deliv. 240 days. Weight, 682,000 lbs.

Allis-Chambers Mfg. Co., Milwaukee, Wis.: (a) \$310,622, (b) \$321,842, (c) \$321,842. Additions: (a) add \$20,000. Erecting engineer, \$25. Deliv. 330 days. Weight, 650,000 lbs. * 25

CONTRACT AWARDED

COLUMBIA BASIN PROJECT.—Kenworth Motor Truck Corp., Seattle, Wash., at \$59,041.22, awarded contract by the U. S. Bureau of Reclamation, under Spec. No. 1158-D, for furnishing and delivering eight tank trucks for transporting fish for the control of migratory fish, Columbia Basin Project, Washington; f.o.b. shipping point and/or Wenatchee, Washington. * 25

BIDS OPENED

OWYHEE PROJECT, Ore.-Idaho.—Following submitted bids to the U. S. Bureau of Reclamation, Denver, under Spec. No. 1165-D, for furnishing and delivering a plate-steel surge tank and discharge-pipe liner for the discharge pipe at the Ontario-Nyssa pumping plant, Owyhee project, Oregon-Idaho; fob shipping point and/or Dunaway, Oregon. All of the materials will be installed by the Government. Bids were:

The Stearns-Roger Mfg. Co., Denver, \$3,724; net; fob Denver.

Lakeside Bridge & Steel Co., Milwaukee, Wis., \$3,200; net; fob Milwaukee.

Graver Tank & Mfg. Co., Inc., E. Chicago, Ind., \$3,735; net; fob East Chicago.

Lancaster Iron Works, Lancaster, Pa., \$4,483.90; ½% of 1% 30 days; net; fob Lancaster.

Beall Pipe & Tank Corp., Portland, \$4,165; net; fob Portland.

Lacy Mfg. Co., Los Angeles, \$3,760; net; fob Los Angeles.

Smith Corp. d/b/a General Iron & Steel Works, Portland, \$4,095; net; fob Portland.

Brown Sheet Iron and Steel Co., St. Paul, \$2,990; 2% 30 da.; fob Minnesota Transfer, Minn.

Boiler Tank & Pipe Co., Oakland, \$3,575; net; fob Oakland.

Western Pipe & Steel Co. of Calif., San Francisco, \$3,762; net; fob South San Francisco.

Steel Construction Co., Portland, \$4,262; ½% of 1% 30 days; fob Dunaway, Ore.

Pittsburgh-Des Moines Steel Co., Des Moines, Ia., \$4,321; net; fob Des Moines.

Consolidated Steel Corp., Ltd., Los Angeles, \$3,518; net; fob Los Angeles.

Chicago Bridge & Iron Co., Chicago, \$4,300; net; fob Washington Heights, Ill.

Union Iron Works, Spokane, Wash., \$4,287; net; fob Spokane.
